Frost, Frost, Frost.—Buss and Co's oysters are free from frost, and always fresh received daily. Lobsters and fish always on hand at lowest prices in the city. All descriptions of fruits and vegetables supplied and delivered on shortest notice. Game of all kinds at Buss and Co's., 21 Rideau street, old Citizen building, near Little Sussex street.

Renovations.—There has been quite a lively time in the Central Block for the past few days. The floor of the Senate Chamber has been raised some two feet. The respective refectories of the Upper and Lower Houses are being decorated in fine style by the latter, Messrs. Kavanagh & O'Meara. Everything begins to look like life about the building.

Oysters are the only animals without a head. They are literally all mouth. But these bivalves, crustaceous, fishes, nevertheless make excellent dishes. They are good in soup; delicious raw with vinegar and pepper; capital to stock; excellent when pickled; superb when stewed; and indescribably nice, fresh out of the shell. The oysters, Robinson & Co., of Tea Pot notoriety, have received a supply of those unsmelled ones in cans, at the marvellously low price of 25 cents per can, and, as to their goodness, themselves, can testify. 1274.a

Crystal Church Readings.—Gowan's spacious hall was crowded last evening to listen to those select and popular readings. His Honor Judge Armstrong presided. Coroner's Inquest.

An inquest was held yesterday at the Sandiere Hotel, on the body of a boy named Thomas Jordan, who died in consequence of a quantity of morphine having been administered to him, instead of quinine, by Dr. Phileon.

A Jury of thirteen was empannelled, and the following testimony taken:—

John Jordan—My child was sick about five days; he was five years old; Dr. Phileon was with him for a few days ago; went myself; he pronounced the case one of aggravated cold; the physician attended twice a day till the period of death; yesterday about six o'clock I went to Doctor's residence, and told him the child was better, but weak; though he thought the child had worms; gave him a pill with thanks; Doctor said he would give something to strengthen the child; he gave me a powder from a bottle on a shelf; three parcels; gave instructions to give one immediately in wine or milk, second in middle of the night, and third not to be given till Doctor arrived in the morning. On package containing powder the words "for night" were written; Doctor gave witness three other powders, which he called worm powders; on returning home witness mixed one of the powders in a wine-glass with sugar and milk; witness took some of the mixture in order to induce the child to take the remainder; perceived that there was a hot taste in the mixture; sat down immediately to take a cup of tea, after administering the mixture to the child; the child was in its mother's arms; the child said the medicine was very hot—"it's pepper, papa"; about ten minutes after the child went into convulsions in it's mother's arms, after which it never spoke; the Doctor came shortly after, and gave another powder to the child, expressing his belief that the child would recover; Doctor was twenty minutes before he pronounced him dead; his object was evidently to make him vomit; the Doctor expressed great sympathy; said he would sacrifice his own life to restore that of the child.

Bridget Whelan, mother-in-law of Jordan—Jordan went to the Doctor, and brought some medicine which witness did not see; does not know how it was mixed; Jordan took some of the medicine to induce the child to take the remainder; the child took it; child shortly after complained that the medicine was burning him; he dropped his head, and the Doctor came in, and gave the child another powder mixed in tea; witness ran out to get Sergeant McVeity; found Doctor on return trying to resuscitate child; after his death the Doctor was taken in charge by Sergeant McVeity.

Sergeant McVeity sworn—Last evening, shortly after 6 o'clock, Mrs. Whelan came and told me that murder had been committed in John Jordan's house; witness went there; found the doctor with the child on his knee, and his finger down the child's throat; wife seemed thought the child was dead at the time; I asked the doctor how it happened, he said it was a mistake in his having made use of medicine out of the wrong bottle; he supposed the medicine to be quinine, which, he said, turned out to be opium; witness then took the doctor in charge; doctor stated that the bottles were alike; the doctor expressed great sympathy, and offered Jordan his own life if he chose to take it; Dr. Codd visited the body, and found no external marks of violence; two powders were submitted for examination, which he pronounced to be acetate of morphine. A grain would be sufficient to kill a child of his age; he must have taken two grains; a child would die very shortly after taken such a dose.

Dr. Phileon—Am Doctor of Medicine from Laval University; have been attending deceased for two or three days; saw him twice a day; he was affected by fever complicated with bronchitis; Jordan came to my office; I proposed two grains of quinine; was called on by another party; took the bottle containing acetate of morphine instead of quinine; the medicines resemble each other both in appearance and lightness; on discovering mistake ran to Jordan's with an emetic; endeavored for three-quarters of an hour to save the child's life; the child bit me severely; the child vomited, but too much of the morphine had been absorbed.

The verdict, after a short deliberation, was as follows:—The deceased, Thomas Jordan, came to his death accidentally, owing to wrong medicine having been administered by Dr. Albert Phileon, the attending physician, by mistake. To prevent similar accidents this jury strongly recommend that all doctors and druggists adopt some measure by which similar mistakes might be avoided, by putting poisonous and harmless medicines in bottles of different sizes and shapes.

LEON DAVID,
Foreman.

The prisoner was therefore discharged. Dr. VanCortlandt presided as coroner.

The funeral of Jordan's child will take place to-morrow at 11 a.m. It will be buried in the Aylmer cemetery.

Mr. Birkett entered.

Moved by Mr. Wills, seconded by Mr. Kirby, that Wm. Cousens, Esq., be, and he is hereby appointed, Local Superintendent of Common Schools for this city, for the current year, at a salary of two hundred and fifty dollars per annum.

Moved by Mr. Preston, seconded by Mr Pratt, in amendment, that all the words in the original motion, just read, be expunged, and that the following be inserted:—"The office of Local Superintendent for this city is the most important this corporation can fill, and that with a desire to raise the standard of our educational institutions, and secure the services of a competent person to fill the office of Local Superintendent, it is advisable to ask for applications from persons who have the educational qualifications necessary to perform the duties required by the Common School Act."

Moved by Mr. Pratt, seconded by Mr. Lebeuer, in amendment to the amendment, that all in the original motion be struck out after the word "that," and the following inserted:

Whereas this Board desires to place the public schools of this city in as efficient a state as possible, and consequently that every officer under its control should be well adapted and properly qualified to discharge the duties of his office; and whereas the interests of our schools demand that a properly qualified person should be appointed Local Superintendent—be it therefore resolved that no appointment be made for the said office, but that this Board do receive applications up to the next regular meeting of this Board, said application to be from persons having the necessary qualifications for Local Superintendent.

It was moved and seconded that this Board do now adjourn.—Carried.

L'Original Total Abstinence and Literary Society:

Under the auspices of this society, a lecture was delivered last evening in the Mechanics' Institute of this place, by Allan James Grant, Esq., to a large audience. Subject of the lecture being "The Chivalry of the Middle Ages." The lecturer, after giving expression to some happy remarks on the state of society existing at, and immediately preceding, the period, when chivalry took its rise, followed with a graphic description of the origin and nature of chivalry itself, its tendency in softening the manners, and enabling the spirit of the ages, in which it flourished in full vigor, and concluded by pointing out the resulting influences of the institution on the social fabric of modern society. The lecture contained a vast amount of highly interesting matter, and had evidently been prepared with great care and good taste.

The next lecture in connection with this association will be delivered by the Rev. Wm. McLennan, of this place, on Monday, the 14th instant.

THE MONTREAL TEA COMPANY
Hospital-st., Montreal.

Our Teas, after the most severe tests by the best medical authorities and judges of Tea, have been pronounced to be quite pure, and free from all artificial colouring or poisonous substances so often used to improve the appearance of Tea. They are unequalled for strength and flavour. They have been chosen for their intrinsic worth, keeping in mind health, economy, and a high degree of pleasure in drinking them. We sell for the smallest possible profits, affording a saving to the consumer of 15c to 30c per lb. Our Teas are put up in 5, 12, 15, 20 and 25 lb boxes, and are warranted pure and free from poisonous substances. Orders for four 5 lb boxes, or 12 lb boxes, or one 20, or 25 lb box sent carriage free to any Railway Station in Canada. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express-man, where there are express offices. In sending orders below the amount of $10, to save expense it will be better to send money with the order. Where a 25 lb box would be too much, four families clubbing together could send for four 5 lb boxes, or two 12 lb boxes. COLD CHURCHES,
VERSUS
WARM CHURCHES.

We have bought the right to use the REVD L WARNER'S improved system of heating churches and other buildings, and also for ventilating the same.

The Revd John N Lake, Wesleyan Minister at London, Ont, says: Having preached in a church during the winter of 1867 8, heated by the Rev L Warner's improved method of heating buildings, I am prepared to say that during the coldest weather the church capable of seating over 800 was always delightfully warm and well ventilated. I am confident that it is the most economical, safe, simple and complete arrangement for heating and ventilating buildings yet offered to the Canadian public. We have testimonials similar to the above from ministers, trustees and sextons of churches in various parts of the Dominion.

We are prepared to take orders for heating churches, school houses, stores and dwelings. Our work will be guaranteed to give satisfaction.

Orders from a distance likewise promptly attended to.

By this system the air in any building is at about the same temperature at the floor as it is near the ceiling.
