TO REMOVE.—The *Herald* says Dr. Standish is about to leave Georgetown and settle in Palmerston.

STOCK.—John White Esq. purchased some live stock last week at Mr. W. T. Brown's sale, Dundas st.

GAME.—Large quantities of wild ducks and partridges are being shipped to Montreal via. N. & N. W. and G. T. R.

IF you want good All-wool Underclothing, attend Treble's great Sale.—Treble's, 8 King street east, Hamilton.

DIED INSANE.—Morgan Williams who ran the Galt Hotel for some time, died recently in the Hamilton lunatic asylum.

PERSONAL.—Rev. Francis Tremayne, of Mimico, and for nineteen years incumbent of Grace Church, Milton, was here on Tuesday.

PERSONAL.—Wm. McCraney, Esq., of Oakville, recently took a trip to Kansas City, Mo., and wrote a series of descriptive letters to the *Express*.

EVERY person should attend Treble's great Sale of Underclothing. Over $10,000.00 worth to be cleared out in 30 days.—Treble's, 8 King street east, Hamilton.

PERSONAL.—Mr. Wm. Leggo, formerly Master in Chancery in Hamilton, and son-in-law of the late Caleb Hopkins Esq., is about to remove from Toronto to Winnipeg.

THE EXODUS.—A private letter from New York informs us that there are great numbers of Canadians in that city, and throughout that region, "the woods are full of em."

IT will pay you to buy your fare from Milton and back, if you want 2 Suits of All-wool Underclothing, to attend Treble's great Sale.—Treble's, 8 King street east, Hamilton.

EXCURSION.—A number of citizens of Waterdown took advantage of the recent excursion westward to visit friends who have settled in Chicago and various points in Michigan.

A PROFITABLE CROP.—Mr. George Bamberger of the Half-way House, near Hamilton, had over 400 barrels of apples off seven acres of Orchard this year. He sold them at $1 p r barrel.

CORRECTION.—Our Nassagaweya correspondent says that in our report of the county show, we should have credited Mr. D. Morrison with first prize for fatted cow or heifer, and the same for yearling heifer in the grades.

CARPETS! CARPETS! CARPETS!—Large stock splendid value, a beautiful Union Carpet for 30 cts worth 50 cts. Call and see them.—McLeod, Anderson & Co Georgetown.

DOMINION PARLIAMENT.—The Dominion Parliament is to meet for the dispatch of business in December, when the terms of the bargain with the Syndicate for the building of the Pacific Railway will be submitted to the people's representative.

VERY ILL.—We regret to learn that Mr. N. R. Britton, formerly of this town, but for the last 11 years of St. Louis Mo., is in a precarious state of health. His uncle, W. L. P. Eager, Esq. has received a letter from him in which he says he does not expect to live much longer.

SENSIBLE.—A sensible exchange says: "Fence board advertisements are well enough, but if you want to purchase an article it is more convenient to look through the columns of a newspaper to see who has it for sale, than it is to "hook up" a team and drive around the country reading fence signs."

A RARE CHANCE.—The *Champion* and the *London Advertiser and Weekly Liberal* from now until January 1st 1882, with splendid portrait of Gladstone as a premium to new subscribers, all for $2.20.

BIG APPLE.—D. E. Hopkins, of Appleby, Nelson township, has grown, this season, the largest apple which has been seen in this section of country. It is of the Alexander variety and measures 14½ inches in circumference. It is a beauty, and is now on exhibition at the office of this paper.—*Spec.*

LOOK at the Drives to be offered at Treble's during this and next week: 15 dozen Black Silk Hats at $1.50 each; 18 dozen A No. 2 Light Drab Hats at 75c., worth $2.50; 25 dozen Youth's Hats at one-half their value. 30 dozen Boys' Hats at 10c. each. Study your own interest and visit Treble's during the sale.—TREBLE'S, 8 King Street, Hamilon.

CANADIAN ENIGRATION TO THE STATES.—The *Sun* says editorially that it is a significant circumstance that of 457,257 immigrants who came to the United States during the last of June nearly a hundred thousand were from the British North American Provinces. Canada sends us more immigrants than any of the European countries except Great Britain and Ireland, and nearly a third as many as all of Europe.

A QUICK TRIP.—Sheriff McKindsey made a very quick trip to St. Louis, Mo., and return. He left Hamilton at 7-30 on Tuesday morning, and arrived in St. Louis Wednesday morning, where he stayed nine hours, and started back, arriving at Hamilton at 8-10 Thursday evening. He took the H. & N. W., C. S. R. and Wabash route, which is 12 hours quicker than any other, the distance being between 700 and 800 miles.

ROBBERY.—A very peculiar robbery was committed on Tuesday afternoon at Mr. Ziller's house in this town. It appeared from associated circumstances that the man myrsteriously got into the house took possession of the Misses Ziller's and chain, some clothing and other On Wednesday morning, the made his appearance on the street e of the stolen articles and he was tely arrested. Some of the other ere found near Mr. Ziller's barn.

SERIOUS ACCIDENT.—A young man named McCall, near Campbellville, was kicked in the abdomen by a horse the other day, and some doubts are entertained as to his recovery.

THE PRESIDENTIAL ELECTIONS.—The result of the presidential election on Tuesday was an overwhelming Republican majority. Garfield's election is looked upon with satisfaction by nearly all nations, as a more liberal trade policy is likely to ensue.

Canada is no longer without native Sabbath School papers. Very creditable publications are those issued by Mr. C. Blackett Robinson, No. 5 Jordan Street, Toronto. Before ordering for next year, send for specimen copies, which will be forwarded, postage prepaid, to any address.

ROBBERS.—Nassagaweya is at present infested by a mean class of robbers who break into cellars and steal preserved fruit and other provisions They also seem to have a weakness for harness. A Mrs. Campbell, living in the wst side of the township, had a new set of harness stolen from her a few nights ago.

SMUGGLING Oil.—Smuggling coal oil into Canada at Chippewa has become a regular business, and is carried on in the most bare-faced manner. The smugglers make 60 per cent profit, showing how much less it costs the American householder for light than his much governed Canadian cousin.

ON Monday night an old man named Thompson, from Alton, died in the gaol here. He had been committed in May last under the Vagrant Act, having no home and being somewhat mentally affected. The usual inquest was held, when it was produced that the cause of death was infirmity and old age.—Brampton *Banner*.

ON THE VERGE OF THE GRAVE

Such was the Condition of Moses A Walker, of Derry N. H., with congestion of the Lungs and chronic Catarrh. Two bottles of the Constitutional Catarrh Remedy entirely restored him to health, and, to use his own words, "built up my whole system." The Remedy is for sale by all druggists.

THE U. S. TARIFF AND STEEL RAILS.—The New York *Journal of Commerce*, a first-class newspaper, makes short work of the pretence that the people are not made to pay dearly for monopolies. It says. "The price of steel rails is twice as high here as in England. The English railway company can buy the best Bessemer steell rails at $30 to $31 a ton. The American railway company must pay $60 a ton for precisely the same article. Of this sum $28 is in the form of protection for steel rail manufacturers. * * Within the past three weeks orders for 50,000 tons went from this country to England."

THE Mammoth House, Georgetown, offers the biggest drives in Dress Goods and special Dry Goods ever offered to the Canadian public. Dress Goods for 10 cts. 12½. and 15 cts; original prices, 20 cts 25 cts. and 37½ cts. Wincies remarkable bargains. Millinery, Mantles, Furs, Ready-made Clothing, Overcoats, Ordered Clothing, immense bargains.—McLeod Anderson & Co. Mammoth House.

A RESEMBLANCE.—There is not a remarkably close resemblance between Dr. Winn, of Nassagaweya, and Messrs. Neil and Donald Campbell of Nelson, yet they are frequently mistaken for each other. The doctor has often been accosted as Mr. Campbell, asked about his stock, and if he was going to show his horses at the fall exhibitions, and other perplexing questions, while the Messrs. Campbell are as often called "doctor" and asked for directions for taking medicines, &c. As all three gentlemen have a keen appreciation of the humerous, they generally manage to extract a good deal of fun out of such blunders.

LARCENY.—Though Milton has not been so much infested with bad characters as some of the neighboring towns, she has a class of petty thieves that should be eradicated. A few nights ago a collar and hames were stolen from Mayor Campbell's stable. Mr. John Wallace, jr., has missed several articles from his stables of late, the last being a black dog skin robe, for the recovery of which he offers a reward of $5. In all parts of the county there are miserable wretches who have not sufficient pluck to burglarize a house, but confine their thefts to harness, robes, whips, martin gale rings, &c. Parties having such articles offered to them second hand, should be on the watch, as it is important that some of these fellows be made examples of.

THE Woodstock *Sentinel Review* says among its Drumbo items:—"Mr. John Kay, of Wolverton, bought four car loads of apples, on the fifth concession west of middle town line, for Mr. Dawson, of Brampton. He opened several of the barrels and said it was first-class fruit. It is understood Mr. Dawson has about fifteen buyers in Ontario this season. He has been in the business for several years shipping to the English market. He shipped four car loads of apples on the C. V. R. for Montreal. He is going to be around earlier next season to buy fall apples as well as winter. Mr. Dawson shipped five thousand turkeys to Liverpool last season." We believe Mr. Dawson has purchased in all 2,000 barrels of apples in the County of Oxford. He has also been shipping from Milton.

DRUGGED.—We learn from Totterham that a young man who resides near Norval, got off the south-bound evening train at the above place, on Saturday evening last, and displayed signs of being somewhat out of his reckoning. He imagined he was at Georgetown, and wanted to take a train for Norval. He finally went to bed at a hotel, but got up through the night and took a position on top of the driving shed, creating quite a little racket. In a short time he descended to the street, no one knows how, and amused himself by kicking in a store door. He was then taken into custody, and, on medical examination, it was found that the unfortunate young man had been the victim of some scoundrel or scoundrels at Barrie. He had been drugged with a mixture of chloroform and other poisonous liquids, with whiskey enough added to make it taste like the 'rare stuff." His friends took him home on Monday.—*Herald.*

Grip of 12th says:—"Messrs. Notman & Fraser's new style of photo., 'La Voyage,' is the most artistic and attractive thing which has yet been produced in this branch of the fine arts. In shape it resembles the 'Tablette' recently brought out by the same firm, but its specialty consists in the nautical accessories. The sitter is represented on ship board, flanked with suggestive lifeboats, davits, and bits of rope, and with a water-scape background. The painting of these details is masterly, and the whole *ensemble* forms a very pretty and natural picture. In some of the specimens effects have been introduced which stamp Mr Fraser as an artist in the true sense; for example, that in which a young lady is represented as standing beside the gunwale waving her handkerchief. The latter article is managed most skilfully. We predict a great popularity for 'La Voyage,' which it may be remarked, Messrs. Notman & Fraser have taken the precaution to protect by patent."

Attention is directed to the advertisement of the CANADA PRESBYTERIAN, a periodical now so well known as to require no words of commendation at our hands. The publisher offers great inducements to subscribers for 1881; and wants an activ agent in each congregation.

WORMY CIDER.—It is a fact that a large portion of the apple crop was this season attacked by worms, and especially was this the case with the fruit which was allowed to remain on the ground beneath the trees before being picked up and squeezed into cider. This item will of course be appreciated by the lovers of the beverage, but it is said that wormy cider is healthy. It could not be expected that the farmer could find time to pick out the worms prior to bringing the cider mill into requisition; and then even if he did the article he would produce would not contain that rich fatty matter which is so much relished by the cider drinker.—*Times.*

FARMER BROS' Palace of Artistic Photography undoubtedly is becoming the most popular place for beautifully finished Portraits from Life down to C.D.V. & Cabinet size, and we are sure the citizens of Milton and vicinity will be glad to learn that this establishment will make a reduction of 25 per cent. to them. This inducement is simply to introduce their fine class of work more extensively in this section of country. Remember their best Carte De Visite Photos can be had for $3.00 per doz.—being $1.00 less than the regular price. Don't fail to call on Farmer Bros., 8 King St. West Hamilton Ont.

IMPORTANT ANNOUNCEMENT.—McLeod Anderson & Co. of Georgetown, beg to announce, that they have moved into their New Store right opposite their old stand. Having enlarged facilities for doing Business, We shall make a Special exertion this fall, to give the Cheapest, Choicest, and Best Goods, ever offered to the public. The Stock is Immense, Varied and Attractive, and Wonderfully Cheap. Our New Millinery and Mantles opened out. New Cloths and Clothing, and all kinds of New, Fall and Winter Goods. Call and see us and behold one of the most Magnificent Stocks and Stores in this part of the Country.—MCLEOD ANDERSON & Co. Mammoth House.

A HAPPY THOUGHT.—The new reading-room at Bullock's Corners is in the Oddfellows' Hall, and is to be supplied with papers, periodicals, chess and draught boards, &c., and will be well warmed and lighted at night, and thrown open to those who wish to pass a pleasant evening. As a counter attraction to barrooms it is a happy thought, and we hope that Rev. Mr. Geoghegan, the originator, will see his scheme work successfully.—*True Bannerr*

What a pity the Directors of the Mechanics Institute here cannot wake up and add some similar innocent amusements. So long as they are to be found only in the hotels, they will be sought only in hotels. We have before pointed out this fact to the Directors, but they seem to be singularly apathetic upon the subject. They have exceptional facilities, not only for the above games, but also for bowling and billiards, which would increase the revenue of the Institute, and the number of subscribers, besides affording the citizens pleasant and innocent recreation apart from all evil influences.

SCOTT ACT PETITION.—The Scott Act petition for the County of Halton was sent to Ottawa on Thursday last. The number of names upon it, as handed to the Sheriff, was as follows—

Nassagaweya	140
Nelson	292
Trafalgar	230
Esquesing	178
Milton	72
Oakville	178
Georgetown	62
Burlington	77
Acton	66
Total	1295

Supposing the voters' lists of 1879 were used at the polls, the above number would fall short of the number required by 26 signatures even if allowed to pass as it is, and still more with the 1880 lists. But there are many objections to the petitions, of which the following are a few. At least 48 of the names are not the genuine signatures, being written by the canvassers, 10 names are down twice, 15 were written in pencil and afterwards traced over in ink, others have no votes, other were not witnessed, and altogether the list falls far short of what is required by law. A caveat has been entered and forwarded to Ottawa.

AN agricultural paper reaching its readers every week, has long been required, and we have it now in the *Canadian Farmer*, the only Weekly Agricultural paper published in the Dominion, which is to hand. It contains an unusual amount of excellent reading matter of interest to the agriculturist, besides a goodly proportion of general items and literary extracts of a high order. It contains handsome illustrations of various Agricultural, Horticultural, and stock subjects, and altogether is a valuable Journal and should be on the table of every farmer. The merit of being a WEEKLY is very much in its favor, and that with its general excellencies should make it a special favorite with the farming community. It is a twenty page paper, and thus in a year with its 52 numbers, gives an enormous amount of reading matter at a very low price. The publisher is offering special inducements to subscribers, will forward sample copies free to any one desiring them, and will send the paper for the remainder of this year and all of 1881 for $1.00. It is published every Wednesday, in Welland, Ont., by N. B. Colcock.

Harper's.—The November number of *Harper's Magazine* probably exceeds all its predecessors in attractiveness, the the number and excellence of its illustrations being unequalled by any other magazine, and the contents being unusually fascinating. The illustrated articles are. "An Autumn Pastoral." "In Western Massechusetts;" "Saint Cecelia;" "Rabelais at Home." "The old Dutch Masters;" "Saline Types;" and "Pig Sticking in India." There are several choice poems, beautifully illustrated and several very interesting short stories. There is also a very useful article on "Porcelain Painting." The editorial departments are as usual full of instruction, interest and entertainment. Harper's is the most popular magazine in the world, and deservedly so, and we are glad to say that we have made such very liberal arrangements with the publishers that we can club the *Champion* and *Harper's Magazine* for $4 per year. The regular rate for Harper's alone is $4.

Two of the lawyers in the Montreal Court of Queen's Bench last Thursday had a fight. There was a terrible row, the spectators yelling like a lot of fiends. The combatants were at last separated, and after expressing a few affectionate wishes to each other, were quieted down.

FEARFUL STORM.—The most disastrous gale in 50 years passed over the British Isles on the 27th ult., causing great destruction of property and loss of life. The neighborhood of Dublin suffered severely, 50 families being left homeless, all low lands flooded, and cattle drowned. Tamworth was flooded, every street a river, and other floods are reported from all parts of the country. Large numbers of vessels were wrecked, five being driven ashore at Scarboro alone. Hereford was washed out. Telegraph communication was stopped throughout the country. The coast of France suffered also from the storm.

The *Mail* is continually acknowledging the falsity of its former theories. It has came to the conclusion that foreign demand, and not the N. P. regulates the price of wheat; that there are many panpers in Toronto, who will be unable to buy fuel for the winter, and that the price of coal is too high, and would favor any scheme for reducing the price. It should begin by agitating a removal of the tariff, which increases the price of coal 60 to 75 cents per ton. It has also admitted that there is an oil ring, and that the particulars of the negotiations with the railway syndicate should be made public without further delay.

A Scotch printer lately arrived in Detroit, "strapped," after a four year's journey around the world. He sailed from San Francisco for Tokio, but was put ashore at Honolulu, where he set type for a while, and sailed for Melbourne in charge of some horses. After knocking about Australia he went to Tasmania, thence to the West Indies, thence to Egypt and Palestine, thence to Constantinople, then up the Danube, and in 1878 sailed before the mast on the Baltic. He then tramped to Geneva and Rome, sailed to Genoa, tramped to Madrid and and Paris, crossed over to London, and sailed to Havana and Charleston, S. C., since which he has been tramping through the States, and is on his way to San Francisco.

Talking about fairs, a recent number of the Dublin *Weekly Freeman* on our table gives an account of the fair at Ballinasloe, which shows that an immense number of cattle and sheep change hands there every year. Last year there were 44,767 sheep and 17,100 cattle at the fair, of which a large proportion changed hands. In former years these numbers have been largely exceeded. In 1871, of 84,567 sheep on the grounds, 72,224 were sold. At Garbally-park fair last year 44,000 sheep were offered, and this year, on the first day of the fair 35,655 were sold, and on the third day 41,251 sheep, 1272 cattle, and 700 horses were sold. Ireland has had hard times of late, but some of her country town can discount all Canada on cattle fairs. Why cannot they be developed into something worth mentioning here. If large numbers of good cattle could be collected at fairs here they would attract plenty of the right kind of buyers from over the pond, and now that a syndicate is to be formed in Canada to buy $2,000,000 worth of cattle for export, it behooves farmers to figure up, and see if it will not pay them to take more interest in stock raising.

REMEDY FOR HARD TIMES.

Stop spending so much on fine clothes, rich food and style. Buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of running after expensive and quack doctors or using so much of the vile humbug medicine that does you only harm, and makes the proprietors rich, but put your trust in the greatest of all simpleypure remedies, Hop Bitters that cures alwa s at a trifling cost, and you will see bettertime and good health. Try once. Read of it in ano column.

PERSONAL.—Mr. Francis Reid who left this County for the Northwest Territory last summer, was in Town yesterday, he speaks very highly of that Country and intends starting on his return on Monday with a lot of horses and cattle.

Sales Constantly Increasing at the "Right House."

Ever since 1865 WATKINS' sales at this enormous establishment have been increasing largely every year on account of the cheapness of his stock, and now it takes 33 clerks to wait on the vast crowds of customers who throng this favorite house daily for supplies. The rules are to keep good serviceable goods; to sell them at such low prices as must convince customers that they are cheap; to treat customers politely; to show the goods cheerfully to those who call to see them whether they buy or not; to buy the entire stock for cash, and sell for cash, which enables him to sell at very small profits—owing to the enormous quantities of goods he sells his nett profits are satisfactory, although less than 4 cents on each dollars' worth sold. *Crompton's* Celebrated *Corsets* have an immense sale. Be sure to see the 50c Louise Corsets, the British and German Corsets, Dr. Warner's Health Corsets, and several other makes. Ladies' *Underclothing* of all kinds is going off very fast. Ladies' and Misses' Knitted Underclothing in all sizes and makes in Wool, Merino and Cotton. An Abundant Harvest brings Business Activity!

We congratulate our friends throughout the County on the unusually abundant harvest reaped this year, and sincerely hope it may prove a most profitable one in every respect. Anticipating the increased wants of our friends we have spared no pains to secure an assortment which will surpass that of any preceding season, and the sterling good value, combined with the attractiveness of our stock, is the principle reason for the CONSTANT ACTIVITY of our business. NO DULL TIMES has marked our business, but on the other hand there has been a steady growth, until our premises are almost too small for the stock we are obliged to carry, to meet the wants of our growing trade.
