variously estimated at 16,500 to 17,000 feet, and decidedly the most magnificent in the United States if not on the continent—I could look around and see all the kingdoms of this lower world but, (I hadn't any one to tempt). Looking to the westward far beyond the Scott Trinity, Liokigon and coast range, I could see the proud Pacific; northward, far into Oregon I could see her peaks, her valleys and her lakes on to the Dalles and McAbod; east far over the sierras into Utah and the deserts, while beautiful lakes like bright meadows lay in the far distance; south, I could clearly trace the Sacramento and Pitt rivers far below Shesta where they were lost in the smoke and haze; but on the south west I could clearly see Mounts Linn, St. John and Ripley, and above the haze could distinctly see the Marysville Buttes and the top of Mount Diabole; south east I could trace the Sierras by the Lassen, Spanish, Pilot, Seventy six, Donneville, and other peaks to the range below lake Iahoe or to Carson valley. I could look down upon the mountains under whose ribs I have spent many days in search of the glittering dust for which men toil, and under which a few days ago I came nearly being buried by one of the "shakes" to which we are occasionally treated. I contemplated the unsurpassed scenery for hours, and upon the peak carved the name of the first Canadian who had ever made the ascent. After taking the last sweeping glance around I was compelled with great reluctance to descend, notwithstanding the wind and cold, loneliness and coming night. After I had collected my minerals, sulphurs and other objects of interest, and bidding adieu to the magnificent sights I commenced the descent and in three hours with running, jumping, tumbling and sliding on the snows from a quarter to half a mile at a time, and this in a few moments--having a glorious time, easier by far and fuller of enjoyment than the ascent, I found my horse, mounted and hastened away, and after a concatenation of circumstances lost and bewildered at twelve o'clock at night I unsaddled my horse and loosed him; weary and exhausted nature gave way, sleep conquered and until break of day I knew no trouble. I awoke to find my horse missing, giving me a day and a half's hunt to capture him; when by perils from river, land and Indians, I followed the Sacramento down one hundred miles to Shasta town to spend the Sabbath after my six days' labor—much better and happier for my ascent of Mount Shasta.

# The York Herald.

RICHMOND HILL, SEPTEMBER 8, 1871.

VAUGHAN COUNCIL.—The Municipal council of the township of Vaughan will at the Town hall, on Monday next, at 10 A.M.

Late advices state that King Amædeus of Spain is making a three weeks' tour through the provinces. He has received tremendous enthusiasm, and is winning the hearts of everybody. The despatch says his progress is one continuous ovaition.

SAVINGS BANK.—MONTHLY STATEMENT. — *Richmond Hill Post-office.* — The following is an exhibit of business transacted in the P. O. Savings' Bank of this town up to the 31st. August:—

|---|---|
| Total deposits in Bank..... ... | $33,442 |
| " during month of August | 462 |
| Withdrawals " " ... | 860 |

M. TEEFY, Postmaster.

ADVANCEMENT. — It is with great pleasure we learn that Mr. John C. Cameron, who, in the early part of 1870 was teacher of the school at Maple, and while he resided there had charge of the Mathematical department of this paper, has received the appointment of Mathematical teacher in the High School at Port Hope. We are also pleased to notice that Mr. Cameron ranked first in the report of the committee of examiners of the Board of Public Instruction, among the teachers who stood for first-class Provincial certificates a few weeks ago. We hope Mr. Cameron may be successful in this new sphere.

A serious accident occurred on Monday evening last to a driving party while passing along the second concession of Vaughan, near the new school house at Patterson. The party comprised of three daughters of Mr. Thomas Sedman, carriage builder of this town, Miss Lyons of Thornhill, an aunt of the above girls, Miss Hewison, and a little boy by the name of Wilie about five or six years of age. Some of the harness getting disarranged caused the horse to begin kicking in a most furious manner, smashing the front part of the waggon and breaking the boy's leg. Miss Martha Sedman also received severe bruises about the arms and other parts of the body. The boy was removed to his uncle's (Mr. Sedman's) residence, where he is doing well under proper medical treatment and the attention of his mother and relations.

## TO OUR PATRONS.

Our readers will have observed the improvements in our paper last week, viz: giving reading matter on each page and the classification of advertisements. The features will give greater advantage to our advertisers and patrons generally. The rates of advertising, which are given on the first pages, have also been changed being now charged by the inch instead of by the line. This week we give a greater amount of reading matter, and hope to be encouraged in our efforts by increased support. We have also commenced to give a fuller and more correct market report, and as heretofore the local department will be efficiently managed in every respect. It will be one grand object to make each succeeding issue better than its predecessor. We have added to the jobbing department a large quantity of new material, and are now fully prepared to do every description of printing as well as any office in the country, and at prices that will compete with Toronto. We return thanks for past favors and hope to receive a hearty continued patronage.

DRAMATIC. — Mason's Theatre will enact the great moral drama ten nights in a bar room, in the Masonic Hall, Richmond Hill, on Friday evening, the 8th inst. The play of Ten Nights in a Bar room has been enacted with success in every portion of the civilized globe, and many celebrated Divines, not only encourage its performance, but assert that it has been more effectual in checking the progress of intemperance than any work of a similar kind. It is guaranteed that nothing shall be said or done to offend the eye or ear of the most fastidious—its chief motto being to please all and offend none.

The result of the secret alliance between Germany, Austria and Italy will be the determination of Austria to make acquisitions in the southeast, to compensate herself for recent losses in the north and west; and Prussia and Italy, the powers which gained at her expense, are extremely willing that she should recompense herself. The simplicity of the plan is one great recommendation of it.

MR. JAMES ROOM KAY.— We are happy to be able to announce that this popular elocutionist will give a farewell entertainment in the Masonic Hall, Richmond Hill, in a few days. Mr. Kay is well-known in the neighborhood, and we feel confident that he will be welcomed with a crowded house.

NOTES OF A TRIP NORTH.--The attention of our readers is requested to an article in our columns under the above heading. It is from the pen of an able and graphic writer, and is well worth reading. The remainder of the letter will appear in our next issue.

Mr. Jolly, Head Master of the High School, Richmond Hill, intends deliver- a lecture on experimental Chemistry, on Friday evening the 15th inst. We can bespeak for Mr. Jolly a crowded house. For further particulars, see small bills.

As Mr. David Whaley, of Cedar Grove, was returning home from Markham village on Friday evening last, it is supposed he took a fit and fell from his buggy, receiving such injuries as resulted in his death on Sunday last.

The additional cost of steel rails over iron rails for the Intercolonial railway will not be more than $500,000 instead of $2,000,000 as stated by Mr. Mackenzie in his speech at Simcoe the other day.

The Catholic pic-nic, held at Thornhill on Wednesday last, was an entire success, there being about 1000 persons in attendance.

Queen Victoria is still ill, and is unable even to attend divine service.

It is now stated that until the German troops have left the Parisian forts there will be no holiday for the French legislators, though why the departure of the Teuton should be made a sign for the adjournment of the Assembly is not explained. The National Guard in the southern departments of France are being quietly disbanded, so far, without any trouble, though, in anticipation of some resistance, considerable bodies of troops have been stationed at convenient positions. There is a strong feeling in France that the blame of the numerous disasters of the late war should be placed on the right shoulders, and in order that this may be done, as far as possible, it has been determined to open an official investigation of all the capitulations during the war, commencing with Sedan, and continuing in chronological order. The findings of the committee charged with this serious work will be looked for with great interest.

## MARKHAM COUNCIL.

The above Council met at Size's hotel, Unionville, on Saturday the 27th ult. Members all present. The Reeve in the chair. Minutes of previous meeting read and confirmed.

Petitions were presented:

Ay the Reeve, from Geo. Miller and ten others, praying for a grant for the purpose of loading gravel on wagons at the pit, said petitioners having volunteered to furnish forty-eight days teaming said gravel.

Mr. Lane, seconded by Mr. Milliken, moved that the undermentioned amounts be paid to the parties named, for damage done to their sheep by a dog or dogs, it being two-thirds of the value of said sheep as testified on oath: Henry Walker, $27·34; Henry Quantz, $61·34; David Eyer, $3·34; Wm. Horsley, $5·67.

Mr. Milliken, seconded by Mr. Padget, moved that the account of Mr. Robert Stiver, amounting to $18·16, for replanking bridge between Lots Nos. 15 and 16 in the 5th Con., and also the sum of $5 to Mr. George Thompson for repairing bridge at Unionville, be paid by the Treasurer.

Mr. Milliken, seconded by Mr. Lane, moved that the sum of $15 be paid to Mr. Nicholas Hagerman, overseer for road Division No 30, by the Treasurer, for building a cedar culvert between Lots 5 and 6 in the 5th Con.

Mr. Lane introduced a by-law to assess the township of Markham for general purposes for the year 1871, and also to levy the railway rate—the rates to be the sum of three mills in the dollar for county and township purposes, and two-tenths mills in the dollar on the rateable property of the township, for paying the interest and providing a sinking fund for paying off the bonus on the Toronto and Nipissing Railway Company, which was read three several times and passed.

Mr. Lane introduced a by-law for the appointing of Collectors for the year 1871 which was read a first and second time.

The Council went into committee of the whole—Mr. Lane in the chair—and the blank filled by the appointment of Themas Thompson Collector for the west half, and William Boyd Collector for the east half of the municipality, and reported. The said by-law received its three readings and passed.

Mr. Lane, seconded by Mr. Eakin, moved that the sum of $17·35 be paid to the order of William Hood, William Cherry and Vincent Johnson, being in addition to original grant for constructing a bridge and making the approaches thereto on the 4th Con., in front of Lot No. 2.

Mr. Eakin, seconded by Mr. Lane, moved that the sum of $15 be granted to meet a similar grant made by the municipality of Whitchurch to build a bridge and the approaches thereto in front of the 3rd Con., on the townline between this municipality and the township of Whitchurch, and that Robt. Leary and Daniel F. Horner be commissioners to expend the same said sum payable on order of the commissioners.

Mr. Eakin, seconded by Mr. Lane, moved that the sum of $5·34 be paid to Geo. Quantz, for damage done to his sheep by a dog or dogs, said sum being two-thirds value, as proven on oath.

Mr. Milliken, seconded by Mr. Eakin, moved that the sum of $50 be granted to aid in gravelling the sideroad between Lots 15 and 16 in the 9th and 10th Cons., on condition that the parties interested contribute twice that amount in labor or money, and that Messrs. George Miller, Rodger Hawkins and Alex. Mustard be appointed commissioners to expend the same, said sum payable on order of the commissioners.

Mr. Lane, seconded by Mr. Padget, moved that the sum of $10 be paid to Wm. Horsley, being for discovering dogs killing sheep, in accordance with a standing resolution of this Council.

Mr. Padget, seconded by Mr. Lane, moved that the sum of $15 be granted to cut a ditch to take off the surplus water between Lots 10 and 11, in the 11th Con., and that Wm. Armstrong and W. M. Button be commissioners to expend the same said sum payable on order of the commissioners.

Mr. Lane, seconded by Mr. Eakin, moved that the Clerk be and is hereby instructed to notify the President of the Toronto and Nipissing Railway Company to have all the railway crossings in the township put in a safe and proper state of repair forthwith.

Council adjourned, to meet on the last Saturday in September.

Hon. Joseph Farewell, Mayor of Rockland, Me., Isaac M. Bragg, Esq., Bangor, and Messrs. Pope Bros, Machias, Me., lumber merchants, fully endorsed the *Sheridan Cavalry Condition Powders*, and have given the proprietors liberty to use their names in recommending them.

## News Summary

A statue of Sir Humphrey Davy is to be erected in Penzance, the town of his birth, at a cost of £600.

The Mediterranean and Channel fleets, which, united with the detached squadron and the reserve ships, are now cruising, form a total force of 25 vessels, of which 19 are ironclad.

A committee has been appointed, and arrangements are being made, for convening a "world's prison congress" for promoting reformsuin criminal discipline, to be held in London in June next.

FELLOWS' HYPOPHOSPHITES. — Mr. Fellows wishes us to state that he has *no* authorized agent, but that his Hypophosphites may be obtained of all respectable Druggist and Apothecaries at his prices. m

At the Artillery meeting at Shoeburyness, the Queen's Prize was won by the Midlothian Coast Artillery with 42 points.—The Scotch detachments celebrated the Scott Centenary in a mild way on Wednerday evening.

There are 450,000 miles of telegraph wire in Europe, 190,000 in America, 14,000 in India and 10,000 in Australia. There are in addition 30,000 miles of submarine cable, and yet the telegraphic extensions throughout the world are going on at the rate of 100,000 miles of wire per annum.—*Leader.*

While the new frontier between France and Germany is being drawn, a stone was found, between Gravelotte and Doncourt, bearing upon one side the inscription "Terre de France" (French territory) which doubtless formerly served as a landmark. It was to all appearance erected before 1552.—*Leader.*

The most astonishing cure of chronic diarrhœa we ever heard of is that of Wm. Clark, Frankfort Mills, Waldo Co., Maine; the facts are attested by Ezra Treat, Upton Treat and M. A. Merrill, either of whom might be addressed for particulars. Mr. Clark was cured by *Johnson's Anodyne Liniment.*

The honor of a Baronetcy has been conferred on Mr. Richard Wallace in recognition of his splendid services during the siege of Paris. Mr. Wallace is about 50 years of age, a first-rate and indefatigable man of business, as able and as ready to aid in any good work with head and hand, as with heart and purse.

THE MICROSCOPE.—One of the most interesting experiments, and one which is easily performed, is to watch the change in the blood of a delicate or ever pale person while using Fellows' Compound Syrup of Hypophosphites. The colorless or dead co[illegible] readily removed from the system, and are replaced by the red or vitalized particles so necessary to vigorous existance.

The death-roll of intemperance is something fearful to contemplate. A French physician, Dr. Everat, has recently published statistics upon the subject which show that the following numbers of persons die annually of intoxicating drinks:—In England, 50,000, of whom 12,000 are females; in Germany, 40,000; in Russia, 15,000; in Belgium, 4,000; in Spain, 3,000; in Italy, 1,800; in France, 1,500. These figures present Rum in the light of as dreadful a scourage as any that ever visited mankind. —*Leader.*

## Miscellaneous,

$500 Reward.
BY SECURING THE BEST AND PUREST
DIEHL WHEAT
FOR SEED,
Every farmer may in a short time secure the above reward.
This best of all good varieties of Fall Wheat, after a fair trial of four years, has proved to be
THE MOST PRODUCTIVE
And consequently the most REMUNERATIVE.
Farmers of Ontario, do not swindle yourselves out of the above reward by sowing Diehl wheat that is mixed with perhaps a half-dozen other kinds when, with a little care you can obtain an article that is nearly pure, a TRUE sample of which may be seen at the HERALD Office, Richmond Hill.
The subscriber has a large quantity of this variety of wheat on hand, which is well adapted for seed, being entirely free from smut, chess, cockle, or any other rubbish
Call and examine for yourselves.

## Powell's Pumps.

POWELL'S PATENT PUMPS are made under genuine patents in Canada and the United States. Are no spurious imitation or infringement.

POWELL'S PATENT PUMPS. The only efficient fire engine pump, available in a few seconds, winter and summer, day and night. Infringers beware.

POWELL'S PATENT PUMPS as now made, have no castings to come loose or break. Have all steel bearings, guaranteed.

POWELL'S PATENT PUMPS, erected within the last ten years, can have recent improvements attached, and guaranteed superior to any other make.

POWELL'S PATENT PUMPS have already taken the leading place in some of the United States, as well as in Canada

POWELL'S PATENT PUMPS have all the merits of other pumps without their defects. No others possess their peculiar advantageous features.

POWELL'S PATENT PUMPS as now perfected, are the successful result of twelve years endeavor to supply a want universally felt.

POWELL'S PATENT PUMPS, even in their hitherto imperfect form, have in all instances carried off the highest prizes from all competitors

POWELL'S PATENT PUMPS are adapted for the deepest wells. References to all. Depths from cistern to one hundred and thirty feet.

POWELL'S PATENT PUMPS have a continental reputation, and are fast supeseding all other kinds both in wood and metal.

POWELL'S PATENT PUMPS, while they cannot be approached in wood, have never yet been equalled in metal at double the cost.

POWELL'S PATENT PUMPS cannot be rivalled without infringing Powell's Patents. Users of infringing pumps are liable. C. POWELL, Patentee, Newtonbrook

POWELL'S PATENT PUMPS have been sustained by the highest legal tribunals, and universally approved by an enlightened public wherever introduced

## Sewing Machines,

NOISELESS MOVEMENT,

WHEELER & WILSON
SEWING MACHINE.
*Gold Medal, Paris Exposition,* 1870; 82 *Competitors.*
FULL INSTRUCTIONS GRATIS.
EVERY MACHINE WARRANTED.
Reduced Price List!
No. 3 Machine, price $45, improved and reduced to $42
No. 2, Ornamental Bronze, silent feed, price $55, reduced to $45.
No. 1, Silver plated, silent feed, price $65, reduced to $50.
Half cases, from $7 to $15 extra.
Full cases, from $25 upwards extra.
*Terms—Cash, or approved Notes with interest.*

Hitherto the facilities of the Wheeler & Wilson Manufacturing Co., great as they were, have been inadequate to supply the unprecedented demand of this favorite machine. Recent extensive additions to the company's manufacturing resources, however, enable them now not only to supply the demand of the world, but at a much cheaper rate. The public in Canada will now reap the benefit of these changes, and it is expected the present large reduction will increase the sale still more extensively. The privilege of showing any person the remarkable simplicity of construction and consequent ease of management of the Wheeler & Wilson, ways affords us great satisfaction. We therefore invite all interested, (and who is not?) to call and see, and try for themselves. Those who cannot call at the warerooms will be waited on at their residences.

TESTIONIAL.
Stouffville, April 27, 1871.
I have great pleasure in stating that the Wheeler & Wilson Sewing Machine I purchased of Mr. C. Chapman gives perfect satisfaction: after using it for some time and carefully examining and testing it by the side of other machines, I am fully satisfied that for durability, simplicity, silent running, ease of motion and adjustment, it cannot be equalled, and in the end is far the cheapest machine that can be purchased.
D. E. F. Gee,
W. M. Minister.
