RIFLE REGISTRATION.—By order from headquarters the rolls of the 20th Halton Rifles are being lapped to the old fort, Toronto. Milton's lot will go forward to-morrow morning. They will be replaced by less rifles as soon as possible.

THE RIFLE.—Toronto has more than thirty new rifle clubs. They are springing up in every business, profession and occupation which boasts a score or more of men. The enthusiasm is intense and the members practice at every opportunity. It is time for Milton to make a move.

Wednesday last witnessed considerable excitement in town. For two weeks previous, Mr. J. S. Boothman and two assistants had travelled the country securing remount horses for army purposes. The assemblage of the horses was billed for here, and on the above date over one hundred horses were brought in from all parts of the country. Dr. Campbell, of Toronto, inspected the horses, and only chose twenty-one out of the entire lot. Then the trouble commenced. It was claimed by many that Mr. Boothman had bought the horses, but Mr. Boothman says he told them the animals would have to undergo inspection here before being accepted. Hot words ensued on the street, and threats were made by certain owners of clubbing together to prosecute Mr. Boothman, but no action has been taken as yet. As the men whose horses were selected did not see any money forthcoming they took their horses home.—Burlington Gazette.
