OAKVILLE BRIDGE—It was reported yesterday from Toronto that the high level bridge at Oakville, on the Toronto-Hamilton highway, had been put into such condition that vehicles could pass over it and the detour was no longer necessary. This was not true. The bridge is not likely to likely to be ready for some time. At Tuesday's meeting of the county council a resolution was passed for a request to the Ontario government for payment to the county of sixty per cent. of the expense of repairing the road used for the detour.

OAKVILLE COUNCIL ALARMED—The following resolution was passed by the Oakville town council last week: "That this council observe with alarm the bad conditions arising in Oakville owing to the Toronto-Hamilton Highway Commission failing to provide a proper detour for the volume of through heavy traffic on said highway, even though warned repeatedly of the conditions which were certain to arise at this season, and also of the diverting of this traffic to several town streets which have been and are being ruined, as they were not constructed to carry such traffic. This council is convinced that the condition has arisen owing to inaction or indifference. Therefore be it resolved that this council urge in strongest terms upon the the Toronto-Hamilton Highway Commission, and upon the Ontario Government the urgent necessity of immediately providing some proper means of taking care of the traffic which has demoralized local streets and thereby interrupted the local business and local large manufacturing plants. That a copy of this resolution be forwarded to Premier Ferguson, the Hon. George S. Henry, Minister of Public Works, and Geo. Hillmer, M.P.P., representative of Halton.

FALSE ALARM.—Last Saturday the fire alarm sounded and the brigade turned out, as did many citizens, but no sign of a fire could be seen though the alarm continued to sound. Graham, Graham & Bowyer are looking after his affairs, and will dispose of his farm, valued at $5,000, the effects having been sold some time since for $1,500.—Brampton Herald.

SUSPECTS ARRESTED.—County Constables W. H. Rutledge, of Port Credit, and E. J. Rutledge, Streetsville, rounded up four men on charges of theft this week. It is believed they constitute a gang which has been robbing hen roosts, and stealing various kinds of articles in Peel county during the winter. Arthur Dinning, Streetsville, Mr. Lockwood, Erindale, Wm. Kelly, Port Credit, and many others have lost articles and fowl. The constables got one man in a house at Long Branch and three in a house on Manning Avenue, Toronto. The men were caught early in the morning while sleeping. They were supposed to run a garage, but never seemed to be working. They are Percy, Frank, Norman and Edward Neal, brothers. The place where they were found was littered with hen feathers. A robe identified by Arthur Dinning and forty feet of belting, which Wm. Kelly said was his, were found in the house. The Port Credit jail would not hold all the prisoners, so one man was brought to Streetsville and kept in the cells over night. Constable E. J. Rutledge took him to Brampton jail on Tuesday. The four prisoners came up for preliminary hearing at Brampton on Tuesday afternoon and will have a trial on April 3rd. Constable E. J. Rutledge deserves a big share of the credit for helping to round up this bunch, for he secured the number of the truck and located the men, one of whom served a term for stealing silverware.—Streetsville Review.

Protecting the Homes of Canada.

This is not a story about firemen fighting flames but men battling with a riotous mob, but a picture in colors showing how necessary it is to protect property at all times with good paint against the action of the weather.

In every class of goods manufactured the inferior as well as the best quality will be found, and it has always proved the best is not only the least expensive but the safest.

The picture "Protecting the Homes of Canada" tells in interesting manner why good paint should be used to protect property, why you should avoid using inferior paint and why good paint is made.

The subject of property protection is of vital interest to home owners to-day whether in city, town or village.

See the Picture at the Princess Theatre, Milton, Friday and Saturday, April 4th and 5th.

The Indian Dog.

The Indians had dogs but not horses before the white man came. The Indian dog was little different from the tamed wolf from which it is supposed to have sprung. Eskimos were using dogs for transportation when the first white men arrived. Though fossils of the fore-runners of the horse have been found in America, it now generally believed that these animals became extinct many thousands of years ago, and that all horses used by the Indians were descendants of Spanish horses. Cortez brought horses to Mexico and De Soto is known to have abandoned a large number of horses near the Texas border.
