It is with profound regret that we are called upon to chronicle the death of one of our most respected citizens in the person of John Wesley Bridgman, in his 55th year, whose demise took place this morning, after a lingering illness of over two years. The deceased was born in Zimmerman in 1844, and came to Burlington in 1886, where he has resided until the time of his death. He was a member of the Methodist Church, and had for some time conducted a milk business previous to the sale of the same to Mr. Fisher. Deceased leaves a wife, three sons and four daughters to mourn his loss. The funeral will take place from his late residence on New Street at 2 p.m. Friday to Greenwood cemetery. —Gazette, Sept. 13.

About 6 o'clock last night Harry Taylor, a lineman on the Radial railway, met with an accident which will cause his confinement for a couple of weeks at least. He was working at the top of a pole just north of the canal at the Beach, when the strap which supported him broke, and he fell to the ground. He was severely injured about the back, and was badly shaken up. He was placed on the 7 o'clock car and brought to the city, and then removed from the station to St. Joseph's hospital in the ambulance. Taylor used to be a lineman on the Hamilton Street railway, but has been working on the Radial for about a year. His home is in Burlington.—Spectator, Sept. 13.

RALLY DAY.—Milton Methodist Sunday School held their first rally on Sunday last at 2 p.m. A good programme was carried out, consisting of suitable hymns, anthems, roll-call of classes and officers, greeting of an ex-pupil, Miss McGuffin of Toronto; outline of the lesson by Mrs. S. Bews, and an address by E. H. Cleaver of Burlington; also the secretary's report, which showed an attendance of nearly 300. Miss McGuffin made reference to a similar meeting held in Toronto, when three ex-members of this school took part. Mr. Cleaver's address was in the line of helping the children to work for the Master, illustrating it by a bird's nest, a hornet's nest, and a piece of choral, showing how in each case, though the workers were small, yet they made for themselves a beautiful home. Altogether the rally was a success, and the school starts the fall and winter work with fresh zeal.

Henry Hortop, Eden Mills, has recently put in new machinery in the mill, which was running Saturday for the first time since the alterations were made. Naturally the villagers were interested, and were present in considerable numbers to inspect the mill. In the evening James Anderson, blacksmith, while looking around the machinery, placed his left hand on a pulley, which scarcely seemed to be in motion. The hand was carried around by the belt, and the fingers were badly lacerated and bruised. A physician was sent for, who found it necessary to put five stitches in the wounds. Shortly after this, George Mitchell, working at the mill, came around to fill a boxing, and his hand was caught by the same belt and the thumb very badly crushed. His injuries, however, are not so serious as those of Mr. Anderson. Mitchell knew nothing of the accident to Anderson until he went to the village.—Mercury.

ALL ALIKE

That is what some people think respecting the Rates and Profits in all regular Life Insurance Companies. But it isn't so.

The Ontario Mutual's Rates are from 5 to 12 per cent. lower than those of most Canadian companies and lower still than American or British companies. Its CASH PROFITS make a still greater difference. Several Canadian companies are old enough now to have 10, 15, 20 and 25 year Endowments mature. ☞ Those of the Ontario Mutual have never been equalled, much less surpassed.

ACTUAL RESULTS—Comparisons of policies issued by different companies in the same year, at the same age and on the same plan, furnished on application.

When You're Swearing Mad

And the cause of your trouble is a misfit suit, don't try to place the blame upon the shoulders of the man who made the suit. Your own poor judgment in the selection of your tailor is the real reason why you are irritated.

If You Had Been Careful to place your order with us you would have been saved all the annoyance that an ill-fitting suit carries with it. We've been dressing the stylish, particular men of Halton for six years now and the reason they still come here is because they know that elsewhere they cannot get what we give them—perfect fitting, fashionable clothing, made in the highest style of the art and at prices that others ask for garments that will never please. It you require a suit, it's surely in your own interests that you should see what we are offering for spring and summer wear.
