LOCAL INTELLIGENCE.

ROBERT MENZIES, of Nassageweya, left at our office yesterday, a specimen of clover, 5 feet 10 inches in height.

WE observed on Monday last several cutting wheat in Nelson. The wheat is secured in good condition.

THE Annual Convention of the Teachers' Association of Ontario, will commence at 3 p. m., on Monday next, in Toronto, and continue four days.

IN our account of the death by lightning of Mr. Angus Currie, we stated that he was a son of Duncan Currie, of *Caledon*. It should have been of *Erin*.

MR. YOUNG, of Oakville, publishes this week his card, as Issuer of Marriage Licenses. Bachelors will please make a note of it; they will find Mr. Young ever ready and willing to put them out of misery.

J. B. WILLMOTT, Druggist, of this Town, has now in stock a complete assortment of Dye Stuffs of the very best quality, and as usual, at very low prices. He is also offering a tip-top Machine Oil for reapers and threshing machines, at 50cts. per gallon.

On Tuesday afternoon of last week, Mrs. Camp, a resident of Bronte, was accidentally shot through the left arm below the elbow. The shot was extracted and the wound dressed by Dr. Burkholder, of Palermo. Patient is doing well.

THE attention of our readers is called the new advertisement of Riach Bros., Bronte. They have lately added a millinery and dress-making department to their business, and have secured the services of Miss L. Tolmie (from Toronto,) for that branch.

A LECTURE will be delivered in the Temperance Hall, Milton, by the Rev. D. Stewart, on Wednesday evening, 4th of August, on the subject, "Mary, Queen of Scots." Admission, 10cts.—Proceeds to be applied to help in fitting up the hall. Doors open at 7:30—lecture to commence at 8 o'clock sharp.

SUGARS.—G Smith is now receiving a choice lot of Sugars, Teas, Tobaccos, &c., and is selling them at low prices. 12 lbs. Rasins for $1; 20 lbs. Currants for $1; tip-top Tea, $1 per lb,; Old Rye and Common Whiskeys for harvest, as usual, the best and cheapest in town.

On Wednesday afternoon, as Mr. A. McCay, son of Capt. McCay, was in the act of taking his gun from his boat, its contents passed completely through the fleshy part of his right arm above the elbow. Dr. Wright, of Oakville, dressed the wound which is now doing very well.

WE have received the *New Dominion Monthly* for August. It is fast becoming popular throughout the Dominion, and deserves encouragement, both on account of its being a Canadian publication, and for the interesting reading matter it contains. Published by John Dougall & Son, 126 Great St. James St., Montreal.

WE have received an advertisement of the EMPIRE GIFT COMPANY, but decline to insert it, as we believe this to be nothing more nor less than a Yankee swindle. We strongly advise our reader not to be foolish enough to send any money to these people, as in all probability they would only serve to verify the old saying, "A fool and his money are soon parted."

The Sabbath School picnic, held in the grove of J. Hixon, Esq., in Bronte, was quite a success. About 250 children and parents, met on the afternoon of Thursday last, and after enjoying good cheer from the various baskets, scattered to various amusements, such as boating, swings, croquet, and those who did not desire active pleasures, passed the remainder of the day in chit-chat.

BOOTS AND SHOES.—G. Smith has determined to sell off his present stock of Boots and Shoes at reduced prices. Women's Prunella Boots for $1 per pair. In crockery you will find his prices very low; White Stone Cups and Saucers 80 cts. per doz., usually sold for $1.20; odd Basins, Chambers and Ewers always on hand, Glass-ware and China Tea Setts cheaper than ever.—give him a call.

AN application for bail was made before Mr. Justice Morrison, in the case of Sterling, of Streetsville, now in custody on a charge of rape. A petition was presented by his counsel, Dr. McMichael, signed by twenty-five magistrates. D. B Read, Q. C., for the Attorney General, opposed the application. His Lordship said that the Grand Jury had found a true bill against the prisoner for a capital offence and in such cases he did not feel inclined to admit a prisoner to bail. If a Habeas Corpus would be procured, that would be the proper remedy if the evidence against the prisoner is not sufficient to establish the offence. He would refuse to entertain the application without the consent of the Attorney General.

A false report as to the seizure of the stock of goods lately imported from England, by Mr. White, of Kilbride, has been industriously circulated. On enquiring, we find that there is not the slightest truth in it, not a dollar's worth having been withheld, although the strictest scrutiny was made by the Customs' Officers, who had been kindly told by Mr. White's *friends* to look sharply into the matter. The goods are now at Kilbride, and having been bought at a great advantage, will be sold proportionately cheap.

PRESS EXCURSION.—We give this week rather a lengthened account of the recent Press Excursion, which we trust will be acceptable to our readers. Though it may seem lengthy, many things of interest have necessarily been omitted. Next week we shall resume the theme, giving an account of our visit to Kingston, with its Penetentiary, fort and asylum; Picton, with its beautiful scenery, and lastly, hospitable Belleville. Both sides of the lake vied with each other in giving a hearty welcome to the Press of Ontario.

FROM reports received, we are fully confirmed in the opinion that this harvest will be an unprecedent one in the annals of Canada. No such weight of crop has ever before been raised in Halton, and the wheat-fields recall to memory the times of 1855 6. Already a portion of the Fall wheat has been secured in good condition in Nelson and Trafalgar. Should the prevalent rains cease, there is nothing to mar the prospect. 30 and 40 bushels to the acre will be no uncommon thing. The Soules wheat is grand and totally free from midge. We particularly admired a field of 7 acres at the foot of the mountain, near Milton. The head is very long and heavy, and it is expected that 50 bushels to the acre will be the product. We shall inform our readers of the result when the thresher has done his work. Hay is a luxuriant crop, as are also roots of all descriptions; oats, barley, peas, &c, Indeed all unite in declaring that never has there been so generally successful a year, no crop being a failure.

A few days ago, we visited the commodious new store of R. Thomson, of Cumminsville, and found it to be quite an elegant structure. It consists of two stories, with a cellar which is the whole size of the building, which is sixty feet by twenty eight The cellar consists of two large apartments, of which the drainage, ventilation and light is perfect. The smaller apartment is made impervious to frost or wet by waterlime, and is intended for a store room for butter. The sale-room, forty feet in length, is fitted up in modern style, and the shelves are well filled with goods; in the rear are the counting room and packing room. The upper story is divided into three apartments, one for millinery and tailoring, another for shoe making, and a third for a show-room for crockery, boots and shoes, &c. The structure reflects much credit on the builder, Mr. Michael Lang, and the mason, Mr. Wm. Scott, of Milton. Mr. Thomson is resolved to spare no pains to satisfy his customers, and is selling his bankrupt stock very cheap.

CRICKET.—A match was played at Georgetown, last Thursday, between the Brampton and Georgetown clubs, in pursuance of a challenge from the former, which resulted in a handsome majority for the Georgetown eleven. The Georgetown club is in a flourishing state this season, and can turn out some heavy hitters, as the following score will show:

To the Editor of the Champion.

SIR:—My last to your columns appears to have been a long time on the way, and is enough to make one rage at this Post Office system, and send a complaint to the Postmaster General; but I would like to say a few more words to you this week on the same subject, so I will send this by special messenger so that you will be sure to get it in time for Thursday, the 29th. Now you say our Member had private business compelling him to leave the House of Commons. We suppose you speak from authority, and take this as an acknowledgement that the interest of the electors of Halton is only a secondary affair. With respect to holding himself in readiness should the Banking Bill come up, I would like to know in how short a time he could reach Ottawa even if he could get the news of this important measure being brought up, when he was enjoying the pure atmosphere on the Manitoulin Island. You might say that he knew it would be thrown overboard: well if he knew that, he must know the Government secrets. On the question of the Inter colonial Railway you say he has already shown his Reform principle, if these are the principles our member goes on, when the Government comes in with a measure they want to carry, he deserts his post, not having strength of nerve to stay in the house. We cannot call this Reform principle. I hear it reported pretty freely that when he was in the House, the Reform party had some trouble to get him to vote, especially when the Government desired to carry any of their measures; even the Speaker's attention had to be drawn to the fact that in some cases, the Member for Halton had not voted. This is what we may term dodging. It was no wonder that the Member for South Wentworth rose to his feet and treated the House to one of his very best on the subject of desertion. You say we have no cause to complain; now, I have my doubts on that point: my idea is, that when a member begins to dabble in Government contracts, he ceases to be in a position to give an independent vote, let him belong to what party he may, and the course our member has seen fit to pursue for some time back, inclines us to ask ourselves the question:—are we justified in sanctioning his proceedings. And again you say. "the Reformers are too just to allow him to suffer any serious loss." Now I am lead to believe that he is pretty sure in looking after his own interest, which shows very conclusively that when he can't make out to stay from his island the very short time the House is in session:—I could say more, but will leave it in the bottle for another time, trusting you will not be so ungenerous as to refuse this my second, but give it a place in your next issue, as it does not look well for Reformers to have to go to the Conservative paper, while they have one claiming to belong to the Reform ranks.

Yours,
A REFORMER.

Nassagaweya,
29th July, 1869

It has been proposed in Memphis, to get up a ball, for the purpose of raising funds to pay the expense of obtaining the reprieve of two men under sentence of death for murder. This is an extraordinary way of doing the thing, surely.

KILLED.—A man named Jacob Wagner, was cut obliquely down by a circular saw at Neustadt, County Gray, a few days ago. After receiving the wound the unfortunate man seemed scarcely to realize his position, stood up and made a remark to those near him, but speedily sank, and died in about three hours.

CASUALTY.—On the evening of the 23rd inst., a son of Mr. William Harris, Guelph Road, ten years old, in attempting to get upon a load of hay from the top of a gate-post as the load was passing, fell and broke the humerus, and dislocated the ulna of his right arm. Dr. Dice was called in, and soon did what science could to repair the injury. The lad is doing well.

BIRTHS.

DICE.—On the 29th inst., the wife of Dr. Dice, of a daughter.

LABOURNE.—On Tuesday, 27th inst., the wife of George Labourne, of a daughter.

DIED.

FLUELLIN.—At Oakville, July 22nd, Hiram, third son of Hiram Fluellin.

McNAUGHTON.—On Tuesday morning last, Agnes, wife of John McNaughton, Esq., Warden of this County, aged 59 years and 4 months.
