WE always find that when any person once uses Binge's Compound Syrup of Horehound for a cough, cold, bronchitis or difficulty in breathing, they are so satisfied with it that when another attack comes on they at once secure another bottle of it. SHERIFF Broddy, of Brampton, sets an example in pleasure seeking worthy of emulation. The worthy sheriff, amongst other outings, takes a long drive each fall, usually accompanied by a friend or two. This year Markham is the objective point for which the sherifl left on Tuesday. No better way can be found for sight and county seeing, the expense too is small and goes not to foreign bond-holders, etc., but to more deserving trade and public folks at home.

IT IS INDEED A BEAUTY.—We have received a copy of the premium picture given to subscribers of the "FAMILY HERALD AND WEEKLY STAR," of Montreal. It is the famous battle scene picture, by the celebrated artist, Robt. Gibb, entitled "THE THIN RED LINE." It is, indeed, a beautiful picture. "Family Herald and Weekly Star" pictures are always far superior to those given by other weekly papers. They are not out of place in the best art galleries of the world. The publishers of the "Family Herald and Weekly Star" have certainly surpassed all previous efforts this year, both in regard to the picture and paper. The "Family Herald and Weekly Star" and the picture, "THE THIN RED Line" is certainly a great combination for One Dollar. The rush of subscriptions, renewal and new, has begun two months earlier than usual this year, so great is the anxiety for Canadians to be in possession of one of the pictures and to have their names entered on the "Family Herald" subscription lists.

MR. JAMES JOHNSON, of Fratalgar township, left for Muskoka on Tuesday last on the alarming intelligence of a sad accident happening to his brother Walter. The latter had been pressing hay near Rosseau in that district and got both feet into the press. Both legs are said to be broken. The wounded man was suffering a great deal, but it is hoped that care and skill will bring him about again in spite of the terrible shock.

EAST END MEAT MARKET.—Attention is directed to the following announcement of F. Wales of the East End meat market, that he is prepared to supply prime fresh meat by the quarter or in large or small quantities at special terms for cash. Mr. Wales's is an old established business. It is always his aim to supply meats at moderate prices for cash 30 1y

COMMENCEMENT EXERCISES.—At the commencement exercises of the Milton Model School on Tuesday evening the enthusiasm was universal, the elders catching the spirit from the little ones who reigned supreme everywhere that night. And truly, they looked pretty and did their part well—especially, the pupils of Miss Lawrence in their fancy march. Nearly every one who attended the Model School had some part to take, either in choruses, marches, recitations, singing, or in piano playing. Some outside talent assisted and Mr. R. White, chairman of the P. S. Boasd. presided.

The programme was good from beginning to end and consisted in recitations by Pearl Hoff, Bella Peacock, Jessie Campbell, May Kelly, Bena McCowan, Lizzie Wickson, Muriel Douglas, Lillie McCarger, Miss Holmes and Miss Norton; vocal solos by Maud Freeman and Anna Scott; piano solos by Lisle Campbell, Hazel Laing, Pearl Ramshaw; piano duet by Misses Sproat and A. Wilson; essays by Mr. Albertson and Mr. Stone; fancy marching by Miss Bowes' pupils; choruses by pupils of Miss Earl, Miss Lawrence, Miss Lavery, Miss MacLean, Miss Bowes and by the Model School students; and the presentation of certificates to those who were successful in passing the Primary, P.S.L., and Entrance Examinations of 1898, by Mr. J. S. Deacon. Misses Bowes, Dewar, Ryan and Sheppard were accompanists. Lillie McCarger won the palm for reciting. She was natural, perfectly self-possessed and spoke so clearly and distinctly that she quite captivated her large audience. May Kelly also did well in her recitation, "Halleluiah, Hardly Knew You," while Maud Freeman deserved much credit for her song, "That naughty young kitten, called Puff." The piano selections were also good and showed some cleverness on the part of the pupils. The community is much indebted to Mr. Inman, the other teachers of the P. S. and the Model students for the trouble they have taken to make the evening so enjoyable. To show that it was a success financially, we have only to state that the receipts were nearly $30—and this, when the students were admitted free and the fee for outsiders being only 10c.

STONE! STONE! STONE!—Having leased for a term of years the freestone quarry on J. B. By selling at reasonable prices I hope to receive a share of your patronage.—CHARLES HUGHES; residence, near the public school, Milton. 37-1y

FOR SALE.—About 2,000 bushels of Mangolds and 1,000 bushels of Turnips. Apply to C. McGregor, on the W. C. Beatty homestead, Omagh. 2t

Dr. Milligan, of Toronto, will lecture on the subject, "How to brighten Life." A very pleasant time may be anticipated.

### OAKVILLE.

A most shocking and painful accident, and the worst mishap which has ever taken place in the basket factory, happened in that institution on Wednesday afternoon of last week, whereby John Wright, an employee of the factory, lost his right hand. The terrible accident occurred about 4 o'clock in the afternoon and the unfortunate young man was operating the cut-off, a machine which cuts the peeled material into its respective measures ready for use, when, through some mysterious way, his hand slipped under the large knife, taking it off a little below the wrist. Dr. Urquart was hastily despatched for and soon arrived, and in the meantime efforts were made to stop the flow of blood. He was then taken to his home, where the doctor attended to him. Later in the day Drs. Urquhart and Lusk amputated the arm at the wrist. The unfortunate victim had been employed in the factory for a large number of years, and had operated the cut off almost ever since the rebuilding of the factory. To show their sympathy for him in his sad accident, the employers and employees have taken up a subscription for him.

The hunting grounds of Muskoka are now literally in the possession of hunters from all parts of the county, who are roaming about the wilds of that hunters' paradise, enjoying the 15 days' shooting, which opened on Tuesday. Reports that deer was unusually plentiful in that land has attracted immense crowds of hunters. Last Thursday a large party left Oakville to enjoy the hunting season, accompanied by dogs and loaded with shooting paraphernalia. The party included Jas. F. Hewson, Arthur Hillmer, Harry White, B. Walbrook, R. W. Hamlin (manager of Greyhound), and Albert and Caleb Lousley of Trafalgar.

Rev. Dr. McBeth and wife, of Winnipeg, have been visiting here for some time at the residence of Thos. Patterson. Mr. McBeth, who is President of the Manitoba Prohibition Association, in the Globe of Saturday last accounts for the smallness of the vote in proportion to the names on the voters' lists in that Province at the recent prohibition plebiscite. In the first place the Provincial voters' lists used were four years old and contained a great many more names than there actually were voters. Then, too, the plebiscite was taken at a time of the year when the averege farmer could not take the time to go to the polling place to cast his vote. Mr. McBeth states that the liquor business in Manitoba is doomed, as the Province wants prohibition and will have it.

A Hallowe'en banquet was held in the Royal Exchange hotel on Monday evening to celebrate the occasion. Host C. H. Strong prepared a sumptuous repast, and a large number of Oakville's young men sat down to the well-filled tables. After the assembled guests had done justice to the good things provided, the remainder of the evening was taken up with singing and speaking, and the large number present spent a right royal time.

The steamer Ocean was in port on Monday and loaded a cargo of flour from Foulds & Shaw's warehouse, en route for Montreal.

The custom of celebrating Hallowe'en has now become almost obsolete in Oakville, as was evidenced by the quietness which reigned supreme on Monday night. The squad of about a dozen extra policemen which had been sworn in for duty had very little to do, as the small boy and young man behaved themselves admirably. No damage of any account was done, and the inhabitants in general enjoyed peace.

Some mouth look like peaches and cream and some look like a hole chopped into a brick wall to admit a new door or window. The mouth is a hotbed of toothaches, the bunghole of oratory, and a baby's crowing glory. It is patriotism's fountain head and the tool chest for pie. Without it the politician would be a wanderer on the face of the earth, and the cornetist would go down to ad unhonored grave. It is the grocer's friend, the orator's pride, the dentist's hope.

The Allan Royal Mail line announces the successful launching of one of its new liners, the Castillian, 10,000 tons, at Belfast. The new vessel will be on the route between Canada and Liverpool in about six weeks. Her three sister ships, the Tunisian, Bavarian and Sicilian, each 10,000 tons, will be completed in a few months. The Allan line is building these boats in anticipation of having them ready for the large business expected on account of the Paris exposition of 1900.

Cornstalks are likely to come in to use for a new purpose. It is now believed that the shive or outside of the cornstalk can be made into a finelly surfaced paper. A company has been organized at Rockford, Ill., for this purpose, and the manufacture of paper from this portion of the cornstalk al ready begun. In addition to paper a splendid card board can be made, and also a superior line of fancy products, at a comparatively low cost.
