DROWNED AT DAM.—Sad circumstances surround the death of Mrs. W. J. Graydon, of Streetsville, whose body was found on Monday morning in several feet of water at the power dam. Mrs. Graydon, who was between 45 and 50 years of age, had been ill for some time, and during the night asked her daughter, Elizabeth, to go down stairs to get her a drink of water. When the daughter returned the mother was missing. The Bell Telephone employes and others instituted a search, with the result that a shawl was found outside the door of the power house. Later the body of Mrs. Graydon was found in the water. Her husband died three years ago. Mrs. Graydon left a family.

BRAMPTON FIRES.—Damage to the amount of $10,000 was done by three fires at Brampton last Saturday. Pool tables and stock of tobacco in the rooms of H. B. McFalls suffered to the extent of $7,000 in a fire caused by defective wiring. Griffen's grocery, next door, suffered $2,000 damage from water and smoke. As Mr. McFalls was going home from the fire he saw smoke issuing from a window of a building owned by W. J. McCallum. It was found that on the first floor a bundle of loose material was blazing. The fire brigade soon put the fire out, with slight damage. It is supposed that this fire was incendiary. An overheated furnace caused a small fire in the home of Major R. V. Conover, who put it out, with damage of only $10.

CHANGE OF TIME.—A change of time on the C. P. R. went into effect last Saturday afternoon. It is for Saturdays only and for the summer months. When he untied them and they saw the buggy they took fright, made a sudden start, broke the whiffletrees and got away. They jammed Mr. McCready against the tree. His right arm was broken. The horses did not go far. They were caught by a man to whom Mr. McCready called for help.

BANK OF HAMILTON.—At the annual general meeting of the shareholders of the Bank of Hamilton, at Hamilton on Tuesday, the President, Sir John Hendrie, announced that they were marking the fiftieth annual meeting by putting into circulation a new issue of notes—fives, tens and, more particularly, a twenty-five dollar note, which would be a new departure. This note corresponds, roughly, with the £5 note of the Bank of England. The three new notes are marked "Jubilee Issue."

A FINE PERFORMANCE. — At the Princess Theatre yesterday evening the Burlington Dramatic Club appeared by special request in the play, "Nothing but the Truth," which had made such a hit in February. The performance was under the auspices of the Fire Brigade and a full house was expected, but unfortunately a storm of rain and snow set in about six o'clock and continued for some hours. The attendance was much smaller than it would have been under favorable conditions, but all who saw the play were delighted. It was put on with a finish rarely seen in amateur performances.

You feel better after a good hearty laugh, don't you? See "The Arrival of Mr. Wright." At the Princess Theatre, Milton, Tuesday and Wednesday, April 25 and 26.

INCOME TAX—C. M. Piercy, was in Milton on Monday and Tuesday. He is an accountant in the office of the Inspector of Taxation at Hamilton and has charge of Halton returns. He came to this county on a tour of education. He had been on the lake front and went from Milton to Georgetown. He said that while it was desired that everybody liable for income tax should pay every cent of his share, it was not desired that anyone would overtax himself through misunderstanding the basis of taxation. Some farmers, for instance, did this in connection with the proceeds of sales of cattle. They made no distinction between beef and dairy cattle. Beef cattle were part of the produce of farms and the proceeds of such stock were taxable. Dairy cattle were classed as equipment, on the same footing as implements. Proceeds of sales of equipment were not taxable. Mr. Piercy wished to remind all income taxpayers that their returns must be filed not later than 30th inst. In the meantime anyone wishing instructions in the making out of his return would receive it promptly on writing to the Hamilton office.

TOWN COUNCIL.

The town council met on Tuesday evening, the Mayor in the chair.

The principal matter discussed was the report of the committee on streets and walks, recommending the expenditure of $2832.30, distributed on a number of streets, including $1100 for a cement roadway 14 feet wide on Court Street, from Main Street to the C.P.R. station, the railway company to furnish the gravel.

There was a long discussion. It was argued that the estimate was too low, that the expense would be at least $4000 and that the raising of the money would involve an unwise increase in taxation. The report was laid over for further consideration at the next meeting of the council.

BELTON MISSION CIRCLE.

The annual meeting of the Belton Missio Circle was held at the home of Miss Mary Featherstone on Tuesday evening, April 11th, at 8 o'clock. The Circle year has been a very successful one. The Easter offering amounted to $20, while the mite-boxes contained $17.11. After sending $50 away the Circle has $100 in the Bank. JAMES BROWN BEFORE P.M.— After two adjournments, James Brown appeared before Police Magistrate Dice this morning on the charge of conspiracy to defraud and perjury in his Division Court case against Clarence Gunby, of Nelson, tried on March 10th. Crown Attorney Dick prosecuted and Brown was defended by Messrs. Macdonnell and Walker. The substance of the evidence has already been published in reports of the trial and conviction of Lawrence Peer for perjury, except the evidence of Peer, who appeared for the prosecution to-day. He swore that Brown induced him to swear as he did in the Division Court case. Brown was committed for trial and his bail was renewed.
