THE CHAMPION

MILTON, MAR. 8, 1894.

IN consequence of Mr. Marlatt having declined to be a candidate for the Local Legislature Halton Liberals will hold a convention here to-morrow. Hon. John Dryden will be present and will deliver an address.

IN the Ontario Legislature, yesterday, Mr. Kerns's bill to legalize By-law No. 214 of this county and to provide for the distribution of the proceeds of the suit Halton vs. G. T. R. received its first reading. It will be considered by the Private Bills Committee of the House next Wednesday or Thursday.

THE Minister of Militia has announced that the organization of another volunteer regiment at Toronto will not be authorized. Thus Dr. Ryerson's military aspirations are knocked in the head. His melodious falsetto voice will never be heard giving the word of command to a regiment of his own.

THE Star says that on the recommendation of the Conservatives of Oakville, Mr. Henderson, M P., will have Capt. Maurice Felan appointed to the vacant customs collectorship of that town. Capt. Felan's fellow townsmen could not have made a better choice and if he gets the position Mr. Henderson will have no such trouble in Oakville as he brought on himself in connection with the Georgetown post office.

MR. GLADSTONE'S resignation was accepted by the Queen on Saturday evening, and he declined a peerage, offered by Her Majesty. Lord Rosebery will be his successor as premier and will receive the united support of the Liberals. That of the Irish members will depend upon circumstances. The News says that advanced age is no hindrance to the cure of the cataracts which are affecting Mr. Gladstone's sight, which may be restored within a few months; but there is no doubt that his retirement from the Premiership is final and will be permanent no matter how his sight fares.

AT a supper given at Toronto on Friday night by the Sergeants of the Queen's Own Rifles Hon. J. C. Patterson, Minister of Militia, said in a speech that he had arranged with the British Government to take over 5,000 stand of arms which would be converted into Martini-Metfords and that this, together with 9,000 Lee-Metfords which had already been purchased, would give the Canadian forces over 14,000 stand of modern weapons. Referring to the new drill Mr. Patterson said that every officer and non-commissioned officer would be furnished with copies of the infantry drill and arm drill free of expense.

The Campbell Case.

Walter Campell is in jail here, having been committed for trial for perjury on the complaint of Alexander Francis Campbell, gardener of Georgetown, (no relation), who alleges that at the inquest on the body of Dan. Campbell Walter swore that during the row in the bar room of the Bennett House on Christmas night last, the complainant shoved against Walter Campbell, and followed the latter up street after the row. The complainant says that he was not present during the row, and will undertake to prove this. Walter Campbell was arraigned before Judge Snider on Monday, pleaded not guilty and elected to be tried without a jury. The trial will come off on Monday next.

William Harwood, also committed for trial for perjury in connection with the Georgetown row of Christmas evening, who pleaded not guilty and elected to be tried by a jury, and who has been in jail here for over four weeks, has been released on bail. He will be tried at the sessions in June.

They Can't Do Without It.

Prohibitionists are no doubt surprised to learn that the Pharmaceutical Society of the prohibition State of Iowa have petitioned the United States Senate against an increased tax on alcohol, for the reason that it is one of the necessaries of life. Evidently, without alcohol an Iowa man's life would be in jeopardy, and yet the sale of it there is illegal. The Senate had better bonus the importation of bichloride of gold.—Toronto Mail.

The Scotch Lead the World.

Hamilton Spectator.

Rev. W. J. Mackenzie, canon of Christ Church cathedral and rector of Chippawa, lectured last night in the basement of St. Peter's church on the subject of Scotland and her share in the civilization of the world. In spite of the heavy rain, the reverend gentleman had a fair audience, and it was an intensely appreciative one. Bishop Hamilton occupied the chair.

Canon Mackenzie held a brief for Scotland and Scotchmen. When he had finished the audience were left in a state of uncertainty as to whether anything worth doing had ever been done in the world by anyone who was not a Scotchman. The reverend lecturer showed—and backed up every claim with authorities—that almost all the modern inventions in machinery and applied science which have revolutionized the industrial world, annihilated distance and done so much to advance civilization, are the products of Scotch genius. Among these are the steam engine, the locomotive, the steamship, the baloon, the application of electricity to human uses, the discovery of chloroform, the invention of cradling machinery for cutting grain, the reaping machine, and many more. He also dwelt eloquently upon the prowess of Scotchmen upon the field of battle, and showed what immense service they had done in extending and maintaining the empire. The names of eminent British statesmen were mentioned, and a surprising number of the greatest of them were those of men born north of the Tweed. The contributions of Scotchmen to the philosophy, history, poetry and general literature, the science, art and commerce of the world were touched upon. Canon Mackenzie claimed that in the field of lyric poetry the Scotch stood pre-eminent among the nations of the earth. He had with him a large number of specimen songs, but didn't read them, because it was ten o'clock before he had reached that phase of the subject. The lecture was not only full of interesting facts, but was also made entertaining by a continuous play of wit and many touches of sly humor. Canon Mackenzie made out a strong case for his country.

In conveying the the thanks of the audience to the reverend gentleman, Bishop Hamilton remarked that, to judge from the lecture, it was evident that the Scotch had done well by the world, and Canon Mackenzie had done well by the Scotch.

Rainy Lake City, on the American side of the border, a few miles east of Fort Frances, in the gold region just discovered, is being boomed by speculators, and the population is rapidly increasing. It is a hundred miles across country from the nearest railway in Minnesota, and until better facilities are afforded Winnipeg wholesale men are looking forward to trade. The activity displayed in developing this region is in strong contrast to the apathy on the Canadian side.

Wheat continues to remain at low-water mark, and nothing but a European war, which everybody would profess to deplore, can restore prices, although the world's available supply is smaller to-day than it was three months ago. On the 1st of December last the available wheat was 190,886,000 bushels, whereas the figures for Mar. 1st, 1894, are 184,116,000 bushels. The decrease is, however, too small to have any material effect upon the market. Over supply in wheat production is an evil which is cured by slow degrees.

AN ODD DITTY.

A one-legged man, with only one arm,
Which hung down limp at his side,
And an eye of glass and a nose of wax,
Started out to find him a bride.

He heard of a woman without any *sense*
But plenty of *dollars* in cash,
So he went in the gate without taking of-fence,
And proceeded to make a big mash.

He went down on his knees, clasped together his hands,
And rolled up his eyes navy blue,
And told her he loved her in eloquent tone,
And promised he'd always be true,

If she'd only return his affection, so deep,
And a tear dropped off his wax nose;
But she quickly refused him, rejecting his *suit*
All on account of his *clothes*.

This may be slightly mixed and you can't get any *sense* out of it, but there is *cents* in it. We have a table full of Men's and Boys' Odd Suits, that means one or two of each pattern. We find this kind of stuff at stock-taking time, which is just over. We have marked them from two to five dollars a suit less than the regular price. It is for you to do the rest. One hundred and thirty odd pairs of Tweed and Worsted Pants reduced from $3 00 and $3 50 to $2 00.

NEW STORE . . .

SINCE we got located in our new premises we have received congratulations from all quarters that we occupy the finest and best lighted store in the county, and not only this, but when customers openly admit that they can buy goods cheaper, taking the goods all round the store, than they can anywhere else, it is certainly gratifying to us and an evidence that our efforts to keep prices down are being appreciated. We stick tenaciously to the old saying,

"Every Herring should hang on its own tail,"

in other words, we don't make baits hang them at the door and charge two profits on goods inside.

We make it a rule to cut to the bone in every line we handle, and we are strongly of the opinion that this is the reason we have so many customers that formerly patronized the cities.

We are fully determined to double our sales for this winter, and you can rely on us doing our part to command your trade.
