THE concert hall was partly destroyed by fire on Wednesday night. The alarm was sounded about midnight and although the firemen were promptly on the spot the old building was destroyed almost, if not altogether, beyond repair. Investigation revealed the fact that the building had been deliberately fired by some miscreant bent on destruction. The mayor has offered a reward for the apprehension and conviction of the guilty parties. The hall was presented to the town about four years ago by Mr. Chisholm. It was insured for $1000, which will more than replace it.—Brampton Conservator.

It was well fitted and went nicely together, the work of the contractor for the framing, Jos. Peacock, having been well done, which was all the more creditable to him as it was his first contract. Wm. Peacock superintended the raising, James Murray, of Esquesing, and Wm. Dixon, of Trafalgar, being captains. The former's side won with 14 minutes to spare. After the work had been finished about 250 persons sat down to an excellent supper prepared by order of Greenlees Bros.

All except the last named gentleman delivered addresses, those of Rev. Messrs. Massey, Motherwell and Morton, were listened to with particular interest, as all three had been in charge of the parish at different times. Rev. J. Seaman, the incumbent, acted as chairman and introduced the speakers. The choir of Grace Church, Milton, sang appropriate hymns. After the conclusion of the addresses an excellent supper was served in a shady orchard close by. The receipts amounted to about $185. The new church will be built of stone, will seat 250 people and will have a basement for the Sunday school. Liberal subscriptions have been received from members of the congregation and others and the debt will be small.

BASEBALL.

Brampton and Milton played their first game here on Saturday. The visitors were, unfortunately, very weak, four of their regular first nine being absent, and the result was a game too one-sided to be interesting. As only eight Brampton men put in an appearance Cooper, of the locals, played for Brampton and brought in three of their five runs by making a two-bagger when the bases were full. The locals played a very strong fielding game, their only error being one overthrow to second by Peacock in the first; but as no runs were scored in that inning it cost nothing and the visitors had to earn all of their five runs. Peacock, Milton's cather and captain, had one of his hands so badly hurt during the game that he had to retire, and it is likely that he will be unable to play for a month. He lost two joints from a finger last winter and the ball hit the end of the stump, tearing away the flesh and exposing the bone. The loss of his services will be a serious one to Milton. As the visitors had no umpire, Mr. Fraser, of Campbellville, filled that position at their request, and was as efficient and satisfactory as usual. Only seven and one-half innings were played.

The Matabelle Rising.

Cape Town, June 23.—A dispatch received here from Buluwayo, under to-day's date, says a force of friendly natives have had an engagement with and defeated the Matabele on the Maziani river, capturing a large number of sheep and cattle. Many of the Matabeles were killed in the fight. Reports from Fort Victoria say the natives in that city are in a state of indecision as as to whether or not they shall support the uprising. Commandant Weales, with fifty volunteers, has started from Fort Victoria for the purpose of inducing the waverers not to join the enemy.

The French flagship La Clocheterie and the British flagship Cordelia met at Bonnie Bay last week and passed without saluting. Serious friction is feared during the coming months, because several thousand Newfoundland and French fisherman are mixing together on the coast.

British public men betray much interest in American politics. Sir Chas. Dilke, for instance, is especially interested in the Republican platform adopted on Thursday referring to the Monroe doctrine. [In respect to the tariff plank, Sir Chas. Dilke remarked]: "The notion that a protective tariff excludes our trade is very inaccurate. The most protective tariff we have ever seen did not reduce the volume of trade so seriously as anticipated."
