New York city spends daily $10,000 for cigars, and $8,500 for bread.

Meetings have been lately held in some of the Presbyterian Churches in New York, to sympathise with the suffering of the Presbyterian Missionaries in India.

We (*Colonist*) learn from the London *Gazette* that Sir Edmund Walker Head, Baronet, Governor General of British North America, has been sworn in Privy Councillor. This entitles him to prefix "Right Honourable" to his name.

The Toronto correspondent of the Montreal *New Era* says that it is generally credited that His Lordship Bishop de Charbonnel will not return to this country again; and that rumour is busy with the appointment of his successor.

The Marquis of Dalhousie has generously placed the whole of his pension, £5,000 per annum, conferred on him by the East India Company, at the disposition of the London committee for the aid of the sufferers from the Indian rebellion.

A New Application of Steam.—Messrs. Bartlett of Springfield, Mass., have just completed a steam waggon for use on common roads. The waggon will seat eighteen or twenty persons, and although its abilities have not been fully tested, it is believed to be able to travel anywhere from ten to twelve miles an hour.

Great excitement was occasioned in Boston on Friday last, by the announcement, of the failure of the large firm of Charles H. Mills & Co. Their liabilities are said to be between $2,000,000 and $3,000,000. Boston papers state that Friday was a trying day for Boston merchants, and says that nothing like it has been known since the memorable period of 1837.

The *Nord* informs us that an immense cloud of locusts passed over Odessa on the 6th of this month, in a direction from the south-east to the north-west. A portion of them alighted on the Palace de la Cathedral, but being frightened by the cries of the people who were running to see this curious spectacle, they took to flight and continued their route.

It is stated in some of the German journals that Prince Frederick William of Persia will reside, after his marriage with the Princess Royal, in Breslau; and that he will have, in the provinces of Silesia and Prussia the same position which the Princes of Prussia hold in Westphalia and the Rhine provinces, of which he is military governor.

Melancholy Occurrence.—By the explosion of a comphene lamp in the saloon of William Gross, on last Thursday evening, his wife was so severely burnt in consequence of the fluid igniting her clothing, that after lingering in dreadful agony for three days, her sufferings terminated on Tuesday morning in death.—*St. Catherine's Constitutional.*

More Poisoning.—The trial of a Mrs. Gardner, charged with the murder of her husband by administering arsenic, has been going on for some time at Plymouth, Massachusetts. It has excited almost as much interest in the Eastern States as the trial of Madeline Smith did in Scotland. The jury was out 22 hours, but being unable to agree, were discharged. They stood seven for conviction, and five for acquittal. Under the Scottish law, this would have amounted to conviction, but in the United States the English law prevails, and the result is that a new jury must be empanelled.

A Toronto Scene.—As a lady yesterday morning was in the act of purchasing some vegetables at a stall in the St. Lawrence Market, she was suddenly struck on the back of the head. Stunned for the moment, on recovering she discovered that five or six dollars, which she held in her hand, had disappeared. No one around saw who had given the blow, though it was evident the violence was done by some one who had perceived the money. Of a truth Toronto is improving, when such an outrage could be perpetrated in a crowded thoroughfare.—*Leader 11th.*

Free Masonry.—The Provincial Grand Lodge of Canada West, met at Toronto on Tuesday, the 9th inst. Sir Allan Napier M'Nab, Provincial Grand Master, presiding, and declared itself independent of the Grand Lodge of England. A Grand Lodge was immediately organized under the name of the Ancient Grand Lodge of Free Masons of Canada, when M. W. Sir A. N. McNab was elected Grand Master; R. W. Thos. G. Ridout was elected Deputy Grand Master; V. W. Samuel D. Fowler was appointed Grand Senior Warden; V. W. Leslie was appointed Grand Junior Warden; V. W. Bro. Harman was appointed Grand Registrar; Worthy Bro. Jamison was elected Grand Treasurer. It is understood that an application will be made immediately for recognition by the Grand Lodge of England, and that a willingness exists to receive the new Independent Grand Lodge with every feeling of brotherly good will.—*Free Press.*

The Cottage Bible.

Richmond Hill, April 27, 1857.

I regard the Family Bible as a very useful Commentary for any individual or family

It contains a great amount of important scriptural information for every student of the Bible.

JAMES DICK,
Presbyterian Minister.

Markham, July 14, 1857.

The "Cottage Bible" is prepared and, as its title implies, is designed for the use of those persons and families who have not access to the necessary helps for the better understanding of the Holy Scriptures. All difficult passages are briefly yet so clearly explained in the Notes appended, that the most ordinary reader may comprehend their meaning.

Believing that it is a work calculated to incite to the reading of the Word of God, I earnestly commend it to all our people.

J. FISHBURN,
Pastor of the E. U. Church,
in Markham Twp.

Toronto, Nov. 1st, 1856.

To the numerous testimonials in favor of the "Cottage Bible," I have much pleasure in stating my conviction that its dissemination will conduce to the spread of Biblical knowledge among the people. The names of the learned and distinguished authors of the Annotations and Critical Notes with which it is furnished, afford to every lover of the truth a sufficient guarantee, for their excellency and practical usefulness, designed as they are to explain and simplify those things that are hard to be understood, and bring the knowledge of the Sacred Oracles to the capacity of all.

Agent of the U. C. Bible Society.

PATENT PUMPS!

The Subscribers have pleasure in informing the Inhabitants of Whitchurch and surrounding Townships, that they are manufacturing the best Pumps now made in Canada,

Patented by John Dennis.

These Pumps are much better than the ordinary Wood Pump, for the following reasons:

Firstly—The Water is much better, as there is not quarter as much wood in the well, and all free from sap. In order to do away with such heavy timber as is used in the common wood pump, they add a sufficent number of iron bands; this makes the pump stronger and so much lighter, that two men can take one out of a well sixty feet deep, in fifteen minutes.

Secondly—By the use of the *Patent Cylinder*, which is turned perfectly smooth and true on the inside, the box wears longer and works easier than in the ordinary bored pumps.

Thirdly—These Pumps are so simple that almost any man can repair them, and by means of the nut on the rod, the Bucket is secured in such a manner that it cannot get loose; and as the joints are all fitted true and tight, there is no jarring in the working of the pumps.

Lastly—These Pumps are neatly turned and painted, making it an ornament as well as a most useful article. Below will be found a few of the hundreds of references we might give from the various Townships in which the pumps have been introduced.

We, the Undersigned, having in use the Pumps manufactured by J. James & Co., can cheerfully recommend them as the best Pumps we have had in use:—
