Every railroad that leads to a watering place is now a grand trunk railroad.

A wag on hearing that a man had given up chimney sweeping expressed surprise, as he thought the business sooted him,

Why is an editor's life like the Book of Revelations? Because it is full of "types" and shadows, and a mighty voice like the sound of many waters, is ever saying to him—WRITE.

"How rapidly they build houses now," said Cornelius to an old acquaintance, as he pointed to a two story house; 'they commenced that building only last week, and they are already putting in the lights." 'Yes," replied his friend, 'and next week they will put in the liver.'

NAUGHTY BOY.—During the recent session of the Teacher's Institute in Rutland County, while Professor Adams was endeavouring to illustrate the manner of teaching arithmetic, he took up a small globe standing on the desk and asked:—'How many units in the globe? Answer—One.' Taking up his hat, 'How many units in my hat.' Answer, (by a naughty boy in the audience) 'Shake it and see!' The Professor was taken down.—Rutland Herald.

Much anxiety is being felt for the harvesting of crops in the Lower Provinces. It is certain that most descriptions of agricultural produce have already suffered severely in Nova Scotia. Large quantities of hay have been destroyed or imperfectly housed in consequence of continuous rains. In some sections of the country a better state of things has resulted. We learn that the crops will be above an average in Guysborough In all parts of the province potatoes will scarcely yield half, as compared with former years. Accounts from Prince Edward's Island are more favorable.

A SOFT ANSWER TURNETH AWAY WRATH.—It is related that recently in a sleeping car coming from the West, a man in one of the berths became greatly annoyed by the crying of an infant and the efforts of its father to pacify it. The irate individual at last shouted—"What the devil is the matter with that young one?" And soon again: "Where is the mother of that child, that she is not here to pacify it?" At this the poor gentleman in charge of the child, stepped up to the berth and said: "Sir, the mother of that child is in her coffin in the baggage car!" The grumbler immediately arose and compelled the afflicted father to retire to his berth, and from that time till morning took the orphan under his own care.

THE LEADING DRY GOODS HOUSE

IN THE

Counties of Halton, Peel and Wellington

ESTABLISHED IN GEORGETOWN,

Continues to be the CENTRE OF ATTRACTION in that famed Town, which is proverbial through the above named Counties for the magnificent displays of

STAPLE & FANCY DRY GOODS

And especially the extraordinary LOW PRICES of the same.

BARCLAY & M'LEOD

OF THE

MAMMOTH HOUSE,

Beg to acquaint the public that their Buyer has returned from Europe where he, in consequence of the depressed state of the market on account of the war in Germany, purchased an immense stock of goods at such low figures as will enable them to offer advantages to their patrons unapproachable by any other house in his section of the country. It would be impossible to enumerate the stock, or give any adequate idea of the variety or extent of the different departments. Suffice it to say that they have

Piles of the Most Fashionable Dress Goods in Canada,

Piles upon piles of Prints, Cases of new Autumn Delaines, Bales of new white and scarlet Flannels, Cases of new Winceys of all colors, Bales of Carpetings and Silk Mixtures, and an immense stock of white and grey Cottons, Hollands, Tweedings, Linens, Grain Bags and Bagging, &c., &c. Three of the Departments they call special attention to. First, the extensive Show Room up-stairs containing Millinery, Mantles, Shawls, Bonnets, Hats, Ribbons, Flowers, Feathers, Head Dresses, Mantle Ornaments, &c., &c. This Department is replete with every new design, with several novalties exclusively their own and is superintended by unrivalled milliners. Second.—The Ready-Made and Ordered Clothing Department. Ready-Made Clothing, Five Thousand Fall and Winter Suits, from Three to Thirty Dollars. One Thousand Seven Hundred and Fifty Sack and Frock Over Coats from Two and a half to Twenty-five Dollars. Ordered Clothing. Having spared neither time nor expense in bringing this extensive branch of their trade to its present unequalled popularity, and having secured the services of first-class cutters and workmen who act with promptness and energy; also, keeping constantly on hand substantial first class goods, they offer the greatest inducements ever presented to the discriminating public. An immense stock of Hats and Caps in every conceivable style. Third,—Carpets. In order to reduce the immense stock on hand, they will be sold at cost for cash only. Boots and Shoes. Having concluded a contract with a first class manufacturer's firm, they are enabled to sell those goods at manufacturers prices, which gives them an advantage which no other house can compete with.

B. & McL. in returning sincere thanks for the liberal and unparalleled patronage extended to them the season just closed, would call attention to two immense advantages they possess for the public benefit, viz.—Purchasing goods direct from the manufacturers in Europe, thereby saving the wholesale merchants profits, and paying cash for them, the discount of which enables them to sell twenty five per cent cheaper than any other house west of Montreal.

Inspection is Respectfully Invited.
