A Sweetly Pretty Picture.

"The Princess at Work," is the title of one of the most beautiful pictures ever before the Canadian people. Great credit is due the Family Herald and Weekly Star, of Montreal, for having secured such a gem for their subscribers this season. We understand they have put the price of two or three pictures which they have been in the habit of giving in previous years into one really good picture, and there is no doubt about the wisdom of their decision. "The Princess at Work," is certainly a gem. A year's subscription to such a paper with such a picture included is certainly a big dollar's worth.

Football.

A meeting was held at the McGibbon House on the evening of Friday, 19th ult., for the purpose of organizing a football club in Milton. It was decided to organized a club, to be known as the Milton Football Club. The following officers were elected :

Hon. Pres., Geo. Hume, Esq.
President, J. D. McGibbon.
Vice-Pres., A. G. H. Luxton.
Sec.-treas., Lou Prentiss.
Manager, Chas. B. Lewis.
Captain, Geo. Lees.
Managing Committee—R. Pierce, A. D. Bradt, W. E. Wilson, J. B. Armstrong, with captain and manager.

The membership fee was placed at 50c. The club placed a team in the field for the first time on Saturday, 24th ult., against Kilbride and scored its first victory in the first game played. The last half was played in a driving rain, which prevented good playing on either side. At call of time the score was 1-0 in favor of the home team.

The following players lined up for Milton: Goal, Lewis; backs, White, Hume; half backs, Brown, Lees, Prentiss; forwards, Newman, Bradt, Pierce, Wilson, Somerville.

The team goes to Kilbride on Saturday next to play the return game. Several changes will be made in the line up. The following players will probably represent the team: Lewis, Lees, White, Wilson, Lees, Armstrong, Hume, Prentiss, Pierce, Bradt, Newman.

All wishing to join the club are asked to hand fees to the secretary as soon as possible.

If satisfactory to all players, practice will be held every afternoon at 4.30 at show grounds. All old players are requested to turn out and help the club and encourage the new players. There is plenty of good material in town to turn out another team equally as strong as the team picked for Kilbride.

Head About to Burst From Severe Bilious Attack.

"I had a severe bilious attack and felt like my head was about to burst when I got hold of a free sample of Chamberlain's Stomach and Liver Tablets. I took a dose of them after supper and the next day felt like a new man and have been feeling happy ever since," says J. W. Smith, of Juliff, Texas. For biliousness, stomach troubles and constipation these Tablets have no equal. Price 25 cents. For sale by Higginbotham & Field.

A Complaint.

Oct. 3rd, 1904.

It would be advisable if Chief Constable Bradley would take up his stand on Sunday evenings and move the crowd on that collect outside the Methodist Sunday School and block the sidewalk and pass insulting remarks. Because decent married people happen to want to pass with a baby carriage one young man would like to knock a couple of wheels off the carriage, and a certain young lady would not be seen hauling a cradle around. A sermon on "civility" might save some of those pious people from having to appear before his worship. —A Subscriber.

THE FIRST ENVELOPES.

They Were Used In a Private Penny Post In Paris.

The first mention of envelopes occurs in 1653, when M. de Valayer set up, under royal patronage, a private penny post in Paris, and boxes were placed at street corners for the reception of letters wrapped in post paid envelopes.

The earliest uses of the word in English were by Bishop Burnet in 1714 and Dean Swift in 1726. That the "little bags called envelopes," as Rowland Hill described them, were nothing but a revival and were in use as a covering for postal purposes long before 1840, when his postal reform was established, is evident from the following: Under date July 21, 1627, Secretary Conway gives an account of his "opening a letter in the presence of the king, which contained a blank sheet." Lamb mentions them in 1825, and in "Harry Lorrequer," published by Charles Lever in 1837, we find, "The waiter entered with a small note in an envelope."

The early covers were probably rude enough, as machine made envelopes were unknown before 1840, and the "lick of the gum" did not make its appearance till the succeeding year.
