A letter was received on Monday from Captain E. D. Panton, dated 5th inst. He said he had returned from his week's leave of absence, spent at London and Shorncliffe, and was on duty again in No. 2 Stationary Hospital, La Touque. He and other surgeons were fairly busy, but the Canadians were having a quiet time and there was nothing special to report.

Some time ago we published a letter written from Wurtemburg, Germany, by Pte. W. J. Huntingford. He was a British reservist, joined the First Queen's Regiment, of Hersham, and was seriously wounded and taken prisoner on Oct. 29th last in northern France, in a battle in which his corps lost 624 officers and men. Pte. Huntingford worked here for some time as a brickmaker, but was employed by the Canadian Ford Co. at Walkerville, when the war broke out. A. Norrington, of Streetsville, has received a picture taken at the German prison camp, a group composed of Pte. Huntingford, four Frenchmen and one Russian.

When the corps of engineers made up of C.P.R. men, went to the front some officers and men were left in London for a time to procure extra equipment required. So were the Paymaster and Paymaster's Sergeant, N. M. Campbell.

THE WAR

The Austro-Germans are bombarding he northern border of Serbia, preparatory to an effort to hack their way to Constantinople.

Bulgaria has mobilized a large army and is expected to invade Macedonia when the Teuton attack develops. It is expected that Greece will help Serbia. What Roumania will do is uncertain.

Yesterday, in the British House of Commons, Mr. Hogge complained that the country was kept in ignorance and had to get news of the British fleet from New York. He asked why the Government concealed the fact that "since the outbreak of the war we have sunk 50 submarines. Everybody knows this. I have mentioned it in speeches, yet the the press is not allowed to publish it."

The Providence, R. I., Journal says "The reason why the German Government has consented to change its submarine methods is because more than 80 per cent of its submarines have been destroyed and its underseas warfare brought to complete failure within the past two months.

"Sixty-seven German submarines, 28 of which are declared to have been of the newest and latest construction, have been sunk and their crews destroyed since the 5th day of May. It is stated on positive authority that the full capacity of the German shipyards for the underseas boats is not more than three a month, but that even if Germany were able to replace her submarines as fast as they have been destroyed, the most grave situation she faces in regard to this method of warfare is the actual destruction of the morale of the officers and crews of such vessles.

HORNBY SCHOOL FAIR.

The Hornby School Fair exceeded all expectations. This was true in regard to exhibits, attendance and enthusiasm. The board of directors were highly pleased and are to be congratulated on arranging such a day of pleasure and profit for the boys and girls of Hornby district as well as the grown-ups. There wasn't a dull moment all day. By 9 o'clock a crowd had gathered and at 12 o'clock it had swelled to over 800 people. Those in charge of the tent were kept busy placing exhibits in the big tent 50x30 which had been erected.

The exhibits of corn, mangels, flowers, potatoes, cooking and sewing were of a very high order and there was very keen competition. The poultry which was exhibited in a special large tent, created a good deal of comment. There were over 300 barred rocks on exhibition. The school parade was very pretty. Each school paraded and sang a song before the large audience. Every school was represented in the parade and the arrangement of the pupils and the rendering of the songs reflected great credit upon the teachers.

The school fair officials were as follows: Manager, H. R. Hare; Asst., R. C. Fretz. Judges—W. H. Tisdale, B. S. A., Saskatoon Agricultural College, W. F. Strong, B.S.A., Galt, D. Elliott, Paris. J. M. Denyes, P.S.I., C. H. Stuart, W. J. McClenahan, Mrs. C. H. Stuart, Mrs. McClenahan, Misses Mabel Hume, M. Hume and Elsie Lawson.

During the summer the pupils of the various schools had been growing crops from seed supplied by the Department of Agriculture. These plots were examined by the district representative and his assistant and prizes were awarded as follows:

Potatoes, Sr. 3 and above—Tommy Dawson, Lillian Turner, Irene Featherstone, Morris Turner, Pirie Saunders, Harold Michie, Gladys Goddings, Ernest Goddings, Albert Ford, Myrtle Hourton.

[illegible] LETTER

From a Well known Methodist Clergyman of Interest to All Who Are Sick.

One of the best known ministers in the Hamilton conference is the Rev. Chas. E. Stafford, of Elora, Ont., who freely adnits that he owes his present good health to Dr. Williams' Pink Pills. Mr. Stafford writes as follows: "Some years ago I was severely afflicted for a period of nearly four months. The leading physician in the town in which I was then stationed diagnosed my case as one of complete nervous prostration, brought on by over-work and which superinduced intercostal neuralgia and muscular rheumatism, from which I suffered the most excruciating pain night and day for weeks. So weak and helpless did I become that my attendants had to handle me like an infant, raising me up and laying me down with the greatest care, so intense were my sufferings. Acting on the advice of my doctor, and taking his medicine, I did not seem to improve. One afternoon, while suffering great pain, the editor of the paper published in the town, and who was a member of the church of which I was then pastor, urged me to try Dr. Williams' Pink Pills. I was sceptical as to the medicinal qualities of all proprietary medicines, but on the strong recommendation of the editor, who had great faith in the medicine, I decided to try them. To my great surprise and supreme delight, I soon found that the Pills were giving me relief, and after I had taken seven boxes I was fully restored to health. Dr. Williams' Pink Pills, under God, having made me a new man. Ever since I have been better and stronger physically than I had been for a number of years.

Three years ago, after an active ministry of forty-six years, I asked the Hamilton conference of the Methodist church to grant me superannuation relation, which it did, but for more than two years I have been supplying a charge which necessitates a drive of twenty miles every Sabbath. To-day I am strong and hearty, without an ache or pain, and for my present physical condition I am indebted to Dr. Williams' Pink Pills, and can most heartily recommend them to the afflicted."

WHY YOU SNEEZE

There is more than one cause for sneezing, and persons may differ in their susceptibility to them. A bright light will cause some persons to sneeze, the pollen of certain plants will affect others, and most people are likely to sneeze in the presence of dust. Such sneezing is due to superficial irritation. The sneeze caused by the effect of cold is different. It is an attempt of Nature to cure you. She makes you sneeze for the same reason that she makes you shiver—to generate heat for warming the blood and preventing you from taking more cold—to help relieve the cold you have. The sneezing from cold is not an act of the nose alone, this being merely the part of the body where it explodes. It is an act of the entire body during which every muscle gives a jump. The body is affected by a spasmodic effort to warm the entire system and throw off the cold.

WAR TAX POINT

Interesting Matter Decided by the Dominion Government

A matter of importance to the public and the railways has been settled by the Government. A nice point has been raised as to the possibility of refund of the war tax in case a person should change his or her mind in regard to the contemplated trip by train or boat. Accordingly the railways submitted the questions to the Government—what should be done in case unused tickets presented for refund to agent before the train starts; to agent or general office after train departs; the same or some following day; in the case of passenger tickets; in the case of sleeping car tickets; in the case of parlor car tickets, in the case of steamship tickets. The answer which the railways received was as follows: There can be no refund of the tax under any circumstances. Once the ticket is sold and the tax collected, it is as though it were in the Dominion coffers and nothing but an act of Parliament can get it out again. It was explained by the Dominion authorities that in order to prevent the confusion that would arise in applying literally the millions of tax stamps that would have been required on railway tickets and the consequent difficulties which would have ensued owing to delay in affixing and cancellation of stamps, the present method had been adopted, and, that as none of the public could have reasonably expected a refund on a stamp that had been affixed and cancelled if a ticket were refunded upon, so also no refund may be expected wherever a tax had been collected, and the ticket unused and refunded upon. In other words, the act of purchase of the ticket in accordance with the Tax Act is a completed transaction so far as the collection of the tax is concerned, and under no circumstances as the law now stands could it be refunded. To make a refund of the tax possible a special act would have to be passed by Parliament.

Campbellville.

Yes, I promised to tell you all about our big Sunday entertainment and now I might describe it in three words, rain, rain, rain. Rather, I prefer giving the incidents of the day of a more interesting character. On schedule time our warriors assembled on the field of battle, and for a time everything looked most promising. The sun shone, the ground was free and the uniformed contestants presented a fine appearance, while in the adjoining tent the vendors of ice cream, etc., were anticipating overflowing coffers by the end of the day. But alas! "the wisest plans of men and mice gang oft aglee," dark clouds appeared, vivid lightning cut the clouds, thunder pealed, and down came the rain. Oh, for a kodak, but a kodak would be too slow—the scene was a moving picture. Almost in an instant players and spectators had disappeared—in autos, carriage, under trees, into the tent, under tables, etc., while the ladies whose visions of fabulous gains were being rapidly submerged, stood like mermaids vainly trying to protect themselves, little children and the various confections by holding up umbrellas. Said umbrellas, I am sorry to say, soon proved unworthy of the faith reposed in them and only added to the downpour. But the storm lets up and our gallant boys emerge from their hiding places—I believe under the impression that they had been in the trenches—and resumed the game. Such was the programme of the day, but the game went on. Acton not having put in an appearance, Kilbride had it to themselves, the score being 6 to 5 in favor of Kilbride, but the game, owing to interruption, was unfinished. After leaving the field the players adjourned to the temperance hall, where supper was served. At night a dance was held in the armories, where a fine platform, carefully waxed, was laid to tempt the devotees of Terpsichore. As neither St. Swithin nor any other lachrymose or malicious saint could penetrate the roof by liquid torrents, all went well and the young ladies and gentleman who "chase the hours with flying feet" thoroughly enjoyed themselves, as did the seniors whose years and dignity alone prevented their enjoying the dance and consigned them to the realm of wallflowers. At midnight lunch was served and those who had borne the sun and showers of the day retired to their homes, leaving the juveniles in possession as long as they wished. As evidence that it takes a lot to damp the ardor and patriotism of Campbellvillians the sum of $100 was realized. After paying expenses the balance was to be given to the Ladies' Patriotic Association. Don't know just what that balance is, but if it is in proportion to the downpour of rain, or even in proportion to the amount of fun we got out of the situation in the tent, it would be something worth while.

Campbellville has lost one of its oldest residents in the person of George Allan, who passed to the great unknown on Sunday afternoon. Funeral took place on Tuesday afternoon, interment in Campbellville old cemetery.

Next Sunday is Rally Day in Sunday Schools and a good attendance of scholars and all interested in the work are expected at St. David's School.

At Y. P. C. A. last night the topic was taken by Mrs. Wm. Lynn, who gave a paper on the Ruthenians of the Northwest, after which Miss F. C. McPhee made a few remarks on "Friendships, and how to make them."

Miss E. Sellers, of Milton, is taking a commercial course with Miss McPher.
