TELEGRAPHIC SUMMARY.

The Prince of Wales arrived at Aden, on his way to India, yesterday.

The London *Times* is strongly opposed to the scheme advertised in London, of floating £500,000 of the bonds of the Keokuk and Kansas City Railroad.

The Alfonsist troops have captured the city of Ordunna, an important stronghold of the Carlists.

Advices from the seat of war in Liberia, *via* Cape Palmas, state that a battle of considerable magnitude has taken place between the Free Negro Republican troops and several of the native tribes, resulting in the signal defeat of the former. It is said that the law enacted by the Liberian Congress, prohibiting trade between that Republic and the Native States, causes great dissatisfaction among the foreign merchants of Monrovia.

The famous Dr. Storrs, who has figured quite conspicuously in the Brooklyn scandal, and one of Beecher's most steadfast friends, has resigned his pastorate of the Church of the Pilgrims, Brooklyn, and accepted a call from one of the large congregations in New York.

A severe engagement has taken place between the Turkish troops and a body of Insurgents, near Zubsco, resulting in the defeat of the former, with a heavy loss in killed and wounded.

The London *Times* is of opinion that the appointment of a Committee by the Great Powers to examine into the internal affairs of the Turkish Empire, would reopen the Eastern question in a very formidable shape, and that England is not prepared to take upon herself such a grave responsibility, in the present unsettled condition of affairs on the Continent.

Mr. Moody, in his discourse at the Brooklyn Rink yesterday, compared sinful and fallen man to the sick in the Wilderness, who were only healed by looking at the Brazen Serpent, which was held up by Moses. "Many," said he, "refused to look upon it, because they failed to see the philosophy of it; so many were not converted, because they did not try to understand God's Word when it was held up and expounded to them."

The French iron-clad *Magenta* was blown up at Toulon the day before yesterday, and several persons were injured by the explosion.

The Czar of Russia is taking vigorous steps towards the suppression of the Socialistic movement in his dominions, several of the leading agitators having been arrested at Moscow, Zula, Odessa and St. Petersburgh, and it is the opinion of the Russian police that an effectual blow has been struck at this organization of fanatical conspirators.

The *Mark Lane Express*, in its review of the corn trade, reports the market as rather depressed all over the Continent, and business at Odessa, Russia, at a complete standstill.

GREAT BRITAIN.

Fraudulent Railroad Scheme Denounced.

LONDON, Nov. 1.—The *Times* of this morning, in its financial column, denounces as an impudent humbug the scheme advertised here for floating £500,000 worth of bonds of the Keokuk and Kansas City Railway.

The Eastern Question.

The *Times* this morning has a leading article on the utterances of the *Official Gazette* of St. Petersburg, to the effect that steps must be taken by foreign Cabinets to strengthen confidence so as to enable the Porte to fulfill its promises. The *Times* says:—"We presume Russia thinks that a conference of the Great Powers should review the Treaty of Paris, and examine into the state of the Turkish Empire. If a pressure is all she has in view, it can be more safely applied by a conference. If she aims at a more serious intervention, it must go so far, in order to be effectual, that it would raise the Eastern Question in peculiarly formidable shape. England is not prepared to take prominence and responsibility in the present unsettled state of Europe.

Corn Market Review.

The *Mark Lane Express*, in its review of the corn trade for the past week, says the weather has been more moderate, but there is little chance for field labour in England yet. Samples are in poor condition, but the cautiousness of the millers has kept prices at previous rates. At Paris, flour was a franc cheaper, while wheat was unchanged. In the Provinces wheat is 6d. to 1s. dearer; and in Belgium, Holland, Germany, Dantzic and Vienna prices were firm, and in the latter the market rather dearer. At Odessa there has been scarcely any business, because of the pretensions of holders at Plymouth.

The Case of the "John Pascal."

To-day Lloyds' representatives examined eight of the sailors belonging to the crew of the *John Pascal*, burned at sea, and were satisfied as to the general truth of their depositions, and told them they would be no longer retained. The question arises, what to do with them. The United States Consul considers that he is in no wise responsible for them, because they shipped at Calcutta, and also because, with one exception, they are believed to be British subjects. The men wish to go back to London.

LIBERIA.

Battle—Republican Troops Defeated.

LONDON, Nov. 1.—Advices from Cape Palmas, west coast of Africa, has been received, and reported that on the 11th October a Liberian force of 900 troops had attacked some native villages, but were repulsed, and were obliged to retire, losing 24 in killed and wounded. They also abandoned three cannons. It is said disturbances will result from the Liberian law, prohibiting direct trade between the natives and foreigners.

FRANCE.

The Iron-clad "Magenta" a Total Wreck.

PARIS, Nov 1.—The iron-clad *Magenta*, which took fire at Toulon the day before yesterday, is a total wreck. The explosion which occurred set fire to the *Victorieuse* and the *Eclaireur*, but the flames were almost immediately extinguished. A few persons were slightly injured by the explosion.

TURKEY.

The Sultan's Troops Defeated.

RAGUSA, Nov. 1.—Eighteen hundred Turks were defeated recently, while attacking a strong insurgent position near Zubsco. The Turks had 150 men killed, while the loss to the Insurgents in killed and wounded was only 20.

RUSSIA.

Socialists Arrested.

LONDON, Nov. 1.—The Russian Government is engaged in a fresh and vigorous crusade against the Socialist agitators. Arrests have been effected in numerous places, among others at Moscow, Zula, Odessa, Riazan and St. Petersburg. In one village alone, near Moscow, thirty working men have been seized by the police. Some of the prisoners attempted resistance, and one named Rogatcheff, believed to be one of the principal leaders, defended himself so desperately that he had to be killed. The Russian police are reported to be under the impression that they have in the present instance struck a blow at a very stronghold and centre of the movement, which will put a effective stop to its further spread.

SPAIN.

Capture of Ordunna by the Royal Troops.

LONDON, Nov. 1—A *Standard* telegram from Santander says the Anfonsist Generals Lamo and Quieje have captured Ordunna.

ARABIA.

Movements of the Prince of Wales.

ADEN, Nov. 1.—The steamship *Serapis*, with the Prince of Wales on board, arrived here to-day, en route to India.

Rev. Mr. Chiniquy Mobbed at Grenville.

The Quebec *Budget* of the 23rd instant says:—"While one of our staff was taking the cars at Grenville, on Friday night of last week, for Carillon, a most disgraceful scene took place at the depot, caused no doubt by the presence of Mr. Chiniquy there. As far as we can understand, this reverend divine took the steamer at L'Orignal and disembarked at Grenville, where he took the first class car *en route* for Montreal. At the depot there were congregated, no doubt to meet him, a low, disreputable set set of blackguards, professing, we do really believe, no religion whatever, for the moment these blackguards discovered Mr. Chiniquy seated in the car, a howling noise, mingled with yells and 'to hell with Chiniquy,' were uttered, till at length when the threats to break the windows were heard in the car, the matter took quite a formidable shape. A very prominent Roman Catholic gentleman rose from his seat, and went outside to where the crowd was gathered, and in a few words brought them to their senses. He said he felt ashamed of them, declaring in unmistakable terms the fact that he was full sure that there were none of them of his faith in the crowd who would be so low as to follow the teachings of men who were urging on a disturbance of the nature in question. He counselled them in feeling terms, and wound up by assuring all present that they were only giving Mr. Chiniquy notoriety by acts of this kind. Notwithstanding the interference to quell the row, two shots were fired and other disturbances took place as the cars moved out of the station, but happily no one was hurt. The Rev. Mr. Borland, of St. John's, P. Q., a gentleman of the Government, and a lady from Quebec, were in the car at the time.

They have found a petrified Mormon in Utah, and from the number of dents in the head, evidently made with a poker and flat iron, it is judged that he had at least thirty-three wives.—*Norristown Herald.*

On Friday afternoon last, the noted Ottawa runner, Mr. Geo. Irvine, ran five miles in twenty-eight minutes, on the Perth Driving Park. He had promised to do it inside of thirty minutes, and had therefore, two minutes to the good when his five miles were done.

Mr. John Lister returned home last week from Port Maitland, Ont., where he has been inspecting the building of a light house under the auspices of the Department of Public Works. He is at present in Ottawa, submitting his report to the Department.

It was a good thing for her that she opened her eye. She was in a coffin, ready for burial, in Bradford, Mass., having been for two days in a state resembling death. A relative was astonished to see the supposed corpse open an eye, and then she was revived, and is likely to recover.

A traveller, being at a coffee-house with some gentlemen, was largely drawing on the credulity of the company. "Where did you say all these wonders happened, sir?" asked a gentleman present. "I really can't exactly say," replied the traveller; "but it was somewhere in Europe—Russia, I think." "I should rather think in Asia Minor."

Burglars entered Merrick's millinery and dry goods store on Yonge street last night, and stole a large quantity of silks, velvets, feathers and other goods. They bored in the back door, and then unlocked it. No trace of the thieves has been found. Goods to the value of $700, including three seal skin jackets, were taken.

AMERICAN.

NEW YORK.

Day of Fasting and Prayer.

New York, Nov. 1.—Moody proposed at the Brooklyn prayer meeting this morning that Friday, the 12th of November, be appointed as a day of fasting and prayer for God's blessings. The proposition was carried by a standing vote in an assemblage of over 3,000 people. It was then unanimously voted to invite all Christian Churches of America to unite in observing the day.

Pastoral Calls and Resignations.

It is announced that the Rev. Dr. Storrs, of the Church of the Pilgrims, Brooklyn, has accepted a call from the Old Brick Church in New York. The Rev. Dr. Fulton, of Hanson Place Baptist Church, Brooklyn, yesterday tendered his resignation, because of dissension with his congregation.

Railroad Operatives Discharged.

The Hudson River Railroad Co. have discharged over 100 trackmen between New York and Albany, and it is expected that further dismissals will be made.

The Evangelists

New York, Nov. 1.—There was another large gathering at the revival meeting at the Brooklyn Rink this evening. Sankey sang, "Go bury thy Sorrow" alone, and the congregation assisted in another hymn. Moody spoke of the failure of men to save their souls as being due to a lack of faith in the promise of the Lord, and their unbelief. He compared sinners here to the sick in the Wilderness, who were only healed by looking upon the Brass Serpent, which was lifted up by Moses. Many refused to look upon the serpent, because they could not understand the philosophy of it; so many here were not converted, because they did not try to understand it, and did not accept God's Word. He offered a prayer for the salvation of all those present. Inquiry meetings were afterwards held in the Simpson M. E. Church.

NEVADA.

Favourable Condition of the Mines—Active Preparations for Rebuilding.

SAN FRANCISCO, Nov. 1.—A special from Virginia City, last evening, credits Mackay, of the firm of Flood & O'Brien, with the statement that with the men and material now at their command, the Consolidated Virginia mine will be working as usual in thirty days, and the usual dividend will be paid from the bullion already turned out, and the surplus on hand now. There is no gas, fire, or any appreciable amount of water in the Consolidated Virginia, California, Ophir, Gould & Curry, Holland, Norcross or Savage reservoir, which is the cause of the flood having exhausted itself. The work of clearing the burnt district and rebuilding is going on rapidly.

UTAH.

The Mormon Question.

NEW YORK, Nov. 1.—The *Post's* Washington special says, President Grant has ordered the removal of the postmaster at Ogden, Utah, who is a Mormon, but not a polygamist. This is the first step towards the removal of all Mormons holding Federal offices in Utah.

AN ECCENTRIC NOBLEMAN.—The Duke of Portland is the most eccentric of men. So far as society is concerned he is dead to the world. He surrounds himself with an atmosphere of mystery, which no one, peer or commoner, is permitted to penetrate. Even his own solicitors, the managers of his enormous estates, are never allowed an interview. Five years ago the Duke's annual income was upward of £300,000, and since that time it has very considerably increased. His Grace has never been married, and has little or no faith in womankind. His ruling passion is architecture. He is forever putting on new structures on his estate, and constantly employs something like 1,500 workmen—masons, smiths, and joiners. The old Abbey of Waldeck, where he constantly resides, is approached by subterranean passages only. There are more than fifteen miles of tunneling leading to it. When the Duke appears in London, it is under a hat of unusual height, and a long, old fashioned wig reaching to his shoulders. Wet or fine, he never stirs out without an umbrella, and his trousers are invariably tied up below the knees with a piece of common twine. He never answers a letter, and, although a member of four London clubs—Boodle's, Brook's, the Traveller's, and White's—he never goes near them.

BURNETT'S COCAINE.—A PERFECT DRESSING FOR THE HAIR.—The Cocoaine holds in a liquid form, a large proportion of deodorized Cocoa-nut Oil, prepared expressly for this purpose. *No other compound* possesses the peculiar properties which so exactly suit the various conditions of the human hair. A single application renders the hair, no matter how stiff and dry, soft and glossy for several days. It is conceded by all who have used it to be the best and cheapest hair dressing in the world. 3980 1ts

THE HUMAN HAIR.—To give it strength and lustre, to improve its texture, to prevent its falling out and quicken to growth—in short to make it as intended, the crowning personal charm of both sexes—this is the work *Burnett's Cocoaine* will accomplish, if faithfully used. There is a stimulating property in this preparation, which greatly assists the growth of the fibres, at the same time rendering them smooth, silky and elastic. 3973

At the Frontenac Assizes sitting at Kingston, a true bill was returned by the Grand Jury against Buck & Parsons (connected with the establishment of Buck & Stewart) for maliciously cutting Peter McLaren's booms. The trial has not yet been concluded.

TORONTO.

The Trial of Mr. and Mrs. Miller for Murder—Enters upon his duties—No Meeting—Shipments of Grain—Mass Meeting—Absconded.

TORONTO, November 1st.—The trial of John and Emma Miller, for the murder of James and Mary Nash, on May 30th last, had not concluded when the Court adjourned till to-morrow, and the prosecution was still in progress.

One witness testified that she asked Mrs. Miller at the time of the fire if anybody was in the house, and she said all right.

Several witnesses swore that had anybody known Mr. and Mrs Nash were in the house, they could easily have been saved.

An insurance agent swore that Miller insured his stock for $1,200. It was not worth more than $300.

Dr. Riddell, coroner, said that just before the inquest, Miller brought him a note saying his wife was sick. When he went to see Mrs. Miller she had only a few bruises, and was present at the inquest next day.

One witness swore that oil was burning in the house, and another one said that the smell from the flames was not at all like burning wood.

Several people testified that they saw the prisoner removing a sewing machine and other articles from the house previous to the fire.

Mr. Frank Shanly enters upon his duties as City Engineer to-morrow.

There was no meeting of the City Council last night, for want of a quorum.

Eight hundred and twelve thousand four hundred and fifty bushels of barley valued at $734,631, were shipped from this port, during the month of October.

A mass meeting of conservatives called for to-morrow evening, has been postponed till Wednesday evening, when Sir John A. Macdonald and Dr. Tupper are expected to be present.

Daniel Desmond, keeper of a dry goods store, on Queen street west, has absconded leaving his landlord and other creditors to a large amount.

Ald Turner, Reform candidate, held a large meeting this evening.

MONTREAL.

Tried to Shoot Himself—Arrivals—Garrison to be Increased—In Transition State—The Guibord Case in England—The Guibord Funeral—Business at the Banks—Stocks.

MONTREAL, Nov. 1.—J. E. Valin, a young man, registered at the American House, tried to shoot himself last night, owing to disappointment in love. Upon his chamber door were written several incoherent expressions, almost illegible, and also the following words: "I have taken the vow of chastity. Good bye. I shall be dead in twenty-two minutes."

Lord Aylmer is giving up farming, and will come to the city to live.

Justice Ritchie, of St. John, N. B.; Dr. Schultz, M. P., of Winnipeg, Manitoba; and Hon. R. A. Davis, Premier of the Government of Manitoba, are in town.

The garrison on St. Helen's Island is to be increased the coming winter.

La Minerve newspaper is at present in a transition state, the Messrs. Duvernay having severed their connection with it, while Dansereau is looking about for assistance to help him run the enterprise. It is alleged that Messrs. Chapleau, P. S. Murphy and Simard will probably take an interest in the Company now being formed.

A Montreal gentleman who arrived to-day, after six months absence in England, states that public feeling there is much aroused over the Guibord case, far more than the references of the press to the subject would indicate.

Guibord's funeral will not take place till Doutre's return from St. John, N.B.

No interments are to be made in the Catholic Cemetery after the 5th of Nov., nearly all the bodies after that date being placed in the vault and kept over till spring.

A Catholic gentleman stated to-day that the feeling prevailed among the authorities of the Cemetery that the body of Guibord should not be contained in anything but a common coffin, and that more delay will be asked to decide as to the admission of the stone casket.

To-day being *fete obligation*, was a holiday.

At the banks business is quiet. Fifty thousand sovereigns arrived on the *Moravian* for the Merchants' Bank.

Stocks were unchanged and quiet to-day, with perhaps a firmer feeling. Sales—Montreal, 183¼ to 183¾; ex-dividend, 178 to 178½; Peoples', 90 to 93½; Merchants', 91¾ to 92; Richelieu, 65; Telegraph, 136 to 136½; Commerce, 123½ to 124.

A "SNAKE" STORY.—The *Star*, of Wilmington, N.C., publishes a curious story from one of the inland counties. It is to the effect that a man and wife went away from home for the day, leaving their children in charge of a negro girl. On their return the four children lay dead on the floor, and on the table was a half eaten cabbage. The girl said that the children had eaten of the cabbage, and soon after were seized with convulsions and vomiting, and died. The horror-stricken parents suspected, of course, that the servant had poisoned the children, and insisted that she should eat some of the cabbage. She willingly complied, and partook heartily. A few minutes after eating, he also died. The father then inspected the vegetable and found in the heart of it a small rattlesnake, boiled to death. The *Star* does not vouch for the truth of the story, but says that it was told by a reliable countryman, who, however, could not remember the names of the alleged victims of the dead rattlesnake.

THE EDDY "MEDIUMS."—Dr. E. P. Miller has returned from a visit to the Eddy mediums. He says that in eleven days he attended thirty seances, and saw a great number of spirits. He thinks that Mrs. Huntoon, of the Eddys, is the most wonderful medium he ever saw, but the performance is peculiar in giving momentary glimpses of numerous apparitions. "Your own personal friends," the Doctor avers, "whom you recognize, come to you through her. I saw six spirits of my friends in one evening, and shook hands with four. My own brother showed himself to me, I think, fifty times. One night he came out and turned himself around twice for me to view him. The spirits will tune a violin and play tunes at your request, sing songs in chorus of three or four voices, and will talk in audible voices, while the medium is in plain sight of the audience. If she had a cabinet arranged, she could show forty or fifty or more at once, she thinks. This medium is the one who performed most of the remarkable tests described in Olcott's book as occurring through the brothers; yet Olcott did not mention her name in the book. Her brothers, they say, are jealous of her, and prevent people from going to her seances."
