DR. DE JONGH'S LIGHT BROWN COD LIVER OIL.

The distinctive characteristics which have gained for Dr. De Jongh's Oil so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage, may be thus briefly enumerated:—

I.—Its genuineness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach, and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of Dr. De Jongh's Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly recovers the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of Dr. De Jongh's Cod Liver Oil in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used Dr. De Jongh's Light Brown Cod Liver Oil, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The sole remedy employed was Dr. De Jongh's Light Brown Cod Liver Oil; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case (male), hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of Dr. De Jongh's Light Brown Cod Liver Oil are remarkably manifested. By its administration the natural appetite is revived, and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Alloa, Nd. Kilmarnock:—

"In giving my opinion of Dr. De Jongh's Light Brown Cod Liver Oil, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of Dr. De Jongh's Oil are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'coming on' a relapse, I take it, and like it, unused with anything, as being the most agreeable of all. I wish that Dr. De Jongh's Oil would come into general use, and entirely supersede all the other worthless preparations."

SCORES OF MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of Dr. De Jongh's Light Brown Cod Liver Oil, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, and likely to prove elegant, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is generally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption: its early and remediable Stages.")

Dr. Barlow, F.R.S., Sen Physician to Guy's Hospital.

"I have frequently recommended persons consultin me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it be a very pure Oil, well fitted for those cases in in which the use that substance is indicated."

Dr. Lonsdale, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

Dr. Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured by the personal attention of a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferrable to any other kind as regards genuineness and medical efficacy."

Dr. Granville, F.R.S., Author of the "Spas of Germany."

"Dr. Granville has found that Dr. De Jongh's Light Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the Pale Oil."

Edwin Canton, Esq., F.R.C.S., Surgeon to Charing Cross Hospital.

"For several years past I have been in the habit of prescribing Dr. De Jongh's Light Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

Dr. De Jongh's Light Brown Cod Liver Oil sold only in Imperial Half-pints, 2s. 6d.; Pints, 8d.; Quarts, 9s.; Capsuled and Labelled with his Stamp and Signature,

WITHOUT WHICH NONE CAN POSSIBLY BE GENUINE

THE ROYAL READERS.

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Patterson, Rector of the Free Church Training School; Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Elocution than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, B.Sc., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect."

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are each sight the best series of Reading-books published, and should very speedily be widely used. The illustrations constitute an adjunct of no small value, while the superior features and add much to the value of the *Readers*.

From the Editor of the Scottish Journal of Education.

"We have no hesitation in saying that these Readings-Books are in advance of anything hitherto published.

"The care, skill, and judgment displayed in the preparation of the series, and their thorough adaptation to the wants of Modern Education, will command for them the approbation of all teachers and school-managers who desire the thorough proficiency of their pupils in English."

PINE LANDS.

OVER 200,000,000 FEET, well located, mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely from all perils and free from the monyancewy Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber, Shingles, etc., which may be delivered anywhere on the line

The New York Tribune

THE CONSOLIDATION OF ITALY, so long fragmentary and impotent, into one powerful State, with Rome as its capital, the humiliation of France [illegible] a secondary power, sinking with the sun [illegible] her pond and [illegible] the Bourbons from the Spanish throne, substituting for them a Prince [illegible] among regal houses; the virtual abolition of Kingdoms, Duchies, Wardships, [illegible] Baden, Hesse, the Hanse Towns, [illegible] ownership of Prussia, into the imperial and powerful empire of Germany; and the aiming of Russia to reassert her pre-eminence in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the greatly coveted City founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the everchanging phases of our tidings from the Old World. The *Tribune*, through its selected correspondents stationed at all points in Europe where great movements are in progress or imminent, aims to present a complete and distinctive panorama of events on that continent, and to narrate the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and science on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the [illegible] masses of mankind.

In our own country, a war upon corruption and venality in office has been inaugurated in our [illegible] whereby the government and legislation has been revolutionized through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from [illegible] by trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and [illegible] needed reform, the *Tribune* will devote its energies, regardless of personal interests or predilections, esteeming the choice of honest faithful servants to office as of all New Departures most critical and important.

The virtual surrender by the Democracy of its hostility to Equal Rights legislation, and has divested our current politics of half its [illegible] gone intensity. However parties may have arisen or fall, it is clear that the fundamental principles which have hitherto honorably distinguished the Republicans are henceforth to be regarded practically accepted by the whole country. [illegible] right of every man to his [illegible] and secure the equality of all citizens before the law—the ability of a State to enslave any portion of its people—the duty of the Union to guarantee to every citizen the full enjoyment of the [illegible] forfeits it by [illegible] are the corner stones of the foundations of our National edifice, and shall be the hand which shall seek to displace them. Though not twenty years old, the Republican Party has completed the noble fabric of Freedom, and may fairly invoke the from the [illegible] ment of man and the benignant smile of God.

Henceforth, the mission of our Republic of Peace and Progress. To protect the humble from violence and oppression, to extend the boundaries and diffuse the blessings of civilization—to stimulate Ingenuity to the production of new inventions for economizing Labor, thus enlarging Production—to aid in opening to the producers of Food and of Fabrics, Grains and of Metals, and the enhancement of Industry by reducing the cost of transport and exchanges between remote regions, such is the inspiring task to which the Party now addresses itself, and by which it would contribute to the progress, enlightenment and happiness of our race. To this great end, work, the *Tribune* contributes its zealous and potent efforts.

Agriculture will continue to be more especially included in the Weekly and Semi-Weekly editions, to which some of the ablest and most [illegible] tillers of the soil will steadily contribute. No farmer who has $200 worth of produce per annum can afford to do without our Market Report, or others equally lucid and comprehensive. He should read nothing else but what relates to his own calling and its rewards, we believe that no farmer who can read at all can find fault with such a journal as the *Tribune*. And we shall make it equally valuable to those engaged in other departments of Productive Labor. We spend more and more money on our columns each year, as our country men's generous patronage enables us to do; and we are resolved that our [illegible] of former years shall be exceeded in [illegible] lence and interest by those of 1873. Every every State! help us to make our journal better, and better, by sending in your subscriptions and increasing your Clubs for the year just before us!
