MAN OR MONKEY!

Monsters Discovered at Buffalo—A Child with a Monkey's Face.

While Dr. Wetmore of Buffalo was sitting in his office last Thursday, a woman bearing a babe in her arms entered and desired to consult him about its deformity. The doctor took the infant from her arms, and was astonished to find himself looking into a monkey's face. A critical examination was made. The child was a female, a little over eleven months old; its body and limbs were those of a human being, the skull was in a normal condition, but beginning just above the eyes, and extending over the head was a skin of a light brown line supporting a growth of coarse reddish-brown hair. The eye-brows were of a drab color, long and overhanging, normal bright blue eyes, then the face descended into a monkey's nose, the shape being perfect and showing perfectly ape-like nostrils. The upper lip was hair-lipped and in exact conformity with the monkey nose, on each cheek was a growth of red-brown hair that on the left side of the face being longer and ending in a curl. The mother, who is about 32 years of age, strong and healthy, said she was an immigrant from Ireland, and came to country a few months ago. Three months prior to the birth of her child, while setting alone in her house one evening, she went to the door in response to a rap, and was severely frightened by confronting some boys who had on false faces. As to the form of the mask she could not say, but was of the impression that they were those of apes. Shortly after she received another scare on discovering that her kitchen was on fire, and the impression were uppermost in her thoughts until her confinement. She thought Dr. Wetmore might perform some plastic operation and remove the abnormal developments, but he sadly told her that should he attempt such an operation it would leave the face more deformed than now. He advised her, when the child grew older to shave the face. The doctor considered the case of so much curiosity that, being dean of the faculty of the College of Physicians and Surgeons, he sent her to the institution, where her offspring was scrutinized and commented upon by the corps of physicians and students.

THE ATTENTION of owners of Farm Property and Residences is invited to the above Pyramid, showing the uniform and sure growth, during the last seventeen of its 17 years of existence, of a fire insurance company whose charter limits its business to their class of property—the **Agricultural Insurance Company**, of Watertown, N.Y. The figures represent the amount set apart at the dates given for the PROTECTION OF POLICY HOLDERS.

Twenty-seven years of patient toil has made this the strongest and largest Company doing an exclusive Dwelling Business in the United States, if not in the world. It now issues 45,000 policies a year. No other like Company can show such growth and increase.

The history of this Company proves that a LARGE business, well scattered, managed with prudence, can be done with a very small profit from each risk, and afford perfect security, which will grow stronger every year.

While nine-tenths of the "Mutual" fire insurance companies, and many of the Stock companies, have failed on account of reckless or extravagant management, or doing too small a business, the OLD AGRICULTURAL, by economy, energy and prudence, had every year added a substantial amount to its Assets, for the indemnity of its patrons, and now occupies a position in the confidence of the public second to no other Company.

From year to year it spreads the base of its Pyramid and gains strength.

EXTRACT FROM CHARTER.—"*Article 2.* This Company is formed for the purpose of insuring Farmers' Dwellings, Private Residences, Barns and Outbuildings, with their contents, and other property not more hazardous," and is strictly confined to this class of property.
