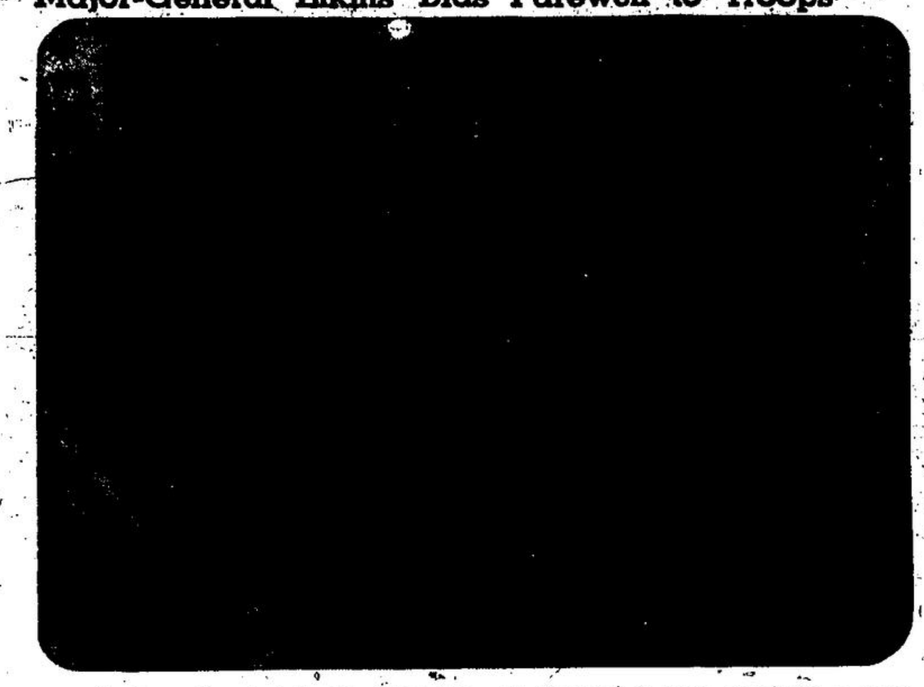
Major-General Elkins Bids Farewell to Troops



Another contingent of Canadian troops has arrived safely in Great Britain to swell the ranks of Canada's Army overseas. Major-General W. H. Elkins, General Officer Commanding the Atlantic Command, is shown above with a senior officer of the Royal Navy, inspecting one of the departing units.

. Active Service Notes .

Mrs. J. W. Hemphill received a cablegram yesterday that her husband had arrived safely overseas.

• • •

Men in uniform home last week included: Pilot Officer Ian MacKenzie, Hagersville; Flying Instructor Charles Stookford, R.C.A.F., Virden, Manitoba; Pilot Officer Ken Mackenzie, St. Hubert, Quebec; Opl. J. Hurst, St. Thomas; LAC Jim Kelly, Trenton, who is home on two weeks' leave; John J. Emmerson, E.A., R.C.N., Halifax.

• • •

Pte. J. L. Watson has "been to see the Queen." According to word received in a recent letter to his wife and family, Pte. Watson was chosen as one of two men to represent the Lorne Scots at the opening of a new club for N.C.O.'s. He was most fortunate in being placed "so close that he could touch her," as he puts it. She was wearing powder blue and displayed the gracious smile which endeared her to so many hearts on this side of the ocean, when the Royal Couple visited America in 1939.

• • •

Another Active Service list in the Herald soon. Please get in touch with the office immediately and check on the correct addresses of the men in service. Friends of men overseas and elsewhere may use these addresses for mailing Christmas parcels and letters, and you can readily see how important it is that the correct address appears in every detail.

• • •

The following bit of verse, written by Pte. B. Brown, with the Lorne Scots somewhere in England, was sent to us by Cpl. Thomas Warnes in the hope that their friends in town will write to them, and often.

A REMINDER

Please remind the people who knew us,
'Ere we left our country to roam,
That there's nothing that fortune can bring us,
As good as a letter from home.

We watch every day for the mailman,
We hope there's a letter today;
If he passes along without pausing,
We despondently wander away.

So try and send us a letter,
A word from across the foam,
For there's nothing a soldier so prays for,
So much as a letter from home.

England, October 5, 1941

The Editor,
The Georgetown Herald:

Dear Sir:

Just a few lines to let you know things are going fine over here.

The Lorne Scots have been sent out to do protective work now and are spread around the country in small detachments. There are only five Georgetown boys in this camp. The rest are made up of men who have transferred to our unit from other regiments.

We are situated in a nice part of England and there are two large towns close by which we often visit, to take in shows and other amusements.

I spent 3 days in London and had a very nice time. In some parts of the city the damage was terrific but there were lots of places that were not touched. It sure is a problem finding your way around in a blackout. I was almost run down once or twice by buses but luckily I escaped.

Our unit has just returned from a ten day scheme and we are all glad to get settled in camp again. While out on these manoeuvres we slept out in the open and believe me it gets real chilly in the wee hours of the morning now. One night Pete Tost and I were sleeping together on a little bit of a slope in some woods and I woke up, to find I had rolled down the hill in my sleep and was about ten feet from my bed. I didn't waste any time crawling back into the blankets as it was quite chilly.

We stayed two days in one lovely town where no Canadians had been before. The people were very kind to us. We were on guard at a large school while we were there, and every morning about five or six o'clock the ladies would bring us out hot tea and cake. It sure was a swell place. The children just swarmed over our camp which was just on the edge of the town. They were there first thing in the mornings and last thing at night. This kept us quite busy signing autographs and looking for souvenirs.

While on our way back, the truck we were in broke down right in another nice town, so we had to stay overnight there. We had a nice time there and next day proceeded on our way home after the truck had been repaired. I forgot to mention that while our truck was being towed to the garage we had to ride in another truck, and to our surprise there were three lovely chickens in the back of it. They looked so good that we took them along with us. (Roast chicken) and was it good.

Well, I must close for now, as it is almost time for lights out. I hope you will be able to make some sense out of this jumble of words. So long for now and the best of luck.

Sincerely yours,
(Pte.) STEVE EMMERSON.

Lorne Scots Det.
Canadian Army Overseas.

Below is a letter recently received by Branch 120, Canadian Legion:

Dear Comrades:

The Post Office authorities recently turned over to me a parcel which you had sent to Sapper G. Gillevet, who has since returned to Canada. As you know your alternative address was "Any Chaplain of the Canadian Forces."

I got in touch with the Garage here at Headquarters, and found that there were a number of drivers who have not received any parcels from Canada, so I turned your parcel over to Driver J. S. Thomson, of Calgary, who was highly delighted to receive it.

I appreciate your thoughtfulness in putting an alternative address, and shall be glad to look after any similar parcels from your Branch.

Sincerely yours,
(W. T. R. Flemington) Lt.-Col.
Assistant Principal Chaplain (P.)

Canadian Military Headquarters,
Chaplain to Sackville Branch,
(N.B. Command).

HALTON FOAL BOYS WIN PROVINCIAL HONOURS

The Provincial Inter-Club Competitions were held at the Ontario Agricultural College on Friday of last week. One hundred and fifty teams of two club members each from Renfrew and Glengarry in the east to Lambton in the west and Cochrane District in the north participated in this annual event. In all slightly over 300 club members were in action and represented upwards of 5000 club members enrolled in various club projects during the past year.

In the Foal Club Project, the Halton team composed of Donald Peer and Gordon Rodney both of Milton topped the list winning the Ontario Horse Breeders trophy for 1941. Incidentally, Donald Peer added to his achievements at the C.N.E. by being high boy of the entire competition and his teammate, Gordon Rodney, placed third.

Halton was also represented in Dairy Cattle and Grain Club projects and these teams all placed well up in the money. The team members from Halton in these latter projects were as follows: Milton Holstein Calf Club — Ward Brownridge and Robert Alexander, both of Georgetown; Halton Jersey and Guernsey Club—Eddie Robinson, Milton, and Bev Ella, of Rockwood; Nelson Grain Club—Fred Bell, Freeman, and Alan Powrie, Palermo.

Our congratulations are extended to these young men on the honours which they won for the County of Halton.

LOCAL CAR DEALER REPORTS EXTENT OF FORD WAR WORK

Mr. A. E. Cripps, local Ford dealer, spent Wednesday in Toronto attending a general meeting of Ford dealers of the company's Toronto branch territory which includes the greater part of Ontario and adjacent points in North Western Quebec.

Mr. Cripps is enthusiastic about the 1942 Ford and Mercury cars which he claims are the finest his company has ever produced.

"Of course, with the company's manufacturing plant so extensively engaged in war work, the supply of new cars will be drastically curtailed. However, the new models are designed, built and styled for long life and economical service," said Mr. Cripps.

In addition to having a preview of the new cars, Mr. Cripps heard addresses by R. M. Sale and E. F. Millard, company executives from Windsor, Ontario, and saw a motion picture showing the extent of war production in the great Ford plant at Windsor. Nearly 13,000 workers are busy day and night producing equipment for Empire armies.

"The Ford Company of Canada is the largest single source of military automotive equipment in the British Empire and has already supplied our fighting men with more than 100,000 fighting machines.

"Ford in the United States is now producing 1,850 and 2,000 horsepower engines for war planes. There is also a mammoth bomber plant nearing completion for the production of B-24D bombers, and plans are underway for the production of medium and heavy tanks in Ford's immense Rouge plant in Detroit," Mr. Cripps reports.

NEW ADVERTISEMENTS
