—AT THE—
GOVT PRINTING OFFICE,
Wellington Street.

The Hon. Edward Blake, Minister of Justice, has left for Murray Bay.

The Hon. A. H. McKellar and Mr. James Young, M.P., left for Toronto last night.

The Hon. J. Simpson, Senator and President of the Ontario Bank, is at present on a visit to this city.

Mr. John Lorn McDougall, M.P. for South Renfrew, is in town, and stopping at the Russell House.

Mr. McNab, M.P. for Glengarry, was in the city yesterday. He will leave this morning by boat for L'Original.

The Hon. M. Geoffrion has returned to town, and is staying at the Russell House. The Hon. Mr. Cartwright is expected to-day.

TELEGRAPHIC.

FOREIGN.

IRELAND.

Left for New York.

QUEENSTOWN, July 9.—The steamship *Celtic* of the White Star Line left at 11 a.m. to-day for New York.

AMERICAN.

NEW YORK.

A Pleasant Surprise.

NEW YORK, July 9.—Mr. Beecher was made the recipient of a pleasant surprise yesterday at his Peekskill farm by receiving an unexpected visit from upwards of 600 of his congregation, including Plymouth Sunday school and Church teachers. The latter announced that the Church increased his salary to one hundred thousand dollars ($100,000) for the present year.

Drowned.

Wm. A. Moore, aged 22, and Louis Degan, aged 18, both residing in Brooklyn, were drowned while bathing at Coney Island on Monday.

Inhuman Treatment of Indians.

A letter from Handing Rock, Dakota, published to-day in the *Herald*, states that mismanagement of Indian stores in the country is quite as bad as represented, and many contractors are prosperous, while the Indians, whom it is their duty to feed, are compelled to live on their ponies and dogs, and have to beg for bread from the troops. Several instances are cited, where agents have been guilty of gross cruelty and neglect in treating their charges. "Two Bears," a Sioux Chief, says last winter they suffered severely, they had to eat their ponies and dogs—one hundred and fifty-seven ponies and nearly one thousand dogs—their ammunition was short, so they could not kill game last winter. There was no pork issues for twenty-five days and no beef for two months.

Estimated Cost of the Tilton-Beecher Trial

The *Evening Argus* of Brooklyn, in an article on the estimated cost of the Tilton-Beecher trial, aggregated it at $140,000. Beecher's expenses have not been less than $7,500, while Tilton is out of pocket $15,000.

MONTPELLIO.

Execution.

MONTPELLIO, N. H., July 9.—The execution of Mac Brown for the murder of S. G. Carr, takes place to-day at 8 a.m. A large crowd has assembled from all directions. The wife and child of the doomed man remained all night with him and will stay beside him till the last moment.

ST. LOUIS.

Death of General Frank P. Blair.

ST. LOUIS, Mo., July 9.—General Frank P. Blair expired at midnight last night, surrounded by his family and a few intimate friends. He has been in a very low condition for several months. Under blood transfusing treatment he grew stronger and improved. During the past few days he has taken frequent rides, and yesterday he walked down stairs. His death came suddenly, and will astonish his many friends who had hopes of his recovery.

EAST ST. LOUIS.

The Mississippi Still Rising—Danger Apprehended.

EAST ST. LOUIS, Mo., July 9.—The Mississippi is still rising, having come up one foot eight inches from 7 o'clock yesterday morning to the same time this morning. Mayor Hall and the City Engineer stopped the opening of the Division Avenue Sewer, so that for the time being water ceased to come into the city that way. The East St. Louis & Carondelet railroad embankment prevents so far a long volume of water from rising into that part of the city. One foot more water will force the St. Louis Transport Company to transfer their office. The City Engineer reports that a rise of one foot and a quarter will let water in. The mayor is exerting himself in every way to guard against seemingly impending danger, and all would like now to see that our city was a little more elevated.

ALBANY.

Skeleton Found.

ALBANY, July 9.—While workmen were engaged lately in cleaning the main sewer under the Dannemora prison they came upon a skeleton of a man lying at the bottom of the sewer, and submerged in the filth. On examination, after it had been removed, it revealed the fact almost beyond doubt, that the remains were those of Filkins, the Albany Express robber, who had died there after escaping from the corridors of the jail down through one of the water-closets, in the vain hope of regaining his liberty by going through the sewer and out at its mouth, which is strongly closed with bars of iron secured on either side in walls of heavy masonry.

CHICAGO.

Daring Attempt at Robbery—Markets.

CHICAGO, July 9.—At 12 this morning when the express train from St. Louis, on the Vandalia Railroad, came to a stand at a lonely watering station in Clark County, Ia., two of a band of robbers boarded the locomotive, killed the engineer, detached the locomotive and Adams' express car from the rest of the train, and ran them out some distance, and then tried to gain an entrance into the express car. The messenger, who had locked himself in the car and barricaded the doors, defied the robbers, who fired many shots through the sides of the car, but failed to gain an entrance. The men in charge of the train armed themselves and marched to the scene of attempted robbery, but on arriving there the scoundrels had fled. This is considered one of the most dangerous points on the road for such work.

The advance on wheat and corn during the last three days has had the effect of diminishing the demand for shipments, although lake freights are easier, and a large amount of room is ready. Only four cargoes of grain were taken. Wheat was much excited, the foreign and eastern markets being higher at firm figures, but the latest reports showed a quieter feeling there, and the market closed steady.

SIOUX CITY.

Leaving for the Black Hills.

SIOUX CITY, July 9.—Parties are leaving daily for the Black Hill, and gold hunters are arriving daily on the way to that country.

CANADIAN

MONTREAL.

Jacques Cartier Bank—Theft—Spurious Coin—Lacrosse Match—Contraband Goods Seized—Markets.

MONTREAL, July 9.—Hon. C. S. Rodier, informs the public that he his neither director nor shareholder in the Jacques Cartier Bank.

A short time ago a gentleman named Walker removed with his family to this city from Toronto, and took up his residence at the corner of St. Antoine and Chatham streets in which the mechanics were still working. On the 28th ult., to his great regret three gold rings, one set with turquoise stones, with a bezgl in the centre of value and a fine gold locket, which had been in the family for many years, and were greatly valued on that account, were missing from one of the bed rooms. The police were notified and Detective Fahey was instructed with the case, and has been working it up ever since. He soon found that the workmen were not implicated in the robbery, but his suspicions fell on the son of the contractor, Mr. Delaurier, of Canal street, and a further investigation confirmed his suspicions. On Wednesday last he succeeded in his efforts to become introduced to a Miss Mathier, a young lady residing on the corner of Dominion and Canal streets to whom Delaurier was paying his addresses, and in the course of conversation learned that she had received from him the gift of a ring, which was produced and recognized by the detective as one of those missing. Delaurier's residence was afterwards searched and the other valuables found in his bed-room. It appears that he obtained egress to Mr. Walker's sleeping apartment through the open window by means of a ladder. He has been arrested.

A quantity of counterfeit silver has been in circulation in this city.

Montreal vs. Shamrocks.—At the lacrosse match yesterday the crowd behaved in a most outragous manner. The *Gazette* says the policemen might as well have been replaced by as many posts.

A quantity of contraband goods was seized at this port.

Flour—Sales, 100 brls superior extra at $4.95; 100 extra at $4.85; 100 strong bakers' at $4.65; 100 spring extra at $4.40; superfine, $4.22½.

There is no change to note in the money market. The easier feeling in stock loans continues, and some large amounts have been offered. Sterling exchange is dull at 109½ to 109¾ for bank sixty day bills in round amounts. There was only a very moderate amount of activity in the Stock Market this morning, and there is little change in prices. Merchant's was slightly firmer. Montreal closing at 187 to 187½: Merchant's 102½ to 102¾; Exchange 99 to 100; Commerce 128½ to 129; Royal Canadian, 88½ to 89; Telegraph, 157 to 158; Jacques Cartier, 40 to 50.

TORONTO.

Out for a Drive—Fined—Attempted Rape—Arrested—Escaped—Factory Burnt—Absconded.

TORONTO, July 9.—McKay, who said he was a commercial traveller from Hamilton, took two fashionably dressed women out for a drive yesterday, but as he refused to pay eight dollars cab fare, he was brought before the Police Magistrate this morning and fined twenty dollars.

The York Pioneers intend having their annual pic-nic at Queenston Heights on 26th inst, in celebration of the Battle of Lundy's Lane.

Two men, named John Riely and Wm. Newman, yesterday enticed Jessie Lambert, a little girl of eight years, into a secluded portion of the Cemetery, and there attempted to commit rape, but were frustrated by some citizens who suspected their designs. They were caught after a long chase, and lodged last night in No. 1 station, but some time early this morning they made their escape by getting through a stove pipe hole only fourteen inches in diameter into an empty cell, through the window of which they got into the street. Riely has a bad record.

S. Johnson's cabinet factory in Yorkville was destroyed by fire at an early hour this morning. Owing to scarcity of water and delay in giving the alarm the factory, with its contents, were burned to the ground. Loss upwards of $20,000—insurance only $2,500. About a month ago the down town establishment of the same firm was destroyed by fire.

Ernest Maison, the proprietor of a Boot and Shoe Store on King street, has absconded. During the last few days he managed to sell most of his stock, and yesterday he made several purchases of jewellery, &c., for which he gave cheques, which this morning proved valueless. It appears he sent his wife and family to the States about three weeks ago whither it is supposed he has fled.

Rev. David Mitchell, of New York, who has been called to the pastorate of the lately formed Central Presbyterian Church congregation, now worshipping in Shaftesbury Hall, is expected to arrive in the city to-day. A special meeting of the Toronto Presbytery has been called for to-morrow afternoon, to formally receive him as a member of the United Church, and he will begin his labours on Sunday next, though his induction will not take place until next week.

QUEBEC.

Rouleau Unseated—Runaway and Accident—A Deserted Ship at Sea.

QUEBEC, July 8.—Judgment was given in the Court of Review this morning on the petition against the return of Mr. Rouleau, M.P. for the county of Dorchester, to the House of Commons. Their Honours Judges Casault, Taschereau, and Tessier were of opinion that Mr. Rouleau was not legally entitled to his seat, owing to corruption practised by his agents in treating voters. Mr. Marceau, the petitioner and opponent of the unseated member, was disqualified for election during the present Parliament of Canada owing to corrupt practices.

A horse belonging to Mr. Jas. Hossack bolted in St. Peter street. When galloping at a furious rate, it brought itself and carriage in contact with the street tramway car, and knocked down the driver, broke one of the windows, and all but killed one of the horses. A gentleman seated in the car had a narrow escape, and Mr. Hossack was thrown from the buggy, but fortunately received no serious injury.

Early on Tuesday morning two roughs were discovered in St. Roch maltreating a man, from whom they were endeavouring to extort money under the pretence that they were detectives, and would arrest him if the funds were not forthcoming.

Captain Roberts, of the ship *Sirocco*, at this port from Genoa, reports on the 19th of June, in latitude 43, long. 47, 20 mins. passed under the stern of the Norwegian barque *Rayale*, of Arundel, with fore and main masts and mizen topmast carried away. The vessel appeared to be loaded. She was painted black with a yellow rib and no figure-head. There were houses on deck and a small top-gallant forecastle. There were several things on deck; a lawyer coiled round the cabin sky light; anchors gone from the forecastle and a rope line over each bow; all the bulwarks and stanchions standing; the decks quite dry, and no chafing appeared on either side to mark a collision. The wind was S.S.W., fresh, with a threatening appearance, and night coming on the Captain did not consider it prudent to go on board No one was seen on her.

HALIFAX.

Dead Drowned—Crops, &c

HALIFAX, July 8.—Edward, the only son of the late Hon. Edward Whalen, was drowned in Charlottetown harbor on the 1st, by the upsetting of a boat by a squall. Four other boys were rescued.

In the western counties of the Province the hay crop, it is thought, will be below the average, while other crops promise well.

Dr. Campbell, M. P. P. for Inverness, has been appointed Immigration Agent for Nova Scotia, *vice* Mr. Desbraisay.

The schooner *W. A. Starr* was taken on the marine slip to-day, the water having been pumped out of her.

Steamer *Hibernia*, from Liverpool, arrived at St. John's, Newfoundland, to day at 11.30, and will be due here Saturday afternoon.

HOCHELAGA.

Mr. Beaubien Elected.

HOCHELAGA, July 9.—Mr. Beaubien is re elected by 349 majority.

A Ship with Wings and Paddles.

From the Gainesville, Ga., Eagle.

Mr. Micajah Dyer of Union county has recently obtained a patent for an apparatus for navigating the air. The machine is an ingenious one, containing principles entirely new to aeronauts, and which the patentee confidently believes have solved the knotty problem of air navigation. The body of the machine in shape resembles that of an eagle, and is intended to be propelled by different kinds of devices, wings and paddle wheels, both to be simultaneously operated through the instrumentality of mechanism connected with the driving power. In operating the machinery, the wings receive an upward and downward motion, in the manner of the wings of a bird, their outer ends yielding as they are raised, but opening out, and then remaining rigid while being depressed. The wings, if desired, may be set at an angle so as to propel forward as well as to raise the machine in the air. The paddle wheels are intended to be used for propelling the machine in the same way that a vessel is propelled on water. An instrument answering the rudder is attached for guiding the machine. A balloon is to be used for elevating the "flying ship," after which it is to be guided and controlled at the pleasure of the occupants. Mr. Dyer has been studying the subject of air navigation for thirty years, and has tried various experiments during that time, all of which failed until he adopted his present plan. He took an eagle for his model, and has constructed his machine to imitate his pattern as nearly as possible. Whatever may be the fate of Mr. Dyer's patent he himself has the most unshaken faith in its success, and is ready, as soon as the machine can be constructed, to board the ship and commit himself to the wind.

Petrified Bodies in Maine.

From the Bangor Whig.

A few days ago the graves of Mr. and Mrs. Kidder, at Edington Pond, were opened for the purpose of disinterring and removing their remains to another locality. Mrs. Kidder has been dead for eighteen years, while the body of the husband was committed to the earth forty-three years ago. Owing to the length of time which has elapsed, it was not anticipated that anything more than dust or a few bones at most would be found. Greatly to the surprise of those present, on opening the grave of Mrs. Kidder, who was over eighty years of age at the time of her decease, her body was found as perfectly preserved and the features as natural as on the day of her burial. Her hair was of considerable length, but the last vestige of her grave clothes had disappeared, leaving a solid petrification, not unlike marble, of a grayish tint. Proceeding next to the grave of Mr. Kidder, by the side of the other, it was found that, although nearly half a century has passed since he was numbered among the living, his body had also turned to stone, of a deep, rich brown color; but, more singular still, while all the clothing had disappeared from the body of his wife in eighteen years, his body still retained portions of the cloth in which he was dressed for the last time forty-three years since. In digging up this body no trace of the box or coffin was found, and the petrified remains, of which only the upper part of the skull and portions of the feet disappeared, lay in several inches of water. When first reached the workmen supposed they had struck a stone of some kind, and the weight of the body was so great that three men were required to lift it.

One boy was killed and two wounded in Bradford by the blowing down of the Town Hall during the hurricane of Thursday of last week.

A Letter from Canada

Mr. A. Spencer Jones, late of Whittlesey, Cambridgeshire, schoolmaster, who went to Canada under the care of the Peterborough Agricultural Labourers' Union, writes as follows to Mr. R. Taylor, the President:—

"Emigration Office,
"Toronto, April 27, 1875.

"DEAR SIR. On Monday and Friday last, by the kind permission of Mr. Donaldson, Toronto Emigration Agent of the Dominion Government, I witnessed the reception and distribution among the farmers of over 400 emigrants, chiefly English farm labourers, who had just arrived by the *Hibernian* and *Sarmatian*. Of these the *Hibernian* brought 320, who reached Toronto the previous evening. Large numbers of written applications for men, boys, and female servants had been received at the office from almost every town and village in Western Canada, and by 10:30 on Monday morning one hundred and fifty persons were disposed of. Throughout the day farmers and others who preferred seeing the emigrants and making their own bargains were continually arriving and departing. The prevailing rates for single men were $15, or £3 2s. 6d. a month, with board, and married men hired for the year, without board, reached $259, including house, garden, and a quarter of an acre of land rent free, together with firewood and pasture for a cow. A farmer will in most cases sell his labourer a good milch cow for $25 or $30, about £6, and deduct the amount from his wages at the end of the year. As provisions in the rural districts of this country do not cost, taking one thing with another, half as much as in England, labourers, if frugal and temperate, can both live well and save money here. If married, and his wife has any time to spare from her own domestic duties, she can always find ample employment as a charwoman at half a dollar (2s 1d.) a day, and board. In fact, the demand for women of this class in the villages and rural portions of Ontario is greatly ahead of the supply. In some settlements charwomen have had daily engagements for several weeks in advance. I wish that some of the badly paid needlewomen of the large cities of England could share in the well-paid for work to be obtained here. Female servants are also greatly needed. The country girls who came out in the *Hibernian* and *Sarmatian* had no need to leave Toronto in quest of service. They were eagerly engaged at double the wages girls of their description are getting in England. By 2 p.m. the day following their arrival, none remained disengaged, and many applicants for female servants for Toronto, as well as other places, had to go away disappointed. The wages obtained at the emigration depot in Toronto are much the same as those I find paid in the counties of Carleton, Frontenac, Peterborough, Bryant, and York, through the rural portions of which I have lately taken a somewhat leisurely tour, stopping in small villages, and quietly making inquiries. My conclusions are that the labourers Canada mostly requires at present are agricultural workmen and navvies; for the latter there is now ample employment in the public works, their wives and daughters can be employed at high wages and in far larger numbers than are at all likely to come for a long time. The severe hard times in the States have supplied the Canadian workshops with American mechanics, and the hard Canadian winter is a drawback in many trades, as the cessation from work it enforces eats up the profits made in the summer. As to the treatment of the emigrants during the voyage, and at the emigrant depot, I questioned a great many, and all expressed themselves fully satisfied with the food and accommodation on the Allan steamers, and the treatment at the Toronto depot leaves nothing to be desired. Sleeping room and plenty of good plain food is provided for emigrants, free of cost, for forty-eight hours, and in special cases, where necessary, for even a longer period. The sleeping apartments will accommodate 1,500, the wash-houses, baths, &c., are also in proportion, and the sick have regular medical attendance. The depot has its own railway platform, whence emigrants can be sent to all parts of the country, free of charge, without coming in contact with any person but their future employers and officials. The whole establishment is efficiently presided over by Mr. J. Donaldson, who is every way qualified for the important post he occupies."

INDIAN AFFAIRS.

Debate in the British House of Commons.

LONDON, July 8.

In the House of Commons this afternoon, Lord Hamilton, under Secretary of State for India, in reply to an inquiry of Grant Duff, with regard to the difficulty between Great Britain and Burmah, said the earlier matters in dispute had been satisfactorily arranged, but the murder of Mr. Morganey, necessitated the Government's instructing that the King of Burmah should give every facility for the punishment of offenders. The King had refused to permit the passage of British troops through Burmah, but Lord Hamilton hoped that he would yield to the representations of the British Envoy, and thus prevent a collision.

Mr. Disraeli made a statement in regard to the contemplated visit of the Prince of Wales to India. He said a grant simply suitable for a visit to the colonies would not be in place for a journey through India. Though the Viceroy had intimated that the custom of making ceremonial presents need not be observed, yet the Prince must be placed in a position to exercise generosity and display splendour. It would, however, be undignified to enter into a discussion upon this point. His Royal Highness will start for India on the 17th of October, and his visit will last for six months. The expenditure to insure the necessary pomp and dignity
