The Canadian Champion
MILTON, Jan. 18, 1912.

The county council will meet next Tuesday at 2 p.m. The first business will be the election of the Warden for 1912, and the next that of Auditors. The Reeves of Milton and Nelson are mentioned for the Wardenship. It may be accepted as certain that Messrs. Maitland Young & Son, chartered accountants, will be re-appointed auditors. Their work since they were first appointed some years ago has been so thorough and so satisfactory that the council is not likely to return to the old practice of appointing amateur auditors.

The Champion and other newspapers are flooded weekly with copy from Ottawa for free advertising of Canadian Government Annuities and other Government schemes. Sometimes a printed slip accompanies the copy, giving the publisher the following encouraging tip: "This communication is not sent as an advertisement but as an item of news. If you think it is of sufficient interest to your readers to deserve a place in your columns, please place it in your next issue." In no case is anything said about payment.

The Government plainly wants the matter published. It is able and should be willing to pay for such publication.

Forestry in Europe.

The productive forest area in 1908 on the Grand Duchy of Hesse in Europe amounted to 182,283 acres. In general the standing timber is composed of sixty-nine per cent. hard wood and thirty-one per cent. coniferous forest. The fir ranks first among the coniferous species. The total yield of lumber in 1908 was 1,575,000 cubic feet. Refuse, in so far as it is not suitable for lighter lumber, such as laths or for pulp, is used for firewood. The expenditures for salaries, forest cultivation and road building amounted to approximately $754,000, and the total gross income from lumber and firewood was $1,161,931. The capital represented by the forests ($52,935,354) brought interest accordingly at 2.21 per cent. Where intensive forestry of this kind is practised forest fires are unknown. Sufficient money spent on Canadian Forest Reserves would greatly reduce the fire danger, maintain an adequate lumber supply for the country and in time become a source of revenue to the Government.

Good Heaters.

The present cold weather has been an excellent test for the Imperial Foundry Co.'s new patent. Mr. Tate, on making a special trip to see it working at 17 below zero, found no complaints from any of the 12 families occupying the apartment house in which it is heating 61 radiators off the one boiler, which has but a 26-inch diameter round fire pot, and outdoing any other make on the market by about 90 in heating efficiency. It was originally intended that two boilers should be installed, but the one is heating the entire place in such a satisfactory way that their order for the second was cancelled, it not being needed.

This has proven a great advertisement to the Imperial Foundry Co., and is interesting those connected with the boiler business in Toronto to no small extent in regard to this new boiler, designed from the very highest ideas in scientific boiler construction.

PUBLIC GUARANTEE.

That most beautiful picture, entitled "Home Again," has brought such an enormous amount of new subscriptions to The Family Herald and Weekly Star, that the publishers are finding it impossible to keep up with the filling of orders, but in the columns of that paper this week, we notice a positive guarantee from the Publishers that every subscriber to that great weekly for 1912 will receive a copy of the picture, "Home Again." Their guarantee is sufficient and subscribers need not feel anxious although the picture may be delayed for a few weeks. Those who have not yet subscribed to The Family Herald and Weekly Star should do so at once and make sure of having a copy of the picture "Home Again." We learn that the Publishers are contemplating something for next season that will make this picture even more valuable than at present. One dollar pays for a full year's subscription to the paper, and the picture.

AN OPEN LETTER

From a Well Known Clergyman Showing How Indigestion Can Cured.

Rev. T. A. Drury, Beamsville, Ont., writes as follows:—"For eighteen years I have been increasingly impressed with the wonderful effects for good wrought by Dr. Williams' Pink Pills. For some years I had suffered almost constantly with chronic dyspepsia of the most stubborn type, attended by different other troubles which invariably follow, or accompany it as its results, prominent among which were kidney trouble and piles. Against this complication of disease I waged a vigorous warfare for several months, using many different remedies, none of which gave permanent relief. In my discouragement I was about to discontinue treatment altogether when I was advised by a friend to try Dr. Williams' Pink Pills, the use of which, though under very unfavorable circumstances, soon revived my drooping courage. The medicine struck at the root of my weakness and the different troubles of which dyspepsia was the prime cause released, let go, and disappeared. In one month I increased fifteen pounds in weight and received a new lease of life. Only six boxes of pills produced this wonderful change in my health, which was miraculously permanent.

Later my sister became so reduced by anaemia (though under the care of our family doctor) that she could scarcely walk. In this dangerous extremity Dr. Williams' Pink Pills were resorted to and in a brief space of time restored her to perfect health.

Being a minister of the gospel many test cases have come under my notice, in all of which Dr. Williams' Pink Pills have fully sustained their world wide reputation. This is why I can conscienciously recommend Dr. Williams' Pink Pills as being superior to anything known to me in the treatment of the many diseases for which they are recommended."

BIG LIBEL ACTION

A Daughter of Father Chiniquy Begins an Action for $10,000.

An action claiming $10,000 damages has been commenced at Montreal against La Croix, a local weekly paper, by Rebecca Chiniquy, daughter of Rev. Father Chiniquy, the famous priest who left the Roman Church. The ground of the suit it that La Croix said Chiniquy's wife was only a concubine, and, therefore, his daughter illegitimate.

The declaration of the plaintiff states that she is the legitimate daughter of Charles Chiniquy and Euphemie Allard, who were married on the 13th of January, 1864, by Rev. Desrocher, a minister of the Protestant Church, at St. Anne's of Illinois ,in the State of Illinois, according to the laws of said State of the American Union; that she is the legitimate wife of Joseph L. Morin, a professor of McGill University; that defendant published in his paper, La Croix, on the 16th of November last, an article in which it was said that Chiniquy, the apostle, could not be married, and that the woman who associated with him, namely, Euphemie Allard, was only a concubine; that the Chiniquy referred to in the article complained of is the legitimate father of plaintiff.

That before his marriage with the mother of plaintiff, Chiniquy had solemnly and officially repudiated the the Church of Rome on the 3rd day of August, 1858; that the Euphemie Allard referred to in the article is the legitimate mother of plaintiff; that the said article clearly and intentionally insinuates that plaintiff is of illegitimate birth; that said article was published with intent of insulting, and does insult, the memory of the father of the plaintiff.

The said article is also meant to throw discredit on the daughter of said Charles Chiniquy and Euphemie Allard, namely Dame Rebecca Chiniquy, the plaintiff; that said article is of a nature to injure plaintiff in her honor as well as in that of her father and mother, and injures her feelings, an dexposes her to the contempt and hatred of the inhabitants of the Province of Quebec.

APPLICATION TO PARLIAMENT.

Notice is hereby given that an application will be made by the Corporation of the Town of Milton, in the County of Halton, in the Province of Ontario, and by "Williams & Son, Limited," of the said Town of Milton, to the Legislature of Ontario at the next Session for an Act to confirm and validate an Agreement entered into between one J. W. Williams and the said Corporation of the Town of Milton, on the 14th day of March, A D. 1911, whereby the said J. W. Williams agreed to build and equip in the said Town of Milton a Shoe Factory, of the value at least of $15,000.00, and to employ a certain number of hands therein for twenty years from the 1st day of August, A. D. 1911, and the said Corporation agreeing to guarantee the bonds of the said J. W. Williams, or of any company which he might incorporate, to the extent of $12,000.00, to be secured by a first mortgage on the premises and plant in favor of the said Corporation, as is fully set out in said Agreement, and also to confirm and validate By-law Number "417" of the said Corporation of the Town of Milton passed pursuant to the Act in that behalf and pursuant to such Agreement, and also the bonds issued under such Agreement and By-law.

Such Act is necessary because of a possible objection to such Agreement and By-law on the ground that the said J. W. Williams prior thereto had been along with other parties carrying on a shoe business in the Town of Brampton, in the County of Peel, under the name of "Durgin-Williams, Limited," but which last mentioned company has gone into voluntary liquidation.

Dated at Milton this 4th January, A.D. 1912.

THE GARDEN OF EDEN

The Site Can be Ascertained With Reasonable Accuracy

Few persons are aware that experts have long been of the opinion that the site of the Garden of Eden can actually be determined with a fair amount of accuracy. They maintain that it lies in Mesopotamia somewhere between Babylon and Bagdad. And there has just been set on foot a scheme for restoring the Garden of Eden.

The district is at the present day almost a desert. But there is abundant proof that it was once a fertile paradise. And the proposed restoration, which will take the form of a scientific restoration, is undertaken as much in the belief that it will prove a profitable commercial enterprise as for its religious association.

Under the direction of Sir John Jackson, an army of 3,000 workers has already started on the preliminary work, which consists of preparing the land for the canals and other waterways which will be fed by a series of gigantic damming operations of the ancient rivers of Tigris and Euphrates.

It is estimated that the scheme will cost about twenty millions sterling, which is being supplied by the Turkish Government. But it is expected that as soon as the work is completed, the restored Garden of Eden will be readily sold for thirty-eight millions; and there will be, in addition, all the industrial development and prosperity that follows upon successful colonization.

If this gigantic scheme is brought to a successful conclusion it is highly probable that there will be a stream of emigrants to Eden, just as there is at the present day to Canada and elsewhere.

It is reported that Sir William Meredith will be appointed by Royal commission to investigate the Farmers Bank affairs.
