Later the section gave a machine gun demonstration, showing mechanism and operation. Mrs. Frank Blemen's baby got first prize in the baby show, with that of Mrs. Herbert Tufford second. Economy in Shoe Purchasing

Many people purchase low-priced shoes under the impression that it is economy to do so. But it is not economy. Because low-priced shoes must necessarily be made from low-priced materials—give but half the wear of high grade shoes and cost a good deal more in the end.

YATES' SHOES

cost little more than mediocre shoes, yet they are the highest grade of footwear you can buy.

They give more real service, than two pairs of 'popular' priced shoes, plus the comfort and smart appearance that is only associated with the finest footwear.
