I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address Dr. H. G. ROOT, 183 Pearl St., New York.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease to any sufferer. Give express and P. O. address.

SESSIONS OF THE SYNOD.

They Begin in St. George's Cathedral To-morrow—List of Delegates—A Full Representation.

The twenty-third session of the Synod of Ontario commences in St. George's Hall on Tuesday morning at 8 o'clock. At 10.30 o'clock there will be a celebration of the Holy Communion, and a sermon by Rev. J. W. Forsyth, M.A., Incumbent of Pembroke. At 2.30 o'clock the Lay Secretary and a committee of two, to be appointed by the Bishop, will attend at the Synod Hall to receive the certificates of the lay members, and at 3 o'clock the Synod will meet for the despatch of business.

Among the canons to be confirmed are (1) with reference to the Divinity Student Fund, and (2) Widows' and Orphans' Fund; (3) for the better enforcement of discipline in the church and for the administration of the Diocesan Court; (4) with reference to the Surplus Commutation Fund; (5) with reference to the admission of females to vote for lay representatives; (6) respecting the Mission Fund.

The motions standing over are numerous. There is the motion of Rev. Mr. Harrington, in regard to canons XIV. and XXX.; the motions of Mr. Walkem anent the auditing of accounts; the motion of Rev. Mr. Jarvis regarding the printing of the canons of the church; the motion of the Archdeacon of Kingston regarding the Clergy Superannuation Fund; the motion of Mr. Walkem on the subject of appointments, with the view of giving the laity some voice in such appointments and the removal of the clergy; the motion of Rural Dean Carey, appointing a standing committee on printing; and the motion of Rural Dean Lewis, thus: "That in the event of a vacancy in the Rector of St. George's, Kingston, the appointment shall be vested in the Synod of the Diocese, and it shall appoint thereto the Bishop of the Diocese, provided he is willing to contribute $500 for the support of a competent Curate for the same, and hand over to trustees appointed by the Synod Episcopal Fund securities sufficient to yield a yearly interest of $2,000 for the support of a Bishop who shall reside in Ottawa."

The notices of motion have reference to the assessment for episcopal purposes, the representation of the diocese on the Board of Missions, and the adoption of a canon on committee meetings. The clergy number over an hundred, and the lay delegates considerably over two hundred, and of these a particularly full representation is expected.

A meeting of the Mission Board will be held on Monday evening for the submission of the annual reports, and a meeting of the members of the church, to deliberate on the best means of promoting the interests of the church, will be held on Wednesday, June 10th.

Appended are the names of the clerical members of the Anglican Synod of Ontario, meeting on Tuesday, and the names of those with whom they stay while here:

I have made an analysis of samples of the Emulsion of Cod Liver Oil, prepared by the Puttner Emulsion Co., and they have explained to me the details of their process. The ingredients used, and the mechanical processes to which they are successively subjected, enable this Company to prepare a permanent Emulsion without the use of acids or alkalies. This preparation has been known to me for many years, and when carefully prepared is certainly a great improvement upon the Crude Cod Liver Oil, not only being milder in flavor, but having the more substantial advantage of being in the best form for digestion or assimilation.

About Walking.

Every healthy person, man or woman, should be a good walker, able at any time to walk six to twelve miles a day at least, and double that when gradually brought up to it. The points to be attended to are to see that the walk be brisk and vigorous, not of a loitering or dangling kind, that there be some object in the walk besides it being a routine constitutional (i. e., not like the staid promenade of the orthodox ladies' school), and, if possible, in pleasant company; that there be no tight clothing, whether for the feet or the body, which will constrain or impede the natural movements of the limbs and trunk; and that the walk be taken as far as possible in the fresh country air. In regard to the latter particular, although towns are increasing so rapidly as to make it almost a journey to get out of them on foot, still we have so many suburban tramways and railway lines that in a few minutes we can find ourselves in the country, where the air is fresh and pure. Whenever an opportunity presents itself for a little climbing in the course of a walk, it should be taken advantage of. We gain variety of muscular action, as well as increase in exertion, and we get into regions of purer air and fresher breeze at the same time. What may be considered as the weak point in walking as a mode of exercise is the comparatively small play which it gives to the muscles of the shoulders and chest, while it is still less for those of the arm. This should be compensated for by the use of light dumb-bells or Indian clubs, or some form of exercise which brings in play the arms and shoulders. One of the forms of exercise which requires the action of the arms and shoulders, as well as those of the trunk and legs, is swimming. This, however, for many reasons, cannot be used as a means of exercise except by a few, and at certain seasons of the year, but where possible it should always be practiced. The great pity is that boys and girls do not learn it while at school. Every large town should be well supplied with swimming baths, and if it could be made compulsory for scholars at a certain age, say 12, to learn to swim, it would be a great advantage to all, and also be the means of saving many lives.—*Herald of Health.*

Adelina Patti's Mother.

Adelina Patti was born in Spain from Italian parents. Her mother, a distinguished prima donna in her time, of whom I am sorry to say I know nothing, told me once, alluding to her great career, "Son' io la Barili," probably expecting me to be struck dumb with awe and amazement at the mention of that great name. But, as I said before, I am sorry to say I never had heard the name before, so that when she said, "I am la Barili," I pretended to be very much impressed, but in reality she might have said, "I am Ching-Chang-Hu," for all that I knew of la Barili—it would have been the same to me. Anyway, song was the cradle of little Adelina. She was barely 3 to 4 years old when her mother heard her running up and down stairs humming, whistling, singing the airs that her mother sang, and continually exerting her voice and her memory musically.—*Temple Bar.*

A North Carolina woman, who discovered that a heifer which had been stolen from her was in the possession of a neighbor, went to a magistrate for the purpose of instituting legal proceedings for the recovery of her property, but the magistrate told her that the cost of lawful proceedings would be considerable, and, as the heifer had been taken from her illegally, she had better raise a sufficient crowd to go and take her back by force, and thus save expense.

SKILLFUL SURGICAL OPERATION.

The American Ambassador at Vienna, Mr. Kasson, has lately forwarded to his Government an interesting account of a remarkable surgical operation lately performed by Professor Billroth, of Vienna, which, wonderful to tell, consisted in the removal of a portion of the human stomach, involving nearly one-third of the organ—and, strange to say, the patient recovered—the only successful operation of the kind ever performed. The disease for which this operation was performed was cancer of the stomach, attended with the following symptoms: The appetite is quite poor. There is a peculiar indiscribable distress in the stomach, a feeling that has been described as a faint "all gone" sensation; a sticky slime collects about the teeth, especially in the morning, accompanied by an unpleasant taste. Food fails to satisfy this peculiar faint sensation; but, on the contrary, it appears to aggravate the feeling. The eyes are sunken, tinged with yellow; the hands and feet become cold and sticky—a cold perspiration. The sufferers feel tired all the time, and sleep does not seem to give rest. After a time the patient becomes nervous and irritable, gloomy, his mind filled with evil forebodings. When rising suddenly from a recumbent position there is a dizziness, a whistling sensation, and he is obliged to grasp something firm to keep from falling. The bowels costive, the skin dry and hot at times; the blood becoming thick and stagnant, and does not circulate properly. After a time the patient spits up food soon after eating, sometimes in a sour and fermented condition, sometimes sweetish to the taste. Oftentimes there is a palpitation of the heart, and the patient fears he may have heart disease. Towards the last the patient is unable to retain any food whatever, as the opening in the intestines becomes close, or nearly so. Although this disease is indeed alarming, sufferers with the above-named symptoms should not feel nervous, for nine hundred and ninety-nine cases out of a thousand they have no cancer, but simply dyspepsia, a disease easily removed if treated in a proper manner. The safest and best remedy for the disease is Seigel's Curative Syrup, a vegetable preparation sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. J. White (Limited), 17, Farringdon-road, London, E.C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

St. Mary-street, Peterborough, November 29th, 1883.

Sir, It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia, but after a few doses of the Syrup I found relief, and after taking two bottles of it I feel quite cured.

I am, Sir, yours truly,
Mr. A. J. White. William Brent.

September 8th, 1883.

Dear Sir, I find the sale of Seigel's Syrup to be steadily increasing. All who have tried it speak very highly of its medicinal virtues; one customer describes it as a "God send to dyspeptic people." I always recommend it with confidence.

Faithfully yours,

Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure costiveness.

Preston, Sept. 21st 1883.

My Dear Sir, Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible. The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it."

The sale keeps up wonderfully, in fact one would fancy almost that the people were beginning to breakfast, dine and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great.

I am, dear Sir, yours faithfully,
(Signed) W. Bowker.
To A. J. White, Esq.

Spanish Town, Jamaica, West Indies, Oct. 24, '82.

Dear Sir, I write to inform you that I have derived great benefit from "Seigel's Syrup." For some years I have suffered from liver complaint, with the many and varied concomitant evils, so that my life was a perpetual misery. Twelve months ago I was induced to try Seigel's Syrup, and although rather skeptical, having tried so many reputed and infallible remedies, I determined to give it at least a fair trial. In two or three days I felt considerably better, and now, at the end of twelve months (having continued taking it) I am glad to say that I am a different being altogether. It is said of certain poets that they "come as a boon and a blessing" to men, and I have no reason to doubt the truthfulness of the statement. I can truly say, however, that Seigel's Syrup has come as a "boon and a blessing" to me. I have recommended it to several fellow sufferers from this distressing complaint, and their testimony is quite in accordance with my own. Gratitude for the benefit I have derived from the excellent preparation prompts me to furnish you with this unsolicited testimonial.

I am, dear Sir,
Yours ever gratefully,
(Signed) Carey B. Berry,

Mr. A. J. White, Dear Sir,—I was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health.

I remain, yours respectfully,

James Brayley, Hamilton, says "I read the testimonials for McGregor's Speedy Cure and found that I had not to go to New York, Philadelpeia, Louisiana or Texas to find living witnesses of its value; we have plenty of persons right here to prove its merits. I got a bottle and it helped me right away. I was as bad with Bilious Fever and Indigestion as I think any one could be. I have taken three bottles and am nearly well, and can eat any kind of food without it hurting me. I may say that I am better then ever I expected to be. Free trial bottles at A.P. Chown sole agent.
