PARKING TIPS

When you park on a nill, always step on the brake pedal and keep your foot on it while you put on the parking brake, the Ontario Safety League recommends. This ensures that the entire brake shoe is brought in contact with the drum. With some types of parking brakes, manual application alone may result in only a part of the shoe touching the drum, with reduced holding power.

Remember too — always leave the car in low or reverse gear (Park position with automatic transmissions) with front wheels cramped to minimize the danger of runaway.

AWAKEN DESIRE

Children who are taught to read early in childhood, even while they are pre-schoolers, will be more advanced than the youngsters who have to start at the beginning. Easy-to-read but interesting little stories will awaken a desire in the child to do his own reading.
