General News Items.

BROWN V. BERRY.—The libel suit of Brownvs. Berry has been postponed till the Autumn Assizes, Mr. Berry having made oath that an important witness was absent, and consenting to pay all the cost.

PROVINCIAL FINANCES.—Mr. Galt admits a deficiency for the past year amounting to one million and a half of dollars. New taxes are to be imposed. Retrenchment is not mentioned. What a splendid financier Mr. Galt is; what an admirable government presides over this Province!

PROPERTY QUALIFICATION.—Mr. Hunt has brought in a bill to abolish the real qualification now required from members of the Legislative Assembly.

The Emperor Napoleon, according to latest accounts, will positively visit the International Exhibition. Six vessels will be sent to Cherbourg to escort him to the shores of England.

Since the duel between the Merrimac and Monitor, more than a thousand plans for the destruction of the Confederate monster, have been submitted to the navy department.

An insane person may lie to thee and yet be innocent, and thou mayst lie to him and be praiseworthy. Now all persons are somewhat insane, but do thou beware of lying, as a general rule.

Dr. Reed, the Philanthropist, lately deceased in England, has left a sum of money to form a fund, the interest of which is to be devoted for ever to buying toys as Christmas gifts for the orphan children in an asylum at Wanstead.

Col. L. D. Campbell has tendered the chaplaincy of his regiment—the 69th Ohio—to Parson Brownlow. The Parson has accepted, and says he will pray and preach to the regiment till they reach Tennessee, when he intends to have a hand in any fight which they may be engaged in.

EXTRAORDINARY FANATICISM.—An act of extraordinary fanaticism was committed at Detmold, Westphalia, last week. A father killed his son, a youth of 17, and after cutting off his head, laid the body on a pile of wood to which he was about to set fire, when some persons saw what he had done seized him. He declared that he had done nothing wrong in thus offering up his only son a sacrifice to the Lord as Abraham was commanded to do.

"THE INDEPENDENT MEN."—The British Whig hits off "the independent men" to the life. It says: "The independent men" are ever the most presuming, and even the most easy to be bought, in spite of their strenuous declarations to the contrary. A Conservative supports a ministry from principle, and a Grit opposes it from conviction; but the middle man goes into public for the express purpose of putting his 'principle' up to the highest bidder, and is a deeply injured man if they are not purchased at the price he demands.

A REVOLUTION IN MASONRY WORK.—There is now in process of completion, in the establishment of the Messrs. Munro, founders and engineers, Arbroath, a machine which, it is believed, will entirely revolutionize the mason work of the present day. Mr. Hunter, formerly of Caysmill, and now of Dean Forest the inventor of the stone planeing and patent ridge dressing machines, has invented another so elaborate in its motion that it will perform with speed, accuracy, and regularity of finish, nearly the whole of the mason work—hewing, dressing, &c.—now executed by hand previous to the operation of building. It will plane dress, and poll h stones, work our checked rabbets and window-sill, and do almost everything appertaining to stone masonry, giving to ashler work an augmentation quite unique.

THEIR TROUBLES BEGINNING.—A Western correspondent of the Chicago times say that sickness is increasing greatly in the Federal army, and is destined to become a very serious matter. The men are said to suffer greatly and are fast filling the hospitals. He also says: "The weakening effect of the malady cannot be imagined. It is virulent in its attacks, and makes quick work of the victim. A few day's continuance to it makes it chronic, and then typhoid fever sets in, and if life is saved, it is only by months of suffering and weakness. It is destined to prove the scourge of the army. There are five thousand men from Gen. Grant's army in the Cairo and Mound city hospitals from this malady alone."

EMIGRATION RETURNS.—The Emigration officials of this town have just made up their usual quarterly return of the number of passengers having Liverpool for the United States and British Colonies. The number of emigrants has materially decreased since the same period last year, the number being:—Emigration from Liverpool for the March quarter of 1861, 11,027 passengers; emigration for the quarter just ended, 6981—showing the enormous decrease of 4036 for the present year. During the past month there left the Mersey for the United States 515 English, 1362 Irish, 18 Scotch, and 90 foreign emigrants; and for Victoria, 258 English, 264 Irish, 7 Scotch, and 9 foreign passengers. The emigrants from Ireland consisted chiefly of fine athletic young men and women.—Liverpool Paper.

EXTRAORDINARY MARRIAGE.—A most extraordinary marriage took place last week in Sheffield, the young woman who was united in the bonds of matrimony being literally without legs. She was of intelligent appearance, and appeared not to suffer in health from her extraordinary deprivation, which she has endured from her birth. She wore a long dress like an ordinary woman, the dress trailing behind her. She walked with her hands, the right one being protected with a boot, and the other holding a short stick. She lives at a village near Sheffield; and the young fellow who has wooed and won her is a stout, hearty, and rather good looking man. When the ceremony was performed she took off her boot to have her hand joined to her husband. After they were married it was found that a crowd had collected outside the church; and as the cab was drawn up some distance from the door, and it was feared the crowd might be annoying, the man took up his bride in his arms and carried her to the vehicle.—Sheffield Times.

ANOTHER MONSTER CANNON CAST.—On Saturday morning, another fifteen inch Rodman gun was cast at the Fort Pitt works. The rough casting in the pit weighs about 78,000 pounds, and nearly forty tons of metal were melted for the purpose, in three furnaces. The furnaces were fired at about five o'clock, and at eight minutes past ten the first furnace was "tapped." A line of troughs or runners had been laid from the further furnace, some eighty feet, the second about midway, joining in, and the two streams emptying with that from the first furnace into a large caudron at the edge of the pit, from which two streams diverged, and passing around the pit and emptied into the gun on opposite sides of the core barrel. The furnaces were tapped in succession, and nearly all the metal allowed to run out before the next in order was opened. At twenty four minutes past ten the mould was filled, in just sixteen minutes from the opening of the first furnace, showing that the metal must have poured into it at the rate of nearly two and a half tons per minute. This is the third successful casting made of fifteen inch guns, and the work will soon be regarded as an every day performance, each successive casting having been made with less trouble than the preceeding one. The gun will be finished with all possible expedition, and, like the others, sent to Washington for its christening. As Floyd's unlucky name has given place to the more popular ode of the president, we suggest for the new gun the name of the present War Secretary, Stanton.—Pittsburg Dispatch.

MILTON

FOUNDRY!

THE SUBSCRIBER, HAVING LEASED this Foundry for the present year begs to announce to the Public that he is manufacturing largely the various IMPLEMENTS enumerated below.

THE
KIRBY
HARVESTER!
is a
COMBIN'D REAPER & MOWER

of the most approved construction. Being almost entirely of IRON, very compact, simple and of great strength, it must be durable. The Guards can be removed with ease, being BOLTED to a Wrought Iron Finger Board. If any should break they can be replaced whilst the machine is in the field, in a few minutes. In ten minutes it can be changed from a Mower to a Reaper, and the Reel can be used for both operations.

ONE IMPORTANT FEATURE.

It has NO SIDE DRAUGHT, and the weight of both Driver and the Raker bears immediately over the driving wheel. It will pass with ease through any ordinary gate, and it has taken more prizes since it has been in operation than any other machine in the United States, and toko the first Prize at the County Show last Fall, in Milton, which was open for Combined Machines to the Province, and for which the St. Georges Machine competed, which took the First Prize at the Provincial Show. Several were in operation in the vicinity of Milton during the Harvest. References can be given with regard to the excellence of their operation.

SEPARATORS
AND
HORSE POWERS

The extraordinary success of those Machines during the last season, needs no comment. They have been in operation in various parts of the County, and Threshers are unqualified in their praise. They will Thresh more and clean better than any other machine in the Province. The SHOE is warranted not to choke, no matter how much grain is put through. Enquire of the Farmers in whose barns they have been, and of the threshers who have purchased them.

THE
CULTIVATOR
has been
Still Further Improved,
and is now a most efficient implement, easy of draught, and will cultivate to a depth of six inches.

THE BLADES
cross each other to such an extent, that it is impossible for thistles or other noxious weeds to escape being effectually cut up.

PLOUGHS
Every useful variety of
PLOUGH PATTERNS
always on hand, but our efforts have been more especially directed to the development of the celebrated
"MODELAND PLOUGH."
Our Iron Headed Metallic Standard Modeland Plough, stands confessedly unequalled by any other in the Province. We would call attention to the fact, that an Inferior Plough to this,
MANUFACTURED AT THIS FOUNDRY!!
took the
Second Prize!
A Bronze Medal, at the
Worlds Exhibition in Paris.
A number 1 scontinually on hand, ready for delivery.

CIRCULAR SAWS!

Wanzer&Co's

CROPER
FIRST PRIZE
WHEELER & WILSON
AND
SINGER
PREMIUM
SEWING MACHINES.

THE ONLY PRIZE awarded for Family Sewing Machines by the Judges at the Provincial Exhibition, held in London, Sept. 24th, 25th, 26th and 27th, 1861, was given to R. M. WANZER & CO'S Wheeler & Wilson.
The first Extra Prize was also given for their No's. 1 & 2 Singers, Manufacturing Machines.
Prizes of a similar character were also awarded Wanzer & Co's Wheeler & Wilson and Wanzer & Co's Singer Machines over all others, by the Board of Arts and Manufactures, at the Mechanic's Institute, Toronto.
They also took First Extra Prizes at the several County Agricultural Fairs,—at Hamilton, Paris, Galt, St. Thomas, Beamsville, Whitby, Cobourg, Bowmanville; in fact, in every place where they have been exhibited.
Wanzer & Co's Wheeler & Wilson, and Wanzer & Co's Singer, EXCEL any Machines that were ever manufactured in the United States or Canada.
Some parties from the States have been importing some fine looking, externally, Wheeler & Wilson Machines, and claim to have received some prizes on them, which we will exchange for by them paying $25 cash, difference, thus saving the owner of the imported Machines the annoyance and expense of continually sending their machines to the States for repairs. The fact is out—as good Sewing Machines are being built and sold in Canada by
R. M. WANZER & CO.,
As ever were manufactured in the United States.
All genuine Wanzer & Co's Sewing Machines bear the stamp of R. M. Wanzer & Co Hamilton, on the plate.

MATHEWS'
VENETIAN LIQUID
HAIR DYE.

This celebrated Dye was first prepared in 1845; since that time it has been Used by Thousands, and in no instance has it failed to give perfect satisfaction.

The Venetian Dye
Is the cheapest in the world. Its price is only Fifty Cents, and each bottle contains Double the Quantity of Dye contained in those usually sold for One Dollar.

THE VENETIAN DYE
Is the safest composition of its class. It is warranted not to injure the hair, or the scalp in the slightest degree.

THE VENETIAN DYE
Works with rapidity and certainty. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE
Produces any shade that may be desired—one that will not fade, crock, nor wash out; one that is as permanent as the hair itself.

THE VENETIAN DYE
Does not in any manner, interfere with the natural softness of the hair; it neither scorches nor dries it.

THE VENETIAN DYE
Is the best, cheapest, safest, and most convenient, most successful, and most permanent Dye ever used.

THE VENETIAN DYE
Having gained an extended reputation, the public are Cautioned against purchasing any prepared in the same style, under the same or different name, as they are mere imitations, and liable to do injury.
