## Bewildered Jack seeks a quiet sanctuary from the chaos

By **JUDITH-ANNE KOLU**  
*Upper Credit Humane Society volunteer*

Jack is breathtakingly handsome (could pass for a Maine Coon), so feline he immediately makes you think of the large cats of Africa. Reclining on his favourite bed, languid and mysterious you know you are in the presence of a cat that deserves so much more than we are able to give him.

Jack is a long-haired tabby, sporting gorgeous markings that are spectacular. Born June 30, 2009, he was brought Shelter due to his family moving to a home that did not allow pets. Jack had four years of "pet" status and is still getting used to this communal hectic living and is somewhat bewildered by his change of circumstances. He only finds security when in his favourite cat bed (which matches his markings) and can watch all the chaos from a distance. We are aware that Jack is affectionate once he trusts you and loves to sit on your lap and be brushed which he enjoys immensely as though knowing it makes him look even more handsome.

Elegant Jack loves to lounge and would thrive in quiet, relaxing home who would appreciate a laid-back, beautiful boy. Jack

would be best suited to an adult-only family, or one with children over 12 as Jack does prefer his feet planted firmly on the ground. Jack would manage a quiet dog that would respect a cat's space and he could be quite happy with a cat companion who was non-confrontational and just willing to either adore or ignore him.

If Jack's bed could be placed in front of a large living room window or have access to a wide cosy window sill, heaven will have been reached.

Jack is a special boy and we hope that he may appeal to you as he is longing to be secure in a home of his own. Call the Shelter at 519-833-2287 or e-mail [adoptions@uppercredit.com](mailto:adoptions@uppercredit.com) to meet him.

## Titan survives ordeal to become a sociable cat

By **BARB JOHNSON**  
*North Halton Kitten Rescue volunteer*

Titan is a short hair brown tabby about 1 1/2 years old who was abandoned outside his rural home when his family moved. He survived on his own for two weeks before he was found by a neighbour. During that time he was attacked by another animal resulting in a broken tail and infected wound, he also suffered considerable weight loss.

When Titan regained enough weight to have surgery, a Georgetown vet docked his painful broken tail and he was neutered. His tail has healed and he is now a healthy happy boy.

Titan resembles a small Lynx: he is a majestic cat! He comes when called, is friendly and playful and was cooperative in all the situations he has endured after being

rescued. Although not a lap cat, he has no problems snuggling beside people for pets or a nap. He was sociable with a friendly dog and got along well with female cats but another male would probably not appreciate him. Titan is large and athletic and needs space to romp. Older children would enjoy playing with him; he is an impressive cat when he runs and leaps!

Titan welcomes people at Pet Valu, 369 Mountainview Rd. South during business hours.
