DUNBAR & CO.,

Dr. J. Collis Browne's Chlorodyne

THE ORIGINAL AND ONLY GENUINE.

ADVICE TO INVALIDS—If you wish to obtain quiet, refreshing sleep, free from headache, and from pain and anguish, to calm and assuage the many mental ills of physically frail humanity, to quicken the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne, Late Army Medical Staff, to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis and Asthma.

CHLORODYNE adds life & charm, to Diarrhœa, and is the only specific in Cholera.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Sproull & Co., Pharmaceutical Chemists, Medical Hall, Sligo, January 4, 1869. Dr. J. T. Davenport, Esq., 33 Great Russell Street, Bloomsbury, London. Dear Sir—We enclose this opportunity of communicating you upon the extraordinary reputation Dr. Collis Browne's Chlorodyne has obtained in this country. We speak too boldly, we only in Ireland, but all over the Island. As a remedy of general utility we do not hesitate to pronounce it the best in the country, and we shall be glad to hear of its being in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and keeping from their sale, we have had their exposure there will be but a temporary. We could multiply testimony to the efficacy of the extraordinary offspring of Dr. Collis Browne's Chlorodyne in Diarrhœa, and Dysentery, Spasms, Cholera, Sunstroke, the Vomiting of Pregnancy, and in a word, where time has sanctioned under our personal observation during many years. In Cholera, Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its astonishing controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that in its facilitate the best, and also from a sense of duty we owe to the profession and to the public, as we are of the opinion that the substitution of any other than Collis Browne's is a culpable MEANS OF PAYING ON THE PART OF THE CHEMIST to THE PATENT MEDICINE. We are, Sir, faithfully yours, Sproull & Co. Members of the Pharmaceutical Society of Great Britain. His Excellency the Viceroy's Cheroo.

CAUTION.—The Chancellor the Hon. Wm. Draper stated that that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that many of the imitations contained a dangerous drug, which, he regretted to say, had in one instance led to—See Times, July 13, 1864.
