The Canadian Champion

MILTON, Sept. 29, 1910.

THE FAIR.

Owing to the steady rain on Tuesday morning and doubt that the weather would clear the directors of the Halton Agricultural Society seriously considered a postponement of the fair to some date in October, but finally decided to risk the weather and go ahead. This was a fortunate decision as the rain ceased about 10 a. m. and the sun came out, with a brisk breeze which rapidly dried the muddy roads.

The fair was much more successful than any held here for a number of years. There was a great increase in attendance and the number of entries and the exhibits generally were of the highest class. The gate receipts were about $630. There were no fakirs on the grounds and the best of order prevailed everywhere. The horses deserve special mention. They were a splendid lot, worthy of Halton's reputation as one of leading horse-breeding counties of Canada and it is safe to say that they were equalled at few other fairs. The quality of all other live stock was also of the highest. The hall was well filled in every department, ladies' work, art, fruit, vegetables, roots, etc.

A number of fast horses took part in the speeding contests, which were a great attraction, and there was a great crowd in and in the neighborhood of the grandstand throughout.

We are unable to publish the prize list, except that of the speeding contests to-day. The rest will appear next week.

Every reserved seat for the concert in the town hall in the evening, under the auspices of the Society, was sold before the doors opened and the hall was crowded. Mr. and Mrs. Harry McDonald, Scottish vocalists, and Miss Grace Merry, elocutionist, all of Toronto, gave a splendid program, assisted by the Milton orchestra, and Miss Lawrence, accompanist. The receipts were over $140.

SPEEDING CONTESTS.

Green trot, 6 entries, Dr. J. Telfer's Nellie Baker, 2nd W. E. McCready's Baby Girl, 3rd E. Ford's Major. (Drumquin.)

2.35 trot or pace, 6 entries, J. Mead, Toronto, Belmont Wilks, 2nd F. J. Peer, Clarkson, Clarkson Maid, 3rd S. J. McClure's Wiry Queen.

2.20 trot or pace, 4 entries, H. Chalon, Brampton, Goldring, 2nd R. Scott, Toronto, Easter Sunday, 3rd J. Mead, Toronto, Captain Hall.

AUTOS ON GOOD ROAD.

Some time ago J. P. Griffin, Reeve of Nelson, conceived the idea that it would be a good thing for the members of the Halton county council to take a trip over some of the new roads built under the good roads system in the county of Wentworth, and with that end in view, and at Mr. Griffin's expense, most of the members of Halton council and a number of other friends met by invitation at Burlington station on Thursday last, where six large and powerful automobiles were drawn up all ready to take us on our joy ride. After being introduced to Mr. Taylor, the road superintendant, and a number of the members of the Wentworth county council, we all took our seats and the trip was started, one that will remain green in the memories of some of us for years to come. It was understood from the start that if very much of the good roads already completed in that county were to be seen and inspected in one day, good speed would have to be made, and for that purpose the very best machines had been procured, the one the writer was in having an engine of seventy-five horse-power and capable of making on roads such as they have in that county, a mile a minute. As soon as the boundary line between Halton and Wentworth was passed, a marked improvement in the road was noticable. A portion of this road had recently been dressed with a preparation of crude oil. This piece of over a mile was absolutely smooth, without a particle of dust and looked as if oil might, in the near future, be the final finish to a good road, as it not only keeps down the dust but prevents all water from penetrating. From here we went around by the Valley Inn and up the mountain to Waterdown. Every foot of this road had been built under the new system and was as smooth as a board. At Waterdown, Mr. Griffin had made arrangements for dinner, which some forty guests most thoroughly enjoyed. After dinner it was found that no time must be lost and we got away as speedily as possible, making many miles over the county system in different directions, finally pulling up at Mr. Doolittle's stone quarries, which to anyone who had not seen them before were a great surprise. They are situated on the mountain just outside of the town of Dundas, and at the present time over ten acres are stripped and over the whole of this space a ledge of twenty feet of solid rock has already been removed. They are now working on a second ledge of twenty feet. The metal here seems to be of a very superior quality and the hardest and best for road building that can be found anywhere in Ontario. To give you some idea of the demand for crushed stone for road building, in this quarry alone there are employed 175 men, with all the latest labor-saving machinery. The day before we were there a blast had been put off in which 2500 lbs. of dynamite was used, loosening up from ten to twelve thousand tons of stone. At the present time two immense crushers are at work day and night, but the demand for stone for road-building is so great that they cannot fill more than half of the orders and a new crusher is now being installed, which will be one of the most powerful in America, weighing 225 tons and capable of crushing a stone 3½ feet by 11 feet. Now when you take into consideration that this is as large as a big saw-log you will have some idea of the strength of this machine. The works here are all run by electric power, and a long train load of stone goes out every day. From here a run was made for a few miles up the Galt road, thence through Dundas up the mountain by Ancaster village over many miles of new roads, finally all pulling up at the Mountain View hotel, where all had refreshments, even to the autos, as they required a little water for cooling-off purposes. We then went along the mountain top by way of the Jockey Club as far as the east end incline railway, down this to the city of Hamilton, a few miles in Stoney Creek direction, then back to the Waldrof hotel, all feeling that it was a great outing and a most enjoyable trip through a good country, and over some of the best macadam roads to be found in any county around here. This county was the first to avail itself of the Government grant and started in at once to improve its roads, commencing in 1903 and has completed and under construction at the present time 152 miles. We were informed by members of Wentworth council that at almost every meeting they had petitions from ratepayers asking that the original system laid out be extended and that other lines and roads be taken in. Those petitions are signed by many, who a few years ago were directly and strongly opposed to the system, but now that they have seen so much done and the advantages to be derived from good roads they are anxious to see every leading road in the county macadamised. It is a great pity that Halton did not make a start earlier. It is also too bad that since starting so much opposition has been shown by men who should take a broader view of public improvements. Halton has not had from the government, by a good many thousand dollars, as much as Wentworth and is that far and more behind that county in road improvement. I must say in conclusion that Wentworth council not only knows how to build roads but they also know how to entertain their neighbors. Cont.

SCULLER AT 86

Death of Dr. Furnivall, a Scholar and Athlete

Dr. Frederick James Furnivall who, we regret to announce, died on Saturday at his residence at Primrose Hill, was celebrated alike as scholar, worker, philanthropist, and athlete. Eminent as a man of letters and as a sociologist, he was perhaps more popularly known as the Grand Old Man of Thames scullers. From boyhood he loved the river, and right up to his eighty-sixth birthday, which he celebrated by taking part in a sculling match on the Thames, he never missed his one-day-a-week sculling. He was the founder of the Furnivall Sculling Club, of which both young men and girls were members, and it was always an interesting sight to see him taking out a crew of the club girls. He acted as coxswain, and as he invariably went bareheaded, with his white hair flying in the breeze, he might have been Father Time himself coaching the daughters of men in the way of health and vigor.

SOME ADVICE BY ADDISON

If we look down on other people it is a proof that we are not looking up enough.

Don't expect too much of mankind. Better to expect too little than to be disappointed.

If the threads of love and kindness are knitted into daily life, the pattern is worth copying.

That is true religion which enables even the poor to become givers, even the rich to become receivers.

When anyone contradicts you, use the circumstance to learn more about the subject, instead of resenting it.

Bad luck is often but another name for bad management and lack of alertness in making the most of opportunities.

It is not well to change your opinion too often, but he who never changes his opinion is likely to be thought bigoted.

If you desire success, make perseverance your wise counsellor, caution your elder brother, and hope your guardian genius.

JACK AND THE CLOCK

"Why is it that I am like the clock?"
Said laughing Jack to me.
"Because I have two hands and a face,
As anyone can see."

The difference 'twixt the clock and Jack
Is quite too plainly seen;
I wish they were alike in this:
Its face and hands are clean.

THOSE BIG HATS

The "Man in the Seat Behind" is up in arms in the religious papers against the enormous hats worn in church by ladies. "For many Sundays past," he says, "I can truthfully declare that, except at quite early services, I have seen neither priest nor altar, chancel nor choir, pulpit nor preacher. My outlook is entirely bounded by rows of enormous hats."

Lever Brothers, Toronto, will send you free a cake of their famous Plantol toilet soap, if you mention this paper.

YOU TAKE NO RISK

Our Reputation and Money are Back of This Offer.

We pay for all the medicine used during the trial if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. Could anything be more fair for you? Is there any reason why you should hesitate to put our claims to a practical test?

The most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. They are very pronounced, gentle and pleasant in action, and particularly agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.

We urge you to try Rexall Orderlies at our risk. Two sizes, 10c and 25c. Remember you can get Rexall Remedies in this community only at our store—The Rexall Store, Higginbotham Drug Co.

RHEUMATIC PAINS

Not Due to Cold, Wet Weather—The Trouble is Rooted in the Blood.

Many people believe that the twinges and tortures of rheumatism are due to cold, damp, or wet weather, and treat themselves by rubbing with liniments and lotions. This is a serious mistake, and one which allows the disease to progress to such an extent that it is often impossible to get it out of the system. Rheumatism comes from poisonous acid in the blood, and it must be cured through the blood. All the liniments, and rubbing, and so-called electrical treatment in the world will not cure rheumatism. This is a medical truth which every sufferer from this excruciating trouble should know. Rheumatism can only be cured by driving the poisonous acid out of the blood, and enriching and purifying it. There is no medicine will do this so speedily and surely as Dr. Williams' Pink Pills. They actually make the new, rich, red blood, which drives out the poisonous acid, upbuilds the system, and makes the sufferer well and strong. It is because they do this that Dr. Williams' Pink Pills have cured thousands of cases of rheumatism after all other treatment had failed. As proof we give the case of Mrs. F. X. Boisseau, St. Jerome, Que., who says: "Almost two years ago I was a terrible sufferer from rheumatism. The trouble first located in my right leg, rendering all work impossible, and walking excessively difficult. I tried to cure myself by means of all sorts of liniments and lotions, but without avail. The trouble was constantly growing worse, and the pain more and more unbearable. Finally the disease spread to my other leg, and I was all but helpless, and I was completely discouraged, thinking I would be a sufferer for the rest of my life. At this time I read an advertisement in our home paper, of this trouble being cured by Dr. Williams' Pink Pills and I decided to try them. I first got four boxes of the Pills and after using them for several weeks I could see that the painful rheumatism was gradually disappearing. I continued taking the Pills however, until I had used about a dozen boxes, when every symptom of the trouble had disappeared, and I could walk as freely as ever I did, and do my housework without the least trouble. I have no hesitation in recommending Dr. Williams' Pink Pills to every rheumatic sufferer."

Sold by all medicine dealers or by mail at 50 cents a box, six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Burlington Fair.

The weather was wet last Friday and the attendance at Burlington fair was not as large as it would have been under more favorable conditions, but otherwise it was the most successful in the annuals of the Nelson and Burlington Agricultural Society. The number of entries was larger than ever and the quality of the exhibits was never so high.

PRIZE HORSES.

In the contest for single roadsters style, speed and value considered, the results were: 1, George Martin, of Hamilton; 2, W. Gilbert, Hamilton; 3, R. W. Armstrong.

Single carriage horses—1, Dr. Thompson; 2, G. E. Gastle, Milton; 3, Thos. Small, Hamilton.

Single saddle—1, Leeming Wilson, Burlington; 2, Dr. W. G. Thompson; 3, M. C. Smith, Burlington.

In the racing, a horse named Sir Francis, owned by Murray Dean, of Stoney Creek, carried off several prizes, including firsts, though in the free-for-all it was beaten by Maud, owned by H. Snider, of Hamilton, in a very close finish.

The results are as follows:

Green trot: 1, Topsy, owned by G. Gilbert, of Burlington; 2, Dan S., by John Small, of Kilbride; 3, Minnie, by Armstrong brothers, of Burlington. The results in both heats were the same, there being only three contestants.

Free-for-all: 1, Maud, by H. Snider; 2, Sir Francis, by Murray Dean, of Stoney Creek; 3, Joe Miller, owned by H. Shaver, of Hamilton.

2.40 class, trot or pace: 1, Murray Dean, with Sir Francis; 2, H. Shaver, with Joe Miller; 3, R. Armstrong, of Brampton, with Geordie.

Same as in Milton.

Streetsville Review.

It has just been brought to our attention that placing the small children in the upper room at the public school is a big mistake. In case of fire the little pupils would have the least chance of any in getting out and a panic would likely be the result, with great loss of life. We would advise the P. S. Board to make a change by placing the smaller pupils down stairs and the intermediate classes on the second floor. This would give the little people a chance to get out in case of fire, while the older ones could manage for themselves.

"White Swan" Coffee Has Strength.

White Swan has strength as well as aroma. Its golden brown liquor is bubbling with pleasure for the amateur of good coffee.

A British shipper has secured the contract of transporting the United States army stores from Seattle to Manila.

The Government at Ottawa has decided that in order to promote the native wine industry makers are to have free sugar. The duty will be paid on the sugar, and then refunded when it has been used in wine-making.

A National Newspaper.

The Globe has tried during all its history not to lose sight of the fact that a newspaper can play an important part in nation and empire building. One way in which this has been effectively practised is by keeping trained members of its staff constantly "on the wing" in search of useful and interesting information. Wherever important national work or world events in which Canadians were concerned were taking place, or where pioneer development was in progress, there The Globe commissioners have been reporting with intelligent discernment for the benefit of this country.

This policy has rarely, if ever, been more generally practised than at present. To-day the Managing Editor of The Globe, Dr. J. A. Macdonald, is in Mexico, where a three weeks' celebration of the centenary of republican government is being held, and upon his return he will contribute a series of sketches on that interesting country—a country whose relations to Canada are becoming very close.

Capt. Jaffray Eaton is representing The Globe with the Q. O. R. in England, the only exclusive press correspondent on the trip.

W. J. Jeffers, another member of the staff of The Globe, is at present on a pioneering trip in the Gowganda, Elk Lake, and the far north country. Mr. Jeffers is exceptionally equipped for such an expedition, having spent several years in the mining camps, America and South Africa.

M. O. Hammond, Editor of the Illustrated Magazine Section of The Globe, is contributing letters on the political situation in the United States. These will be continued during the next few weeks, Mr. Hammond's instructions being to travel wherever good "copy" from a Canadian viewpoint can be secured. It goes without saying that not in fifty years has so much interest been taken by Canadians in United States politics as is the case at the present time.

The Globe is trying to live up to its record in the matter of keeping its readers posted, aside altogether from the ordinary sources of local and telegraphic news.

While driving to Georgetown on the 9th inst., Geo. Wilson, of Hornby, met an auto on the 7th line. His horse became frighened and jumped, breaking the belly band. Then it kicked and gave its driver a nasty, though not serious cut on one of his legs. The man in the auto brought Mr. Wilson to Georgetown, where a doctor put four stitches into the wound.

The Most Rev. W. D. Maclagan, formerly Archbishop of York, is dead.

MAGNIFICENT LIBRARY

Of One Hundred Volumes

TO BE GIVEN AWAY IN A

Library Voting Contest.

BELOW will be found the names of some of the progressive firms of Milton who make this most popular and liberal offer. This elegant Library and handsome case will be given by vote to the lodge, society, church or school in Milton or Halton county securing the largest number of votes in the following manner:

The business men listed below give with **Each Ten Cent Purchase** one vote. The contest begins Thursday, Sept. 15th, 1910, and ends on February 15th, 1911, at the hour of seven o'clock p.m.

A ballot box has been placed in **Mackenzie's Drug Store,** where the votes can be deposited. At the close of the contest the church, society, school or lodge having the largest number of votes will be awarded the library. **Current accounts when promptly paid will be entitled to votes.**

REMEMBER, votes can only be secured by trading with the merchants listed below. Each week the CHAMPION will announce the standing of the various contestants.

The Library and case are now on exhibition in the show window of Bastedo & Co.

Insist upon getting free the coupons and help your favorite lodge, school, society or church win a handsome library of reference, standard and poetical works, including a variety of the latest fiction. Do your duty. IT'S UP TO YOU.
