Dr. Munro, attended communion services in the Oakville Methodist Church last Sunday. They received a hearty welcome. They have pledged themselves to pay Dr. Munro his salary up to next June, when union goes into effect, and the anti-unionists of Knox Church, who won the recent vote, show their good will by allowing Dr. Munro the use of the manse until June.

A resolution of protest was passed, to which the following pledge was added: "We pledge ourselves, irrespective of party affiliations or preferences, to support the Premier, the Hon. G. It is composed of a fine Reo speed wagon, 800 feet of hose, ladders, etc., and is the only one of its kind in the county and possibly the best anywhere for so small a centre. The truck was taken down on to the creek behind the grist mill, and water, which was drawn from a hole in the ice, was thrown up over the hill chimney, a height of about 100 feet. The equipment is suitably housed in the new fire-hall and three new wells, all full of water, and other wells on private property, are available for use in case of fire. The officials and citizens generally appear satisfied with the purchase.

Coal Gas and Monoxide Gas.

Increasing numbers of deaths from carbon monoxide and furnace gas poisoning have brought from the Provincial Department of Health a warning, particularly to motorists, to beware of the deadly fumes. Among the "don'ts" contained in the pamphlet is one, "Don't run a motor car in a closed garage." It describes the gas as tasteless, colorless and almost odorless, and its power over its victims is exercised gradually and with little sensation.

It is predicted that when the Church Union bill is presented to the Ontario Legislature, those opposing Church Union will endeavor to secure an amendment stipulating that a two-thirds vote be necessary in order for a Presbyterian congregation to vote itself into the United Church of Canada. Any such effort will meet, however, with the strongest opposition from the Unionists. The stand will be taken by the anti-Unionists that because a two-thirds vote of shareholders is required to legalize the transfer of property in the case of an incorporated company the same restriction should be necessary in the case of Presbyterian churches entering the United Church. If a two-thirds amendment were made to the bill in Ontario, a new vote would be necessitated; a situation which, it is admitted, would mean the repeating of much of the controversy that preceded the vote now being taken.

Moral, Not Legal, Issue.

Hamilton, Feb. 9.—Making his first public address since coming to Hamilton, Bishop McNally, at the Canadian Club, tonight, voiced his disapproval of Ontario's "intemperate system of temperance."

His Lordship hold that public morality was a condition based on individual conscience. Such a condition, he believes, cannot be effected by an instrument of statecraft.

"The State can help," he continued, "but it cannot enforce public morality by sledge-hammer or grandmotherly legislation. The Church and State are separate realms. The duty of each is clearly defined."
