R. for $6,000 damages for the death of his little Edith, who was run over and killed by a train at the crossing near Mimico station a few months ago. The defendants' solicitor made Mr. Redding an offer of settlement, but it was refused.

PAYING FOR THEMSELVES.—On Sunday morning a fire broke out in Watkins's candy store in the Clark House block, Georgetown. The new fire brigade of the village had been organized just six hours, and the boys swooped down on the candy shop and innundated it with two streams from hose connected with the new waterworks. In a very short time there was no fire. Mr. Clark's loss was about $500 and that of Mr. Watkins $200, but if the hotel had been burnt the loss would have been $15,000, and the Herald says that the brigade and the waterworks saved it.

Useful Xmas Presents take the lead. See Treble's stock of fine Fur Caps—South Sea Seal, Persian Lamb, Bear, Beaver, Nutria and Astrachan.—Cor. King & James Sts., Hamilton.

SAD DOUBLE BEREAVEMENT.—Last week was a sad one in the home of the late John Logie, Nassagaweya. On Thursday, Rev. George Logie breathed his last after suffering from a lung affection for some time. Mr. Logie was a probater in the Presbyterian Church, had secured a good education and his prospects for future success in his holy calling were very good. He had been engaged in missionary work the past summer. Deceased leaves a young wife to mourn his loss. The following day, Mr. John Logie, father of the above, was called away. He had attained the ripe old age of 93, and had for many years been an esteemed resident of Nassagaweya. A double funeral was held on Saturday, when a large gathering of friends and neighbors assembled to pay their last respects to the memory of father and son.—Acton Free Press.

A NEW GUIDE TO JAPAN AND CHINA.—"Westward to the Far East" is the name of a neatly and tastefully fashioned little guide book, published by the General Passenger Department of the Canadian Pacific Railway for the convenience of those who are making, or who intend to make, the new and fashionable trip across the American continent, and on to Japan and China. The dress of the book is pretty and distinctly Japanese, and the matter within is written by one who evidently is familiar with the places mentioned, and the customs and observations described, and who writes with a kindly appreciation of the people and pleasures of Japan, as well as with an artist's love for the beautiful in nature. The book contains all that information concerning the wants of a traveller which tourists finds so useful, as well as a vocabulary in English and Japanese of the principal words and phrases in use when shopping, sightseeing, &c. The guide can be procured gratuitously on application to any of the agents of the Canadian Pacific Railway.

Remember the place—Williams's Shoe Store.

JOURNALISM AT ERIN.—The Erin Advocate has moved to Palmerston, but Erin is not to be without a newspaper. A gentleman living near there named Will Hull has stepped into the breach, has received his plant, and is no doubt at work on his first journalistic effort. The paper ought to be an authority on all kinds of business, as its editor is said to be no less than a butcher, assessor, collector, tomb stone agent, fruit tree agent, auctioneer, fishery inspector and farmer. Add to this editor, and the possibility of issurer of marriage licenses and justice of the peace, and it will be readily seen that Mr. Hull would would be a handy man to deal with. Take for instance, a lovesick young fellow; who could get a license from Mr. Hull and go to Mr. Hull to be married, could get Mr. Hull to publish the marriage notice and print the wedding cards, and could then settle down and subscribe for Mr. Hull's paper. We are inclined to think that its editor will have his hands full if he tries to do the "hull" business of the town.—Elora Express.
