1919

Mr Armstrong-

Campbells Apartments St. Augustine Florida

How a $2000 farm was made worth $20.000

This story tells how Mr Armstrong once a Montreal merchant fifty years ago, decided to go west without experience and little capitol, start farming and fruit growing. How he succeeded to make a $2000- farm worth $20.000.

Fifty years ago St. Catharinest Montreal had only two stores open for business namely Dupuis Bro and Mr Armstrong-

At that early date many of the best front lots on this street were occupied with Vegetable gardens

However before the end of five years many new retail stores were opened principally by French Canadian firms at the east end-

It will doubtless be of special interest for Montrealers of to day, to know who Armstrong bought his goods from fifty years ago-
