H. P. Moore is the prince of newspaper men in Halton County. His home is in Acton where "every prospect pleases and only man is vile." The other day he invited the Halton pressmen down to see him and treated them as a prince treats his friends. The visitors were banqueted and driven about the town and sent home glad in the sight of one newspaper man who, through printers' ink in a small town in this effete east, has not only made enough to give the devil his due every pay night, but to build a magnificent home as well.—Raymond's Record.

A pretty wedding was solemnized in the Presbyterian Church, Streetsville, Wednesday afternoon, 30th ult., when Minnie Fulton was united in marriage to Rev. Robert Lundy, of North Williamsburg. This week a wandering microbe-dispensing Jew struck town buying rags, bones and bottles. While soliciting the favors of a resident he left his horse and wagon on Main St. In some manner the contents of the vehicle took fire, and the citizens saw one of the best exhibitions of sprinting that has been seen for many a day, the 200 yards being done in professional time. After an investigation by the fire and light committee it was decided the fire was caused by spontaneous combustion or firewater that had been overlooked in one of the bottles. Are these committees what they are cracked up to be?—Streetsville Review.

HOODLUM EXCURSIONISTS.—Brampton Banner and Times has the following to say in regard to the trouble with the hoodlum element who take in the excursions to the Northwest. Last Friday when the Northwest excursion train was stopping at Norval station a number of hoodlums disembarked. One hooligan raided the station agent's wash line and carried off a quantity of goods. These were scattered from the car windows as the train came to Brampton. Here an effort was made to arrest the thief, but the young man who had followed on the train was unable to identify him, as he had changed his clothing with others of his drunken pals. Some disgraceful stories of the passage of excursion trains through New Ontario are being published. The companies should furnish with their superfluous officious constables on these trains and give them a chance to earn their salaries.

Three Jurors Cured.

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying he hadn't what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." For sale by all druggists.

Famine in Russia.

Paris, Sept. 4.—One of the chief reasons for the obstinate refusal of the Russian peace delegates to pay a war indemnity to Japan is the terrible threat of famine which now prevails all over Russia.

According to a well-informed authority in St. Petersburg, the Russian Ministry of the Interior has been supplied with figures which establish the fact that the crops have failed entirely in no fewer than 22 Governments, and that even a worse famine than that of 1891 may be expected in these provinces. Wheat stocks have been wholly exhausted, and the inhabitants are dying of hunger.

In the opinion of Minister of Finance Kokovtsoff the interdiction of exports would be no remedy, all the crops having been sold in advance and the peasants being unable to purchase them back. The total estimated deficiency is 9,000,000 tons of wheat, representing 5,000,000,000 pounds of bread.

The Gallatin Valley, Montana,

Situated a little west of Bozeman, is becoming celebrated as the home of the FINEST MALTING BARLEY GROWN IN THE UNITED STATES. Under the influence of irrigation, it is not uncommon to raise a crop of fifty bushels to the acre, and the dryness of the atmosphere gives it a better color than that grown in localities where the crop is dependent upon the rainfall. The climate of Montana is exceedingly healthful, and the proximity of the mining camps, which abound in the west, insures profitable markets for all products of the farm.

The West Gallatin Irrigation Company, located at Manhattan, hold their land at from $15.00 to $25.00 per acre, including water rights. There is a large Holland settlement in the valley.

The inauguration of the new Provinces of Alberta and Saskatchewan took place last week. The ceremonies included parades taken part in by old-timers and Indians, together with State displays and military displays. At Regina provision was made for 3,500 people in private houses and for 5,000 in tents. The chief feature of the ceremonies at Edmonton was a speech by Sir Wilfrid Laurier, during which, in speaking particularly to new comers, he said: "Let me say to one and all of our new fellow-countrymen, that the Dominion of Canada is in one respect like the Kingdom of Heaven. Those who come at the eleventh hour will receive as fair treatment as those who have been in the fold for a long time. (Laughter and cheers.) What we have we want to share with them, our land, our laws, our civilization. Let them be Britain's subjects. Let them take their share of the life of this country, whether it be municipal, provincial, or national. Let them be electors as well as citizens. We do not anticipate, and we do not want, that any individual should forget the land of their origin or their ancestors. Let them look to the past, but let them look also to the future. Let them look to the land of their ancestors, but let them look also to the land of their children. Let them become Canadians, British subjects, and give their heart and soul, their energy, their vows to Canada, to its institutions, to its King, who, like his illustrious mother, is a model constitutional sovereign." (Loud cheers.)
