The SNAPSHOT GUILD
WATER POEMS

An episode in an amateur photographer's picture Odyssey of the travels of water. Exposure f.22 at 1/25 second.

THE moods of water, tumbling, bubbling, gushing, spouting, dashing, splashing, trickling, rolling, rippling, dripping, glad, angry, smooth, rough, serene, peaceful, make adjectives for poets. For the amateur photographer with any poetry in his soul whatever, they make themes for beautiful pictures and the subject of a delightful picture hobby.

We know of one amateur photographer who used his camera to picture the grand circle water makes in its journey from land to sea to the clouds and back to the land again. This picture epic of water began with a photograph of a tiny woodland spring, then pictures of a rivulet, a brook, a river, a mightier river with its waterfalls and cataracts, the bay through which it flowed into the ocean, the ocean itself, a cloud and sunbeam picture over the ocean, thus picturing water being caught up for its return journey, and finally rain.

This idea far from exhausts the possibilities of poetic water pictures, especially when human interest is added. The majestic sweep of water over Niagara Falls is a poem in itself but a honeymooning pair in the foreground add romance. A fair swimmer in clear water on which sunshine is shimmering creates a poetic pattern of life and light. A pseudo-moonlight picture over a placid lake of a youth and a maid in a canoe (a shot into the setting sun with a small lens opening) gives a poetic mood to "the waters stilled at even." Again at the prow of a careening yacht or its churning wake over the stern depicts the poetry of motion.

Verses may be illustrated. "Where the breaking waves dash high on a stern and rockbound coast" is a place for photographs of one of water's most inspiring moods, and then, from the hilltops "there is not in the wide world a valley so sweet, as that vale in whose bosom the bright waters meet."

Endless are your opportunities for making delightful photographs of water scenes. But there's a trick to successful water photography. It's largely a matter of shooting so that the pictured water has the right "feel" or texture.

For example, it's possible to shoot spray too fast, so that it has a hard, brittle look, thereby losing its essential sense of movement. On the other hand, rippling water should be shot fast enough so that the ripples are distinct, each with its own highlights.

Another point is lighting. Choose the angle that gives you the maximum "texture," the characteristic interplay of light and shade. No one can tell you exactly how to go about this; a little experimenting will tell you better than volumes of words. But keep this in mind. Any fair-sized body of water reflects a lot of light. Your exposures, therefore, can be faster or, preferably, your "stop" smaller than for a comparable summer landscape

John van Guilder

MARRIED

ALLAN—MacKAY — At Georgetown, Ont., on Saturday, July 31, 1937, Margaret Telford, daughter of Mr. and Mrs. O. Telford Mackay, to Eric Arthur Allan, St. Thomas, son of Mr. James F. Allan, Meaford, Ont.

SHANNON—RYAN—In Toronto, on Wednesday, July 28th, Elizabeth Margaret Ryan, daughter of the late William Joseph and Mrs. Ryan of Georgetown, to Andrew Rupert Shannon, son of the late Francis and Mrs. Shannon, of Kingston.

DIED

BRAIN—In Wellesley Hospital, Toronto, on Thursday, July 29th, Walter M. Brain, in his 87th year.

BLUE—At her home, 306 South Kingsway, Toronto, on Monday, Aug. 2nd, 1937, Hannah Eglinton Blue, widow of John Francis Blue, and dear mother of Myles, Mildred and Gladys Blue of Toronto, Mrs. Boaf Barber, Georgetown, and Malcolm Blue, Toronto.

STEWART—In Milton, on Monday, August 2nd, 1937, Margaret Davidson Hunter, widow of the late Robert Stewart, in her 83rd year.

OBITUARY

JAS. G. WILSON

James G. Wilson, a pioneer resident and one of the best known men in Halton County, died very suddenly at the home of his son-in-law, Dr. H. M. Harrison, 347 Indian Road, Toronto, on Wednesday, evening last. Mr. Wilson was up and around as usual, and as he was walking from one room to another, he collapsed and passed away almost immediately. He was in his 82nd year. The deceased was born in Nelson Township, and was a successful farmer in the township for many years. Mr. Wilson was first elected to the county council by the Burlington and Nelson district in 1899, and continued to represent that division until the composition of county councils was again made up of reeves and deputy-reeves, after ten years of division representation, which ended with the year 1906. In 1903 Mr. Wilson had the honor of being warden of Halton County. In 1907 he was returned to the County Council as Deputy-Reeve of Nelson Township. A. Dudley Alton, being reeve. During 1907 the first county road system was adopted in Halton, and Mr. Wilson resigned as deputy-reeve to accept the appointment as county road superintendent. He immediately undertook this work with characteristic zeal and perseverence, and in the face of strong opposition he had built short stretches of macadam road leading into Burlington, Oakville and Milton. From that year good roads grew in favor until the county has a system of roads unequalled in the province. Mr. Wilson continued in office for twenty-four years, when many of the present county roads were built under his supervision.

Surviving him is his wife, formerly Mary McColl, of Esquesing, and one daughter, Mrs. H. M. Harrison, of Toronto; also two brothers, Rev. Dr. George A. Wilson, of Vancouver, B.C., and Rev. Dr. W. A. Wilson, of Toronto; and four grandchildren. The remains were brought to his residence on Burlington Avenue, Burlington, on Thursday evening, and the funeral took place on Friday afternoon to the Hamilton mausoleum.—Free Press.

ACTON

Mrs. Robert Reid, Misses Laura and Winnifred Reid, Nellie Young, Jessie and Elsie Atkinson are enjoying a boat trip to Montreal this week.

Visitors at the home of Mr. and Mrs. J. H. Smith this week were: Mr. and Mrs. D. O. Smith, Leamington; and Mr. and Mrs. R. S. Hansford and family, New Liskeard, New Ontario.

Acton Citizens' Band has been invited to participate in a music pageant that will feature the Georgetown Old Home Week, in September.

The Mason Knitting Co. plant will be closed next week, when the entire staff have their annual vacation.

Mr. and Mrs. A. G. Clarridge wish to announce the engagement of their daughter, Eva Aileen Martin, to Grant Malcolm, eldest son of Mr. and Mrs. L. W. McMillan, the marriage to take place quietly in August.

The engagement is announced of Margaret Mae, daughter of Mrs. Emily McDonald and the late Mr. Angus McDonald, of Dolly Varden, to Edwin Hamilton Currie, son of Mrs. Robert Currie and the late Mr. Robert Currie, of Milton Heights. The marriage will take place at Milton Heights on August 7th.—Free Press.

MILTON

Mrs. John Gowland is entertaining her sisters, Mrs. John Wilson, and son Kenneth, of Detroit, and Mrs. M. B. Smith of Winnipeg.

The Misses Eileen Fry of Georgetown, and Marjorie Fry, of Milton, are visiting their uncle and aunt, Mr. and Mrs. Benj. Hodgins, Guelph, for a week.

Floyd Downs, well known thresher, who resides at Hornby, opened the threshing season in Halton County last week, when he began operations on the farm of John Humphrey, town line, Esquesing township. The crop of wheat was a bumper one and will average between 35 and 40 bushels to the acre.

While adjusting an extension ladder from a haystack on his farm, sixth line, Trafalgar township, on Saturday, Roy South fell, fracturing his right arm and injuring his left arm. He was removed, unconscious, by ambulance to Hamilton General Hospital, where it was stated he had received no head injuries.

While driving his truck about seven miles from here, on Milton-Palermo Highway, Tuesday evening, Bruce Hunt, of Hamilton, escaped injury when the truck, loaded with gravel, landed in the ditch below a culvert, 4 feet deep and smashed a telephone pole in two places. 12 feet of the pole went through the cab, missing Hunt by a few inches. After getting out of the driver's seat Hunt discovered that he had escaped with a scratch on his face. Fortunately he was not thrown out of the driver's seat. The truck was demolished, so Mr. Hunt bought a new one the next day.—Champion.

Hm-m!

He looked so downcast that his friend asked what the trouble was.

"A fellow called me a dunce," said the fellow.

"Forget it," consoled the friend. "People are always calling one another odd names—but they 'don't mean anything by it.'"

"Well, this is one time you're wrong," moaned the despondent fellow. "This one not only called me a dunce—he proved it!"

—MEN! GET VIGOR AT ONCE! NEW OSTREX Tonic Tablets contain raw oyster invigorators and other stimulants. One dose pops up organs, glands. If not delighted, maker refunds price paid—$1.25. Call or write Robb's Drug Store. tf

5,000 at Closing Program of Provincial Firemen's Convention

Key of Town Presented by James Hickey, Oldest Firemen—Will Ask Legislation Granting Right to Incorporate as Separate Units of Town—Parade and Sports a Grand Success.

W. J. Armstrong, Toronto Elected President

Nearly 5,000 firemen and visitors thronged Georgetown streets on Monday, Civic Holiday, as the four-day convention of the Ontario Provincial Volunteer Firemen came to a close with a grand parade and sports at the park. Although the attendance was not as large as that of 1932 when the annual convention was held here before, it was a great day for all concerned, and a very happy and profitable time was spent.

The 36th annual parade of the Firefighters opened on Friday morning when four officials, 37 life members and 35 delegates registered at headquarters in the Legion room. Rev. E. G. Baxter, pastor of the Georgetown Baptist Church, took charge of the brief devotional service, which opened the convention.

The key to the town was then presented to President H. J. Limbert of the Association, by James Hickey, 81-year-old veteran member of the local fire brigade, who was a lieutenant of the hook and ladder company when the brigade was organized many years ago. President Limbert, after asking the Firemen to be on their best behaviour while in Georgetown, declared the meeting open for business.

Five past presidents attending the convention were: James Gardhouse, Weston; W. H. Long, Georgetown; J. F. Little, Milton; Thomas Waumsley, Burlington, and Joe Smith, Mount Dennis.

Mayor Joseph Gibbons extended the official welcome of the citizens of the Town of Georgetown to the visitors. Friday afternoon the convention continued, when recognition for volunteer fire departments was the theme of the gathering. G. A. Thurling, Humber Bay, in giving a report of the laws and legislation committee of the association, stated that a volunteer fire department, not being an incorporated body within a municipality, cannot hold funds in its own right, should the municipal council governing such a fire department choose to attach the funds to the credit of the brigade.

Joe Sentence, Thorold South, veteran member of the association, as chairman of the special committee, declared that the association, within the near future, must take up this situation with Fire Marshal W. J. Scott, and seek legislation to grant fire companies the right of incorporating as separate units of a municipality.

"Seventy-one per cent. of the fires in Canada are handled by volunteer firemen," Sentence declared, "and it's time that the volunteer fire department received its due recognition."

W. H. Stringer, Deputy Fire Marshal, thought that municipalities were provided with legislative powers to provide for the incorporation of their respective fire-fighting units if such was the desire of the councils.

"It would be with the greatest difficulty that the Fire Marshal's office would carry on its work were it not for the co-operation of volunteer firemen such as yourselves," Deputy Marshall Stringer stated. "You are in closer contact with conditions in your respective municipalities, and through the work of volunteer fire departments, as well as of the paid firemen, there has been a constant decrease in fire losses in Ontario during the past several years.

"Even reports published in the press of serious fires showing loss of life and loss of property do not seem to make a lasting impression on the public mind. The work of the volunteer fire brigade is to prevent such fires. It should be remembered by municipal bodies when firemen ask for new and better equipment that piles of ashes do not pay taxes. Every serious fire loss detracts from the national wealth, and each of us must eventually suffer."

Fire losses in the province in 1936 were reduced by half from the losses of 1932, the speaker stated. In 1932 losses amounted to some $15,500,000, while last year they were in the neighborhood of $8,000,000.

The deputy resolved work of the Fire Marshal's office, in co-operation with fire departments over the province, into several classes. Foremost he named the apprehension of arsonists. In the past year 54 cases had been brought to court, and 37 convictions had been obtained, as compared to the remainder of the Dominion, in which only 47 charges had been laid. During the past five months, 29 charges had been laid, and 26 convictions obtained.

One of the foremost duties of the fire department, he said, was the inspection of buildings, and recommendations to councils of changes in building by-laws where such were necessary, to obviate fire hazards. Recently, such an inspection in Windsor had been instrumental in reducing fire losses in that city by 50 per cent.

Educational propaganda issued by the office of which he was a representative, Mr. Stringer declared, had reached 60,000 persons through lectures and displays of motion pictures last year. The fire departments of the province could render great service to the communities in which they were located by arranging lectures to children and adults.

On Friday evening two demonstrations were given on Main Street. A strap fire escape, invented by D. Harley, Georgetown, was demonstrated from the roof of the McGibbon Hotel, and the "fog nozzle," designed to fight oil and chemical fires, was displayed. A series of motion pictures were shown at the headquarters of the convention by the Deputy Fire Marshal.

Saturday afternoon the Firemen were taken on a sight-seeing tour of the town, later attending the Burlington-Georgetown baseball game in the park. Saturday evening was the street dance and midway on Mill St., when everyone joined with the firemen to make merry to the tune of Jack Armstrong's orchestra.

Sunday afternoon the delegates and visiting firemen, headed by the Lorne Scots Band and the Georgetown Pipe Band, paraded to the park where a community service was conducted by Rev. E. G. Baxter and Rev. W. G. O. Thompson. The address of the afternoon was given by Rev. Mr. Baxter, on the subject: "Fire—Friend and Foe." In the, evening the Lorne Scots Band presented a scared concert when a large gathering was in attendance.

Winding up the convention on Monday, a score of fire departments took part in the annual parade and demonstration, while thousands of citizens and visitors lined the street leading to the park. Led by two Highway Traffic Officers, Chief Allan Roney and marshals of the parade E. Francis and O. Herrington, the firemen formed up at the High School and paraded via the Onotalph and Main St. to the park. Companies on parade were from Stamford, Thorold South, Brampton, Baden, Merriton, Glencoe, Dunnville, Swansea, Burlington, Humber Bay, Tecumseh, New Toronto, Nork York, Petrolia, Oakville, St. Marys, Milton and Acton. Bands were present from Brampton, Petrolia, Oakville, Burlington and Thorold.

Crack drill teams representing the Burlington and Thorold Fire Departments thrilled a huge crowd at the fairgrounds in the closest competition in the history of the association. The best prize of $150 went to the Burlington department, with Thorold a close second. Burlington finished with 97½ points out of a possible 100, while Thorold was given an even 97.

The Brampton Fire Department was given the award for the best parade effect with a florally decorated float in Class A. Class B was taken by the Dunnville Department with Swansea taking second place.

Experts commented favorably on the fast times made by competitors in the hook-and-ladder drill and the rescue drill events. The former was won by Merriton, with two-fifths of a second lead over Thorold South. Glencoe was third. The rescue drill award was taken by Thorold South, with Swansea second and Stamford third.

William Smith, Chief of the Whitby Fire Department, and eighty-four years of age, took the prize for the oldest fire chief at the convention this year. Still active, Mr. Smith has over sixty years of firefighting behind him in the Whitby company.

Merriton took the first-aid competition with New Toronto second. Dr. Bateman and Mr. Jack Crawford of Georgetown were the judges.

In the hose race, North York, Merriton and Swansea teams placed in that order.

Times in the races previously mentioned are as follows: Rescue race, Thorold South, 18 3-5 seconds; Swansea, 20 seconds; Stamford, 21 seconds; Glencoe, 22 seconds; first aid, Merriton, 110 points; New Toronto, 91 points; ladder race, Merriton, Thorold South, Glencoe and Swansea tied; hose race, Nork York, 58 1-5 seconds; Merriton, 58 3-5 seconds; Swansea, 59 1-5 seconds; tug-of-war, Stamford.

Other prizes were awarded as follows: Brigade coming longest distance, Petrolia; chief coming longest distance, W. R. McDonald, Petrolia; mile bicycle race, R. Riddall, Georgetown Winged Wheelers; T. Nicol, Acton, member Georgetown Winged Wheelers; Lloyd Hall, Guelph Maple Leafs; girls bicycle race, Margaret Hoare, Mary Cummins, Georgetown Red Wings; 100 yards open, Bruth, Milton; Hobah, Thorold South; Eshleton, Stamford; chief's race, Humphreys, Glencoe; Nelson, North York; Munro, Stamford; 100 yards, firemen 30 and over, Lilley, Swansea; Humphrey, Glencoe; Pepper, Stamford.

Officers of the association elected for the coming year are as follows:

President—W. J. Armstrong, Toronto.

Vice-presidents—Walter MacDonald, Petrolia; Harold Walton, New Toronto.

Secretary—George Thurling, Humber Bay.

Treasurer—Thomas Waumsley, Burlington.

A dance was held in the Armories in the evening, when Johnny Weldon's Coronation orchestra supplied the music.

Fire Chief Allan Roney, Deputy-Chief Donald Latimer, secretaries J. Hall and Fred McCartney, and the members of the Brigade are to be complimented on the way they carried out the plans of the convention and for the success with which it was crowned.

BALLINAFAD

Mr. and Mrs. Wm. Collins of Orangeville were Sunday visitors with Mr. John McKechnie.

Mr. and Mrs. J. P. Kirkwood spent Sunday in Toronto.

Rev. A. O. W. Foreman and family visited Sunday with friends in Toronto.

Miss Lydia Snow has been engaged as teacher in Huckley Valley School.

Miss Carol Morden of Toronto was a week end visitor with Mrs. R. Shortill.

The July meeting of the W.M.S. was held at the home of Mrs. G. Thompson. After the opening devotional exercises, a very interesting talk on the life of the Disciple Thomas was given by Mrs. W. McEnery. Margeurite Kentner gave the topic from the last chapter of the study book. The meeting closed with singing and prayer. The August meeting will be held at Mrs. B. Vannatter's.

The Happy Helper's Mission Band held their July meeting in the church Thursday afternoon.

ASHGROVE

Mr. and Mrs. Thomas Giffen entertained the choir and the two Sunday School classes that Miss Ruth Giffen was connected with for the past years, on Tuesday evening, July 27th. While some of the number enjoyed croquinole, the rest of the ladies were deeply interested in making the bride's book. Following this, three short addresses were read in appreciation of her kindly and willing service; the choir presenting a Hymnary, the Senior Girls' Class a bible with her name inscribed in gold, and her own present class, a pair of silver candle holders. A salad luncheon with ice cream completed a lovely social time together, with our choir leader.

Another occasion of great interest was the trousseau tea given in honour of Miss Ruth Giffen by her sister, Mrs. Russell Hepburn, on Friday afternoon and evening, July 30th.

Those attending the McCurdy-Neill wedding at Glenallan United Church on Monday, August 2nd, from here were: Misses Zeta Graham, B. Lyons, Isabel Wrigglesworth, Ruth Giffen, Mr. Howard Wrigglesworth, Mrs. R. H. Wright and Mr. and Mrs. Earl Wilson.

AUTOS HEAD LIST OF CANADIAN KILLERS

Automobile accidents accounted for 1,313 or 21 per cent. of deaths from violence in 1936, the Dominion Bureau of Statistics reported. Violent deaths totalled 7,441, compared with 6,898 in 1935, and 6,409 in 1934. Suicides numbered 921, homicides 136, drownings 781, railway accidents 234, street car accidents 38, accidents in mines and quarries 138, and aeroplanes 16.

The rain tree is one of the seven wonders of Peru. Its huge umbrella-like leaves absorb the atmospheric moisture. In times of draught it yields from 10 to 15 gallons of water a day.

THIS AND THAT IN SPORT.

By G. "Mac" McGilvray

The Firemen's Convention held the centre of attraction during the past week and sport has not been very active.

The ball team will welcome the Acton Tanners at the park tonight and on Saturday the play-offs will start. Georgetown will meet either Burlington or Acton in the play-offs.

The Georgetown Chryslers have not shown much improvement in their last few games, and whether they can still make a run for the championship is doubtful. Down in Milton last Wednesday night, the Paper boys were forced into an 8 - 4 defeat, and again on Saturday on the home field Burlington played to the tune of 7 to 3. Lack of interest among the players and the difficulty to field a regular team, seems to be the world's serious trouble.

The standing of the Halton County League is as follows:—

	G	W	L
Milton	15	13	2
Acton	14	6	8
Burlington	14	6	8
Georgetown	15	4	11

"MAYTIME" NOW PLAYING AT THE GREGORY

Hollywood's great spectacular musical picture, Metro-Goldwyn-Mayer's "Maytime," is now the feature attraction at the Gregory Theatre, playing tonight and tomorrow night, Wednesday and Thursday, Aug. 4th and 5th.

With the glamorous Jeanette MacDonald and the picturesque Nelson Eddy re-united in the starring roles this extravagant adaption of the successful stage musical is far more beautiful than the original. That is to be expected, of course, owing to the greater resources of the screen.

Miss MacDonald and Eddy surpass their starring performances in those brilliant pictures, "Naughty Marietta," and "Rose Marie." John Barrymore is excellent as the temperamental and tragic impresario and, Lynne Carver, a lovely stranger to the screen from Kentucky, appears with Tom Brown to provide the juvenile romance.

CHURCH NEWS

Scripture Text
"By humility and the fear of the Lord are riches, and honor, and life." Prov. 22: 4.

St. George's Church

Rev. W. G. O. Thompson, Rector.
Eleventh Sunday after Trinity: Holy Communion 8 a.m. Sunday School 10 a.m. Matins 11 a.m. Evensong 7 p.m.

Sunday School and congregational picnic on Saturday, August 7th, leaving for LaSalle Park at 9.30 a.m.

St. Alban's Church, Glen Williams.
Eleventh Sunday after Trinity: Holy Communion 9.30 a.m. Sunday School 10.30 a.m.

Sunday School picnic on Saturday, Aug. 7th, joining with St. George's. Truck leaves St. Alban's at about 9.30 a.m.

Union Services
Union services of the Baptist, Presbyterian and United Churches will be held in the Presbyterian Church, at 11 a.m. and 7 p.m., conducted by the Rev. E. G. Baxter. Sunday schools will meet in their respective churches.

CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches, under date of July 29th:

General—While crop prospects have improved in Alberta and a betterment is noted in the Saskatchewan feed situation, crops over a wide area in Saskatchewan will be largely a total loss, with low yields in districts where conditions have been more favourable. Cutting has commenced in some districts of the Prairies. In Quebec and Ontario favourable growing conditions prevail generally and prospects are good. Cutting of fall wheat is well advanced in Ontario and threshing has commenced in Southern districts, with yields and quality that are variable owing to damage from excessive moisture. The Maritime Provinces have experienced continued warm weather during the past week, with benefit to all growing crops. Rain is needed in some parts but, generally, moisture conditions are good and prospects continue satisfactory. Throughout British Columbia warm, dry weather has prevailed and excellent crops of grains, vegetables and fruits are expected.

Ontario—Spring grains are ripening rapidly and cutting of early oats and barley has commenced. Hot weather and ample moisture have benefited root crops, corn, beans and tomatoes. Rains have interfered with haying operations and the quality has been lowered in many districts. A heavy crop has been stored. Pasturage is abundant. Yields of small fruits are generally heavy. A normal yield of peaches and early apples is expected, while the yield of late varieties of apples will be below average. Burley and black tobacco have been adversely affected by excessive moisture. A good quality leaf is indicated from flue-cured tobacco, and priming will shortly be general.

GLEN WILLIAMS

Miss Ethel Brennan of Milton has been visiting with her sister, Mrs. W. J. Hill, for the past week.

Mr. and Mrs. W. J. Hill, Mr. Elmer Hill and Miss Ethel Brennan spent a few days last week at Woodstock, the guests of Mr. and Mrs. Jay Marsden. They also spent a short holiday at Port Stanley.

Miss Mary Watson and Miss Peggy Taylor spent the week end with friends at Paris.

Mr. and Mrs. Arthur Beaumont were visitors over the week end at Jackson's Point, Lake Simcoe.

Harry Williams and Roy Anson returned home on Saturday after spending a holiday cycling around Orillia, Midland and Penetang.

Mr. Lindley Beaumont spent the week end at Ancaster, the guest of Mr. and Mrs. Lee Ashford.

On Thursday afternoon the Ladies' Guild of St. Alban's Church were the guests of Mr. and Mrs. Ernest Millar at their farm in Limehouse. A most pleasant afternoon was spent by all in the lovely surroundings.

On Saturday, the teachers and scholars of the United Church held their annual picnic. The scholars and their friends journeyed by truck and cars to Galt. The beautiful park held many attractions and a most enjoyable and happy day was spent by all.

Mr. and Mrs. W. A. McGilvray and Mr. and Mrs. Bruce McGilvray of Toronto spent the holiday week end with Mrs. S. McClure and Mrs. Wm. Sloan.

GREGORY THEATRE

Wednesday and Thursday, August 4 and 5

"The Ottawa Spotlight"

by Wilfrid Eggleston

Ottawa, August 3rd—In a modest, experimental way, the Canadian government is attempting to cope with the tragic problem of unemployed youth.

Many observers think this is the most deplorable after-effect of the depression. No less than 300,000 young people came to the age of responsibility during the depression era without finding steady work. They left school ambitious to find an interesting, important, part in the world of activity, and found nothing. Many of them married without ever having had a week's employment, and went on city or other municipality relief.

Though the improvement in business in the past two or three years has absorbed a fair percentage of these young people, there are still large numbers idle. Some of them only need the offer of a job to get back on their feet. Others have become 'soured' and slackened through years of enforced idleness, and need a course of training and general rehabilitation.

Last session the Dominion Government voted a million dollars as a start toward meeting this problem. Hard times were pleaded by the treasury board when this item was originally considered. The Youth Employment Committee originally wanted $7,000,000 spent on restoring Canada's young people to self-respect and steady employment. Their estimates were returned and pared down to $4,000,000. The Minister of Labor, urged to exercise economy, is said to have brought this down to $2,500,000. The treasury board, which has the final say, lopped it down to a million dollars.

(Who is Responsible?)

It is an arguable point whether the state should take over the full responsibility for the problem. Many people argue that the indirect way is best: stimulate private industry by wise fiscal policy, and it will find openings for the young people, they say.

There is, however, a good example close at hand for state assistance. The Roosevelt administration in the United States has poured out millions on this work.

Last year the estimated expenditure was $671,250,000 in the U.S.

This was all devoted to the youth angle of unemployment, spent either through the C.C.C. or the National Youth Administration.

In contrast our million dollars looks trifling. On a per capita basis Canada would have to spend $50,000,000 or more a year to put on an equivalent show.

However, the million dollars being put up by the Dominion Government is to be supplemented by another million dollars from the provincial governments. If the latter were otter off, the federal government might be disposed to raise the figure. Unfortunately, three or four of these are still only a jump from insolvency.

Agreements have already been drawn up with the four western provinces, whereby their share of the million dollars will be spent.

In the United States actual state employment for long periods has been given, as well as training of various sorts.

Used for Training

In Canada it is recognized that the modest sum will not permit of much more than a few weeks of training and apprenticeships, if the money is to be spread around where it is worst need.

Forestry work, the agricultural training of youths in the 'dried-out' areas, the training of domestic servants, mining and prospecting, and what are called 'industrial learnerships' are embraced in the program.

The Youth Employment Committee has been retained as a sub-committee of the National Employment Commission, and if Mr. Dunning is able to produce a balanced budget next year it is quite likely that the sum to be spent on the rescue and rehabilitation of the 'Lost Generation' of Canadian youth will be stepped up sharply next year.

In the United States the Civilian Conservation Corps has numbered as many as 300,000 young men, and the National Youth Administration is giving training and employment to tens of thousands more. Courses have been given in such lines as concrete construction, agriculture, automobile repairing, automobile electricity, cooking, masonry, radio servicing, photography and surveying.

HOT WEATHER HINTS

The Industrial Accident Prevention Associations of Ontario have issued the following practical suggestions, recommended by certain medical authorities, to ward off sun stroke and heat exhaustion during the summer months. We commend them to our readers, for careful perusal and practice:

Keep your skin clean.
Wear light, loose clothing.
Eat less meat and more vegetables.
Eat fruits in moderation. Don't overeat at any time.
Avoid strong alcoholic drinks.
Avoid loss of sleep, over-fatigue and worry.
Cool water plus table salt (in proportion one-fourth teaspoonful of salt to a glass of water) will assist in preventing heat exhaustion. Sodium chloride tablets for this purpose may be purchased through druggists or other supplies of first aid.

SCHOOLS REOPEN SEPTEMBER 1

Under new Department of Education regulations, schools will reopen after the summer vacation on Wednesday, September 1. Two school days later there will be another holiday, the first Monday of the month. The opening date is earlier this year in view of the fact that the first falls on a Wednesday. Had it come later in the week the classes would have been closed until Tuesday after Labor Day.
