TORONTO.

Death of Captain Dick—Hall Thieves—Bishop Cummins.

TORONTO, Nov. 6.

Capt. Thos. Dick, a prominent steamboat man, and proprietor of the Queen's Hotel, died here at 11 a.m., to day.

The attention of householders should be called to the fact that hall thieves have commenced operations in several parts of the city.

Bishop Cummins, the presiding Bishop of the Reformed Episcopal Church, will be present at Divine service to be held under the auspices of the congregation of Christ Church, of this city, in the Music Hall, morning, afternoon and evening on Sunday next at the usual hours. There will be a confirmation service, and the Bishop will preach once during the day.

A Halifax despatch the other day announced the death of John Sanders, believed to be the last survivor of the crew of the 'Shannon' when she captured the 'Chesapeake.'

Arrived—Steamship 'Servia' from Hamburg.

Extensive Fire.

MARCELLUS FALLS, Nov. 6, noon—A fire yesterday destroyed Johnson's flouring mill, barn and grocery store; loss, $17,000; insured, $4,000; paper mill lately occupied as a woollen mill, owned by J. F. Daues; loss $17,000; insurance $3,000; grocery store and dwelling of J. F. Herring, loss, $8,000; insured $2,000; the machine shop of J. Eggleston, loss $14,000, insured $5,000. There were several minor losses, the whole aggregating over $70,000.

The Elections.

NEW YORK, Nov. 6.—Later returns make some important changes in the results heretofore announced. Kenna has given a small democratic majority on the State ticket, and has chosen a Democratic Legislature, which will elect a successor to the U. S. Senator, John Scott, Republican.

Missouri elects the Democratic State ticket, and sends a unanimous Democratic delegation to Congress. The Legislature is also Democratic, and a straight Democrat will doubtless be elected to succeed Senator Schurtz.

The election of Chamberlain, in South Carolina, by twenty thousand of a majority, is claimed.

Tilden's majority in New York reaches 40,000, and the Legislature remains about the same as previously announced.

The election in New Jersey is unchanged.

The Michigan Legislature has a small Republican majority. The Opposition majority in Congress now reaches 44.

Fatal Railroad Accident.

DETROIT, Mich., Nov. 5.—This morning's passenger train on the Grand Rapids and Indiana Railroad, fifteen miles south of Grand Rapids, had the hind coach and sleeping car thrown from the track by a broken axle. One man was killed, and about twenty or thirty injured, some fatally.

SUMMARY OF MIDNIGHT NEWS

The storm of yesterday morning was general over the continent, and in one instance proved fatal.—A R. C. priest has eloped with the organist of his church.—The native arrested as Nana Sahib has not been identified yet.—The French and Spanish frontier violations is the subject of investigation.—A negro has been arrested for shooting Judge Keels' son, and burning a ballot box.—A negro has been lynched at Memphis for outraging the wife of a planter—A collision by which two men were drowned, occurred between two Spanish vessels—A French barque has been totally wrecked on a reef; crew saved—1,197 miles of the Direct Cable have been laid—The text of the Turkish despatch to Germany, Russia and Austria on the Roumanian question has been published—Suncook and Nashua are in danger from forest fires. The flames have been stayed still further by the high winds of the last 24 hours.

The Von Arnim Papers.

NEW YORK, Nov. 6.—A St. Louis despatch says: Von Schmidt, Secretary of Count Von Arnim, was ordered to return by Count Von Arnim on Wednesday morning, Oct. 28th, and he left for New York, accompanied by detectives, and Gen. State Atty., following. Von Schmidt got the important papers from a German merchant, and started for Europe. Von Schmidt admitted that the papers were a portion of the letters of Bismarck to Von Arnim abstracted by the latter from the archives of the Paris Legation.

ELECTION TRIALS.

NORTH VICTORIA.

LINDSAY, Nov. 6.

On resuming this morning, Mr. Justice Morrison gave his decision as to the legality of several of Mr. McLennan's voters that had been attacked by Mr. Hector Cameron yesterday. The following names were struck off:—Donald McKinnon, Adam Kerr, Duncan Rae, W. E. McLauchlin, James Marshall, W. H. Hawthorne, and J. A. Campbell. Jno. Kingland's name was added to Mr. Cameron's list. As Mr. McLennan's majority was only four, these decisions reversed the state of things and gave Mr. Cameron a majority. The votes of S. and Joseph Rogers, Donald McIntyre, Hector and Hugh Grant, and Duncan P. Campbell, all for McLennan, were held to be good. Archibald McMillan and John McMillan were also challenged by Cameron. They were young men and they worked the farm with their father. The Court thought their votes were good, but the decision was resumed in the cases of Malcolm Morrison and brother.

Mr. Cameron raised the point that the names of those voters for Mr. McLennan who had received money for teams should be struck off Mr. McLennan's list. He did not maintain that the act was sufficiently corrupt to void the election, but still it should render the votes bad. Judgment upon this point was reserved.

The charge of bribery and corrupt practices were then again taken up by Mr. Cameron.

E. Dunsford Ode, of Lindsay, testified that Mr. Scott, of Windsor, had expressed to him his regret that he had been influenced in his voting.

Hugh McGillivray, of Eldon, testified that he had intended to vote for Mr. Cameron, but Peter McSwain, bailiff of the Division Court, had came to him with an execution in his hand, had pressed him to vote for Mr. McLennan. He had told McSwain that he desired to vote as his father had promised, but McSwain had said he had favored him (witness), and would do so again. The result was that to avoid difficulty, witness and his brother, Archibald, did not vote at all. Mr. McSwain had not sold afterwards under the execution, but the sheriff did. McSwain, however, could have made money by selling.

On cross-examination by Mr. Armour—McGillivray testified that the land was his father's, but that he (witness) paid taxes on it, and owned the cows, though his father owned the horses. He would have the farm himself on the death of his father.

Mr. Cameron maintained that was a case of bribery, and it would not therefore be necessary if His Lordship so decided, to proceed any further. The decision upon this point was also reserved.

The scrutiny having given Mr. Cameron a majority of five, Mr. McLennan opened his scrutiny of votes.

John Whyte, of Victoria Road Station, testified as to the case of W. Wynn, whose name had been wrongly spelled Wagner in the list, and whose votes therefore had been refused.

Mr. Armour, for Mr. McLennan, urged that the name should have been entered.

The Court reserved decision in this case also and the votes of George and John Bates, lot 6, concession 5, Fenelon, who voted for Mr. Cameron, were held good.

Thos. Hall, one of Mr. Cameron's voters, held the deed of the lot upon which he voted. Jacob Switzer, also one of Mr. Cameron's voters, had also the deed of his lot. Geo. Switzer swore that he had no interest in the farm. He would get the farm if he stayed at home and took charge of his father. Alex. Myles said he had a lease of the place, upon which he voted, and that his father willed the farm to him in October.

Witness was ordered to produce the lease, which he did subsequently. Mr. Burton, Cameron's vote, produced his lease, made five years ago. He was to pay $100 for 15 years. He did not receive any inducement for voting. J. Moynes, Cameron's vote, had no interest except what his father might give him. James Hodge, Cameron's vote, was staying with his three brothers, but had no interest in the place, when he voted. He had leased the place last February. Harry Humphrey, Cameron's vote, produced his lease. Jno. and James Fell, were assessed for land belonging to the father, and Henry and Wm. Fell, were assessed for wrong lots, all Cameron's votes. Judgment was reserved. Levi Ferrin, Cameron's vote, produced the deed of the land on which he voted. Mr. Grifer, Cameron's man, had also the necessary deed. T. Nevison produced his lease. James Spry, Cameron's man, had the lease of a Hotel up to July, 1873, and sold it to the original owner who had voted on the said lease. It appears that the revision of the voter's list had taken place on the 1st of August, 1873, and had been certified to on August 4, 1873.

Samuel Cameron lived on the farm with his father and had no interest or deed. Wm. Taylor, Carden, worked lot 21, Concession 10, on which he voted, for the benefit of his father. He did not live on it, had no lease of it, and did not pay any rent. The farm was owned by a Mr. Stewart, of Toronto. Jno. Burton said the farm on which he voted was owned by his father, but he (witness) was assessed instead of his father. Thomas Montgomery had a deed, and Henry Lacroix had a lease. Archibald McMillan's name was not put on the list properly. The assessor had made an error in copying. Capt. Carson, Cameron's voter, was manager for Gooderham & Worts and Carson & Company, and though he paid no rent and had no lease, he had an interest in the property, and the title for which were in the name of Gooderham & Worts.

It now being some time after six o'clock the Court rose till nine to-morrow morning, when His Lordship's decision will be given in the cases of the voters attacked by Mr. McLennan.

Two witnesses remain to be examined as to the charges of corrupt practices preferred by Mr. Cameron. One of these is Capt. Sinclair, of the Canadian Inland Navigation Company's steamers, who acted as teamster for McLennan.

CHURCH OF SCOTLAND.

FOURTH DAY.

TORONTO, Nov. 6.

The Moderator took the chair at 10.30.

Rev. Mr. Campbell moved that the roll be again taken on the question of his appeal. He made the motion formally, not wishing to press it; but in order to place his protest on record. His motives in making the appeal were actuated by a desire to clear the honour of the Church, as he had considered that it had been impugned; and was at stake. The decision that the Synod had arrived at had placed him in a very awkward position. He cared not so much for himself, but he always had endeavoured to maintain the honour of the Church.

The motion was ruled out of order.

Rev. Mr. McLellan was then heard before the Court in reference to his memorial relative to his claim against the Presbytery of Toronto for $500

Rev. Dr. Williamson took the chair at 3:15, in place of the Moderator.

The Clerk called attention to the large amount of business before the Synod. He then read a communication from the Synod of the Church of the Lower Provinces stating that in view of the subject amongst the various Presbyteries, they were prepared to take steps to bring about Union.

It was moved that the next annual meeting of the Synod of the Church of Scotland be held at Montreal, on the 2nd, instead of the 1st Tuesday in June, at half-past seven in the evening. Carried.

It was moved by Rev. Dr. Gordon that all expenses in connection with the consummation of Union be provided for by a special account on Presbyteries, in place of from the Temporalities Fund. Carried.

Six o'clock having arrived, the Synod adjourned.

In the evening session, drafts of bills proposed to govern the United Church came under consideration.

Moderator Rennie enquired whether, in the event of the majority, any churches refusing to come into the United Church, they would retain possession of church property?

Principal Snodgrass said they did not desire to coerce any of their brethren. They proposed to consult the opinion of Counsel on the point.

Mr. McLean warned the delegates of the danger of neglecting to protect the interests of the minority.

All the drafts of legislation were adopted, and a committee was appointed to further the passage of the necessary acts.

BERKELEY, Sept. 1869.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr. Bell, Berkeley, for the above named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without derriving any benefit at all. After taking two bottles of your valuable pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—Iam, Sir, yours truly, HENRY ALLPASS.—To the Proprietors of Norton's CAMOMILE PILLS. 2605

ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the skin or with the waste matter through the intestines, but sometimes wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pestules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatory Rheumatism or Rheumatic Gout. If nature does not succeed in washing out these acrimonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases is the

DIAMOND RHEUMATIC CURE!

It is the result of a lifetime of scientific study and is now for the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 13th June, 1864.

DEVINS & BOLTON:

GENTLEMEN,—Having been one of the many martyrs of rheumatism that I met on my every day rounds, I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathize with my fellow sufferers from rheumatism.

Yours respectfully,

J. B. CARDINAL,

Sanitary Police Officer,

51 Labelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send or it to

SECRETARY AND AGENT FOR MONTREAL AND DISTRICT . . C. O. PERRAULT.

BANKERS . . . . . THE UNION BANK OF LOWER CANADA.

The success which has attended the efforts of the Royal Canadian Insurance Company, and the conviction that there is ample room for other Companies founded on the same basis, have suggested the idea of establishing one with its Head Office in the City of Quebec, and an extended system of Agencies throughout the Dominion, in places where a portion of the Capital Stock shall have been subscribed.

With these considerations in view, the Directors of the STADACONA INSURANCE COMPANY have secured an Act of incorporation during the last Session of Parliament to carry on the business of Fire and Life Insurance. The authorized Capital is $5,000,000, divided into Shares of $100 each. Five per cent. is payable on the subscription of the Stock, and five per cent. within three months after. The remainder of the Stock is payable in such instalments as the majority of Directors shall determine, not however, to exceed five per cent. per call, and at periods of not less than three months' interval. It is not intended, however, to call up more than ten per cent. of the subscribed Stock, which amount will be paid to the Receiver General for the benefit of policy holders; said deposits to bear interest at the rate of six per cent. per annum.

The Board of Directors of the Company are prepared to open a Branch Office, with a Board of Local Directors in this City, as soon as a sufficient amount of Stock shall have been subscribed.

This Company has been formed for the purpose of purchasing and working the valuable iron miles situate in the Townships of Templeton and Hull, in the County of Ottawa, and Province of Quebec, called the Haycock Iron Location. The Company holding the power under the Act to "carry on the business of exploring for, mining, "smelting, manufacturing, dealing in and disposing of iron and other ores and metals "and the manufacturing, selling dealing in, and disposing of steel workings, or the "products of iron and steel."

The property to be acquired is fully described in the report of the Eminent Mining Engineer, Dr. E. J. Chapman, Professor of Mineralogy and Geology in the University College, Toronto, (Vide prospectus) it may be briefly described as follows:—

1.—SITE AND GENERAL CHARACTER OF THE PROPERTY:—The Haycock Iron Location comprises a compact area of 309 acres of mineral land, and 100 acres of timber land, situated in the Province of Quebec, about eight miles north-east of the City of Ottawa; together with an additional piece of land of 10 acres near the head of navigation on the River Gatineau, as described in the following statement:—

1.—The North half of Lot 1, in the 11th Range of Hull, comprising 100 acres of mineral land.

2.—The adjoining lot 28 (North and South Halves) of the 6th Range of Templeton, comprising 200 acres of mineral land.

3.—The contiguous South half of Lot 27, in the same Range, comprising 100 acres of timber land.

4.—Ten acres in Lot 2, on the 6th Range of Hull, on the left bank of the River Gatineau which has been secured partly to serve as a storing place and loading ground for shipping the ore, but chiefly as a convenient site for the erection of Furnaces. This area is connected with the mineral or iron area proper by a tramway of 6¼ miles in length. This tramway, of three-feet gauge, has been very solidly constructed, and it is now in complete working order. It runs for a short distance through the Haycock property, and is then continued along the town line between Hull and Templeton, on to the furnace site on the Gatineau.

In addition to 6¼ miles of tramway in complete running order, with full right of way from the ore beds to the furnace site and shipping ground on the River Gatineau, the assets of the property include a Steam Sawmill of 20-horse power, sawn timber and logs; a Boarding House; Manager's House; Store House; Office; Stables; Powder House, and Blacksmith's Shop. Also a Derrick and other mining plant, tools, &c.; together with about 5,000 tons of raised ore, and 30 tramway cars.

The quantity of the ore, as described by Professor Chapman, is practically inexhaustible, it lies close to the surface and is easily mined, while its quality may be estimated from the fact that *steel has been made direct from the ore.* The fullest particulars of analyses and experiments proving these statements can be had at the Head Office of the Company, and from the Agent at Montreal.

The price to be paid for the purchase of the property is $250,000. One-half in cash, and the balance in fully paid-up shares of the Company, in consideration of which the proprietor will make over the freehold of the estate free from all encumbrances whatsoever.

And further, as a proof of his *bona fides*, and his entire confidence in the prospects of this undertaking,

He will guarantee to the Shareholders a minimum dividend of not less than

TEN PER CENT. PER ANNUM

on the paid-up capital *for three years* from the date of the allotment of shares, and as security for the due payment thereof, he will deposit in the hands of the Company the whole of his paid up shares, and give such further security in cash as may be thought necessary for the carrying out of his guarantee.

The capital will be called up as follows:—

On application.....	$2 per share	15th April 1875.....	$2 per share
On allotment.....	3 "	15th May "	2 "
15th January, 1875.....	5 "	15th June "	2 "
15th February "	2 "	15th July "	2 "
15th March "	"	15th August "	2 "
		15th Sept. "	1 "

The share lists will close on the 10th December, 1874, and as the shares will be allotted *pro rata* according to priority, an early application is desirable.

Prospectus and any further information, relative to the Company, can be had on application to the Head Office, or at the Montreal Agents, Messrs. Drummond, Cassels & Co.

The Canadian Washer

A. B. GILLIES, Manufacturer, cor. King and Hunter-sts., Lower O.

Ottawa, Oct. 2nd, 1874.

MR. GILLIES—Sir: In reply to your enquiry, I beg to state that I have used the Canadian Washer, which I purchased of you, for some time past in my family, and find it to be a very useful and powerful Washer. The washing is with years done in half the time it took before the Canadian Washer. It is in every respect satisfactory to me, and I believe in the same manner, which was never the case with the diagonal. Yours respectfully, MRS. CARMICHAEL.
