That the musical qualities of the piano depend almost entirely upon the accuracy and excellence of the tuning, and the proper condition of its action? A trial of my services will prove to you the advantage of having your work done with care and precision by one who is up-to-date in every detail, tuning, voicing, action regulating and repairing, and who is always at your service and not a casual visitor to the town. Address or call at H. Wheeler, Sarah St., Milton, Ont.

KNOX CHURCH—The subject for Sunday morning will be, "Lot and Abraham." Anthem, "I Will Greatly Rejoice" (Sudds). LIGHT BREAD—On Thursday A. L. Chambers appeared before Police Magistrate Dice, charged with making bread weighing less than 24 ozs. and 48 ozs. He pleaded guilty, explaining that no money could be made out of bread of full weight. He was fined $5 and costs and a bag of bread was confiscated.

The ladies of Knox Church have pleasure in announcing that they are now preparing for their annual "St. Patrick's Bazaar," which will be held on the 14th March. Particulars later.

THE PRINCESS—Manager T. D. Hume showed a choice lot of pictures last night at the Princess Theatre, which was crowded. "The White Lie" and "Dora" series were greatly appreciated. COUNTY COUNCIL.—The next meeting of the county council will be at the call of the Warden. So far, he has not issued his call, but it will be for as early a date in March as possible, possibly the first Tuesday. It is expected that Messrs. Maitland Young & Sons, the Auditors, will have their report ready by that time. There is a meeting to-day at Acton of the standing committee on good roads, not of the whole council, as has been reported.

PUBLIC LIBRARY.—The members of the Library Board wish to thank those who contributed to the success of the sale in aid of the Public Library. The sale itself was most gratifying, the proceeds amounting to nearly $80. The town council very kindly gave the use of the hall free. Whatever money is over will be used for the improvement of the reading room.

GOVERNMENT DEFEATED.—At the League Mock Parliament Monday night the government was defeated, but not without a hard fight. The house first put through a private member's bill by the Hon. Woodrow Wilson, of Yankee Town, entitled "The Liquor Damage Act." The government was defeated on a bill to fix a moderate price on all things, that the cost of living may not be too high. Many strong arguments were given by both sides of the house, the opposition even turning some of the government members, resulting in the defeat of the government, much to the amusement of the gallery, which was packed. The Governor-General will now proceed to form a new government. The next sitting will likely be more interesting than ever. The League meets every Monday evening at 8 o'clock. You will be welcomed.

KILLED AT BURLINGTON.—It having been found necessary to increase the height of the standpipe of the waterworks system at Burlington the contract was given to a Toronto company. The pipe is of steel. There was a balcony near its top, 2 feet wide, with a railing around it. The contractors removed the railing and last Friday steel plates were being raised. A piece of scantling of jack pine was placed in the top of the pipe, projecting at an angle to one side. At its upper end was a pulley and the raising was done by a horse hitched to a cable. One of the workmen was Douglas Bradt, of Toronto, young married man. He was perched just below the balcony and his work was to push out the plates so that they would clear it. A plate weighing 840 lbs. was being raised. Bradt pushed it out, but one of its corners caught the balcony, the scantling broke and struck Bradt's head. He fell 90 feet to the ground and was killed instantly. An inquest was opened on Friday evening, with W. I. Dick, Crown Attorney, in attendance. It was adjourned to Tuesday evening. The verdict was that the deceased came to his death "through the breaking of the hoisting apparatus and, in the opinion of the jury, it was faulty." The contractors are The Toronto Iron Works.
