The Canadian Champion
MILTON, Oct. 16, 1924.

The following appeared in the Brampton Banner last week :—

"We think every wet Liberal should think twice before helping the Conservatives to establish something we may regret for years. This vote on Oct. 23rd is a case of the Ferguson government passing the buck. They promised the bar and the working man his beer to win the election. Not openly on the platform, but in the whispered campaign that carried them into power. They hadn't the nerve to abolish the O. T. A., brave as their canvassers were before the election. Now they ask the people to take the responsibility from their shoulders. The Ferguson government is in a mess because of their promises and, as Liberals, we think we should give them no assistance out of their difficulty. The Liberals play is to endorse the O.T.A. and keep urging the Conservatives to enforce it to the utermost. It was the Conservative party that gave the O.T.A. to the province, so let them enforce it or repeal it.'

Possibly the above may influence some wet Liberals, but it is sure to moisten many dry Conservatives.

Government Banks to Lower Interest Paid to Depositors.

Commencing Nov. 1, the Ontario Government has decided to reduce the 4 per cent. the rate of interest which it has been paid upon deposits in the Provincial Savings Offices, being according to Prof. Pigou of Trade Prosperity fame, to $24 excess. Instead of 4 per cent. interest there will the Government will be able to pay but 3 per cent., the same rate as the banks pay on savings.

The necessity of saving money wherever it is found possible to do so was given yesterday by Provincial Treasurer Price as one of the reasons for this important reform. The Province's saving ventures. With the deposits the saving effected in the Treasury will amount to $250,000 a year. And deposits are constantly increasing.

New Masonic Temple Dedicated

Oakville, Oct. 5.—Visitors and members of the local lodge to the number of 200 sat around the board last Saturday evening at the banquet held in the newly completed Masonic temple on the occasion of the official dedication ceremonies in connection with the opening of the edifice.

At the conclusion of the meal, M. W. Bro. W. J. Drope, of Grandby, Grand Master, spoke briefly, congratulating the Oakville lodge on its undertaking.

R. W. Bro. Martin, of Hamilton, also heartily congratulated the local lodge on the erection of the new temple. Other members of visiting lodges who addressed the gathering were: R. W. Bro. John Forth, Hamilton; V. W. Bro. R. K. Anderson, and W. Bro. J. W. Elliot, of Milton; W. Bro. M. McLarty and R. W. Bro. Graham, of Burlington. The letter auctioned off a picture of the new temple bearing the autographs of all those who had taken part in the ceremony, which was purchased by Sam Carter.

The proceeds from the sale will be applied to the building fund of the lodge.

Three hundred members, all over 50 years of age, were present at the banquet and banquet. They included Captain Maurice Felan, and W. Bro. M. J. Kartling, of Oakville, and Connie Williams, of Bronte.

A NATIONAL ASSET.

As the greatest transportation company in the world, the Canadian Pacific Railway has maintained a national service in the Trans-Canada Limited which is second to none and with the conclusion of the summer schedule this crack train has transferred the equipment to the Vancouver Express which leaves Toronto every night at 10.10 p.m. on its trip across the continent, via Winnipeg, Calgary, Banff, Lake Louise, the spiral tunnels, Kicking Horse and part of Canadian Pacific Rockies, famous through all travel lands, on its way to Vancouver, where travel returns, time for the return of the express to the Vancouver Hotel. The Canadian Pacific [illegible] steamship [illegible] Mecca for winter [illegible].

Not only do [illegible] carry comfort and [illegible] but also carry [illegible] information [illegible] complete [illegible] Canadian [illegible] Vancouver.

Add to this [illegible] features [illegible] Lake Shore Limited [illegible] which has been [illegible] with the [illegible] pound [illegible] and [illegible] and [illegible] Travellers [illegible] Toronto [illegible] daily from [illegible] except Saturday and 11.55 p.m. daily. Arriving at Windsor Station, the traveller has the benefit of immediate facilities in the women's rest room, lunch room and barber shop, which cannot be duplicated in any other station in Montreal. An added service is offered those who wish to travel to Montreal from Northern points to the 9.35 p.m. train, daily except Saturday, from Yonge Street Station.

Canadian Pacific agents will gladly make any reservation and supply with any information [illegible]. They are fully qualified to render a second to none service to the public.

R. F. Leslie, of Norval, had his [illegible] bone broken when he was kicked [illegible] the wagon in which he was drawing wood.

MARRIED

Hillmer—Ferran—On Monday, Oct. 6th, 1924, at 16 Albany Ave., Toronto, by the Rev. R. B. Cochrane, Margaret Helen, only daughter of Mr. and Mrs. Robert Ferran, Toronto, to Whitney Hillmer, third son of Mr. and Mrs. Geo. Hillmer, Oakville.

DIED

Freeman—On Friday, Oct. 10th, at the residence of her sister, Dr. Eva Fisher, Toronto, Mary Elizabeth Freeman, of Trafalgar.

Elsley—At the Guelph General Hospital, on Sunday, Oct. 5, 1924, Orval Lloyd, beloved son of Mr. and Mrs. Levi Elsley, Brookville, in his 31st year.

Moorehead—At Oakville, on Tuesday, Oct. 14th, 1924, Mary Guest, widow of the late Stewart Moorehead, of Milton, in her 74th year.

The funeral will take place from the residence of her son-in-law, L. A. Wilkinson, Oakville, on Thursday, 16th inst. Interment in Evergreen Cemetery, Milton.

WOOD'S PHOSPHODINE.
The great English Preparation. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Used for Nervous Debility, Mental and Brain Worry, Despondency, Loss of Energy, Palpitation of the Heart, Failing Memory. Price $2 per box, 3 for $5. Sold by all druggists, or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO. TORONTO, ONT.

MILTON SOFTBALL LEAGUE.

The Milton Softball League opened at the arena on Monday evening, before a goodly number of fans. The opening ceremony created a great deal of interest, when Dr. Gowland, president, in the box, fanned J. W. Blaiz, honorary president. The first game was won by the Merchants, Carr and Hill; P. L. R. Co., Ptolemy and Rush. In the second game the Outlaws defeated the Bankers and Doctors by 12 to 7. Batteries—Outlaws, Little and Robertson; Bankers and Doctors, Heslop and Atkinson.

Following is the schedule :—

Monday, Oct. 13—P L R vs M & C; O L vs D B L; I O O F bye.
Friday, Oct. 17—D B L vs I O O F; M & C vs O L; P L R bye.
Monday, Oct. 20—D B L vs P L R; I O O F vs O L; M & C bye.
Friday Oct. 24—I O O F vs M & C; PLR vs OL; DBL bye.
Monday, Oct. 27—PLR vs IOOF; M & C vs DBL; OL bye.
Friday, Oct. 31—M & C vs PLR; DBL vs OL; IOOF bye.
Monday, Nov. 3—IOOF vs DBL; OL vs M & C; PLR bye.
Friday, Nov. 7—PLR vs DBL; OL vs IOOF; M & C bye.
Monday, Nov. 10—M & C vs IOOF; OL vs PLR; DBL bye.
Friday, Nov. 14—IOOF vs PLR; DBL vs M & C; OL bye.
Monday, Nov. 17—PLR vs M & C; OL vs DBL; IOOF bye.
Friday, Nov. 21—DBL vs IOOF; M & C vs OL; PLR bye.
Monday, Nov. 24—DBL vs PLR; IOOF vs OL; M & C bye.
Friday, Nov. 28—IOOF vs M & C; PLR vs OL; DBL bye.
Monday, Dec. 1—PLR vs IOOF; M & C vs DBL; OL bye.

OBITUARIES.

MRS. MARY MOOREHEAD.

The death occurred on Tuesday, at the home of her daughter, Mrs. L. A. Wilkinson, at Oakville, of Mary Guest, widow of the late Stewart Moorehead, of Milton, in her 74th year, after a short illness. Deceased had been for many years a well known and highly respected resident of Milton and a member of Knox Church. One son, and four daughters survive. Thos. H. Guest, of Brampton; Mrs. P. N. Tandy and Mrs. H. Wilkinson, both of Hamilton; Mrs. K. Fewell, Montreal, and Mrs. L. A. Wilkinson, of Oakville.

ALBERT WALES.

Albert Wales died at his home on Oak Street on Thursday, Oct. 9th, after a long illness, in his 67th year. He was a son of the late Robt. Wales, of Trafalgar. He had been a resident of Milton for many years. He is survived by his widow, two sons and four daughters. Ernest, of Brampton; Mrs. Kenneth Coxe, of Milton; Mrs. Albert Whitlocke and Mrs. Harold West, of Brampton; Ruby and Howard, at home. The funeral took place on Sunday for his late residence to Evergreen Cemetery, and was very largely attended. The services were conducted by Rev. T. H. Lode.

Impulsive "Uncle Billy."

The late Billy Middlesworth, founder of one of the leading houses of the city of Toronto, was much beloved and respected, albeit in his later years he was given to a highly nervous disposition and would occasionally jump to wrong conclusions. Once he got it in his head that he had got the hot end of a deal with big, double-fisted Mike Sullivan, square as a die and one of the most successful dealers at the yards. One morning Uncle Billy met Mike in the big corridor of the exchange and let loose in his high-pitched nervous voice. Such a clash of the "big fellows" at once drew a [illegible] crowd. Sells listened [illegible] until Uncle Billy ran out of breath and had names, [illegible] he broke into a pleasant grin.

"All right, Uncle Billy, can you let me have a chaw?"

"Yes, Mike — —" replied Uncle Billy, his voice still trembling from the fast talking race as he hurled an [illegible] from his hip pocket. "But I want you to understand I'm giving it to you, not lendin' it." "I didn't think you that far, Mike. You dear old scoundrel!"—by which time they were shaking hands and [illegible] each other's backs.—Indianapolis Star.

Humidifying the Air.

Humidifying and deodorizing the air in a home, theater, hotel lobby and other places, may be efficiently [illegible] by the use of an apparatus [illegible] operates as a miniature [illegible]. It resembles the now [illegible] seen electric fountains [illegible] instead of a score [illegible] shows 50 fine sprays [illegible] into the air. The [illegible] is regulated by [illegible] pump, driven by [illegible] motor, which [illegible] a rheostat. The [illegible] 15 pounds.—Popular Mechanics Magazine.

Death Rate Falls.

[illegible] all states with the death registration area of the country show a decreased death rate in 1923. Taking account of the [illegible] figures, the differences in the [illegible] distribution of the population, Montana the lowest rate, [illegible] population and Massachusetts the highest, 13.4. For cities of [illegible] population, Akron, Ohio, had the lowest adjusted rate, 9.2, the Memphis had the highest, 19.

The Poor Fellow.

A preacher at the close of one of his revival sermons, said: "Let all in the house who are paying their debts stand up." Presently every man, woman and child, with one exception, rose to their feet.

The preacher seated them and said: "Now, let every man not paying his debts stand up." The exception, a care-worn, hungry-looking individual, clothed in last summer's suit, slowly assumed a perpendicular position.

"How is it, my friend," asked the minister, "that you are the only one not able to meet his obligations."

"I run a newspaper," he answered meekly, "and the brethren here who stood up are my subscribers, and—"

"Let us pray," exclaimed the minister.—Rio Grande Valley Weekly.

Reading the Lessons.

It was the first time he had ever read the lessons in church, and in consequence was feeling extremely nervous. When he came to the bottom of the page the last words were, "And Eve was," but being flurried he turned over two pages by mistake, and came to the description of the ark, and to the amusement of the congregation he bellowed forth, "And Eve was forty cubits round about it."

PLUMBING AND SEWAGE

Systems Recommended Suitable for Rural Homes

Hot and Cold Water on Tap is a Boon—Sewage Disposal—The Septic Tank — Extension Work of Physics Department—Watering the Garden.

(Contributed by Ontario Department of Agriculture, Toronto.)

Hot and cold water on tap, kitchen sink, laundry tubs, bathtub, shower bath, and water flush closet, and the necessary pipes for carrying away the wastes to some suitable sewage disposal system in the yard outside.

A very good system complete can be put in the average-sized home for $350, and in view of the fact that it will last a lifetime with very little outlay for repairs, it is one of the best investments one can make. It will give you real worth while service every day for a cost of about 8½ cents a day figured on interest and depreciation.

In the Physics Building, O. A. C., there is installed a complete plumbing system for inspection of students and visitors interested in this work. It demonstrates the simplest method possible of putting the various parts together, thereby saving both material and labor to the greatest possible degree. If you are interested drop in and see it, and maybe we can assist you in getting that very necessary equipment in your home—modern plumbing.

Sewage Disposal.

To perfect the plumbing system just referred to it is necessary to build some suitable construction for disposing of the sewage and waste from the home. In the country this must be either a cesspool or septic tank. The cesspool may be all right for a time in porous gravelly well-drained soils, but usually it is a menace to health by contaminating the water supply or becoming a nuisance whenever it overflows. The septic tank is the modern method, and gives good satisfaction as a rule. We have a very fine working or demonstrating model of it installed on a large table in the Physics Building, and it is very useful for showing people just what the system is like and how it operates.

The Septic Tank.

It consists of a large concrete tank divided into two compartments by a vertical partition. The size for a single house is about 4 feet x 8 feet and 3½ feet deep. This tank holds the sewage long enough for a certain kind of bacteria to destroy the solid matter. When the liquid accumulates to a certain amount a non-mechanical affair called a siphon empties one of the chambers into a system of field tile called the absorption bed, laid shallow under the ground. Any remaining sewage is destroyed in the soil by another kind of bacteria that live near the top of the ground. In this way these friendly bacteria are enabled to do a very valuable work for us. This is science applied to a useful purpose.

We supply bulletin and blue-print to anyone wishing to build a septic tank. All necessary information is given in these, and by their helpful suggestions any handy man can build it. Cost for cement, siphon, fittings and tile amounts to about $52. The tank may be located close to the house and the tile laid under the lawn or garden.

Extension Work of the Department of Physics.

The extension activities of the Department of Physics assist those seeking advice or assistance in connection with the regular branches of the department's extension activities, including: Installation of water and sewage systems, lightning rod installations, drainage surveys, farm cold storage, silo construction, anti-freeze mixtures. Blue prints of septic tank installation, hydraulic rams, protection of wells, small ice cold storages, types of ice houses, water supply systems and farm plumbing have been prepared, and are now obtainable upon request from the Physics Department, Ontario Agricultural College.—R. R. Graham, O. A. College, Guelph.

Watering the Garden.

Remember that a good soaking once a week is more beneficial than light sprinkling daily. Be judicious in your use of the hose. Leafy vegetables do not mind having their tops soaked, as well as the roots. But fruit bearing plants and vines, like tomatoes, eggplant, cucumbers, peppers and melons should not have the tops soaked at all. It washes away the pollen in the blossoms and is apt to cause blight and fungous diseases.

Don't water the garden in the heat of the day. Wait until late in the afternoon and when it has been given a good soaking it will have time to soak into the soil to enable you to rake up the surface easily next morning, preventing the soil baking and conserving the moisture. Regular soakings for the ever-bearing strawberries and other small fruits, followed by mulching, will prolong the fruit bearing season and improve the quality. Too much watering of grapevines tends to cause an excess of cane growth but a reasonable amount is desirable.

There might be an excuse for using an inferior sow if you already have her on the place, but we can not think of one single excuse for ever using an inferior sire.

Until breeders mate animals whose factors determining producing ability are known to be for high production only, they are going to get many low and medium producers from parents that are from high producing ancestry.

HUNTING MOOSE AND DEER.

For many years hunters from Ontario have realized that the very best hunting grounds are located in the vicinity of the Canadian Pacific Railway. Hunting clubs, as well as small parties, appreciate the necessity of arrangements made in advance. Canadian Pacific agents are qualified to give you accurate information as to where deer, moose and big game can be found. They are plentiful in the French River district to Sudbury from French River; along the main line of the Canadian Pacific Railway from Sudbury to Chapleau and also in the Maritime Provinces, as well as in the district around Sharbot Lake.

Ask any Canadian Pacific agent for a copy of the Hunters' Pamphlet or write W. Fulton, District Passenger Agent, C.P.R. Building, Toronto.

Monkey Brand Soap is a cleaner and polisher combined, but won't wash clothes

Keep Your CHILD'S SCALP Healthy

Mothers! Save your children from painful, disfiguring scalp trouble by applying herbal Zam-Buk to the first itchy spot or soreness.

Zam-Buk is gratefully soothing. It makes the head and hair healthy and sweet, prevents little troubles from spreading, quickly eradicates eczema, ringworm and other troublesome disease.

Zam-Buk is most effective simply because it attacks disease at the roots, killing poisonous germs and purifying the whole tissue.

Zam-Buk is compounded from certain rare extracts of exceptional healing and and germicidal power. It contains no poisonous drugs or animal fats like ordinary ointments, but is a balm of the utmost purity with a far-reaching effect.

Zam-Buk

MOTHER'S BEST FRIEND.

Whenever the skin is cut, burnt, sore, inflamed, or 'broken-out' in any way, Zam-Buk is always the safest and most reliable healer to use. Keep a box always handy! 50c. all druggists.

HOCKEY.

The Georgetown Hockey Club has reorganized for the coming season, with the following officers: President, H. Cleaves; Vice President, I. Hughs; Secretary, C. E. Ruddy; Assistant Secretary, R. King; Treasurer, J. Hepburn; Assistant Treasurer, J. Mayberry; Manager intermediate team, J. M. Gibbon; Manager junior team, A. Duncan; Executive Committee, W. Grant, J. Clark, N. Tuck, W. Brennan. The Georgetown club has a live wire organization, and expects to show a fast pair of teams in the coming O. H. A. race.

ASSIZES.

COUNTY OF HALTON
TO WIT:

Notice is hereby given that the Sittings of the Supreme Court of Ontario, as and being the Court of Assize and Nisi and Prius, Oyer and Terminer, and General Gaol Delivery for the said

COUNTY OF HALTON

will be held in the Court House in the

Town of Milton

—ON—

TUESDAY, NOV. 4th, 1924

at the hour of One o'clock p.m., of which all Justices of the Peace, Coroners, Constables, Gaolers, and all others concerned are requested to take notice and attend, to do and perform all duties which appertain to them.

S. WEBSTER,
Sheriff, Co. Halton.

Sheriff's Office,
Milton, Oct. 15, 1924.

Credit Auction Sale

—OF—

Farm Stock & Implements

The undersigned has been instructed by

LESLIE BRADLEY

to sell by public auction on east half lot 12, con. 6, Esquesing, on

TUESDAY, OCT. 28th, 1924

at 1 o'clock, the following:

HORSES—Grey mare 8 yrs, grey horse 7 yrs, bay horse 9 yrs, roan mare 5 yrs.

CATTLE—Grey cow due Apr. 5th, roan cow due Apr. 1st, red cow due Apr. 7th, red cow due May 1st, grey cow due May 1st, black cow due June 6th, red cow due June 15th.

PIGS—3 sows, 45 pigs from 6 weeks to 6 months.

SHEEP—6 good breeding ewes, 2 ewe lambs.

POULTRY—50 hens and chickens.

IMPLEMENTS, &c.—Deering binder 7 ft. cut, M.-H. mower 5 ft. cut, Peter Hamilton seed drill 13 disc, International hay loader, Dain side rake, McCormick dump rake, fanning mill, cultivator, 2 set harrows, farm wagon and hay rack, Bissell disc 7 plates, set sleighs, cutter, set scales 2000 lbs., root pulper, scuffler, top buggy, 2 sets team harness, set single harness.

MISCELLANEOUS—Quantity of lumber, white oak, maple and pine, turnips, mangolds, potatoes, several cords dry wood, cook stove, heating stove.

No reserve as the farm is sold.

TERMS—$15 and under, cash; over that amount 10 months' credit on approved joint notes. 6% per annum off for cash. Poultry, wood, potatoes and roots to be cash.

BEN. PETCH, Auctioneer.
Wm. Alexander, Clerk.

FLYING UNDER THE SEA.

Curious Channel Tunnel Schemes of the Past.

The idea of a tunnel linking England and France is not a new one, says a writer in Tit-Bits.

The first man to propound a scheme for tunnelling the Channel was a French mining engineer named Mathieu, who impressed Napoleon with the idea at the beginning of last century. In 1803 another Frenchman, Tessier de Motray, suggested building a long iron tube and laying it at the bottom of the Straits of Dover, so that people could walk through it.

This plan, however, was not seriously considered until J. A. Thome de Gamond, another French engineer, placed it on a practical basis and submitted it to the French Emperor in 1856.

But although many schemes were evolved in the first half of the century it was not until 1867 that the idea of a tunnel captured the popular imagination. In that year Thome de Gamond and William Lowe, of Wrexham, jointly submitted plans for a tunnel to an international committee, which reported favorably on the project, without, however, sanctioning the grant of money for which the inventors applied. This tunnel plan was the forerunner of many ingenious schemes discussed in following years.

A well-known engineer, Zerah Colburn, got out plans providing for the construction of an immense tube, built in 1,000 feet sections, which was to be sunk to the sea bottom and covered by concrete. Another idea which attracted attention was that of Thomas Page, the builder of Westminster Bridge, who proposed placing eight conical steel structures at intervals across the Channel and connecting them by long sections of tube lowered from ships.

Another plan, even more startling, had for its object the building of a great bridge under the water, with a single pair of rails over which an enclosed carriage was to be hauled by wire cables; while still another project was to consist of a number of water-tight chambers, like caissons, which were to be suspended from a great archway and whirled under the sea at high speed.

The Channel Tunnel Company was formed in 1875 and was given permission by Parliament to undertake certain preliminary work near Deal. The same year a French company started operations at a cost of two million francs, the net result of this expenditure being that 7,000 soundings were taken, 8,000 samples of the sea bed were secured, and a shaft begun at Sangatte. For the rest, the tunnel remained what it still is—a pleasant dream to some and a nightmare to others!

But although the whole project was achieved as a result of the adverse report of a Parliamentary committee which considered the question in 1883, inventive minds on both sides of the Channel did not rest.

Only thirty years ago no attempt was made to give effect to a plan which nowadays makes strange reading. Briefly, a moving platform, capable of accommodating a train, was to be built so that it could run along a submerged track supported on long steel legs.

The full story of the project reminds one of a conception of Jules Verne, as does the plan which provided for the construction of two huge chutes, by means of which passengers could glide in specially constructed carriages to or from England.

Britain's Rarest Flower.

In appearance not unlike the familiar yellow calceolaria, with pouch-like blossoms and glossy leaves, the "lady's slipper," found in Upper Wharfedale, Yorkshire, is Britain's rarest wild flower.

Many naturalists have spent years in trying to locate it, but without success, while the number of those who have found specimens is exceedingly small. One of the last to be lucky in the quest was a girl of twelve, while a short time previously a man who had only lately moved into the district picked a bunch of the blooms, much to the surprise of botanists.

Quite apart from its rarity, the "lady's slipper" is interesting on account of its amazing elusiveness. Places where it has been discovered have been carefully marked, yet when the plant has been due to bloom again no trace of it has been found.

THE STORE FOR VALUES

The Moderation League of Ontario

President, I. F. Hellmuth, K.C.

Government Control is People's Contro

THE people of Ontario—not any narrow or isolated section of them—but the people of Ontario as a whole—have certain ideals of public and private life. British traditions have given us these.

These ideals are well understood.

Lawlessness, disrespect for law, lack of self-restraint, and excesses of all kind find no approbation in Ontario.

Government Control, in the present plebiscite, is simply a mandate by the people to the Government to proceed with legislation which, while dealing with and as far as possible eliminating excesses in drinking, will restore respect for law, and recognize the right of the citizen to regulate his private life in accordance with the principles of moderation and sanity.

Prohibition is a denial of such a mandate. It consists of an absolute order of "MUST NOT".

That it undermined private and public life—that it made lawlessness profitable—that it took revenues which should be used for the public good—that it created evils harder to subdue than those it pretended to abolish—was the verdict of Alberta, Saskatchewan and Manitoba within the last year. They had tried Prohibition for seven years and found that period quite long enough.

Of course, the verdict was not rendered without a fight. Just as here, the people were told of the wonders of prohibition. They were told how rich they had become, how sober they were, how crime had vanished, how low taxes were and how happy and prosperous everybody was. "Impartial" writers wrote articles in the newspapers, "unbiased" speakers made speeches.

But the people were not moved. They knew better.

Then they acted. Just as soon as the opportunity arose they voted for Government Control. The Prohibitionists tried to prevent the people from expressing their views. Everywhere they said that a vote was unnecessary and sought to avoid one. Just as here.

But the people prevailed. They decided that, through their Governments, they would take control themselves.

Vote for Government Control as follows:

1 Are you in favour of the continuance of The Ontario Temperance Act?

2 Are you in favour of the sale as a beverage of beer and spirituous liquor in sealed packages under Government control? X
