GOD GIVE US MEN

God give us men. The time demands
Strong minds, great hearts, true faith and willing hands;
Men whom the lust of office does not kill;
Men whom the spoils of office cannot buy;
Men who possess opinions and a will;
Men who have honor; men who will not lie;
Men who can stand before a demagogue
And damn his treacherous flatteries without winking;
Tall men, sun-crowned, who live above the fog
In public duty and in private thinking;
For while the rabble with their thumb-worn creeds,
Their large professions, and their little deeds,
Mingle in selfish strife; lo! Freedom weeps!
Wrong rules the land, and waiting Justice sleeps!

—J. G. Holland.

Guelph Winter Fair Judges Announced

The following are the judges who will place the awards in the various classes at the Ontario Provincial Winter Fair:—

Clydesdales and Heavy Draughts—M. W. Staples, O.A.C., Guelph.

Percherons and Belgians—M. W. Carter, Brampton.

Light Horses—Wm. Newman, St. Catharines and Hugh S. Wilson, Oakville.

Shorthorns— Grant Campbell, Moffat.

Herefords and Aberdeen-Angus—W. H. Hunter, Orangeville.

Market Cattle—J. M. Gardhouse, Weston.

Lincolns, Leicesters and Cotswolds—J. D. Brien, Ridgetown.

Dorsets, Shropshires and Southdowns—D. McMahney, Todmorden.

Oxfords and Hampshires—Fred Arkell, Teeswater.

Cheviots and Suffolks — Ralph Young, Calstor Centre.

Yorkshires—Adam Thomson, No. 1, Stratford.

Berkshires and Tamworths—George Williams, Queensville.

Salisbury Trophy—H. J. Maybee, Toronto and Adam Thomson, Stratford.

Grains and Corn—W. T. G. Weiner, Ottawa.

Clovers and Grasses—Stanley White, Dom. Seed Branch, Toronto.

Potatoes—Prof. A. W. Mason, O.A.C., Guelph, and O. W. Lachaine, O.A.C., Guelph.

Agricultural Society Class—J. W. McKay, Dom. Seed Branch, Ottawa, and C. L. S. Palmer, Dom. Seed Branch, Toronto.

New Hampshires, Cornish, Chanteclers, Games, Ornamental Bantams—George Robertson, Ottawa.

Mediterranean Breeds—G. G. Henderson, Hamilton.

Rhode Island Reds, Javas, Jersey Giants, French, Dorkings, Sussex, Red Caps and Miscellaneous—Wm. Carter, Londesboro.

Orpingtons (except white), Wyandottes (except white, silver and partridge), and Aclaiic—W. J. Roberts, Hamilton.

Game Bantams, White Orpingtons, Polands and Hamburgs—T. J. Kilby, London.

Rocks, White, Silver and Partridge Wyandottes—Wm. Cadman, London.

Utility Pens—Prof. W. R. Graham, O.A.C., Guelph.

Turkeys and Water Fowl—A. G. Taylor, Ottawa.

Pigeons—Leslie Ridler, Guelph.

Conjurer—Now, sir you hear your watch ticking inside this handkerchief. Are you satisfied?

Spectator—I'm more than satisfied; I'm amazed; that watch I gave you hasn't gone for six months.

Canada Lags in Fish Consumption

Compared to the people of England, Canadians are poor fish eaters, in the opinion of Alfred H. Brittain, head of one of Canada's largest fish producing companies and former president of the Canadian Fisheries Association. Over in the Old Country the consumption of fish amounts to about 43 pounds per person. Here in the Dominion it is only about 21 pounds per capita. Yet, according to a paper presented to the fishing industry, Canadian fish is noted the world over for its flavour and quality.

Mr. Brittain has continuously advocated an educational and advertising campaign by the government to help increase markets within the Dominion for Canadian fish. If the national consumption of fish were to be increased by only ten pounds per capita it would mean approximately another 100,000,000 pounds of fish.

With the present crusade for the increased consumption of fish now appearing in the newspapers and magazines of the Dominion that goal seems to be drawing nearer. According to Mr. Brittain such an increase would add materially to the general welfare; it would benefit the transportation companies and affiliated industries; it would increase the revenue of the primary producer; and it would provide a real stimulus for the entire fishing industry.

BOARD THINKS HALTON WILL PAY SCHOOL FEES

"Will Halton pay?" is the question uppermost in the minds of members of the Streetsville High School Board. At last week's meeting it was announced that the account for tuition for pupils resident in Halton County amounts to $513 this year, as compared to $411 last year. Nine Halton pupils are in attendance at the Streetsville High School.

Last year Halton County refused to pay Streetsville for tuition of pupils from Trafalgar township because the Peel County Council had refused payment of an account from Oakville High School for tuition of Peel pupils from Toronto township.

"I can't see that there is any relationship between the refusal of Peel County Council to pay Oakville and the possibility of refusal of Halton to pay Streetsville High School this year," said O. R. Church, a member of the board. "Our account is due, and we believe that the Halton Council will forward us the money."

It has been pointed out that, according to amendments to the school act, Toronto township pupils were not entitled to attend the Oakville High School, while, under the same act, Trafalgar township pupils are fully entitled to attend the Streetsville school.

LARGE GAIN IN EMPLOYMENT

Over 38,500 additional workers were absorbed by Canadian industries during September, when industrial employment registered the largest gain of the current year. A report issued by the Dominion Bureau of Statistics shows that 10,020 firms increased their staffs from 1,015,639 employees on September 1st to 1,044,178 on October 1st. Figures for October 1st, 1935, show that 9,414 employers had payrolls aggregating 997,017 workers.

The most outstanding features of the October 1st, 1936, survey of employment were the unusually pronounced increases in manufacturing, in which the cooperating establishments absorbed nearly 15,600 additional workers, and in logging, which directly provided work for practically 16,700 more persons than at September 1st. The expansion in each of these industries was greater than in any other year for which statistics are available. Mining and trade also recorded substantially heightened activity. In services, construction and maintenance the trend was seasonally downward, and there were also losses in transportation.

NO SUNDAY SHOOTING

A warning to hunters to confine their shooting to week days was issued by district provincial police. Five men who didn't abide by the "no shooting on Sunday" regulations are facing charges in Kitchener. In addition, two shotguns have been seized as well as five rabbit, the fruit of an ill-advised Sunday shooting expedition. In warning the hunting public to abide by the regulations, police inferred that further prosecutions will follow if infractions are reported. It is strictly against the law to go gunning for any kind of game on Sunday, they say.

"The Ottawa Spotlight"

By Wilfrid Eggleston

Ottawa, November 17—A conference of the Ministers of Agriculture of the nine provinces, together with the Dominion authorities, has been called for December 14th. This is a part of a program to improve Canadian sales of farm products in the United Kingdom, the United States and elsewhere. Hon. J. G. Gardiner has been giving considerable attention to the matter. He spent several weeks in Britain himself after the session. He made certain preliminary observations about the need of studying the British market a little more attentively, and also the desirability of watching Canadian quality and suitability before the cattle, cheese, butter, poultry, bacon, etc. left this side.

Then Mr. Gardiner asked the deputy minister, Dr. Hutton, and Dr. J. H. Grisdale, the former deputy minister, to make some inquiries for him along similar lines when they were in Britain. He asked them to report independently on his own suggestions. Later he instructed H. S. Arkell, the former livestock commissioner, to visit the different provinces, and interview livestock organizations and farmers' societies as well as the packers. Mr. Arkell will have his report in the hands of the Minister by the time the Ottawa conference begins.

New Drive for Exports

What the Minister of Agriculture expects all this preparation to lead up to is this: he wants an organization formed in Canada to assist in the exporting of Canadian farm products, to advise farmers what is wanted on the other side, to keep an eye on quality to watch market changes. It is expected that this body will keep closely in touch with some sort of intelligence service on the other side, which will advise from time to time how the shipments are being received and what can be done to build up the trade still further.

The facts and figures for 1936 show that markets for the products of the Canadian farm are growing steadily, but there is still plenty of scope for enlargement. The cattlemen of the Dominion have been urging upon the Minister of Agriculture the need for further emphasis on this matter. An ample market for Canadian live cattle at somewhat better prices than have been prevailing would be of tremendous value to Canadian farmers in every province.

Profits in Textiles

Some rather sensational evidence has been brought out by the Turgeon royal commission which is investigating the textile industry in Canada. Eyebrows have been lifted here and there at the profits which have been accumulated by some of the companies, especially when they are set in contrast against the wages paid some classes of employees. The "hidden inventory reserve" of Canadian Cottons, Ltd., has also come in for attention. Though the officers of the company claim that everything was done to safeguard the company against undue fluctuations, and that in the long run the reserve all came out in the balance sheet and had taxes paid upon it, this view does not co-incide with that of the income tax department. The latter has made a tentative assessment of about $383,000 for unpaid income tax between 1920 and the present. This, apparently, does not include penalties, nor does it include anything for the years 1916-1920.

The angle which will be followed with especial interest across the country is what effect these disclosures will have on the tariff policy of the Mackenzie King government. Substantial slices have already been cut off the Bennett duties on textiles, and so far the action does not seem to have ruined any of the companies. It has enabled the Canadian consumer to enjoy a bit more choice when time came to buy cloths and clothing. But anyone who has brought in a shipment of textiles recently knows that the tariff is still moderately high on most lines. It so happens that these revelations about the textile industry arrive just when the Canadian government is trying to figure out some way of mollifying the British into continuing free entry for Canada's farm products. It would not be surprising if some further reductions in textile duties are offered by Canada in return for maintenance of the Ottawa agreement benefits. Iron and steel, boots and shoes, machinery, are other lines which we may see coming in more readily from Britain after the next budget.

Talk about Defence

We are beginning to hear a lot about defence programs, about orders for aeroplanes, about destroyers. There is not much of an official nature to announce. A great deal of the talk can be dismissed as idle gossip. But an enhanced air force looks like a safe bet.

BLAME THREE JUVENILES FOR FAIR GROUNDS BLAZE

Police alleged three Milton juveniles were responsible for the fire which blazed up in a large stack of straw in the horse stables at the Halton County Agricultural Society's fair grounds, about 4 o'clock Saturday afternoon. Milton fire brigade responded quickly and prevented the buildings from going up in flames. Provincial Constable A. J. Oliver and Chief of Police Hadfield investigated.

Surgery of the Seas

Dr. Adam N. Beattie, surgeon of the Canadian Pacific liner Empress of Japan, and his ship's nurse, Miss Margaret Grant Allan, who are shown here, performed two delicate operations during the ship's round trip to the Far East, via Honolulu, just completed in Vancouver. On the outward trip, between Honolulu and Yokohama, the liner's huge turbines were stilled for nearly an hour while Dr. Beattie removed a ruptured duodenal ulcer from a Chinese passenger. On the homeward trip, between Hong Kong and Shanghai, the London, Ont. doctor's skill was again called into play when a Chinese saloon steward was stricken with acute appendicitis. Both patients are recovering well, the physician reported. Dr. Beattie, former house physician at Vancouver's St. Paul's hospital, and graduate of University of Western Ontario's medical school at London, Ont., stated that the Empress of Japan's splendidly equipped operating room made the operations little different in practice from any performed in large hospitals. His assistant, Miss Allan, is a graduate of St. Paul's hospital, Saskatoon. She has been in the Empress of Japan for the past three and a half years and previously was in the Empress of Russia. Dr. Beattie first went to sea in 1933 aboard the Canadian-Australasian liner "Niagara" out of Vancouver.

ERIN

When district headquarters of the Ontario Provincial Police declined to withdraw a charge of having liquor not purchased from a government vendor, George Harper, of Erin Township, pleaded guilty to the charge, and was fined $100 and costs, or three months in the county jail at Guelph.

Miss Margaret Bingham of Georgetown, spent Sunday with Mr. and Mrs. W. R. Bingham.

Mr. and Mrs. Burt Bingham, of sixth line Erin, spent Sunday with Mr. and Mrs. C. Justice.

Mr. Malcolm Sinclair, of Niagara Falls, spent the week end with relatives here and at Alton.

Mr. Donald Houston, of Georgetown, spent Sunday with his parents, Mr. and Mrs. Gilbert Houston.

Messrs. D. S. Leitch, A. J. Horton, George Saunders, Harry Saunders, Howard McArthur, Bruce Fletcher and Alvin Marshall are hunting deer in the vicinity of Baysville.

Arthur Thompson, 3rd line, Erin, suffered a stroke recently, and is undergoing treatment at St. Joseph's Hospital, Guelph. His many friends wish him a speedy recovery.—Advocate.

ACTON

Mr. William Norton attended the Ford distributors' gathering at Detroit last week, when the Canadian and American representatives were guests of the Company.

A change of considerable importance to Acton took place this week, when the head office of Beardmore & Co. removed from Toronto and are now operating from the Acton plant. The general head office staff commenced their duties in Acton on Monday, November 9th.

On Monday evening a surprise birthday gathering was held for Mrs. James Sayers, on the event of her 82nd birthday, at the home of Mr. and Mrs. Henry Sayers. Her family and grandchildren were present, numbering 30 in all, with the exception of one daughter and family, who live in the West.

On Tuesday morning the farm home of Mr. and Mrs. Ronald McEachern, at lot 30, first line, Esquesing Township, was completely destroyed by fire. The fire was discovered by Mr. McEachern, who was at the barn, about 8.30. It had then made such headway that there was no chance of saving the building, but a few of the contents were hurriedly carried out of the burning structure.

On Sunday, Acton Boy Scouts were guests of the 112th Troop in Toronto, and participated in the Church parade to St. Barnabas Church, for the morning service. About sixty participated in the banquet which followed. During the afternoon the Rover Scouts conducted the Acton lads through the Museum in Toronto. Scoutmaster G. W. Mason was in charge of the Acton Troop. The boys enjoyed the trip very much.—Free Press.

Father—Sonny, why don't you get the habit of going to the dictionary when you want to know how to spell a word.

Sonny—I do sometimes — but somehow the dictionary always has it wrong.

THE PATH THAT LEADS TO HOME

I love the winding path that leads to home,
Beyond the hedgerow and the lattice gate;
It seems to beckon me where'er I roam
To glowing hearth where happy loved ones wait.
It lures me oftentimes to whispering trees
Where mating birds are nesting in the spring;
To pink-tipped apple blossoms, murmuring bees,
And scented lilac blooming by the swing.
This little winding path that leads to home,
I tread it once again though far away;
My feet must feel the old, familiar loam,
For I am weary of the world's rough clay.
It takes me back to humble roof, and fare,
To peace, and rest, and love that lingers there.

—Gertrude Jean Elliot.

Terms of the Loans Simply Explained

HERE IS HOW THE NATION-WIDE HOME REPAIRS SCHEME IS WORKED OUT

Thousands of home-owners, greatly interested in the home improvement plan, are wondering exactly what conditions surround the loans, how to go about getting one, what it costs and many similar things.

Here, briefly, is an explanation, obtained recently from banking and other sources, of how the home-renovation plan works out for the average applicant:

Mr. A., after having figured that certain repairs to his home will require approximately $185 to $200, applies to a nearby bank for the latter amount for one year. Here's the result:

Loan	$200.00
Discount	6.50
Receives cash	$193.50

He pays back the latter amount in twelve monthly instalments of $16.67.

Second example: Mr. B. needs nearly $1,000, so he asks a bank for this, repayable over a two-year period. Result:

Loan	$1,000.00
Discount	6.50
Receives cash	$ 939.32

Mr. B. pays back 24 monthly instalments of $41.67.

The balance of the information is contained in the following questions and answers:

Question 1—Where do I apply for a loan?

Answer—To any chartered bank.

Question 2—How must the money be used?

Answer—On additions, alterations or repairs to homes already built; but not for building new homes. Improvements include new plumbing, furnace installation, garages, stables, any equipment or fixtures which become an integral part of the building, but not for appliances that can be moved. Homes include private dwellings, small apartment houses, farm houses, combination store dwellings.

3.—Who is eligible?

Answer—Any man or woman in good credit standing who owns his or her home, whether mortgaged or not.

4.—What is meant by "good credit standing?"

Answer—Any person who pays his bills and earns a salary sufficient to enable him to repay the loan over a reasonable period.

5—Are endorsers required?

Answer—No.

6.—How is the money repaid?

Answer—Usually monthly, but quarterly or other payments suitable to the borrower may be arranged. Loans extend from six months to three years, according to size.

7.—Are there any additional charges?

Answer—No.

8.—Are forms filled out?

Answer—Yes, the bank supplies forms which require such information, as income, obligations (if any), location of property, and description of improvements and similar matters, all of which are treated confidentially.

9.—Do the loan conditions apply to farmers?

Answer—Yes.

10.—What is the maximum amount?

Answer—$2,000.

Be wise—think others — but don't tell them.

The Town of Milton has received a cheque from the Provincial Government for income tax levy of $378.
