Two Fire Calls

On Thursday morning about 3 a.m. the firemen were called to the Canadian National Railway yard where a box car was on fire. It had been part of a train and caught fire between Acton and Georgetown. The flames were soon extinguished, but the contents of the car were badly damaged. On Monday at 12 noon a call was turned in for a grass fire on the east side of town. It was extinguished before any damage was done.

Band Concert

There was a large attendance at the open air concert given by the Lorne Rifles (Scottish) Band in the Park last Sunday evening. A very excellent program was rendered to the delight of all. Wonder if we all appreciate the fact that through the efforts of Bandmaster Perrott and the members themselves, Georgetown has one of the best bands in the province. The boys are now practising for the competition at Toronto Exhibition next week and they deserve both our moral and financial support in their effort to again bring honors to Georgetown.

Bicycle is a Vehicle

A Windsor magistrate has ruled officially that a bicycle is a "vehicle." Highway regulations classify bicycles as vehicles, but many bicycle riders appear to think that they are privileged to ride as they please on streets and highways. Now that the courts have decided that a bicycle is a "vehicle," bicycles would do well to remember that they are subject to the usual highway regulations and quite likely to be fined or otherwise punished if brought into court for failing to observe these regulations.

GENERAL NEWS

While potatoes are a scarce commodity no matter what their size, it is against the law to offer for sale potatoes measuring less than one inch and a half through, according to regulations set down by the Government Foods Department.

A new menace to agriculture has added itself to the dry weather in tormenting gardeners of the Huttonville district, a garden farmer reported on Saturday. He had planted a small patch of tomatoes for the use of his own family. He could never find any ripe tomatoes on the plants and even green tomatoes disappeared. A watch was kept, and it was found that groundhogs, famished by the lack of green forage, were stealing the vegetables.

Considerable improvement was shown in the Canadian employment situation on July first compared with the previous month and the corresponding month last year, according to a report issued by the Dominion Bureau of Statistics. Almost 35,000 additional persons obtained employment during the month of June first and July first was the largest in the past fifteen years.

Seventy-five yards of rail fence was burned and small trees destroyed in a fire which broke out in the bush on the farm of Stanley Inglehart, near Palermo, on Monday afternoon. The Bronte fire department was quickly on the scene and, although there was no water, succeeded in beating out the flames. It was thought that the fire was caused by some Palermo lads, who were bouncing in a quiet smoke in the bush.

HALTON JUNIORS ACTIVE IN CLUB WORK

Halton Junior Farmers and Junior Homemakers have established a new record for 1936, with 185 participating in the various club projects. Over 100 young ladies enrolled in the Supper and Clothing Club projects with 49 completing in all details and exhibiting at the Achievement Day held in June. The boys this year are carrying on projects with calves, foals and grain. These activities are sponsored by the Acton, Georgetown and Milton Agricultural Societies. The directorate of the Acton Fair Board is most enthusiastic about the prospects of their Boys' Foal Club, which is a new undertaking for Halton. At Georgetown where they established a record last year for the best grain show in Halton, they are again sponsoring a Boys' Grain Club. Calf club work which has been a feature in Halton for several years is this year being sponsored by the Halton Agricultural Society. Forty-four boys this year will exhibit Holstein, Jersey and Shorthorn calves—the latter, another new feature for Halton. The Milton Society is also sponsoring a boys grain club. Judging by the interest taken in previous years, we anticipate a large ringside of interested spectators will follow the work of the boys at all three points.

The Most Important Letter

Someone has advanced the opinion that the letter "e" is the most unfortunate letter in the English alphabet, because it is always out of cash, forever in debt, never out of danger and in hell all the time. For some reason he overlooked the fortunates of the letter, and we call his attention to the fact "e" is never in war and always in peace. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no meat, no life and no heaven. It is the centre of honesty, makes love perfect, and without it there would be no editors, devils or news.

FATAL ACCIDENT AT PROVINCIAL MILLS

ANGUS DUNCAN PASSED AWAY AT GUELPH HOSPITAL TUESDAY EVENING

When adjusting a belt at the Provincial Paper Mills, Ltd., Georgetown, shortly after commencing work on Monday morning, Angus Duncan was so seriously injured that he passed away at Guelph General Hospital on Tuesday evening.

Mr. Duncan was engineer at the mills and had been in the employ of the firm for twenty-one years. He was an enthusiastic sportsman and in his younger days a good lacrosse and hockey player. He was the popular manager of Georgetown Hockey teams and active in other athletic organizations. He was an honorable man and good citizen, whose place in the community will be hard to fill.

His untimely death is deeply regretted by a host of friends and the sympathy of the entire community is extended to Mrs. Duncan and her two sons, Jack and Ross, in their very sad bereavement.

A Canadian Comes Home to Attend the Vimy Ceremony

We take the following from the English newspaper Northampton and County Independent of July 24th regarding our esteemed townsman and Councillor Will F. Smith:

"Mr. William F. Smith, whose home is at Georgetown, Ontario, Canada, and who is now on a visit to Northampton, is one of the 6,000 pilgrims from Canada who will be present at the unveiling of the Canadian National War Memorial at Vimy Ridge on Sunday next.

"Before his departure for Canada in 1911, Mr. Smith was employed at a number of shoe factories in Northampton, including Messrs. Manfield and Sons and Messrs. Crockett and Jones. He used to live in Poole Street.

"At present he is the owner of a retail shoe business in Georgetown.

"Mr. Smith expects to be in England for about six weeks and is staying with his brother, Mr. A. C. Smith, of Randall Road, Northampton, a well-known member of the Old Contemptibles' Association.

During the Great War Mr. Smith served with the Canadian Forces. He took part in the first battle of the Somme, was wounded and invalided home to Canada in 1917. He has always taken a great interest, since his discharge, in the work of the Ex-Service men of the Dominions, and is an active member of the Georgetown branch of the British Legion.

"Incidentally, one of the problems facing the Canadian Legion is that of the prematurely aged ex-Service man of the Great War, a matter in which Northampton British Legion is taking such a great interest.

"In Canada this type of ex-Service man is referred to as the "burnt out" veteran of the Great War.

"One of the first visits in Northampton paid by Mr. Smith was to the war memorial, and he was surprised to know that the names of Northampton's dead and missing of the Great War have never been permanently recorded.

"Each week Mr. Smith is forwarded a copy of the "Independent" by his brother, and—he states that he has found a large number of Northamptonians now living in various parts of Canada who are interested in newspaper and eagerly look forward to seeing a copy each week.

"One of the first impressions Mr. Smith gained of the town was the vast transformations that have taken place.

"Lots of the old landmarks he knew have completely disappeared.

"After his return from the Vimy Ridge ceremony, Mr. Smith intends to return to Northampton.

"In the meantime he has a host of old friends to meet and naturally wants to see as much of the Old Country as his time will permit."

From the issue of July 31st, after Mr. Smith's return from Vimy, we also copy the following:—

"I am tired out, but I have brought back memories to last a lifetime," was how Mr. William F. Smith, of Georgetown, Ontario, Canada, and a former Northamptonian, summarized his impressions of his journey to attend the unveiling of the Vimy memorial on Sunday last.

Way back in 1916 Mr. Smith was invalided home from France from service with the Canadian Forces. Last week-end he renewed his acquaintance with the battlefield of Vimy as one of no fewer than 6,000 Canadian pilgrims.

"Only a few hours after he had returned to Northampton, Mr. Smith was interviewed by an "Independent" representative.

"At the home of his brother, Mr. A.C. Smith in Randall Road, he told of his experiences on the memorable trip.

"There must have been half of France there," he said, "or at least, it seemed to; even so, I was privileged to stand in the front rank with the Old Contemptibles and was only a couple of feet from the King when he was speaking to Major-General Ross, the Dominion President of the British Legion."

"What impressed me most," he continued, "was the setting. The memorial can be seen for many miles around, and there are views of two or three industrial centres in the distance.

"The battlefield to-day," he added, "is a picture of peaceful serenity—how different from my memories of twenty years ago!"

"He described in detail the most impressive ceremony and made special reference to the flights of British and French planes which passed over during the proceedings—"they took me completely by surprise," he added.

"One thing which surprised Mr. Smith was the ease with which the King was able to get away from his guard.

"The police were quite worried about it," he said.

"Mr. Smith made his headquarters at Lille, and before returning to Northampton on Monday he had time to wander around the haunts of years ago.

"Here and there he found traces of craters, trenches and shell holes.

"Did you find any souvenirs?" he was asked.

"Well, I did," was the reply, "but I didn't bring them back—they were too heavy." Sure enough, despite the vast numbers of visitors who have trodden the battlefields in that area for miles around, he found—a couple of shells!

"Without a doubt," he concluded, "the memorial, which is a fine piece of work in Canadian stone," will be the Mecca of all tourists from the Dominion."
