DEFERRED ITEMS.

An anti-tobacco society has been formed in Elora.

A Corn Exchange was to have been opened in Montreal.

On Monday £5,000 were remitted to the Lord Mayor of London, by the Committee of the British Relief Fund in Montreal.

The auditors of the Great Western Railway have resigned. They refused to pass the accounts, which they did not consider would warrant the declaration of the proposed dividend of 1½ per cent.

All the Confederate infantry and artillery have left Western Virginia, after having secured large quantities of salt from the wells in the valley.

The last advices from Europe, says the Tribune, renders it morally certain that France and Great Britain will recognize the Southern Confederacy on or about the 1st of January next, provided the situation remains unchanged till that time.

The pretty Jewess, Charlotte Werder, who sued for $10,000 damages for breach of promise, was accorded six cents and cost by a heartless New York Jury.

It is said that Mr. J. H. Cameron has designs on the County of Peel, and will attend a dinner which is to be given in Stratford on the 30th inst.

INTERCOLONIAL RAILWAY.—The Hon. Mr. Howe and the Hon. Mr. Tilley, delegates, respectively, from Nova Scotia and New Brunswick sailed from Halifax on Thursday, for England, to communicate with the British Government on the subject of an Intercolonial Railway. The Quebec Mercury believes that they will be followed in a few days by a delegate from the Government of Canada.

It is said that we are to have soon, from a tried and competent historian, a volume of history, in which some 1,300 letters of John Knox, never before published, will be made the basis on Scotish affairs.

An important case has just been tried at Brantford, before Mr. Justice Richards an action having been brought against Dr. E. T. Bown for alleged malpractice in setting a fractured thigh. The damages were laid at $4,000. A verdict for $800 was obtained. The medical evidence was very contradictory, and the verdict seems scarcely justified by the testimony.

The number of rifles lately forwarded to this Province, from England, are estimated to be no less than two hundred thousand.

There are not less than two hundred thousand men, in the Union Armies to day, of Irish birth or lineage,—according to the N. Y. Talbet.

The Quebecers are feeling the first effects of the winter. Snow has already fallen on both banks of the lower St. Lawrence.

It is said that Messrs. Sicotte and Howland will be the two delegates sent to London to negotiate the Railway matter.

Mr. Wm. Cornell of the village of Otterville, was stopped by a highwayman near the door of his own house, and a pistol presented at his head with a demand to deliver up his money. Mr. Cornpell gave the robber his pocket book and a bundle which he had under his arm, but as neither of them contained money they were returned to him. A buggy coming along the highwayman made off, and subsequent search was unable to find him in the village.

COUNTERFEIT BANK NOTES.—The public are warned against counterfeit $5 notes on the Montreal Bank. They are well executed, and calculated to deceive the uninitiated. These counterfeits have been detected in Kingston and London, and it is probable that they may be attempted to be circulated in this vicinity. The London Prototype says that the counterfeits are signed "G. Brown." Look out for them.

A MODEL COUNCILLOR.—The St. John's Globe says, that, at the Civic election in Halifax, on the 1st October, there were three candidates for the representation of Ward No. 5. Two of them appeared to have been good enough, but the successful candidate, the one that 'took with the crowd,' possessed such a character as a law-breaker, that the Council very properly refused to allow him to take his seat, and a new election has been ordered. It was shown in evidence before the Council that this person had in the last six years been "up" before the Mayor ten times, (twice in July last,) for drunkenness, abusive language, assault etc.

THE 100TH (CANADIANS).—On the 9th of August, the whole of the troops in garrison at Gibraltar were paraded on the North Front to witness the presentation of the Victoria Cross for gallant service in the field to Capt H. G. Browne. Sir W. Codrington, K.C.B., the Governor, surrounded by his staff presented to Capt. Brown this special token of honour from his Sovereign. A numerous Company from the Rock had been attracted to the North Front to witness the spectacle, and the scene was further enlivened by the presence of the officers and men of the 81st French regt., who were at the time encamped outside the gates. To them, as soldiers the public recognition of galant conduct would from professional sympathy, be a matter of greater interest even than to the general body of spectators. The service for which this decoration has been conferred is officially recorded as follows:—"For conspicuous bravery in having, on August 21st, 1857, during the seige of Lucknown, gallantly led a sortie, at great personal risk, to spike two heavy guns which were doing considerable damage to the defences. On reaching the battery, Capt. Browne removed the shutters and jumped into it. The result was that the guns were spiked and a hundred of the enemy killed.

The Hamilton Spectator says:—The business transactions at the custom house in this city during the past month has, we understand been unprecedentedly large. Upward of nine hundred entries have been made, covering nearly twenty thousand packages of merchandize, of an aggregate value of about $825,000—the duty collected being $104,982. Our wholesale merchants have evidently anticipated an unusually brisk fall trade, and from all we can learn, their hopes are likely to be fully realized.

MILTON FALL FAIR.

THE Fall Fair will be held in the town of Milton, on

Friday, the 7th of November next,

for the purpose of trading and disposing of all kinds of Farm stock, &c.

Those interested are requested to attend and bring everything with them that they are anxious to dispose of. Butchers and others from a distance are expected to be in attendance to purchase Fat and other Stock.

A TROTTING MATCH,

for a considerable sum of money is to take place during the afternoon of the Fair day, open to all horses that has never won a race. A race between "Lady Fidget" and "Morgan Crewson" will also take place during the afternoon. Other Running Horses can go in for short heats.

MILTON

FOUNDRY!

THE SUBSCRIBER, HAVING LEASED the Foundry in the present year, begs to announce to the Public that he is manufacturing largely the various IMPLEMENTS enumerated below.

THE

KIRBY HARVESTER!

COMBIN'D REAPER & MOWER

of the most approved construction. Being almost entirely of IRON, very compact, simple and of great strength, it must be durable. The Guards can be removed with ease, being BOLTED to a Wrought Iron Finger Board. If one should break they can be replaced whilst the machine is in the field, in a few minutes. In ten minutes it can be changed from a Mower to a Reaper, and the Reel can be used for both operations.

ONE IMPORTANT FEATURE.

It has NO SIDE DRAUGHT, and the weight of both Driver and the Raker bears immediately over the driving wheel. It will pass with ease through any ordinary gate, and it has taken more prizes since it has been in operation than any other machine in the United States, and took the first Prize at the County Show last Fall, in Milton, which was open for Combined Machines to the Province, and for which the St. Georges Machine competed, which took the First Prize at the Provincial Show. Several were in operation in the vicinity of Milton during the Harvest. References can be given with regard to the excellence of their operation,

SEPARATORS

AND

HORSE POWERS

The extraordinary success of of those Machines during the last season, needs no comment. They have been in operation in various parts of the County, and Threshers are unqualified in their praise. They will Thrash more and clean better than any other machine in the Province. The SHOE is warranted not to choke, no matter how much grain is put through. Enquire of the Farmers in whose barns they have been, and of the thrashers who have purchased them.

THE

CULTIVATOR

has been

Still Further Improved,

and is now a most efficient implement, easy of draught, and will cultivate to a depth of six inches.

THE BLADES

cross each other to such an extent, that it is impossible for thistles or other noxious weeds to escape being effectually cut up.

PLOUGHS

Every useful variety of

PLOUGH PATTERNS

always on hand, but our efforts have been more especially directed to the development of the celebrated

"MODELAND PLOUGH."

Our Iron Headed Metallic Standard Modeland Plough, stands confessedly unequalled by any other in the Province. We would call attention to the fact, that an Inferior Plough to this,

MANUFACTURED AT THIS FOUNDRY!!

took the

Second Prize!

A Bronze Medal, at the

GOOD NEWS FOR ALL!

The fears of the Farmers were groundless and vain,
Through the long dreary drought they longed for the rain,
And many were sad, and they said it was plain
That the Hay had quite failed, and so would the grain.

But the rain came at last, and faces looked bright,
The fields looked refreshed—'twas a beautiful sight,
And the grain now is harvested safely in store,
word to the farmers,—be doubtful no more.

Expecting this Season to have a large Trade,
At the New Brick Store vast preparations are made;
Abundance of Goods in every New Class,
Are bought with a view of suiting the Mass.

There are Mantles & Bonnets, and Blankets & Tweeds,
In Dry Goods there is all that a Family needs,
There are Sugars and Teas, and the many things more—
Find your way then at once to the New Brick Store!
