Hon. Edward Blake, Minister of Justice, arrived in town last night from the West.

Hon. Mr. Smith, Minister of Marine and Fisheries, is expected to reach the city to-day.

The *Globe* says:—The question of reciprocal trade relations with Canada has been introduced into the Washington House of Representatives by the Hon. Elijah Ward, who has long been an advocate of a liberal fiscal policy on the part of the United States. Mr. Ward proposes in the resolution he has submitted:—"That Commissioners be appointed to "negotiate with others on behalf of the "Dominion of Canada, to ascertain on "what basis a treaty of trade for the "mutual benefit of the people of the "United States and Canada can be arranged."

Mr. George Moss, of Watertown, New York, and late a member of the press of this city, has accepted a position on the editorial staff of the New York *World*. Mr. Moss will be remembered as a live newspaper man while a resident of Ottawa and since his removal to another sphere has conducted with much ability the Watertown *Morning Despatch*. Mr. Moss is to be congratulated on his new appointment, and we trust that his promotion to a higher sphere of action may not only prove a source of profit to himself, but that it will conduce to the advantage of the excellent journal with which he is about to become identified. Mr. Moss was the recipient of an address, accompanied by a beautiful gold watch and chain, appropriately inscribed, from leading citizens and friends, prior to his departure for New York.

TELEGRAPHIC SUMMARY.

The section of the Brazilian Cable between Lisbon and Madrid is broken.

The rumour that trouble had arisen between Mr. Cave, British Commissioner, and the Khedive of Egypt, is untrue. Neubar Pasha resigned, owing to some dissatisfaction with the commercial and foreign policy of the Khedive. The rumours had the effect of depreciating Egyptian securities on the Stock Exchange.

Home Rulers have been meeting in Council at Dublin, to agree upon some line of action on this question, at the approaching session of the British Parliament. A number of other measures were talked over and discussed at the same meeting.

Ex-Queen Isabella of Spain, is dangerously ill with the measles.

The widow of Thomassen, who was implicated in the *Mosel* disaster, has handed over to the Berlin police the correspondence of her husband.

Austria has determined upon the occupation of the insurrectionary provinces of Turkey, with the object of protecting the Christians inhabiting them. A probable massacre is apprehended.

Four hundred and ninety men have been discharged from the Brooklyn Navy Yard. The number employed is lower than it has been for twenty years.

The Prince of Wales arrived at Benares, India, yesterday morning.

Andrassy's project, in regard to the insurrectionary Provinces of Turkey, has met with the approval of France and Italy.

The Papal Consistory, which was to have assembled on the 7th instant, has been postponed until after the 15th.

The Immigration in September:

Returns made to the Washington bureau of statistics show the number of immigrants who arrived at the port of New York during the month of September, 1875, as compared with September, 1874, is as follows:

September,	1875—males,	4,949; females,	4,400; total,	9,349.
September,	1875—males,	3,796; females,	7,584; total,	16,380,

a decrease in 1875 of males, 3,747; females, 3,174; total, 7,031. The principal islands or countries of last permanent residence or citizenship of the immigrants were as follows:

Countries.	1875.	1874.
England	2,266	4,544
Scotland	483	822
Wales	51	46
Ireland	1,716	3,011
Germany	2,598	3,959
Austria	220	322
Sweden, Norway and Denmark	780	722
France	295	496
Switzerland	166	166
Russia	254	1,655

In the Arctic Regions.

Dr. Hayes says that wintering in the Arctic regions is not so terrible a matter after all. He adds:—I would observe that the public sympathy becomes very needlessly excited when an Arctic voyager takes the field. The dangers and privations are greatly exaggerated, and it happens sometimes that men are forced to consider themselves heroes whether or no. I have never met with any one who had ever been to the Arctic regions who did not want to go again—sure proof that it is not such a terrible thing after all to sail among the ice floes and icebergs and to winter near the North Pole. It must be confessed that the moral and mental strain of the long winter is a severe ordeal; but this can be alleviated by cheerfulness and good discipline. Travelling with a sledge, through deep snowdrifts and over rough ice hummocks, day after day, with no shelter in camp but a snow hut, when the thermometer is down in the zeros, is most certainly "wearisome to the flesh," but it need not be dangerous. Shipwreck and disaster in various ways may and do happen to "try men's souls," but these come elsewhere, and so often, that a passing paragraph in a newspaper disposes of them, while the exceptional experience of an Arctic traveller is more striking because of the mysterious nature of his surroundings. We are all awed by the contemplation of what is unknown and which seems inaccessible; but actual experience quickly dispels the allusion.

THERE have been 20 Gurney Base Burners sold to one of any other stove, and we never had to take one back. EMMONS BROS. 3976

TELEGRAPHIC.

FOREIGN.

GREAT BRITAIN.

No Trouble with the Khedive.

LONDON, Jan. 5.—A Reuter Telegram Company's correspondent at Cairo denies that there is any foundation for reports of trouble between Mr. Cave, British Commissioner, and the Khedive. They are on the best of terms. Neubar Pasha resigned because he was dissatisfied with the separation of commerce and the foreign portfolios, both of which he had heretofore administered. The London stock exchange was seriously disturbed yesterday on account of these rumours; a heavy fall occurred in Egyptian securities which, however, has been in a great part recovered to day.

Home Rule Conference.

Yesterday at Dublin there was a conference of the members of the House of Commons who belong to the Home Rule party, in order to agree upon a course to be pursued during the coming session of Parliament. They have decided to support the Land Bill which is to be introduced by Isaac Butt the member for Limerick City. The basis of the Bill will be fixity of tenure and fair rents. Butt will also ask leave of the House to introduce a Bill to make better provision for University Education in Ireland. The question of Home Rule will be raised in the Commons at the close of the recess invariably taken at Easter, when the attention of the House will be called to the severity of the Coercion Act, question of taxation, the Cattle Trade and the Amnesty Bill.

The Brazilian Cable.

It is announced this morning that the section of the Brazilian cable between Lisbon and Madrid is broken.

Protection to Christians.

A *Times'* letter from Ragusa says that all information from official and unofficial sources confirms the opinion that not only is the Austrian occupation of the insurrectionary Provinces determined upon, but that the same foreign occupation is absolutely necessary as a prevention against a most probable massacre of Christians wherever they are unarmed and helpless.

Prince of Montenegro.

LONDON, Jan. 5.—A day or two ago the *Times* published a Vienna telegram, stating that in reply to the request of the Prince of Montenegro, to be allowed to enter in action against Turkey, the Russian Government advised him on no account to depart from neutrality. This morning the *Times* publishes a letter from Vienna amplifying and confirming its telegram. It seems the Prince of Montenegro wrote to Prince Gortschakoff that by following the wishes of the Powers in maintaining neutrality, he directly imperilled his throne and life. Prince Gortschakoff submitted this letter to the Emperor of Russia, who directed the Chancellor to write to the Prince of Montenegro, to face courageously the present difficult position, and on no account to abandon his policy on neutrality, expressing a hope that the situation would soon improve. The Prince of Montenegro replied that he would follow the Czar's injunctions.

Pastoral Letters.

The *Times* Vienna correspondent writes that the Greek Metropolitan of Mostar is following the example of his Catholic colleague and has issued a pastoral letter, in which he upbraided the clergy for fomenting the insurrection and requiring them to leave their evil ways and return to their duties on pain of severe punishment according to his Apostolic power.

The Prince of Wales.

A despatch from Benares reports the arrival there this morning of the Prince of Wales.

The Cuban Question.

A despatch from Berlin to the *Morning Post* to the effect that the German Government is favourable to the propositions contained in the American note regarding Cuba, is not confirmed, and nothing is known at Berlin respecting the views of the German Government in connection with Fish's circular.

FRANCE.

The Health of Ex-Queen Isabella.

PARIS, Jan. 5.—Bulletins announcing the condition of the health of ex-Queen Isabella of Spain are issued daily. That of to-day says her condition is less favourable.

An Egyptian Mission.

PARIS, Jan. 6.—M. Outrey's mission to Egypt is only of a temporary character. The object of the mission is to restore friendly relations, which were somewhat impaired during negotiations relative to the abolition of the jurisdiction of the French Consular Courts.

The Elections.

Thus far the candidates for the Assembly in Paris have obtained promises in the following ratio: Advanced Republicans, 95; Moderate Republicans, 105; Anti-Republicans, 14.

SPAIN.

The Centennial.

MADRID, Jan. 5—A Royal decree has been issued creating a commission charged with installing exhibits from Spanish colonies at the Philadelphia Exhibition. The Commission will draw up a memorandum relative to the Exhibition. Coris of Cuba, Porto Rico and the Philipine Islands will appoint members.

Officers Shot.

Late advices from Tafalla state that several Carlist officers and soldiers have been shot at Estella for a conspiracy against Don Carlos. It is asserted at Hendaye's that the Carlists raised the siege of Hermani in consequence of a decision to that effect of the Council of War.

AUSTRIA.

Turkish Reinforcements.

RAGUSA, Jan. 5—Five Turkish steamers recently arrived at Kleek and landed five battalions of troops and ammunition and provisions. Nicsi and Duga have been revictualled.

Minister of War.

VIENNA, Jan. 5—The Montenegrin War Minister is now on his way to this city.

Andrassy's Project Approved.

It is stated in Government circles that Count Andrassy's project for reforms, in the insurrectionary districts of Turkey has been favourably received by France and Italy.

BELGIUM.

Strike of Workmen.

BRUSSELS, Jan. 5—Many of the miners who were out on strike have resumed work. It is hoped that the strike is now ended. The Burgomaster of Lauviare denies that the strikers used fire-arms in the recent disturbances or that the disturbances were serious. Troops are still patrolling the district that it is now likely their services will be required.

ITALY.

On his way to Philadelphia.

ROME, Jan. 5.—The President of the Italian Executive Committee on the Philadelphia Exhibition, leaves in April to take direction of the Italian section.

Postponement of the Consistory.

The Papal Consistory, which was fixed for the 7th instant, has been postponed until after the 15th.

AMERICAN.

NEW YORK.

Illness of the Queen of Spain.

NEW YORK, Jan. 5.—A Paris despatch reports ex-Queen Isabella of Spain dangerously ill with the measles.

The Mosel Disaster.

The same despatch says the widow of Thomas, or Thomassen, of the *Mosel* disaster, has turned over to the Berlin police her husband's voluminous correspondence.

Refuses to be Umpire.

A cable despatch reports that Tom Hughes is unable to accept the invitation to act as umpire in the International Collegiate Boat Race next summer, or to be present at all, owing to imperative home duties. He sends his best wishes.

Discharge of Men.

Four hundred and ninety men were discharged from the Brooklyn Navy Yard in one lot. The force in the Construction Department and in the Yards and Docks is lower than it has been for twenty years.

The Tweed Case.

Judge Westbrook gave his decision to-day, sustaining the challenge to Tweed's struck Jury.

Bread Riots Feared.

ALBANY, Jan. 5.—The workingmen of this city are becoming uneasy at the want of employment. They have held several meetings and paraded the streets with banners on which was inscribed "Bread or Work." A delegation called on the Mayor to-day to inquire if anything could be done for their relief. The Mayor informed them that the Water Commissioners were considering whether it would be advisable to commence building a new reservoir at this season, and thus furnish employment. He expressed his disapproval of any demonstration such as had been made.

The Weather, &c.

The river is now filled with anchor ice and the water is rising very fast. The propeller *Syracuse*, owned by William Young and James Bell, of this city, was sunk during Monday night, and the tug *Euston* was also badly damaged by ice. Thin ice at Hyde Park does not interfere with the work of the divers at work on the wreck of the *Sunnyside*.

IOWA.

The Black Hills.

SIOUX CITY, Jan. 5.—A special from Fort Sully states that a party of miners have formed a supply depot near old St. Pierre, on the Missouri river, and are constantly in communication with camps in the Black Hills. They claim to have found a nearer route, by which the Hills are reached in one hundred miles travel over an easy road. Their messengers make the trip in two days.

KANSAS.

Boiler Explosion.

FORT SCOTT, Jan. 5.—A large boiler in Goodlander's mill, in this city, exploded yesterday, killing the engineer, William Babcock, and fatally injuring the foreman, James West. The damage to the mill is about $10,000.

MASSACHUSETTS.

Reduction of Navy.

BOSTON, Jan. 5—Orders have been received at the Charlestown Navy Yard for a general reduction of the force, to go into effect on the first of next week. It throws out of employment six hundred men.

NEW HAMPSHIRE.

Decisive Measures.

CONCORD, Jan. 5.—In the Republican Convention to-day resolutions were adopted favouring specie payment, a revenue tariff with incidental protection, true reconciliation with our southern brethren, and proclaiming unalterable opposition to a third term.

PENNSYLVANIA.

Evangelical Meeting.

PHILADELPHIA, Jan. 5.—A call has been issued for a convention of Evangelical Ministers, editors of religious papers, and others, to be held at the Depot Tabernacle, in this city, on January 19th and 20th next. The meetings are to be presided over by Mr. Moody.

LOUISIANA.

Death of a Journalist.

NEW ORLEANS, Jan. 5.—A. M. Holbrook, editor and proprietor of the New Orleans *Picayune*, died at Bladen Springs, Alabama, this morning.

Incomparable.

BUFFALO, N. Y., February, 1873.
JAMES I. FELLOWS, Esq.—Dear Sir: Please forward another lot of your Syrup of Hypophosphites.
I have used other preparations of hypophosphites (not being able to procure this), but they do not compare with yours, which I think is the best medicine for the nervous system I ever used.
I will aid you all I can personally and through the press, as I believe it cannot be too generally known.
Yours truly, W. T. HORNER,
Editor and Publisher of Buffalo Journal.

All of the arrangements for the International Chess Tourney between the Canadian and American players are completed. The terms of the tourney are that each player will play two games with one antagonist, in one of which he will have first move. The side scoring the greatest number of games to be the victors, won games only to be counted, draws to be disregarded. No prizes will be given, and no entrance fee charged. It is understood, as a matter of course and honour, that players are not to accept any assistance other than from books. The games are to be played through correspondence.—*Halifax Recorder.*

A Detroit wedding which was to have come off at Christmas was postponed indefinitely. The daughter of the prosperous merchant, having made the acquaintance of a nice young man, listened to his suit, and the arrangements were nearly completed for the event which was to bring happiness to both. But, as the young man was waiting in the parlour for his *fiance*, the latter's sister walked in with a female friend who at once recognised the accepted lover, and said innocently: "Mr. Brown, how is your wife and that darling little baby of yours?" Mr. Brown tried to pass the matter off as a joke, but the truth came out—he had another domestic establishment in a different quarter of the town.

An ingenious American writer, who has evidently been a good deal bored by public dinners, proposes an applauding machine. He says:—"Who is there that has not witnessed the grim satisfaction with which a next-door neighbour at a dinner table, or a *vis-a-vis*, has resumed his seat after being called upon to thump the table, stamp his feet, clap his hands, or shout over something or some one he knows exceedingly little about, and cares less? What a relief it would be to such unfortunate persons, when they are called upon to perform manual labour of this kind, if an applauding machine could be used instead—one, say that could give a few set phrases, such as 'Hip! hip! hurrah!' 'Three cheers for So and So,' and imitate the customary clapping and rapping! What a number of people would, by the aid of such a piece of mechanism, be able to avoid aching arms and hands, flushed faces and hypocrisy."

TWO QUESTIONS EASILY ANSWERED.—Why should mean wear beards? Because they are a great protection to the throat and lungs, and add much to their personal appearance. Why should we use "Bryan's Pulmonic Wafers?" Because when used for coughs, colds, tickling in the throat, hoarseness, &c., they act like a charm. Ministers and lawyers use them, physicians recommend them, and singers and public speakers say they are the very best medicine in existence for the cure of such complaints. Sold by all medicine dealers, at 25 cts. per box. 4025

HAMILTON

Attempt to Kill Mr. Mills—The Prisoner Sent Down for Trial—Doubts of Recovery Exist.

HAMILTON, Jan. 5.—McConnell, the assassin, was arraigned before the Police Magistrate on the charge of attempting to kill Mr. Nelson Mills, an old and much respected citizen. Several witnesses were examined, whose evidence brought the charge clearly home to the prisoner. Mr. Mills' deposition was read to the prisoner, confirming the evidence of the witnesses. The prisoner appeared cool and indifferent in the dock during the examination. In reply to the Magistrate, he merely said that his temper got the better of him. He was committed for trial. The excitement during the examination was intense, hundreds of people loitering around the Police Court with a strong determination to lynch the prisoner, who was secretly put into a cab in the rear of the building and taken to gaol. Mr. Mills is alive, but sinking rapidly.

MONTREAL.

Seizure of Property—Infringement of a Trade Mark—Chambly Election—Mechanics' Bank.

MONTREAL, Jan. 5.—A seizure before judgment for $331,178.56 has been issued from the Superior Court, at the instance of Mr. James Baylis, against Mr. Ashley Hubbard, of Chambly, and the Montreal, Portland and Boston Railway Company as holders of the property.

To-day Messrs. Kerry, Watson & Co., wholesale druggists, entered an action of damages for $30,000, against the Sisters of Providence, alleging that the Nuns have infringed on the trademark of the well known preparation, "Gray's Syrup of Red Spruce Gum."

The election contest in Chambly county waxes warm. Premier Deboucherville is labouring on behalf of Mr. Benoit, whose opponent, Dr. Fortier, is warmly supported by Mr. Prefontaine. Preparations on a large scale are being made to take voters, a large number of whom reside in this city, over on the ice bridge to Longueuil and St. Lambert, on Friday next to vote.

It is said that Paxton, the late teller of the Mechanics' Bank, will shortly return to town
