JOHN O'BRIEN'S MUSEUM, MENAGERIE, CARAVAN AND CIRCUS.

The design of the proprietor in the organization of this grand consolidation being to give such a variety in his quadrupled exhibition in the various departments of Museum, Menagerie, Caravan and Circus, including the numerous collection of animated nature, rare curiosities, and superb troupe of equestrians, together with the brilliant caravan paraphernalia, renders it unnecessary for the public to attend any other show during the season, however high sounding its title, or pretentious its claims. They will be in Ottawa for two days commencing to day, Aug. 9th, and we trust advantage will be taken of this the only opportunity to see this genuine show.

SCOTTISH GATHERING.

The grand annual gathering under the auspices of the St. Andrew's Society of Ottawa, will take place at the Show Grounds on Tuesday next. Hitherto our Scotch friends have always succeeded in making their gatherings very interesting and successful, but this year, with the celebrated Dinnie and Fleming to take part in the games, we anticipate something particularly exciting and amusing. That the attendance of spectators will be large there cannot be a doubt, and by the way let us remark that the various Railroad and Steamboat Companies deserve especial thanks for reducing their fare for the occasion. The Committee of the St. Andrew's Society, are working with untiring zeal to make the gathering a grand success, which we hope it will be.

CITY COUNCIL.

A special meeting of the City Council was held last night: Present, His Worship the Mayor, Aldermen Heney, Rocque, McDougall, Lyon, Graham, Mosgrove, Rowe, Magee, Bronson, LeSueur, Pratt, Bangs, Lapierre, and Kehoe.

A petition from the Fire Insurance Companies of Montreal, asking the Corporation of Ottawa to purchase a steam fire engine, and appoint a competent engineer to direct proceedings at fires, elicited some remarks from Aldermen.

Ald. Pratt said it was time the corporation adopted some measures to prevent so much destruction of valuable property.

Ald. Macdougall said he was told, that had a competent person been present to direct the efforts of the fire brigade at the late fire on Sussex street, much of the property might have been saved. He had heard that the insurance companies were talking about withdrawing their agencies from Ottawa, or otherwise they would increase the premiums.

Mayor Martineau thought it was time the citizens should adopt measures to protect themselves, and he for one would see what he could do towards organizing a local insurance company.

The petition was received.

Mr. Lett, the City Clerk, was granted his usual holidays.

A petition from the O. B. G. A. was presented.

Ald. Rowe moved that the sum of $100 be granted to the brigade.

Ald. Lesuer moved in amendment that it be referred to the Finance Committee.

Considerable discussion arose, Ald. Rowe maintaining that the Brigade wished to publish the prize list immediately, and could not well permit of delay.

The amendment was carried, Alds. Rowe and Lyon voting against it.

The 9th report of the Finance Committee, was received and adopted.

The reports on the appropriations for By and Victoria Wards were presented.

Ald. Pratt moved to have the work done by tender.

Considerable useless discussion ensued.

Ald. Magee wandering so far away from the question at issue as to go back to the Finance Report, where he said he saw Mr. Quinn's name though it was well known he had been dismissed.

Ald. Rocque explained that the City Engineer requiring his services had engaged him temporarily.

Ald. Pratt took advantage of the opportunity to launch out a tirade against the City Engineer who he would make it appear is the source of all their trouble.

Ald. Lyon called Ald Pratt to order.

The motion, authorizing the City Clerk to advertize for Ward appropriations, was passed.

MARIA STREET BRIDGE.

Ald. Rocque moved that the Mayor sign a cheque for $3,000 in favor of Mr. Webster, contractor, for the Maria Street Bridge.

Ald. Heney would not take the bridge off Mr. O'Connor, or Mr. Webster's hands. It was a disgrace to the city. It was a pity the lumber was ever lost in it.

Ald. Bangs explained that there were engineering difficulties which could not be overcome at the time. Had it not been built as it was it would have had to be left undone for another year.

Ald. Pratt thought the matter should be referred to the Board of Works, and if it was found that the bridge was not built in accordance with the contract it should not be taken off the contractor's hands. The bridge was a disgrace to the city. The citizens looked upon it in that light.

Ald. Magee thought that Ald. Bangs excuse for the engineer was a futile one.

Ald. Lesuer thought the contractor should not suffer for the mistake of the engineer.

Alds. Rocque and Mosgrove thought the contractor would have to be paid.

Ald. Bangs again attempted to explain away the blunder, but his excuses would scarcely hold water. He thought it was first class, only that it was not on a line with the street.

Ald. Lyon maintained that the contractor had done his portion of the work correctly. The bridge was straight and the canal crooked.

Ald. Graham said the bridge could not have been put up on a line with the street, owing to Mr. Slater having denied the engineer the necessary privelege.

The matter was referred to the Board of Works and Finance Committee with instructions to report on the bridge.

Mr. Sparks' account for $4,000 for Pooley's Street Bridge was referred to the Board of Works.

The By-law to impose and levy rates for the City of Ottawa, for the year ending 1872, was read a first and second time, and the estimates ordered to be printed.

Mr. Thos. Kirby was appointed Collector and the Council adjourned.

Jamaica appears to enjoy the luxury of medical monopoly. That is, if a man is to die in that happy island, he must die according to allopathic rules, and no other kind of medical doctrine being sanctioned by the powers that are. The Cuban immigrants seem to favor the homeopathic theory of medicine, and actually persist in being cured by globular and infinitesimal doses. According to the latest despatches from Jamaica one of these presumptuous patients was recently taken out of the hands of a homeopathic physician under the authority of a local law, and evinced his disgust at allopathic treatment by dying under it.

The story is told of Ben Butler's early days that a Yankee obtained his legal opinion how to recover the value of a ham, which a neighbor's dog came along and ate. He was advised to prosecute and recover for damages. "But the dog was yours," said the sharp Yankee, Butler opened his eyes a little, asked him what the ham was worth, was told five dollars, paid the money, and then demanded a ten dollar fee of the astonished native for legal advice.

STORMS AND FLOODS.—Serious damage has been done in Lancashire and Cheshire by the storms of last week. A very heavy rainstorm visited Staleybridge early on Saturday morning. The rain fell in torrents for fourteen hours. Three wooden bridges and a large iron bridge, called the Red bridge, were washed away in consequence of the immense current of water from the Yorkshire hills running down the river Tame. The streets were flooded. A brewhouse was washed down and the utensils carried away, and several cotton mills are inundated, and a great amount of damage done. On Saturday the river Douglas, at Wigan, was higher than has been known for 25 years, and large tracts of land are under water. All along the stream the lower rooms of the mills and manufactories have suffered. Boiler fires have been extinguished, and the hands compelled to cease work. The districts round Oldham were also visited on Saturday with heavy floods. Two men were drowned there, and a man and a boy met the same fate near Sheffield. The mill lodges burst at Saddleworth and Chadderton. The railway between Goole and Doncaster is flooded, and for many miles the scene is one continual waste of water, relieved only by the tops of the hedges. The hay is all floating away. The metals of the railway between Colchester and Marksteyhaving become loosened by the violence of the storm, on Saturday a goods train ran off the line, and the engine and several trucks capsized, but no one was injured. The line was blocked and several heavy trains from and too Yarmouth were delayed for several hours. All the rivers in the neighborhood of Manchester have flooded the country, and the damage done is immense. Many of the streets and principal thoroughfares in Manchester are under water through the overflow of the Medlock.
