ARRIVAL OF THE CITY OF NEW YORK.

Cape Race, May 31.

The steamship City of New York from Liverpool 21st inst., via Queenstown 22nd passed here at 1 o'clock p. m. The North American from Quebec arrived out on the 20th; the City of Washington from New York on the 21st.

News not important.

Hesse Cassel has rejected Prussia's ultimatum, and diplomatic relations have been suspended.

Disraeli had re-asserted in the House of Commons that a rivalry existed at Washington, between Lord Lyons and M. Mercier.—Lord Palmerston emphatically contradicted it.

The Times treats the retreat from Yorktown as a great reverse to the Confederates, and says if Richmond is captured it will be a tremendous victory for the Federals. It metaphorically enlarges upon the difficulties that must arise in governing the South when the Federals by continued victories have brought the Secessionists within their power.

The Bank of England has increased its minimum rate of interest to 3 per cent.

LATEST.

The London Post thinks the present the time for compromise. It thinks the war is virtually over.

Earl Russell, in submitting the new treaty with America on the slave trade, to the House of Lords, bore testimony to the efforts of President Lincoln's Government to put a stop to the traffic.

Which took the 1st Prize at the last Provincial Exhibitions for both Upper and Lower Canada. These Cultivators have been patented by the manufacturer, Mr. H. Collard, of Ganonoque, and are great favorites with Agriculturists. They may be set to cultivate from 2 to 10 inches deep; and a span of Horses can work one of them at a depth of 6 inches in stiff clay soil, (either Fall ploughed or stubble,) with about the same ease as they could plough the same land. They are warranted to give entire satisfaction, and are sold at the lowest possible prices for cash or approved notes. One of them might be seen at Mr. J. S. Bessey's, Esquesing, or at Mr. Joseph Hunter's, of Mount Pleasant, or at the Subscriber's store, in the course of a few days. Also Collard's Patent Horse Hoe, one of which may be seen at their Saddle and Harness Depot. Farmers, now is the time to send in your orders.

CLOTH DRESSING
Cash Paid
FOR WOOL!
THE Subscriber will pay, during the Season the highest Market Price for any quantity of Wool delivered at the
OLD ESQUESING
WOOLLEN MILLS
Georgetown.
We have now fitted up, in good order
Three Double Carding MACHINES
which will turn out Rolls that can be spun into good Yarn, and will endeavor to give customers, from a distance, their rolls home with them the same day.
CLOTH DRESS'D
with neatness and despatch. We keep on hand, of our own Manufacture, (from the Streetsville Factory,) a Large assortment of
ALL WOOL CLOTHS!
AND
Canadian TWEEDS,
of the newest Styles and Latest Patterns, which will be found equal to any Goods of the kind ever made in this Province. Also,
SATINETTS, UNION TWEEDS, FLANNELS AND BLANKETS,
Which will be exchanged for Wool, to persons requiring such articles, at Cash Prices.
As Wool has now become an important article in the Market, we hope Growers will take the necessary pains to make it a marketable commodity. This is to be done by WASHING THE WOOL well clearing, and allowing the Sheep to run in a clean grass field until the Wool becomes perfectly dry. Cut off the Tag Locks, and do each Fleece up separately; tie it with a piece of twine, and put it away in a clean place, free from any seed and straw, until convenient to send it to Market. Wool done up thus will command the highest price. As we are now manufacturing a better class of goods from Wool (which is not grown in the country to any extent,) we are compelled to send the money, which should be circulated amongst ourselves, out of the country, to buy the quality of Wool required. We would now say to Farmers who have flocks of Merino Sheep that, if they will wash their wool clean and put it up in good shape, we will pay a price in proportion to quality.
N. B. Particular attention paid to the Carding of Rolls. No Credit for sums under $1.00.
