LATE MRS. LINCOLN.

This Much Neglected Woman Not So Poor After All—Her Business of Mind and Her Conduct.

Mrs. Lincoln's estate, not reckoning apparel and personal effects, is $74,000, all in United States bonds. Her wedding ring, found to-day, will be placed on her finger. It is inscribed "A. L. to Mary, Nov. 4, 1842. Love is eternal." Arrangements for the funeral are very elaborate. Business will probably be suspended during the service.

Mrs. Lincoln was a daughter of Dr. Todd, and was born near Louisville, Ky. She was a woman of extreme good nature, a devoted wife, and an affectionate mother. She was known by close friends in early life as ambitious, but it is probably that she never dreamed of occupying the White House until events made that result a possibility. Not a cultivated woman and not fitted by nature to fill a commanding social position, she drew upon herself while in Washington the savage criticism of political and other enemies, being in that respect the most unfortunate of all the ladies of the White House. It is generally believed by her friends that her mind was seriously affected by the assassination of her husband. She had always been of a nervous temperament and the terrible shock consequent upon her husband's untimely end certainly developed in her strongly marked symptoms of insanity. She was literally weighed down with woe, and the burden was greatly increased by the death of her youngest son, Thaddeus, or "Tad," as he was usually called. She became possessed of some very peculiar whims. Among others was the idea that she would eventually come to want, and she could not be shaken in this belief, despite the fact that she had about $60,000 and was entirely free from debt. Another queer fancy she had was for accumulating window curtains. While she was staying at a hotel in Chicago some years ago, without any idea of ever again living in a house of her own, she piled up about her room over sixty pairs of curtains. She would go out in the morning and order carloads of dry goods to be sent to her, and the delivery of the merchandise occasioned the hotel managers and her friends great annoyance. When it was found that she persisted in her hallucinations some of her relatives had her taken very quietly to an asylum where she was kept for a long time before enquiring friends learned of her whereabouts. One day a newspaper reporter obtained an interview with her, and the mournful story which she told produced something of a sensation. Judge and Mrs. Bradwell, of Chicago, interested themselves in her behalf, and in the course of time secured her release. Since her husband's death she has travelled a great deal in this country and in the old world. She has been to Europa twice, but apparently without benefit to herself. Her life of late has been almost an aimless one, and her frequent journeys, although undertaken for divertisement, have not for a moment dispelled the great shadow which seemed to hang over her. She returned from Europe the last time on the same steamer that brought Mlle. Bernhardt to America, and it is related by a gentleman on board that Mrs. Lincoln was much affected, on their arrival in New York harbour, by the attention paid the French actress, while she, the widow of the martyr President, was neglected by all save a very few old and intimate friends. After resting in New York a short time she went to Springfield, Ill., and there, at the residence of Mr. Ninian W. Edwards, whose wife is her sister, she passed away.

ELECTRICITY is nature's own remedy for diseases. It cures easily and simply. No nauseous medicines to take; no bitter pills; no, the belts are to be used as directed, and new vigor, new life pervades the exhausted system. A cure guaranteed in 99 cases out of a hundred. Only obtained at the Pharmacy, Heath & Gunn's old stand. See advt. in another column.

ARMY REGULATIONS.

Mobilization of the Reserve Force—Benefit for Wives—Who Takes Command of the Expedition.

On Wednesday a new code of regulations for the mobilization of the First Class of the British Reserve for permanent service when required was issued. The chief point of interest for the Reserve men is the increased allowance to their wives, the amount being raised from 6d to 8d for every day during which their husbands are away from home on military duty. On the arrival of the men at their several stations no time is to be lost in furnishing them with arms, accoutrements, clothing, and necessaries, in order that they may be ready to take their places in the ranks. Those who are found unfit for permanent service will be at once granted a furlough until they can be discharged, and they will be sent back to their homes, at the public expense. Their discharge will be carried out with as little delay as possible. Courts of inquiry are to be held for the purpose of declaring absent without leave all men who fail to join within 21 days, reckoning from the last date on which they were required to report themselves, but evidence will be required that the

NOTICE WAS DULY SERVED.

On being declared absent without leave the defaulters will be advertised as deserters and their names struck off the strength of the Reserve. Men will not be entitled to rations for the day on which they report themselves at headquarters, but will be allowed food or money equivalent on each day following. The rules as to separation allowances provide that when a man reports himself the commanding officer will ascertain from him if he is married, and if so require a statutory declaration to that effect. The wives and families of the first class Army Reserve will not accompany the men who rejoin for permanent service, but will be granted separation allowances at the rate of 6d. per day for the wife, and 2d. per day for each girl under 16, and each boy under 14. This allowance will be issued from the date (inclusive) on which the man reported himself, and will be continued so long as he is

DETAINED FOR ARMY SERVICE.

The allowance will be issued monthly in advance, and special provision made to meet difficulties which may arise from a man having enlisted in an assumed name. No addition will be made to the married establishment of a regiment in consequence of married men joining from the reserve. Each man will be entitled to army pay from the day upon which he reports himself, and must either be accommodated in barracks or billeted. As a preliminary proceeding the responsible officers are at once to apply to the War Office for all the necessary forms, 20 per cent. in excess of probable requirements. Several of the forms hitherto in use are abolished and new ones provided.

In the event of an expedition being sent to Egypt, the chief command will be conferred on Sir G. Wolseley, and that Sir E. Wood will be appointed Chief of the Staff.

The Rev. Chas. E. Piper, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes: "I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these Bitters have cured her.

Those affected with lungs sluggish liver or derangements of the kidneys, should procure a package of Dr. Carson's Liver and Lung Compound. Each 50 cent package makes three pints of Syrup. It is a valuable collection of roots, herbs and barks, and its results are wonderful. For sale by all druggists. H. Wade agent

C. Britton Lindsay, Ont., writes:—I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of jaundice, biliousness, sick headache and liver complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine

FIRST ARMY CORPS.

The Corps of Infantry, Engineers and Artillery Who Constitute It.

The constitution of the First Army Corps has been definitely decided upon. It will consist of 25,000 men, 10,000 of whom will be drawn from Aden, India, and the Mediterranean stations, and 15,000 will be sent from England. This army will be formed into three divisions, each of which will have its own staff, distinct from the general staff of the Commander-in-Chief of the whole Army Corps. The troops to be sent from England will be made up to 21 battalions of infantry and six regiments of cavalry. The Royal Artillery will consist of four batteries of horse artillery and 11 of field artillery, together with a reserve ammunition column for infantry artillery. The Royal Engineers will have their own regimental staff, and will consist of four field companies, in charge of pontoon trains and telegraph trains. The pontoon troop will make arrangements for crossing rivers, ravines, &c., and the telegraph troop will have under their direction 30 miles of telegraph wire with instruments and travelling offices, enabling them to communicate between the General Commanding and the front. The military store bases selected are Gibraltar, Malta, and Cyprus, at each of which stations a mule transport train is to be equipped. The field artillery first required will be supplied from the fleet, as all the vessels carry Gatlings and light field pieces mounted for land service. The Government proposes to call out the army reserve on Monday next.

There would be little if any sickness during the hot months of July and August, if every one would take Dr. Carson's Stomach and Constipation Bitters, as they prevent and cure all derangement of the stomach and bowels. Sold in large bottles at 50 cents by all druggists. H. Wade, agent.

A Remarkable Event.

The Assyrian Monarch, of the Monarch line, arrived at New York, Monday with a full complement of Russian refugee Jewish passengers. Among these were three married women, sisters, named Ruth Jacobsky, Lena Itskok, and Miriam Levinski, who, with their husbands, left Odessa last winter. In Russia, where they had been married on the same day, fifteen months ago, they belonged to the middle class. The husbands of these women are tailors by trade. Two weeks ago the tailors, with their wives and co-religionists, were sent on board the Assyrian Monarch for New York. On Sunday morning, the 1st inst., Lena Itskok, who is a very prepossessing Jewess about 22 years old, became a mother of two fine, healthy girls. Her two sisters were in the act of congratulating the newly-made mamma, when they themselves found that they were in want of the doctor's services. At 2 o'clock in the afternoon Ruth Jacobsky, who is 27 and a good looking blonde, had done as well as her other sister, and had at that moment presented her fortunate husband with two boys. A 9 o'clock at night two more girl strangers made their appearance on board the boat, and Miriam Levinski, the youngest sister, aged 19, was receiving the felicitations of her husband and brother-in-law.—*New York World.*

Farmers and Mechanics.

Provide yourselves with a bottle of *PAIN-KILLER* at this season of the year, when summer complaints are so prevalent; it is a prompt, safe, and sure cure. It may save you days of sickness, and you will find it is more valuable than gold. Be sure you buy the genuine *PERRY DAVIS PAIN-KILLER*, and take no other mixture.

COBOURG, Ont., March 3, 1880.
I have been selling Perry Davis' Pain-Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a *first-class family medicine*, and as long as I have a house and store, Perry Davis Pain-Killer will be found in both.

Dr. J. Collis Browne's Chlorodyne.

THE ORIGINAL AND ONLY GENUINE.

ADVICE TO INVALIDS—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff) to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis and Asthma.
CHLORODYNE acts like a charm in Diarrhœa and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.
From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33 Great Russell Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy that their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of the opinion that the substitution of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.
CAUTION.—Vice-Chancellor Sir Page Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defend
