TORONTO, April 22.

The stock of the narrow gauge railways is being taken up with a confidence and liberality, indicating the utmost faith in the commercial success of these undertakings. $325,000 of stock is being issued for the first section of the Toronto, Grey and Bruce Railway, nearly half a million dollars having been already voted as a bonus; and for the balance of $300,000, required for the first section, bonds are to be issued. A large amount of stock has been already subscribed for the Toronto and Nipissing Railway.

SECOND DESPATCH.

TORONTO, April 22.

The Board of Health held a meeting last night at which a report was adopted recommending that the Board be abolished and the services of the medical officers dispensed with after the 1st of June.

A man named Jas. Brooks, employed in Dick and Neil's foundry, yesterday became entangled in the machinery. He was carried round and round, striking the ground at every revolution. Being alone he was a considerable time in this state before he was released. His legs were beaten to a jelly. The doctor attending him expects he will recover.

The trial of McKenna for the murder of his wife comes off to-morrow.

The Board of School Trustees have declined Dr. Wilson's scheme of an industrial school for the street-Arabs, but will bring it before the Legislature.

MONTREAL.

Montreal Half Inundated—Awful Calamity—Eleven Persons Drowned—The Printers' Strike.

Special to THE TIMES.

MONTREAL, April 22.

The water is fully one foot higher than yesterday, and there seems to be no signs of it giving way. The state of affairs in Griffintown is such as to cause serious anxiety for the condition of the inhabitants of that portion of the city. They are suffering chiefly from the want of wood and coal, and even those able to buy can with difficulty obtain these articles, on account of their yards being flooded. The coldness of the weather and the dampness of the rooms, where the lower portions of the houses are filled with water, must render a fire highly necessary. Accordingly the police authorities are endeavouring to supply fuel to those who are most in need of it. All is being done that is possible to relieve the distressed. Cellar flats in Craig-st, west, are flooded to the depth of several feet, and such is also the case with the lower portion of Bleury, as far as Juror-st. No communication with St. Helen Island and this city has been had since Monday. In all previous floods has this been impossible until the present. Between Longueil and the bridge the communication continues to be interrupted by the water flooding the level country lying between these two points. The district of Laprairie is flooded to an alarming depth. The water over a large extent of country is now within a few feet of the eves of some of the Houses. It is feared that great loss of lives and of farm stock has already occurred. At Longueil about 11 o'clock last evening the inhabitants were so alarmed at the increased rise in the waters of the river that the alarm bell was rung to awaken the people, fearing that a general flood was at hand, and that some persons might be drowned. In the Lachine district the water around Knox's farm is several feet deep, and the reservoir aqueduct is nearly overflowing. Another man was drowned opposite the city this morning. The appearance of Montreal at night is like Venice by moonlight.

An awful calamity happened last night at Granby, a village about thirty miles from Montreal. About 7 p.m. whilst several prominent citizens were looking at the flood from the principal bridge in the place. The masonry at one end, which had become inadequate by the water, the flood, &c., gave away, letting the bridge fall about thirty feet, and precipitating twelve persons into the water, which is running with a very swift current. A boy was saved, the rest—eleven in number—were drowned.

There is no appearance of the printers' strike ending. Both employers and men make no inclination to give way. One office has managed to get a few compositors from the 78th Highlanders, with the permission of the Colonel. Representations are to be made by the Printers' Union against this to Gen. Bisett to-morrow. The offices who give the wages are *Nouveau Monde*, Perrault's, Starke's, the *Star*, Stevenson's and Wilson's, but they employ only a few hands. Lovell's, Longmoore's, *Herald*, *Gazette*, *News*, *Telegraph*, *Witness*, *Pays*, *Minerve* and *Ordre*, refuse to give in, so that at least one hundred and fifty men are idle.

LONDON, April 21.—The negociations for a commercial conference between Belgium and France have been suspended.

SPAIN.

MADRID, April 21.—The Cortes is considering a project for the reorganisation of the army on the Prussian system.

MADRID, April 21.—Another informal meeting of the members of the majority in the Cortes was held to-day to nominate a candidate for the throne. So great was the diversity of opinion, that the meeting broke up without any result, leaving the members more widely divided than before on the subject. Prime Minister Serrano declared that the choice of Montpensier for king, or the declaration of a republic, were the only possible alternatives. Gen. Prim, who was also present, remained silent throughout the proceedings. His conduct has given rise to a wide spread belief that he would not be unwilling to accept the presidency of a Spanish republic.

MADRID, April 22.—The debate in the Constituent Cortes yesterday on the new Constitution was very interesting. Senor Fequeras, one of the leaders of the Republican party, strongly urges upon the point that the only alternative left the majority of the Cortes, was either to restore the Bourbons to the throne, or inaugurate a Republican form of Government.

Senor Zorrilla, of the majority, replied at length, taking the ground that it was absolutely impossible, and that a Republic would be a national calamity. He assured them that the majority would certainly obtain a king.

CUBA.

HAVANA, April 21.—Gen. Setona has been appointed to the chief command of the Spanish forces in the Central Department. He has been reinforced with seven thousand troops, with which he will commence a vigourous campaign against the insurgents in that Department. A steamer arrived yesterday with one thousand regular troops from Spain.

HAVANA, April 22.—The following news is official:—The news of the surrender of Villa Niel by Casanona and Junco, with six hundred of their followers, is premature at last accounts. The agreement between the Insurgents and the Spanish General was not complied with.

Heavy Freshet at Albany.

ALBANY, April 21.—A freshet, nearly equal to that caused a few weeks since by the breaking up of the ice, has resulted from the effect of the warm weather upon the snow of the North and the heavy rains of Tuesday and to-day, and considerable destruction of property has occurred in this city, and along the lines of railway leading to the city.

The English Press on the American-Cuban Difficulty.

NEW YORK, April 22.—The *Herald's* London special says the London papers of the 21st comment very freely on the present state of affairs in Cuba. The *Telegraph*, a ministerial organ, but moderate in tone, says that in regard to the independence of Cuba England is unbiassed, but at the same time admits that England's interests can be best subserved by Spain retaining her authority in the island. The article does not say, however, that in any case it should be the business of England to interfere and endeavour to prevent Cuban independence, but it maintains that the good offices of England might prove useful to avert a quarrel between Spain and America. It designates the seizure of the ship *Mary Lowell* as a mad act implicating England, Spain's best friend, unless the latter country offers reparation for the insults. The article then goes on to argue that the Cubans can never willingly attach themselves to the United States.

The London *Owl* of this evening also has its say on Cuban matters. It argues that President Grant has been mad on the subject of Cuba, and thinks that England and France would declare war if America attempts to wrest the island of Cuba from Spain. Grant, says the *Owl*, longs for a foreign war, knowing as he does that the feeling at present pervading American officials is one of intense hatred to England, and though in a less degree, to France. It is stated that in a day or two a yacht will be despatched from here to Cuba on a mission from the Government, to ascertain the true position of affairs there. The belief is that a heavy storm is brewing which may yet occasion much trouble.

Destructive Freshet—A Mail Train Thrown Down an Embankment.

CHICAGO, April 20.—The late heavy rains have washed away an embankment on the T. W. & W. railway, between Springfield and Decatur. The mail train was thrown down the embankment. No particulars have been received.

THIS MORNING'S DESPATCHES

Cuban Matters.

NEW YORK, April 22.—The *Tribune's* special says the statement published that General Steedman had landed in Cuba with a party of men to join with the insurgents in the revolution is not true. A number of gentlemen who have arrived here from New Orleans, say they left Steedman there, and when they departed he had not the remotest idea of leaving for Cuba.

The demand made by our Government for the surrender of the condemned American brig *Mary Lowell*, will be submitted to the Home Government, at Madrid, before the answer can be given, hence the immediate reply it not looked for.

Admiral Hoff telegraphs to the Navy Department that he has had several vessels cruising in search of supposed expeditions, but so far has been unable to discover any.

The Alabama claims were allowed to disturb too long the citizens of the two great Anglo-Saxon communities. The carelessness of one set of statesmen, the indifference of another set, and the cupidity of another class, have combined to keep this *quæstio vexata* rankling in the great political system, like consumption in the human frame, which spreads so rapidly until checked and expelled by the great SHOSHONEES REMEDY. For sale by all druggists.

To Messrs. CHAMBERLAIN & SILLS, Conway P. O., County of Lennox, Ontario, Canada:

MADOC, County of Hastings, Province of Ontario, Feb. 9th, 1869.

This is to certify that during the winter of 1856 I was taken with a weakness of the ancles, which gradually, during the spring of 1857, extended to my knees, and on up to my hips, and I became so weak that I could not walk, but was confined to my chair. For about two years, while this weakness was coming on me, and afterwards, I sought medical advice, employing, at different times, three doctors, and medicines of different kinds, prescribed by friends, but of no avail. I continued to get worse and worse, until the summer of 1868, when I was induced to try the great Shoshonees Remedy by reading the cures performed, in a pamphlet. At this time I had begun to feel the weakness in my hands; in fact I was getting almost helpless. I have taken two bottles of the Shoshonees Remedy and two boxes of the pills and I am entirely restored to health. I never expected to get better, but simply tried the medicine as a sort of forlorn hope. This case of mine was not a private one, but known to all my neighbours and friends; and to any one afflicted as I was, I have only to say try the Shoshonees Remedy; I believe it will cure you.

MARY ANN DOUGHTY.

Sworn to before me at Madoc, County of Hastings, this ninth day of February, 1869.

A F WOOD, J P, &c.

I hereby certify that I have known Mrs. Mary Ann Doughty for the last fifteen years; she is a woman of probity and truth. I have known her before, during, and since her illness. I believe her certificate to be true in every particular. I know that while ill her case was declared hopeless; and I know that she has, since her recovery, always attributed her recovery to the Shoshonees Remedy. Whatever may be the peculiar properties of this medicine, one thing is certain, that in her case it has acted almost like the performance of a miracle.
