Supper and Entertainment

The anniversary supper and entertainment in Knox Presbyterian church last Friday night was a huge success. The attendance was large and the delicious supper served by the ladies of the church put everybody in good humor for the excellent program which followed. Rev. Dr. Howard was the genial chairman and introduced the following artists who provided the evenings entertainment:—Mr. Eugene Beaupre, entertainer; Master Gordon Smardon, boy vocalist; Mr. Will Young, violinist; all of whom presented pleasing numbers and were heartily encored. A feature of the evening was a trip to Bermuda, illustrated with lantern slides, by Rev. W. A. Hunnisett, which proved both instructive and interesting and was much enjoyed by the large gathering present. The national anthem, and benediction by the pastor, brought a pleasant social evening to a close.

Warning to Hunters

The recent order of the Game Department, granting a license for two days to shoot cock pheasants in Halton County has roused a strong protest by farmers and good citizens generally in this part of the county. Quite a number of them have taken considerable trouble the past two or three years raising the pheasants and trying to get them established in this section and they naturally resent the idea of having them shot by a band of gun toters. In this connection it may be pointed out that a license to shoot does not mean a license to trespass on private property, and we look for a big crop of court cases for trespassing at the next court, for many of the farmers are taking the precaution to post up notices, and declare they intend to protect the birds and their property generally by enforcing the law against trespassers.

TERRA COTTA

Mrs. R. Starret of the 10th Line is erecting an up-to-date poultry house. Mr. C. Ackinson has the contract and is making a splendid job.

Mrs. E. Elvin or Neepawa, Manitoba is renewing old Terra Cotta friends at present.

We are sorry to learn that Mr. Albert Lyons of Brampton is in the Peel Memorial Hospital in a critical condition, having been badly crushed while helping to dehorn an infuriated animal. Mr. Lyons is well-known here having been a resident of the 4th line all his life, prior to his recent removal to Brampton. His many friends in this vicinity sincerely hope soon to hear of his complete recovery.

We are pleased to learn that Mr. W. A. Lyons who had his knee fractured some time ago is now on the mend.

Mr. Rogers of Toronto has a large order for stone at Hamilton and is busy shipping by truck from his quarrie here on the 5th line.

A number of our citizens are working in the Inglewood quarries at present, which we are pleased to learn is booming again.

All our local wood dealers report trade quite brisk at present. Good times seems to be hovering just around the corner.

Fall plowing is now the general order of the day.

Mr. W. J. Rutledge reports having received a large order for gravel last week from the Toronto township good roads system.

A number of our young people attended the social dance at Bellfountain last week. The Terra Cotta Orchestra very ably furnished music for the occasion. They all report a swell time.

Mr. George Stringer reports having a young pullet which brought out nine healthy young chickens last week Who can beat that. Must be a tropical climate.

SUBSCRIPTIONS TO LOAN

The Canadian Government has never floated an issue which has not been successfully absorbed. Recent business history has brought us back to the pre-war position in which the average investor demands primarily safety in his commitments. From the standpoint of the national credit it is of importance that the forthcoming loan be rapidly absorbed by Canadians. Any examination of the financial situation, fortunately, indicates that the issue will quickly be over-subscribed. The safety both of principle and interest are alone sufficient to warrant this belief. The desire of the investor for safety first today is another reason why next week's issue should maintain the unbroken record of successful loan flotations by the Dominion.

Among investments available to the Canadian investor, the security of the bonds of the Dominion Government is unique. It is based on the taxing power of the state on the entire property in the Dominion. Behind the bonds is the great wealth, both natural and man-made, of the Dominion.

The security is thus fixed. It is not dependent on the success of any one industry or institution, the price of any commodity, or the profits of one process. It is backed by the sum total of all the assets in the country; individual businesses may come and go; property values may fluctuate or become completely frozen; but the national credit remains.

Government bonds have been available in good and in bad tides and the capital invested in them has remained intact. Recent financial history confirms the view that a definite proportion of all investment holdings should consist of government securities which in good times and bad provide a steady income and are always marketable without loss to meet emergencies.
