FUNERAL.—The funeral of the late Alfred Waddington, Esq., will start to-day from the Civil Hospital Dead House, between Dalhousie and Cumberland streets, at the hour of 3 p.m. From the high esteem in which the deceased was held by all the citizens of Ottawa, it is expected that there will be a large attendance.

CANADIAN INSTITUTE.—A very interesting lecture will take place at the Canadian Institute to-night. The Rev. Father Le Fierce will deliver a lecture on "France, the cause of its greatness and its decadence." The Misses Lavoie and Drapeau will sing "Les Rivals," and several other interesting features will characterize the evening's programme.

THE UNION HOUSE.—In another column Mr W. D. Armstrong, advertises for tenders for the erection of a wooden wing, brick veneered, to the Union House. The Messrs. Armstrong have met with extensive travelling patronage, and their establishment having become remarkably popular, they have determined on making important improvements to their premises. We are glad to see them so successful.

PAINTING AND FRAMING.—We were shown yesterday a splendidly framed oil painting of a deceased young lady of this city. The painting is the work of Mr. Bell, lately arrived in this city, and is executed in a manner that proves beyond question that that gentleman merits a high rank among the votaries of his profession. The picture is very true to the original, and displays a finish beautiful and delicate. The frame, a truly magnificent piece of workmanship, was manufactured at Messrs Gowan's, and is a credit to that famous establishment. It is made of "prize moulding," and is 3 by 4 feet.

A GOOD PROJECT.—Mr. G. H. Preston is having plans prepared for a magnificent building to be erected on the corner of Rideau and Sussex streets which he purchased from Messrs Workman and Griffin for $20,000 last year. This corner is one of the best business sites in the city, and will be greatly enhanced in value and importance by the construction of the Rideau and Wellington Street Bridge. Mr. Preston intends to have six stores on the ground floor and a music hall 3 x 66 above. This undertaking shows great enterprise, and we have no doubt it will prove a very remunerative one.

DAIRYMEN'S ASSOCIATION.—A cheese convention, under the auspices of the Ontario Dairymen's Association, will take place in the Belleville Masonic Hall on Wednesday and Thursday, the 13th and 14th of March. Addresses will be delivered by several able and scientific speakers, and the following topics will be discussed:—

1. Is Ontario well adapted for dairy purposes?
2. Best breeds of stock for dairy purposes.
3. What grasses are preferable for milch cows, and what kinds injurious to the flavor of milk and to what extent?
4. Best method of hauling milk from the farm to the factory.
5. Best method of curing cheese, and temperature of curing room, and frequency of turning.
6. Can damaged or tainted milk be utilized, and by what process?

Other questions beside those mentioned may be taken up if time permit. The Committee intend to spare no pains to make this first Convention held in Belleville a success, and earnestly hope that all who feel any interest in this growing and important branch of industry, will lend their hearty support.

LECTURE BY THE HON. J. HOWE.

The Hon. Joseph Howe favoured the Ottawa Young Men's Christian Association, and the citizens of Ottawa, with a lecture in Gowan's Hall last evening. There was a fair and highly appreciative audience present to listen to the distinguished gentleman. Mr. Wm Hamilton, President of the Association, occupied the chair. The proceedings were commenced by singing a hymn, of which several were printed on a slip, and distributed amongst the audience. Afterwards a prayer was offered up by the Rev. Mr. Cameron. Mr. Hamilton in a few brief remarks introduced the Hon. Joseph Howe, who said that when a veteran undertakes to address young men, he endeavours to estimate the perils that lie before them. Every one must learn and advance through perils. His very life had not been one of play. In addressing the Association, he was relieved from apprehensions, as the association kept its members from many evils. The association was neither secret, sectarian nor political. It formed part of that broad band which cultivated the religious and moral character of the young. He suggested that the object should be widened. They should claim to be not only good, but intelligent, cultivated and refined. He referred to the great natural advantages which Ottawa possessed in her position, soil, water ways, and magnificent scenery. When he first visited Ottawa ten years ago, the buildings were unsightly and unfinished, the streets dirty and full of ruts; now it had magnificent buildings, good streets and showed all signs of improvement and prosperity. He also referred to the advantage the young men of Ottawa enjoyed in having the presence and society of so many educated gentlemen of the Civil Service; and to the intellectual instruction they received during the sessions of Parliament. It was a school of oratory and place of intellectual enjoyment, which he advised young men to visit as often as their other duties permitted. To speak well and fluently to think upon one's legs, was a great accomplishment. But the crowning glory and privilege of Ottawa was the Parliamentary Library, comprising more than 70,000 volumes, provided by the liberality of Parliament, and arranged by Mr. Alpheus Todd, one of the most accomplished men to be found in either hemisphere. Young men ought not to be regardless of these great advantages. If the glories of Ottawa are undeserved they will pass away, if she derives intellectual life from all other cities and gives nothing. Ottawa ought to be the fountain head of intellectual life, for half a continent, the model city. If she is not, the great piles on the cliffs will not save her glory. He insisted that the City Council needed more energy to improve the schools, pave the streets, plant trees and provide water and drains, to make Ottawa worthy of being the capital of this confederacy.

The learned lecturer showed the great disproportion that existed between the power of the United States and that of Canada, and held that we should face the danger that threatened from southern aggression, and be prepared for any emergency. But we are part of the great British Empire. The time was when their union was complete, but now the Imperial policy had changed. The time was coming when Englishmen and Canadians must have a clear understanding as to the future. He gave deserved praise to riding, shooting, hunting, cricket, and ball playing, as gentlemanly exercises, and useful to health and activity. Canada, connected with England, would assist to man the Imperial navy, and preserve for her the mastership of the seas. Canada needed the utmost exertions of all her sons, aided by the highest intellectual culture.

On motion, a vote of thanks was given to the hon. lecturer.

The meeting closed with the doxology and the benediction.

CITY COUNCIL.

CITY HALL,
Ottawa, February 26th 1872.

Special meeting called by His Worship the Mayor for the purpose of considering the withdrawal of A. H. Taylor from his tender for the Market tolls.

Present—His Worship the Mayor, and Aldermen Pratt, Bronson, Bangs, Magee, Rowe, Featherston, Cunningham, Rocque, Kehoe, Heney, and Lapierre.

His Worship the Mayor presented the communication of Messrs. Pierce Mansfield and William Woodburn, offering to furnish securities and accept the tender of A. H. Taylor, for Market tolls amounting to $6,125 00.

1. Moved by Ald. Pratt, seconded by Ald. Bangs, that the tender of Messrs. Mansfield and Woodburn be received and the proposition therein contained be accepted by this Council, provided that security be given on or before the first day of March next. Lost by amendment.

2. Moved by Ald. Featherston, seconded by Ald. Heney, in amendment, that, whereas A. H. Taylor has declined to carry out his tender for the Markets, that the tender of John O'Reilly (six thousand nine dollars) be accepted, provided he gives the necessary security to the satisfaction of His Worship the Mayor and the City Solicitor within two days from this date; and if the said O'Reilly fails to do so within the time specified; that the tender of Pierce Mansfield, (six thousand five dollars,) be accepted, provided he gives the required security within one day after being notified that said O'Reilly has not complied with the terms of this resolution, made in respect to his tender, and if the said Mansfield do not give the necessary security as stated in his case, that then, the City Clerk do advertize for fresh tenders to be received at a special meeting of this Council, to be held on Friday next, at the usual hour; and that His Worship the Mayor do call said meeting, if necessary. Carried.

3. Moved by Ald. Pratt, seconded by Ald. Bangs, in amendment to the amendment, that all in the amendment be struck out and the following inserted: that this Council do advertise for new tenders for the lease of the tolls of the By and Wellington Ward Markets, said tenders to be received at a special meeting to be held on Friday evening next at the usual hour, the tender next highest offered being one hundred and sixteen dollars less than that of the original one accepted by this Council, and also the same amount less than that offered this evening by Messrs. Woodburn and Mansfield. Lost.

Yeas—Pratt, Bangs, Magee.
Nays—Bronson, Rowe, Featherston, Cunningham, Rocque, Kehoe, Lapierre, Heney.

The amendment was then put and carried on the following division:

Yeas—Bronson, Magee, Rowe, Featherston, Cunningham, Rocque, Kehoe, Lapierre, Heney.
Nays—Pratt, Bangs.

The Council then adjourned.

CAUTION! CAUTION!!
TO THE PUBLIC OF THE BRITISH PROVINCES OF NORTH AMERICA.

I beg most respectfully to acquaint the public of the British North American Provinces that in May last I caused the business at 80 Maiden Lane New York, for the sale of Holloway's Pills and Ointment, which were up to that time prepared by William Brown, now deceased, to be closed. These Medicines were, I regret to say, from what has lately come to my knowledge, made up of such very ordinary ingredients as to render them almost worthless, and therefore calculated to damage my good name.

Those who do not wish to be deceived by buying spurious medicines, which are now likely to emanate from the States or elsewhere, but to possess themselves of the genuine Holloway's Pills and Ointment will do well to see that each pot and box bears the British Government stamp on which is engraved the words "Holloway's Pills and Ointment, and that the address on the label is 533, Oxford street, London, where only they are manufactured, and in no other part of the world. The retail prices are on the labels in British currency, and not in dollars and cents.

No representative of mine will ever travel through any part of the British Provinces, or the United States, either to sell or to take orders for my Pills and Ointment, and as have reason to believe that attempts will ever probably be made to deceive the public in this way by persons calling upon medicine vendors, falsely representing that they are acting for me, and with my knowledge and consent, I deem it advisable to put the public on their guard against any such deceptions.

I most earnestly entreat all those who may read this advertisement that they be pleased in the public interest, to communicate the purport of the same to their friends that they may not be defrauded of their money by purchasing worthless imitations of the genuine Holloway's Pills and Ointment.

I would ask, as a great favour, that should it come to the knowledge of any person that spurious medicines are being made or sold in my name, he be pleased to send me all the particulars he can collect respecting the same, that is to say, the name and address of the vendor who is selling the spurious medicines, and likewise the name and address of the House in the United States, or elsewhere, which may have supplied them, so as to enable me, for the protection of the public, to institute proceedings against such evil-doers, and I engage to remunerate very handsomely any person who may give me such information, the informant's name never being divulged.

Should any person have reason to believe that he has been deceived by buying spurious imitations of these Medicines, he will do well to send me, in a letter, to the address at foot (which he can do at a cost of six cents in postage), one of the books of instructions which are affixed to the same. I promise to examine it, and send a reply, stating whether the Medicines are genuine or not, so that if spurious he may apply to the person from whom he purchased them to have his money returned.

Chemists and Druggists who desire to obtain the Medicines can be supplied at the lowest wholesale prices in quantities of not less than £20 worth (for which remittance must be sent in advance)—viz. 8s. 6d. 22s., and 34s. per dozen boxes of Pills and of Ointment, nett, without discount.

I have the honor to be,
With great respect,
