A SYMBOL OF PEACE.

The Dove Has Had This Significance In All Ages Since the Flood.

The dove has been pictured as the emblem of peace by writers and artists in all the ages since the time of the flood. The dove has figured in the art work of many races, and of many generations. According to the Dictionary, the dove is the emblem of peace because of the incident in the eighth chapter of Genesis. It came to pass at the end of forty days that Noah opened the window of the ark which he had made, and sent forth a raven which went to and fro until the waters were dried up upon the earth. And he sent forth from him to see if the waters had abated from off the face of the ground; but the dove found no rest for the sole of her foot, and she returned unto him in the ark. And he stayed another seven days, and sent forth the dove out of the ark; and the dove came to him in the evening; and, lo, in her mouth was an olive leaf off; so Noah knew that the waters were abated from off the earth.

The idea derived from the dove was used in the orient to signify loveliness and was applied to beautiful women. It was woven into the ceremonies of ancient worship. It has a great place in history and symbolism. At the time the dove has been the type of innocence it is where it has been associated with the Olympian age with Venus as the symbol of woman affection—the high purity and simplicity. It had a great part in marriage. It was naturally introduced into Christian palmters into the Madonna and child and saints. These qualities of the dove combined with the action made doves sacrificial to moods of sorrow and a part of the furniture of funerals. This Christian usage and symbolism generally combined with the arch, were carved in the catacombs before emblematic

REMEDY FOR HAY FEVER.

After Trying Other Treatments, Hyomei Was Used with Perfect Success.

Before the discovery of Hyomei the only advice a physician could give his hay fever patients was to go away from home, but now anyone who is subject to this disease can, if Hyomei is used, stay at home without fear of the annual attack of sneezing, watery eyes, and other discomforts.

J. J. Forbes a well known Western railroad man, whose home is at McCook, Nebraska, writes "I have never had any relief from any remedy for hay fever even temporarily, until I discovered the merits of Hyomei. I always recommend it when occasion requires."

There is no offensive or dangerous stomach dosing when Hyomei is used. This reliable remedy for the cure of all diseases of the respiratory organs is breathed through a neat pocket inhaler that comes with every outfit so that the air takes into the throat and lungs is that of the White Mountains or other health resorts, where hay fever is unknown.

The fact that Higginbotham & Field agree to refund the money to any hay fever sufferer who uses Hyomei without success should inspire confidence in its power to effect a cure. A complete outfit costs only $1.00 and extra bottles but 50 cents.

To Continue the War.

London, August 1.—The St. Petersburg correspondent of The Times telegraphs to-night: "Another Imperial rescript, even more warlike than that which was sent the Orenburg clergy, appears in to-day's Official Messenger. The Czar, replying to addresses from Ekaterinoslaw expresses hearty approval of the recommendation to continue the war until the enemy has been crushed, and above all not to think of the cession of territory or the payment of an indemnity."

KNOX CHURCH.—Rev. W. M. McKay and family left last week for a vacation at Balsam Lake, near Bobcaygeon. Rev. Mr. McWilliam, Librarian of Knox College, Toronto, took the services at Knox Church on Sunday. On coming to town he called on Canon Mackenzie, who is an old friend and was the first librarian of Knox College.

He was appointed inspector of public schools for Algoma about twenty years ago. He applied for the same position in Halton at the time of Mr. Deacon's appointment.

BIG BASS.—Three of the black bass brought home from Crow Lake last week by the Milton party averaged about 5 lbs. One weighed 5½ lbs. It was caught by V. Chisholm, but he did not enter it in the competition for the Toronto Star's rod, as a larger fish had been been entered about a month ago. It was caught in Belmont Lake, which is close to Crow Lake and weighed over 6 lbs.

MAGISTRATE COURT.—On Thursday Magistrate Hartley dismissed the case against the men Sheppard Robb and Appleyard, who were charged with firing a gun too close to the head of the little son of John Mills. State your name and address clearly and date your communication.

Warden McGibbon got home from his western trip last week. He visited a number of western towns and went to a point 70 miles north of Edmonton. He had heard good accounts of the land there, but found it to be rocky and very poor every way. He was greatly pleased with what he saw in the more settled parts of the west, but, like travellers generally, says that the hotel accommodation is wretched, though the rates are high, as high as the traffic will stand. Mr. McGibbon also visited New Ontario, where he went a long way from the end of the present railway tracks into the wilds, visiting silver and cobalt mines.

A CLOSE CALL.—The club house and cook house of the Milton Fish and Game Club, near Campbellville, had a close call last Thursday. Mrs. M. E. Mitchell, Mrs. Quinn and Miss Dewar, of Brampton, had been at the club house for about a week and had just left with Mr. Mitchell, who brought them home. W. O. Morse and his hired man were at work in the mill. They saw smoke to the left of the cook house, went to investigate and found that a fire had started in some rubbish where wood had been piled and cut, and had got into the trees. They had great difficulty in saving the buildings and had to fight the fire for two days, as it got into dry roots which were underground. The members of the club have reason to be thankful to Mr. Morse for the prompt measures which he took to save the buildings.

Wm. Brush and his sisters, Mary and Rena, left last evening for Pincher, Alberta, where they will visit relatives for a couple of months.

Mrs. Stanbury Finch, of Toronto, formerly and for years a resident of Halton County, has been spending the past month with her friend, Mrs. R. W. Deane, of Boston, another ex-Haltonian. Visits to the seashore resorts around Boston, as well as a thorough sightseeing at the points of interest in the Hub, have kept these ladies quite busy, and they will shortly come north and west to recuperate in the shades of Halton County's farm life. Mrs. Deane will pay her annual visit to the home of her mother, Mrs. Peter Campbell, of Ash, accompanied by Mrs. Finch. Every year brings the re-union of the Campbell family at the old home on the town line, and Mrs. Deane doesn't forget to renew her subscription to the Champion while renewing acquaintance with her other friends. Her young daughter, Edith, has been at the farm with her grandmother for some time past, getting her annual coat of tan.

NASSAGAWEYA OLD BOYS.—The Citizens' Society of Campbellville have invited Nassagaweya old boys to a re-union to be held at the village on Wednesday, 16th inst. The public generally are also invited. Speeches will be delivered by prominent old boys and there will be a first-class programme of sports. A baseball match, which is sure to be one of the fastest, will be played between the Victorias, of Guelph, and the Greys, of Acton; game called at 3 p.m. At 2 p.m. the Moffat and Scotch Block teams will play a football match. Liberal prizes will be given for foot-races, etc. The Milton Brass and Reed Band will play selections. There will be a platform for dancing and a first-class orchestra. Band concert in the evening. Tea served at the grounds at 6 p.m. All trains will stop at Campbellville and fares will be reduced. Admission 25 cents. Proceeds of the day will be applied to village improvements, sidewalks and enlargement of public hall. Go to Campbellville on the 16th, have a day's first-class enjoyment and at the same time encourage a meritorious object.

The Work Should Begin With the Churches.

Weekly Sun.

One of the reasons given for the increase in the indemnity allowed members of Parliament is based on the extra expense to which members are subjected because of their position. The extra expense is considerable. Every church, social organization, athletic club and agricultural society within the limits of a constituency seems to think it has a claim on the pocket of the representative of a riding. In too many constituencies also the entire expense of a campaign is loaded upon the candidate.

But it is doubtful if the increase in indemnity will make this burden any lighter; the probabilities are rather that it will cause an increase on the load. The $2,500 will look as big as a house to those who have shared in the division of the $1,000, and they will simply enlarge their demands. Many again, who have from interest in the cause contended for, voluntarily added in election campaigns in the past, will not be so ready to assist a man in obtaining a position to which a handsome salary is attached. The view of those likely to be affected in this way is very bluntly expressed by the Chesley Enterprise, which says: "I am sorry, so disgusted with a bunch of political salary grabbers that every line printed in its columns in praise of a political newspaper will cost ten cents. The Kincardine Review puts with equal emphasis the effect of present tendencies, when it states that "there will be greater strife than ever for the position, mostly by men mercenary inclined, and corruption will prevail more than it ever did before because the candidates will be more than ever, and the electors less, likely to work for the love of working for the candidate or cause."

What was called for was not an increase in indemnity that will merely aggravate existing evils. What the situation requires is an arousing of the public conscience to a realization of the crime involved in soliciting from a member of parliament a gift which, to the wound think of asking from him as a private citizen. And the work of education should begin with the churches, some of which it is to be feared have not been the least backward of those who have seemingly considered every politician a fair mark for the mad with a subscription list.

Minister Must Hang.

Valdosta, Ga., July 31.—Rev. [illegible] Rawlins early yesterday morning was found guilty as an accessory of the murder of two children of Rev. and Mrs. W. L. Carter, and unless a higher court intervenes Rev. Rawlins and his sons, Milton and Jesse, and Alf. Moore, a negro, will have to hang.

Both Rawlins and Carter were for years ministers in the Methodist Church. A feud started and Rawlins plotted to wipe out the Carter family. It was arranged that Moore and Milton Jesse and Leonard Rawlins were to go to the Carter house and kill the family when they sat at the supper table. Some hitch caused Willie and Jennie and Bell Carter to run into the yard. The guns of the murderers spoke and the girls fell dead. The boy, shot through the body, dragged himself into the house and told who had done the firing.

Colic and Diarrhoea—a Remedy that is Prompt and Pleasant.

The prompt results produced by Chamberlain's Colic, Cholera and Diarrhoea Remedy together with its pleasant taste have won for it a place in many households. Mr. W. T. Taylor, a merchant of Winslow, Ark., writes: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy myself and also with men on my place, for diarrhoea and colic and it always gives relief promptly and pleasantly." For sale by all druggists.
