Canadian Champion.

MILTON, May 8, 1902.

Mr. Barber, the Government will hold his first meeting on Saturday evening at Postville, For dates and localities of meetings which will follow, see advertisement in another column.

The British Government has announced that the restriction on the importation of cattle from Argentina will be removed and that in future they will be allowed to enter Great Britain on the same terms as Canadian and American cattle. Canadian live stock dealers do not relish the news. All agree that there will be a depreciation in prices here, either immediately or within a few months.

Dr. Nixon, the Conservative candidate, has opened his campaign in Halton. He has held several meetings. That at Lowville yesterday evening was well attended. Speeches were delivered by the candidate and Messrs. Graham, of Georgetown, and E. W. Boyd, of Milton, which were well received by the doctor's supporters. At the close the chairman proposed three cheers for the King, and then delighted the supporters of the Government by calling for three for Mr. Barber, instead, as he intended, for Dr. Nixon. The slip caused a great deal of fun.

The special commission, Sir Richard Stewart and Col. Holland, appointed by the British War Office to investigate the manner in which horses have been purchased in Canada and the United States for remounts for the British army, have been at work in Canada. They report that they are satisfied with the way in which all purchases have been made and arrangements carried out. They have found that about 16,000 horses have been bought in Canada at a cost of $1,500,000. Supplies and transportation cost another $1,500,000. It is now found impossible to get more horses in eastern Canada. There are not many suitable animals left, and the farmers are busy. The buyers will get as many as they can in the Northwest.

Encouraging Peace Situation.

Pretoria, May 6.—The peace situation is developing encouragingly.

According to reliable information which has reached here, several of the nearer commandoes have received the burgher delegates in an amiable spirit.

It is understood that Commandant Beyers has announced his willingness to abide by the decision reached by the Transvaal Government.

Considerable opposition to the peace movement, however, is growing up about the irreconcilables of General Delarey's force.

General Lucas Meyer, commander of the Orange State forces, believes peace is likely.

Militia Camps.

Ottawa, May 6.—The camps for cavalry and artillery will be held as usual this summer, but it does not seem likely that there will be any infantry camps. It is probable, however, that in September the officers of the rural infantry regiments, and perhaps the non-commissioned officers, will be assembled for instruction.

Grand Trunk Railway Travelling Picture Exhibit a Strong Factor in Bringing Tourists to Canada. Thousands of People Being Educated to the Beauties of the Northern Resorts.

The Grand Trunk Railway's travelling picture exhibit which is meeting with such a favorable reception in all the cities at which it is being displayed, is also receiving eulogistic words of praise in the press of the southern and middle States. The Springfield (Ohio) "Sun" of April 22nd, in speaking of this collection, says: "The exhibit establishes a precedent in railroad advertising, possessing sufficient merit in itself to justify anyone in taking the time to make an inspection of it." The Springfield "Gazette" in commenting upon this exhibit, says: "It is one of the finest exhibits of art ever given in this city." While all the newspapers in the other cities visited are profuse in their favorable comments regarding the display.

The collection has been shown this year at fifteen different cities, and up to the present time nearly 40,000 people have viewed the display. It is one of the best advertisements that Canada has ever had for her summer resorts, and it is expected that the results will justify all the good words that have been spoken of it. A heavy influx of tourists into Canada the coming season is assured. The exhibit is composed of over 100 large photographic views 40 x 50 inches, in addition to one of the finest collections of stuffed and mounted fish, including specimens of the gamey species of the finny tribe native to the Canadian waters, and including maskinonge, black bass, pike-perch (Dore) brook trout, land locked salmon and other specimens; as well as reproductions of many of the wonderful engineering feats that are located on the Grand Trunk System in the way of tunnels and bridges.

There were several earthquake shocks in Spain on Tuesday. Churches, schools and other buildings were badly damaged and people were panic-stricken.

On Mount Snowdon, a bonfire is to be lighted on Coronation eve that will, on a clear night, be seen from England, Scotland, Ireland, Wales and the Isle of Man.

The President of the British Board of Agriculture stated in the House of Commons on Monday that the Government could not remove the restrictions on the importation of Canadian store cattle.

Smallpox outbreaks are reported from Essex and Tilbury North township, in Essex. Additional cases have occurred at Casselman and Russell, and Webbwood, in Parry Sound. Complaint is made that the disease is brought into Ontario by persons crossing the Ottawa river.

Election talk waxes quite hot and exciting in this neighborhood occasionally.

ASHGROVE.

May 6.

It's rain, rain, rain. We wonder when the weather is going to take a change. It surely will before the 29th, anyway. Everyone be sure and vote the right way this time.

The road machine was at work again this week.

Little Miss Lillian Thompson, who was four years old on on Wednesday, had a very nice little birthday party.

Mungo Nixon and Miss Ida Wrigglesworth spent Sunday at John Huffman's, Hornby.

Mr. Tansley, of Carlisle, spent a few days at the home of Henry Wilson.

We wonder what the attraction was eastward on Sunday! So many of our young people had a desire to go. But it is thought that one young man especially did enjoy his drive, owing to the company he had. Everything was lovely.

Don't forget the Sunday School convention to be held at Ashgrove, May 21st.

BURLINGTON.

May 7.

Mr. and Mrs. George A. Watson visited friends in Port Nelson last Sunday.

J. Wilkerson called on friends in Zimmerman last week.

Wm. Sharpe has traded his store on Brant St. to C. N. Murphy for his property in Port Nelson, now occupied by R. Watson.

Mrs. T. J. C. Greene had an auction sale last week, and she goes to Cleveland to live.

A. T. Wood, Freeman, is giving up farming and will sell his stock and chattels this week.

Four of our youths have gone to South Africa to finish up the Boer war—A. Ladle, P. Ireland, L. Ogg and W. Smith. Several others were willing but could not pass successful examinations.

Mr. Alexander, who has had charge of Kerns & Co.'s tailoring department, suddenly disappeared, and it is thought probable that he too has enlisted for South Africa.

Burlington was visited last week by a couple of miniature cyclones. The Wednesday one did little damaged except that of filling the eyes of the citizens with sand, but the Saturday gale knocked things out generally. Among the mementoes of the storm are the windmill of Maitland Young, on the lake bank, was smashed to atoms, and the smokestack of the old Handy Crate Co. was also blown down and smashed.

The election kettle has not started to boil yet, but both parties are getting in shape for a short fight and a merry one.

General Jacob Smith of the American army in the Philippines is charged with issuing orders to "kill and burn," and make the Island of Samar a howling wilderness, and also to slay all persons above ten years of age. The story would be incredible but for the fact that some persons are trying to excuse this cruelty on the ground that various barbarities are practised by the natives.

Children's Fertilizer.

That's a good name for Scott's Emulsion. Children are like young plants. Some will grow in ordinary soil. Others need fertilizers.

The nature of some children prevents them from thriving on ordinary food Such children grow right if treated right.

All they need is a little fertilizer—a little extra richness. Scott's Emulsion is the right treatment.

Fertilizers make things grow. That's just what Scott's Emulsion does. It makes children grow in flesh, grow in strength, grow rich blood, grow in mind, grow happy. That's what we make it for.

Wise—A college education pays in the end.

Wrong—How so?

Wise—Well, my son has signed to pitch for $2,000 next season.

All Please Squeeze.

Said Clara to Cholly, "I'm writing
A poem and your aid inviting.
Now, what rhymes with please?"
Said Cholly, "Why, squeeze."
And she said: "Oh, my! How delighting!"

He'd Be Good.

Old Bullion—What proof have I that you will make my daughter a good husband?

Suitor—Look at your own bank account, sir!

Uninformed.

"The war is all over." We heard it full oft
In lectures and read it in writing,
But the news, we have found,
Somehow never gets round
To the men who are doing the fighting.

The Idealist.

"That friend of yours is a good deal of a Utopian, isn't he?"

"He is worse than that," answered the man who can't refuse a request; "he's an I-O-Utopian."

Before and After.

He married her—his fair typewriter girl—
So ladylike, so gentle, such a pearl,
And now discovers, to his consternation,
There's not a th' she'll do at his dictation.

When Friendship Ceases.

"They used to be good friends, I believe."

"Yes, but that was before they moved into the same flat building."

A Loving Trust.

Now, in this age of trusts, alas,
Fair woman plays her part!
The average girl lets no chance pass
To syndicate her heart.

Between Friends.

Gladys—No, I would never marry a man to reform him.

Ethel—Well, I don't think myself that harsh measures are best.

A Pretoria despatch says that the reduction in the Boers' forces from Jan. 1 to April 21 amounted to 5,883, viz.:—Killed, 457; wounded, 186; captured, 4,202; surrendered, 1,038.

The National Chapter of Canada, Daughters of the Empire, met at Toronto on Monday. They passed a resolution regretting the large amount of American and other foreign manufactured goods imported into Canada and the fact that large contracts were frequently given to American in preference to English firms. A satisfactory occurrence of the service of the 2nd C. M. R. in South Africa was the interest taken by Lord Kitchener in the western pack-saddle. At Halifax Major W. Hamilton Merritt, who is an ingenious inventor of appliances useful in military matters, worked up some modifications suited for the work in South Africa. When Lord Kitchener inspected the 2nd C. M. R. he was so pleased with this pack-saddle that he is now having it made at Pretoria and Johannesburg. The extensive use of such an apparatus might go far to help to solve the vexed problem of mobility.

The Journal of the British Board of Agriculture gives figures showing the probable effect of the duties on grain and flour, on the basis of the imports of 1901. In that year there were imported 69,747,830 hundredweight of wheat and 22,575,230 hundredweight of wheat meal and flour. This would yield a revenue of £1,342,000. There were also 51,372,800 cwt. of Indian corn, 22,476,070 of oats and 22,091,530 of barley, and smaller quantities of other grains, which would yield a revenue of £1,322,000. It is pointed out that the British farmer will derive little benefit from the taxes, since he is himself a consumer of the grains, other than wheat, which are used for feeding stock. On the whole, the British millers and bakers seem to have the best of the deal.
