IF NOBODY CARED

If nobody smiled and nobody cheered
And nobody helped us along,
If each every minute looked after itself
And good things all went to the strong,
If nobody cared just a little about me,
And we fell stood alone in the battle of life
What a dreary old world this would be.

Life's sweet because of the friends we have made
And the things which in common we share.
We want to live on, not because of ourselves,
But because of the people who care;
It's giving and doing for somebody else
On that all life's splendor depends,
And the joy of this world when you've summed it all up
Is found in the making of friends.

COUNTY COUNCIL

COUNTY COUNCIL
HALTON COUNTY COUNCIL RECEIVES DEPUTATION AT ITS MEETING

Halton county council, which had postponed its meeting from Tuesday, Nov. 24th, on account of the warden's illness, met last Friday in the court house, Milton, with all members present and the warden in the chair.

At the morning session minutes were read and adopted and correspondence read by the Clerk. At the afternoon session several deputations waited on the council.

Mr. F. R. Breckon and Mr. W. H. Alton were spokesmen for a deputation of ratepayers personally interested in the construction of the new middle road, and who asked the co-operation of the council with a view to approaching the department of highways, relative to boulevard crossings on the new highway. It was understood that according to plans now under consideration by the department, boulevard crossings would only be possible every mile and a quarter, which the ratepayers considered would be a great inconvenience to farmers along the new highway, particularly at seasons when it was customary for neighbors to change work with each other, such as threshings and silo filling. Thus, a man going to work for a farmer immediately opposite would have to travel anywhere from a quarter of a mile to a mile and a quarter on his own side of the road to reach the boulevard crossing and then the same distance on the other side of the road to reach his neighbor's place. Mr. Breckon was very emphatic in his contention that access to the highway from his own entrance was the right of every resident along the highway. The warden agreed with Mr. Breckon and stated that if there was any fighting to be done, now was the time to do it. ("Hear, hear!" from members of the deputation). The discussion took up considerable time, but the gist of it was very much along the same lines as given by Mr. Breckon and Mr. Alton. It was finally moved by Mr. Gilbert, seconded by Mr. Thorpe, "that the road committee of this council be instructed, in conjunction with Hughes Cleaver, M.P., and T. A. Blakelock, M.P.P., to take up with the department of highways the question of securing sufficient openings in the boulevard of the new Toronto-Hamilton highway to meet the requirements of the adjoining residents and that the co-operation of Peel county be secured if they have the same problem."—Carried.

Mr. Rogers, representing the Halton Dramatic festival, was the next to address the council. He came with a request that Halton county, if they see fit to do so, would donate a cup or trophy for competition among the dramatic teams of the county for the coming season. Council agreed to at least consider the matter and give a decision at their next meeting.

Mr. W. Murray, representing a deputation from Esquesing, requested assistance from the council in the way of snow fencing along a stretch of road south of Acton, which had recently reverted to the township of Esquesing, and from which snow fencing had been removed. They appreciated the new road but still did not wish to see this strip left unprotected as it was undeniably one of the worst roads in the county during the winter months. The deputation was advised that as the road in question was now a township road, the responsibility for snow fencing would now rest with the municipality.

Mr. L. W. Patterson, police constable for Trafalgar, addressed the council with reference to a reward being given for the apprehension of chicken thieves in accordance with a resolution passed by the council in 1934. With reference to this inquiry, it was moved by Mr. Hall, seconded by Mr. Gilbert, "that due to fact that most of the fowl in the county are tatooed today, we therefore rescind the resolution passed in 1934, giving a reward for the apprehension of chicken thieves."—Carried.

Reports of the standing committees were read in open council and afterwards considered in committee of the whole with Mr. Pinney, reeve of Nassagaweya, in the chair. Council resumed and the reports were adopted.

Mr. Hewson suggested that council give some recognition to Miss Muriel Evans for her outstanding achievement in winning the Sir John Gibson scholarship. The suggestion found favor with the council and it was finally moved by Mr. Hewson and seconded by Mr. Byers, that the county of Halton grant Miss Muriel Evans $50 in appreciation of her winning the Sir John Gibson scholarship—the highest award in the province of Ontario. Carried.

Two by-laws were passed. By-law No. 680 to borrow $5,000 on debentures was given the required three readings and passed; also By-law 690 to authorize the borrowing of money to meet current expenditures.

Moved by Mr. Hewson, seconded by Mr. Byers, that the tender of J. L. Graham of 100.037 for the $5,000 debenture issue be accepted and that the treasurer be instructed to secure approval of the by-law by the Municipal Board and arrange for printing of debentures and completion of sale.—Carried.

The standing committees recommended payment of the following accounts:

Finance Committee:	
Clerical Assistance	$ 22.50
Ontario Training School, Bowmanville	45.00
Children's Aid Society	53.07
Rent of Magistrate's Office, Oakville	144.00
Children's Aid, Halton-Peel	239.25
Mothers' Allowance, Sept.	857.50
Mothers' Allowance, Oct.	860.00
Old Age Pensions, Sept.	718.17
Old Age Pensions, Oct.	729.35
	$ 3688.84
Printing, Committee	153.27
County Buildings	109.60
Hospital Accounts	1388.25

Moved by Mr. Hewson, seconded by Mr. Byers, that the accounts as passed by committee be hereby adopted and the treasurer be authorized to pay the same.—Carried.

It was also agreed that the recommendation of the county buildings committee to ask for tenders for coal and wood for the county buildings be also adopted.

Upon motion council adjourned to meet at the call of the warden.—Champion.

Hockey Outlook in Georgetown Better Now Than For Some Years

NEW AND OLD PLAYERS "TURNING IT ON" AND SHOWING MUCH IMPROVEMENT UNDER THE DIRECTION OF COACH "DICK" CARROLL

The prospects of Georgetown having two excellent hockey teams this season was never better. So many players have turned out for the weeks' practice already in, that Coach "Dick" Carroll is at his wits end to know where to start to pick a team, as all are displaying such a fine brand of hockey. However, two teams will be lined up in the near future, a Junior and an Intermediate squad. Then the boys will get down to some real hard training in combination hockey.

The manager of the Intermediate team is our genial friend "Fred" Thompson, while the manager of the Junior team seems to be indefinite as yet. Perry Blackburn, of Georgetown hockey fame, was appointed by the executive but it's understood he would rather not fill the office. Gordon Alcott's name has since been mentioned, but we have nothing definite to report on this important matter.

Many new faces will be seen on both teams this year. Through the generosity of some of our citizens, a number of good players have been given positions in town during the past summer. We thank them for the interest they have taken in helping to revive the national sport in this town.

The interest and enthusiasm that is being taken by the Georgetown sporting public is manifest by the ever-increasing number that turn out at the hockey practices. This is giving the boys great encouragement, and they are going to get out there and play real hockey for Georgetown this winter. Giving all they have for good old Georgetown, and we hope their efforts will be rewarded by some of the silverware coming here next spring. If not, they will display a brand of hockey that citizens will just pack the local ice palace for a looksee, whether they win or lose.

Coach "Dick" Carroll has nothing but praise for the boys in the way they are accepting his hockey tactics, and both he and the boys are working in full accord, and by the time the first league game rolls around . . . . well you come out and see for yourself what is going to happen. If all the hockey fans of Georgetown and district are not out to the first game . . . . packing the arena to its capacity, why we will miss our guess.

ACTON

The annual meeting of Acton Citizens' Band on Monday evening elected the following officers: Hon. president—A. Mason, president—R. Speilvogel, 1st vice-president—J. Algie, 2nd vice-president—R. Agnew, secretary-treasurer—N. Gibson, librarian—G. Simpson, assistant librarian — S. Simpson, caretaker and property custodian—G. R. Agnew.

At the meeting last Thursday of Acton Y.M.C.A., Mr. Jack Reid tendered his resignation from the board. He left the following day for South Porcupine, where he has secured a position. Jack was a splendid type of young man and many friends regret his removal, but wish him unbounded success in the new field.

Mr. and Mrs. R. J. McKechnie and Miss Flora Jean, of Jamestown, N.Y., spent several days with Mr. and Mrs. George Soper last week.

Mr. and Mrs. Gordon McKay, Mr. and Mrs. Harold Wanshorough and Robbie, of Toronto; and Mrs. Frank Day of Rockwood, visited their mother, Mrs. R. H. Wanshorough, on Sunday.

Mr. P. L. Wright, who has been visiting in England for several weeks, returned home on Tuesday by the new steamer, Queen Mary. Mrs. Wright, who has been seriously ill for some time, will return later after convalescing. Friends here will be pleased to learn of her improved condition.—Free Press.

MILTON

Thieves are stealing the money placed in milk bottles on front steps in town, sometimes stealing the bottle. The thieves were busy on Robert Street this week. The police are on the trail of the thieves, who, when caught, will serve a term in jail.

John D. Timberg, of Milton, has an egg which measures 8 x 6¼ inches and weighs 4½ ounces. It was laid by one of his New Hampshire Red hens. Mr. Timberg believes the egg breaks all records.

On Nov. 21st a quiet, but pretty wedding was solemnized at the home of Mr. and Mrs. R. H. Galbraith, when their daughter, Mabel Florence, was united in marriage to Mr. Lloyd Prederick May, son of the late Mr. and Mrs. R. E. May of Trafalgar. The ceremony was performed under a pink and white arch of bells by Rev. B. P. Andrews. The bride entered the drawing room on the arm of her father. She looked lovely in a gown of Royal blue transparent velvet, fashioned on princess lines. She carried Premier pink roses and Maidenhair Fern. She was attended by her sister, Miss Velma Galbraith, as bridesmaid, who wore a dress of midnight blue. The groomsman was Mr. Stanley May, brother of the groom. After the ceremony, the immediate families sat down to a delicious repast. The bridal couple left mid showers of confetti by motor for Niagara, Buffalo, and Detroit, the bride travelling in a wine dress and coat with black accessories. On their return they will reside on the groom's farm, near Hornby.—Champion.

THE STORY THAT NEVER GROWS OLD

And there were in the same country shepherds abiding in the field, keeping watch over their flock by night.

And, lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them: and they were sore afraid.

And the angel said unto them, Fear not: for, behold, I bring you good tidings of great joy, which shall be to all people.

For unto you is born this day in the city of David a Saviour, which is Christ the Lord.

And this shall be a sign unto you: Ye shall find the babe wrapped in swaddling clothes, lying in a manger.

And suddenly there was with the angel a multitude of the heavenly host, praising God, and saying,

Glory to God in the highest, and on earth peace, good will toward men.

And it came to pass, as the angels were gone away from them into heaven, the shepherds said one to another Let us now go even unto Bethlehem, and see this thing which is come to pass, which the Lord hath made known unto us.

And they came with haste, and found Mary, and Joseph, and the babe lying in a manger.

And the shepherds returned, glorifying and praising God for all the things that they had heard and seen, as it was told unto them. St. Luke 2.

Some people are so tender-hearted they can't hurt any living creature except relatives.

TESTED RECIPES

Value of Liver

Liver, which at one time was regarded indifferently, has as a result of recent discoveries risen rapidly in popularity as well as in price. These discoveries established the value of liver in the treatment of pernicious anaemia and other diseases. An extract of liver is now successfully used in treating the sick, and the occasional use of liver in some form or other is recommended in the case of persons in normal health. In addition to the many ways in which it can be prepared, liver combines well with many other meats, and a little liver added to hash is especially attractive. In the pamphlet "Beef, How to Choose and Cook It," issued by the Dominion Department of Agriculture, there are many recipes, a few of which are given below.

Braised Calf's Liver

Wipe liver, and skewer into shape if necessary. Draw small lardoons—that is, strips of fat pork or bacon—through the liver in parallel rows, leaving each lardoon extended a half inch above the surface. Place liver in a casserole or Dutch oven, surround with remnants of lardoons. Sprinkle with salt and pepper and dredge with flour. Surround with one-third cup each of carrots, onions, and celery cut in small cubes. Add one-half teaspoonful pepper-corns, 6 cloves, one spray parsley, a bit of bay leaf, and two cups of hot brown stock or water. Cover closely and cook two hours in a slow oven. Remove cover the last half hour of cooking, so that the liver may brown richly. Remove liver to serving platter and set aside in a warm place. Strain liquor in casserole and use for making a brown sauce. Pour sauce around liver and serve. Braised liver may be served cold, thinly sliced.

Liver Loaf

Cover sliced liver with boiling water and let stand for a few minutes. Wipe dry, remove any fibrous parts, and run through food chopper. To each cup of chopped liver add one cup bread crumbs, one egg, one teaspoonful salt, one-quarter teaspoonful celery salt, and one-half teaspoonful pepper. Mix well, and bake one hour in greased mould set in pan of water. Serve either hot or cold.

The photographer was taking a picture of a father and his college boy son. The photographer suggested that the boy stand with his hand on his father's shoulder. "More appropriate," suggested the father, "if he stood with his hand in my pocket."

"I'm your PRIVATE SECRETARY"

They must be kept warm!

Remember—coke will heat your home at a lower cost than other hard fuels.

GOOD HEALTH during a long winter depends in great measure, on keeping your house equally warm in all rooms and at all hours. Your task is lighter with Hamco Coke—the modern, all-Canadian fuel which maintains a steady heat all day long.
Switch to Hamco Coke for a trial ton. You'll have a cleaner house—no dust, no soot, no smoke. And you'll have a warmer house because there's less waste in this fuel—every shovelful produces the maximum heat. And you'll have less ashes to carry out!
Hamco Coke costs less per ton and less per season.

HAMCO Gives more heat Costs less money Dustless COKE
HAMILTON BY-PRODUCT COKE OVENS, LIMITED HAMILTON, CANADA

COKE NOT A SUBSTITUTE BUT A FUEL PREFERRED BY THOUSANDS OF USERS

As a result of actual experience in their own homes, winter after winter, it is to be noted that more and more householders are realizing that coke stands on its own merits as the ideal fuel.

This is not a new fact. For scores of years it has been known that coke has certain advantages not to be found in other hard fuels. By heating coal to a tremendous heat, gas and tar oils are driven off. The result is that while only 62% of bituminous coal is fixed carbon, the carbon content of coke is more than 88%.

Repeated usage has shown that there is no finer coke on the market than Hamco Coke, made in Canada by the most modern, scientific process.

When you consider that Hamco Coke costs considerably less per ton than any other hard fuel of comparable value, the monthly savings in your own home are obvious.

Fuel experts say: "Stop thinking about coke as a low-priced substitute. Irrespective of price, it is the perfect fuel. You can't buy a better fuel no matter how much more you pay—the money you save is an *extra asset*."

HAMCO COKE sold in Georgetown by:
W. H. Kentner & Son — J. B. Mackenzie & Son — Ritchie & Agar (Acton)
