Lake Wilcox School

Contractor Dan. Cook and his men are making good progress on the new Lake Wilcox School. The glass is installed and the lining, or inside walls are nearing completion. Mrs. Gladys Cross, the pricipal and her staff are carrying on in the community hall, under difficulties of course, but still the children are in school.

Last Friday the junior rooms assembled in the morning and the senior rooms in the afternoon. Parents and friends were invited also, and through the kindness of Mrs. Cross, who owns a movie projector complete with sound track, several films were enjoyed. One on Christopher Columbus, portraying his discovery of America, made a vivid history lesson. A short film of Alice in Wonderland with music, along with a film of Stephen Foster songs were also shown. Mrs. Cross has taken movies of the new school as it is being built, and these will be shown at an open night during the winter. A very necessary piece of Equipment needed for the new school is a piano. If anyone would like to donate one it would be much appreciated by the board and the children alike.

We have heard rumors that our two men's organizations are thinking of making a donation toward this item. So if you know of one that is in good condition that can be purchased at a figure we can afford let us know.
